Dear Gardener,

What a year! While we faced many uncertain and scary times, we hope tending your gardens brought you some peace and comfort as well as food to the table. And speaking of bringing food to the table, we have some great new things for you to consider for your next garden.

Did you see our Back Cover?! We have 5 exclusive varieties that we're really excited about. Give them a try and let us know what you think.

Super hot pepper lovers are going to be thrilled with our Wicked Ghost pepper (p. 3) – it packs some seriously "wicked" heat! We have some interesting "little" finds this year... Funnypums tomatoes (p. 3) are dwarf plants that produce unique fruits that are not only delicious, but ornamental as well... Baby cauliflower (p. 5) is a little show-off wowing everyone with its small size and edible leaves!... Mini-Me (p. 4) is a delicious snack cucumber just like the expensive ones found in the produce section of your grocery store.

To help give your garden its best possible start, see our composter and plant protectors on page 67. Your garden will thank you.

We trust that you'll find several new things to try along with your all-time favorites and as always, and especially more so this year, we wish you a wealth of success in your lives and in your gardens.

TOTALLY TOMATOES

Buffalosun VFFF Hybrid Tomato

70 days. 2020 AAS Regional Winner! The unique yellow with red/orange flame coloration of this newcomer is beautiful on the outside and just as attractive on the inside with its nicely marbled interior. Ribbed, flattened, 18 to 24 oz. huge, beefsteak-type fruits have a better texture, better crack resistance and higher yields than comparable yellow varieties. Sweet, tender flesh has the look of an heirloom without the mushiness often associated with them. In AAS trials it outlasted similar varieties when disease hit in late summer. Intermediate resistance to Late Blight. Indeterminate.

#00118. (A) pkt. (10 seeds) \$5.05;
 3+ pkts. \$4.60 each

Early Choice Black FNT Hybrid Tomato

68-70 days. A true black variety with flattened, round, 5 to 6 oz. eye-catching tomatoes that grow in clusters. Fruits have a combination of attractive maroon flesh and green gel. Flavor is delicious with the perfect acid to sugar balance. A definite attention-getter at roadside stands and in the garden. Vigorous plants produce heavy yields. Crack resistant. Indeterminate.

#00236. (A) pkt. (30 seeds) \$3.05;
 3+ pkts. \$2.80 each

SYMBOLS TO NOTE

 Indicates plants are available. See pages 6, 7, 61 & 63.

 Indicates pepper heat scale. See page 50.

 Indicates a Hot Seller.

BUFFALOSUN

EARLY CHOICE BLACK

NEW!

MOUNTAIN GEM

Mountain Gem VFF TSWV LB Hybrid Tomato

74 days. Crimson red, deliciously sweet flesh has a balanced sugar to acid flavor. Deep oblate to flattened globe-shaped, firm, 6 to 8 oz. fruits have clean blossom ends. Vigorous plants yield high concentrated sets of excellent quality fruit. Ideal for home gardens and container gardening. Highly resistant to Tomato Mosaic Virus. Bred by Dr. Randy Gardner, NCSU. Determinate.

#00489. (A) pkt. (10 seeds) \$4.05; 3+ pkts. \$3.75 each

Apple Yellow F LB YLCV Hybrid Tomato

110 days. 2020 AAS Winner! Uniquely dimpled, bell-shaped fruits weigh up to 1 oz. and have a firm, meaty texture. With a Brix of 8%, flavor is deliciously sweet, yet citrusy, with just the right balance of sugar/acid. Plants abundantly produce clusters of eye-catching, bright, lemon yellow, uniform fruits that grow up to 1-1/2" – in trials, one plant produced nearly 1,000 fruits! Crack resistant and holds well on the vine. Resistant to Tomato Mosaic Virus and tolerant to Bacterial Wilt. Indeterminate.

#00038. (A) pkt. (10 seeds) \$4.15; 3+ pkts. \$3.85 each

NEW!

APPLE YELLOW

SHIELD® HYBRID SERIES PEPPERS

70-75 days. These beauties are ready to take on the latest growing challenges, most notably Bacterial Leaf Spot. Both show intermediate resistance to all 10 races of this serious pepper disease, which is especially important in the Eastern U.S. Both varieties feature wide adaptability, very high yield potential, fruit uniformity and a strong, vigorous plant habit. Extra large fruits grow up to 4-1/2" long by 4" wide and weigh 8 to 12 oz. each. Blocky fruits are very firm, glossy, mature from dark green to red and have impressive holding ability. Plants have good leaf cover to protect the fruits. Ninja matures about 5 days later than Samurai, with slightly heavier fruits. Great for farmers markets. Highly resistant to Tobacco Mosaic Virus, as well.

Ninja S10® #02823.

Samurai S10® #02824.

Prices, per variety:

(A) pkt. (10 seeds) \$4.15; 3+ pkts. \$3.85 each

BAMBINO

FUNNYPLUMS™ HYBRID SERIES TOMATOES

80-90 days. Unique, plum-shaped fruits grow above the foliage creating a blanket of fresh color – a strikingly ornamental presentation. Cute little fruits weigh up to 1/2 oz., ripen early, are easy to pick and are deliciously sweet. Ideal for growing in 4 to 6" pots and small containers – makes a perfect patio plant. Dwarf, compact plants grow up to 8 to 10" tall and wide, are very heat tolerant and produce good yields. Do not over-water. Determinate.

Creamy-Yellow #00267.
Red #00263.

Orange #00264.

Prices, above 3:

(A) pkt. (10 seeds) \$4.05; 3+ pkts. \$3.75 each

#00877(X). Get 1 pkt. each of all 3
Funnyplums™ for just \$10.95

Wicked Ghost Hybrid Pepper

90 days. Caution! With an extremely high heat level – an estimated Scoville rating of more than 800,000 – this hybrid ghost pepper seriously brings the heat. Smooth skinned, deep red, pointed, lantern shaped, 2-1/2" peppers are very attractive and wrinkled like habaneros. Fruits mature about 10 to 12 days earlier and have higher yields than open-pollinated ghost varieties.

#03798. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each

Crokin FT LB Hybrid Tomato

60-65 days. 2020 AAS Regional Winner! Fruits have a very sweet Brix of 8.5% and a light acidic taste giving it the perfect sweet/acid balance. Round, 1/2 oz. fruits are small and firm with a crunchy texture and grow in clusters of up to 12. In trials, plants had better yields than similar varieties due to its Late Blight resistance and were slightly more compact. Highly resistant to Leaf Mold with intermediate resistance to Root-Knot Nematodes and Tomato Yellow Leaf Curl Virus. Indeterminate.

#00210. (A) pkt. (10 seeds) \$4.25; 3+ pkts. \$3.90 each

Valahia Hybrid Pepper

65-70 days. Blocky, 3 to 4 lobed, ivory-yellow, attractive bells weigh up to 7 oz., measure approx. 3" by 3-3/4" and mature to deep red. Uniform fruits have medium thick walls and a deliciously sweet flavor at both stages of maturity. Upright, vigorous plants produce high yields. Highly resistant to Tobacco Mosaic Virus, Tomato Mosaic Virus Race 2 and Blossom End-Rot.

#02826. (A) pkt. (15 seeds) \$3.95; 3+ pkts. \$3.65 each

Grand Marshall Hybrid VFFA Tomato

78 days. Attractive, large to extra large, 10 to 14 oz. beefsteak-type fruits are firm, smooth shouldered, deep oblate shaped and grow in clusters of 2 to 3. Mild flavored fruits have the perfect balance of acid to sugar ratio. Bred to have good performance under hot conditions and when bacterial pressure is present. Matures early for a main season hot set variety. Ideal for home gardens and fresh markets. Strong, vigorous plants produce high yields. Intermediate resistance to Gray Leaf Spot and Tomato Yellow Leaf Curl Virus.

Determinate.

Tasty Pink Beefsteak Tomato

75 days. Delicious, dark pink fruits are meaty with a mild, but tasty, classic fresh tomato flavor. Fruits average 16 to 20 oz. but can weigh up to 3 lbs. and have thin skins. Vigorous plants produce heavy yields. Indeterminate. **Purchase more!**

#00750. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each

Big Red Pepper

75 days. Large, 3 to 4-lobed blocky bells weigh about 6 oz. and are 5 to 6" long and 5" wide. Attractive fruits mature to a deep, dark red and have thick walled, very sweet flesh. Excellent for fresh markets and home gardens. Sturdy plants grow to about 24". **Purchase more!**

#03112. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each

MOUNTAIN MAN

More Tempting New Choices...

Mountain Man FFTSWV Hybrid Tomato

73 days. Large, beefsteak-type, 8-1/2 oz., round fruits are deep red inside and out. Flavor is delicious with a good balance between sweetness and acidity. Strong plants have high yield potential and multiple harvests. Good for container gardening. Great for the Eastern U.S. Determinate.

#00492. (A) pkt. (15 seeds) \$4.05; 3+ pkts. \$3.75 each

Carranza Hybrid Pepper

90 days. Gardeners looking for a dual purpose pepper should consider this variety. Unlike most peppers, anchos/poblanos prefer cool growing conditions – not this variety – it was specially bred for performing in the heat. Large, 7" by 3", mostly 2 lobed fruits have a classic poblano shape. Mildly spicy fruits have a Scoville rating of approx. 500. Compact plants make harvesting easier. High yielding. Perfect for farmers markets. Intermediate resistance to Root-Knot Nematode.

#03769. (A) pkt. (10 seeds) \$3.75; 3+ pkts. \$3.45 each

NEW!

CARRANZA

Tasti-Lee 2 Hybrid VFFF YLCV Tomato

75 days. Flavor, flavor, flavor...did we mention flavor? Customers who have become fans of Tasti-Lee, which can be found in super markets, are going to love this improved newcomer. A favorite for flavor in trials, it also features resistance to the dreaded Tomato Yellow Leaf Curl Virus which is especially a problem for the Southeast. Extra firm, 6 to 9 oz. fruits are full of excellent flavor and have a good shelf life. High lycopene content provides tomatoes with rich red color inside and out. Plants provide good fruit cover and produce high yields in a wide variety of growing regions. Determinate.

#00765. (A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each

NEW!

TASTI-LEE 2

Thai Dragon Hybrid Pepper

65-70 days. Attractive, slender fruits grow upward and point above bright green leaves, creating quite a display on plants. Green peppers grow up to 6" long and mature to a beautiful bright red. Rates 50,000 to 100,000 Scovilles. Fruits are excellent fresh or dried and store well while retaining their heat. Plants grow to up to 24" tall and are perfect for container gardening.

#03092. (A) pkt. (30 seeds) \$3.05; 3+ pkts. \$2.80 each

CIENFUEGOS RED

Mini-Me Hybrid Cucumber

45 days. Now you can grow those mini, healthy pricey treats you purchase in the grocery store in your own garden. The perfect snacking cucumber, these 3 to 4" fruits are crispy and delicious. Attractive, uniform cukes are dark green with shiny, smooth skin that doesn't need to be peeled. Plants produce an abundance of 2 to 5 fruits per node early and continue all season long. Beit-alpha type.

#02025. (A) pkt. (10 seeds) \$3.75; 3+ pkts. \$3.45 each

Margaret's Pepper

62 days. If you love growing giant sweet peppers, this is the variety you don't want to pass up. Huge fruits, approx. 7" long, will be some of the sweetest, biggest and most attractive peppers you'll ever grow. Maturing from green to orange to bright red and finally to deep red, these thick walled fruits have an outstanding mild, sweet flavor. The original seed was hand-carried from Hungary to the U.S. and carefully maintained for over 50 years. Plants bear early and prolifically.

#03184. (A) pkt. (20 seeds) \$2.95; 3+ pkts. \$2.75 each

CIENFUEGOS HYBRID SERIES PEPPERS

80-85 days. An attractive series of high yielding, extremely hot habaneros. Colorful fruits mature ten days earlier than open-pollinated varieties and have better uniformity. Great for making seriously hot salsas, cooking and pickling.

Orange

Classic orange fruits are 1-1/2" by 3/4", with a fruity hot flavor. Scoville rating is 200,000 to 300,000. **#03770.**

Red

Bright carmen red fruits are 2" by 1". Scoville rating is 300,000 to 400,000. **#03771.**

Yellow

Bright yellow fruits are 2-1/2" by 1", fruity and very fragrant. Scoville rating is 250,000 to 350,000. **#03772.**

Prices, above 3:

(A) pkt. (20 seeds) \$2.95; 3+ pkts. \$2.75 each

All Colorful & Totally Terrific...Yum!

Ella Bella FTSt Hybrid Tomato

70-75 days. Small, firm, attractive fruits can weigh up to nearly 1/2 oz. and are packed with delicious flavor. Crack resistant cherries hold well in the garden and have a good shelf life while maintaining their flavor. Yields prolifically on disease resistant plants. Highly resistant to Leaf Mold with intermediate resistance to Fusarium Crown and Root Rot, Root-Knot Nematode and Tomato Yellow Leaf Curl Virus. Indeterminate. #00247. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.65 each

Jamestown VFFA Hybrid Tomato

80-85 days. A main season, beefsteak-type, 8 to 10 oz. tomato with excellent heat set ability. Due to the presence of the crimson gene, large, flattened fruits have higher lycopene and deep red flesh and gel color. Vigorous plants have a high yield potential of quality fruits over a long growing period. Great for home gardens. Highly resistant to Gray Leaf Spot. Determinate. #00381. (A) pkt. (10 seeds) \$4.25; 3+ pkts. \$3.95 each

BIQUINHO SERIES PEPPERS

90-95 days. Commonly referred to as "Little Beak" peppers. Tapering to a point, adorable little, 1" fruits look like an inverted teardrop. Rates just 500 to 1,000 Scovilles – for a dash of spice, consider adding to your favorite dish. Great raw, cooked or pickled. Makes a unique garnish, as well.

Red

Bright red fruits have a slightly smoky flavor with a very mild hot fruitiness. #03005.

Yellow

Brilliant yellow fruits have a light tart, lemony flavor with a slight hot twist. #03007.

Prices, above 2:

(A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each

Simplicity FFF BS YLCV Hybrid Tomato

75 days. Large, firm, 9 oz. beefsteak-type, globe-shaped fruits are a vibrant, deep red. Flesh is meaty with a delicious balanced flavor. Ideal for farmers markets and roadside stands. Widely adaptable. Highly resistant to Fusarium Crown and Root Rot. Determinate. #00645. (A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each

Loretta Hybrid Tomato

75 days. Bred especially for excellent performance in the heat of the Southeast and is widely adaptable for the east coast. Attractive, bright red, 8 to 10 oz., smooth fruits, have a deep round shape and are full of excellent flavor. Great for home gardens and fresh markets. Strong plants provide good sun scald protection for fruits. Highly resistant to Fusarium Crown and Root Rot. Intermediate resistance to Tomato Spotted Wilt Virus. Determinate. #00425. (A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each

PeppiGrande Red Hybrid Pepper

80-85 days. Corno-type, 5 to 6", peppers have outstanding crisp texture, rich flavor and more sweetness than typically found in similar varieties. Often seedless – to ensure seedless fruits, grow in isolation from other non-seedless pepper varieties. If not isolated, fruits will be slightly larger with just a few seeds. Harvest green fruits at 60 to 65 days or allow to ripen to red at full maturity. Vigorous, upright plants grow up to 48". #02825. (A) pkt. (10 seeds) \$5.25; 3+ pkts. \$4.85 each

Medusa Hybrid Tomato

75 days. A cross between Damsel Hybrid and Cherokee Purple. The perfect one slicer! Large purple fruits are juicy and acidic in flavor and have an heirloom appearance. Pick when shoulders are green and allow to ripen off the vine for the best taste and reduced cracking. Expect an occasional, irregular shaped fruit (see inset picture). High yielding. Intermediate resistance to Late Blight, Verticillium Wilt and Nematodes. Indeterminate. #00463. (A) pkt. (10 seeds) \$5.25; 3+ pkts. \$4.85 each

Baby Hybrid Cauliflower

28 days. There's no doubt this "baby" will be in big demand! It's the smallest and cutest cauliflower available on the market today. Each plant produces a small, compact, 2 to 3" head AND as an added bonus, its leaves are edible – raw or cooked! Due to its size, it's ideal for growing in small pots and containers. NASA has been trialing it for future production in space. **Please note:** NASA does not endorse this product. #01704. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.65 each

GARDEN READY TOMATO & PEPPER PLANTS

Get an early start with these healthy, sturdy, 6 to 8" plants. Grown in individual 2-1/4" pots, in our special potting mix. Once all danger of frost has passed, they are ready to be planted directly into the garden after hardening off. Plants will be shipped at the proper planting time for your area. See page 7 for shipping information.

Sorry, we are unable to ship plants on pages 6 and 7 to the following states: AK, AZ, CA, GA, HI, ID, OR and WA.

GRAFTED PLANTS

Wondering why you should pay more for grafted plants? What makes them worth the extra price? These were some of the questions we also asked when grafted vegetables first appeared on the market. We admit we were skeptical – until we grew them ourselves and saw the proof. Grafted plants were stronger, produced fruit faster and because they were able to fend off diseases, the yields were higher.

Grafting joins the top of one plant (the scion) to the root system of a separate variety (the rootstock). As the tissues fuse, the vigor and disease resistance of the rootstock combines with the exceptional fruit qualities of the original variety. The result is a "Super-Powered" plant. Plants will be shipped in 2" pots. Special growing instructions are included.

Ketchup 'n' Fries™

Your eyes are not deceiving you! Harvest tomatoes AND potatoes from a single plant!

Since Luther Burbank's experiments in the early 1900's, researchers have explored ways to find a commercially practical way of grafting a tomato plant top onto potato roots. After many years of trials, American grafting leader, SuperNaturals Grafted Vegetables, LLC, has brought Burbank's vision to reality with the release of Ketchup 'n' Fries by TomTato®. We are now pleased to offer these specialty, hand-grafted plants to our customers!

Grow plants in the garden or in a patio container (at least 15 gallons or larger) with a 6 to 8 ft. stake or cage – a great variety for maximizing garden space. With a Brix of 10, plants produce possibly the sweetest cherry tomatoes you've ever tasted AND delicious potatoes, too! During the growing season, 500 or more cherry tomatoes can be harvested. When all the tomatoes have been picked, cut plant back to ground level and about 2 weeks later, harvest up to 4-1/2 lbs. of tasty, light yellow potatoes. All natural, Non-GMO. Easy-to-grow. Grafted plants will be shipped in 2" pots. Special growing instructions are included. **#39580.**

3+ Plants \$12.95 each; 6+ \$11.95 each

MINIMUM ORDER - 3 Plants - Plants may be mixed and matched with Grafted Plants above to meet minimum order.

SHIPPING DATE INFORMATION

All plants on 6 and 7 will be shipped at the proper planting time for your area. Approximate dates when shipping begins:

Zones 7 to 10: APRIL 15 to MAY 1

Zones 3 to 6: MAY 1 to MAY 15

To find your zone, please see the USDA Zone Map on page 63 or visit our website for an easy-to-use Zone Finder.

Please note: Adverse weather in your area, or ours, may affect the shipping schedule.

Sorry, we are unable to ship plants on pages 6 and 7 to the following states: AK, AZ, CA, GA, HI, ID, OR and WA.

If you are not satisfied with the quality of our plants upon delivery, please let us know immediately.

Tomato Helpers

Red Tomato Tray™

Increases tomato yields by 40%! Red light is reflected off the tray to the plants to stimulate growth. Helps roots retain consistent moisture. Protects against drought and cutworms – yields earlier and tastier harvests. Use with tomato, pepper and vining plants. 12" x 12". **#53123.**

Pkg. of 3 for \$12.95; 2+ pkgs. for \$11.95 each

SRM-RED™ Reflecting Mulch Film 🍅

Increases tomato production 12 to 20% over traditional black mulch! Developed by Clemson University and the USDA. Thin plastic film uses a patented technology to reflect wavelength-specific infrared light from the sun up into the plant. Warms the soil and retains moisture.

#53321. 48"W x 30'L, \$17.95 each
#53322. 48"W x 100'L, \$34.95 each

Tomato Crater 🍅

Designed for growing tomatoes, but can be used on a variety of garden plants. An easy way to get water and plant food to the roots, right where it's needed. A convenient two-part interlocking design allows it to be placed around plants, eliminating risk of plant injury. Slots in the base allow for a wire cage to be inserted. The red color warms the soil and reflects red light up into the plant to stimulate plant growth. Helps retain soil moisture, reduces the need for weeding and protects against cutworms and other ground insects. Provides years of use. **#53370.**

Pkg. of 3 for \$23.95; 2+ pkgs. for \$21.50 each

Meet Our Famous Giants ...

GOLIATH™ ORIGINAL

Goliath™ Original Hybrid VFFNTAST 
65 days. *Variety Pio.* Every inch a king, from its beautiful, smooth, bright-red, deep oblate fruits averaging 10 to 15 oz., to a sweet, luscious flavor and a virtually blemish-free exterior. Tall, vigorous plants produce yield after yield, and modern disease resistance makes it widely adaptable in the North, South and just about anywhere in between. Order early and you'll be rewarded with the biggest and the best! Indeterminate.

#00001. (A) pkt. (30 seeds) \$4.05; 3+ pkts. \$3.75 each;
 (D) 1/32 oz. \$17.95; 2+ \$16.75 each; 4+ \$13.45 each

GOLIATH™ JALAPEÑO

Goliath™ Jalapeño Hybrid  
70-75 days. Giant, 5" by 2", broad shouldered, thick walled beauties mature from a dark, glossy green to scarlet red. Their large size and consistent production all season long makes them ideal for all your slicing, grilling, and stuffing needs. Fruits pack good heat with excellent flavor and texture. Scoville rating is 3,000-5,000. Resistant to TMV and PVY.

#00006. (A) pkt. (20 seeds) \$4.25; 3+ pkts. \$3.95 each

Goliath™ Sunny Hybrid VFN

70 days. *Variety Jubilation.* A gorgeous yellow-gold variation on our much-sought-after red Goliath™ varieties, with plenty to bring to the table in its own right – big juicy fruits, mild and sweet, with a medium-soft texture and a mouth-watering juiciness when ripe. Large, 7 to 8 oz. fruits can be harvested when they first turn yellow, or left on the vine until they reach a brilliant shade of gold. Vigorous plants continue setting fruits from the bottom up. Ideal for those who don't like the highly acidic bite of most red tomatoes, and bound to be appreciated by anyone who values eye appeal as much as quality. Indeterminate.

#00004. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each;
 (D) 1/32 oz. \$8.95; 2+ \$8.40 each; 4+ \$6.75 each

GOLIATH™ SUNNY

Goliath™ Goldrush Hybrid

72-75 days. *Variety Chardonnay.* This treasure is worth its weight in gold, and the rush continues to enjoy its rich rewards! Fruits mature from green to bright yellow, producing sweet and flavorful, crispy, 4-lobed bells. Luminous fruits average 3-1/2" by 4" each and make a bright gold presentation against dark green foliage. Plants are compact and open for easy harvest, with high yield potential. Disease resistant.

#00011. (A) pkt. (20 seeds) \$3.45; 3+ pkts. \$3.15 each;
 (V) 100 seeds \$11.95; 2+ \$11.20 each; 4+ \$8.95 each

GOLIATH™ GOLDRUSH

GOLIATH™ SWEET

GOLIATH™ EARLY

GOLIATH™ GENTLE GIANT

Goliath™ Early Hybrid VFFNT TSWV YLCV

60 days. Superb size, perfect shape, continuous production, luscious flavor and broad disease resistance of the marvelous original. Expect extra-large harvests of big, round 7 to 10-1/2 oz., red, sweet fruits. It extends the growing season at the front end by almost a week without sacrificing the things we love most about Goliath™. A better yielder than most early varieties. Indeterminate.

#00003. (A) pkt. (20 seeds) \$4.85; 3+ pkts. \$4.45 each

Goliath™ Gentle Giant Hybrid

68-70 days. *Variety Key West.* A cubanelle-type with early maturity and large fruit – about 7 to 7-1/2" in length by 2-1/2" in width. Fruits mature from light green to a beautiful red, and are perfect for grilling, stuffing, adding to salads and pizzas or eating fresh from the garden – as you will be tempted to do. Plants have added resistance to three races of the dreaded Bacterial Spot disease.

#03149. (A) pkt. (15 seeds) \$4.25; 3+ pkts. \$3.95 each

Goliath™ Sweet Hybrid

71 days. *Variety Cabernet.* If you've grown to love the Goliath™ family of superb tomatoes you'll really appreciate this sensational sweet bell, one of the largest yet! Massive, 4-lobed fruits set well under a variety of conditions. Vigorous plants develop huge, elongated, thick-walled bells measuring 4" by 7", with plenty of substance and terrific flavor!

Left on the plants, fruits will turn from green to dark red and contain more Vitamin C than oranges! *Photo courtesy of The Ervin Walter family in Cresco, Iowa.*

#00005. (A) pkt. (30 seeds) \$4.95; 3+ pkts. \$4.55 each

Just Bag 'Em!

Tomato Patio Planter Bags

Easy-to-use planters for balcony and patio gardens. The perfect solution for people who want to garden, but don't have the space. These tomato-red bags are bright accents for patios and have a reinforced woven handle on each side so they're easy to slide around. Constructed of tough polyethylene and made to last for several seasons. Equipped with reinforced drainage holes so plants don't become

water-logged. Bags are 14" in diameter, 18" deep, hold 40 liters of medium and can accommodate 2 or 3 plants depending on variety.
 #53886. Pkg. of 3,
 \$14.95 each

Tomato Planter Bag

Love home grown tomatoes but don't have room for a garden? These bags are perfect for decks, balconies and patios. Holds up to two plants, depending on the variety and deep enough for stakes or tomato cages to support plants. Seams are porous to provide drainage. Made of woven polyethylene with wipe clean surfaces and webbed handles for easy mobility. Folds flat for easy storage. Measures 15"H x 12-1/2"D.

#53732. Pkg. of 3, Was \$18.95 each
 Now \$14.95 each

And See Why Goliath Rules!

Goliath™ Prime Beef Hybrid VFFTSt

70 days. Goliath™ continues to bring 'Prime' flavors to the table with this beefsteak-type variety! Large fruits are very flavorful, globe-shaped, green shouldered and weigh 8 to 10 oz. Perfect for salads, sandwiches and more. Determinate.

#00016. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each; (V) 100 seeds \$8.95; 2+ \$8.40 each; 4+ \$6.75 each

Goliath™ Italian Hybrid VFFNTA

76 days. *Variety Boy-Oh-Boy.* One of our most versatile Goliaths™! Adds robust flavor to all your favorite dishes. Firm, 8 oz. beefsteak-type fruits, with excellent flavor, turn from apple green with green shoulders to bright red at maturity. Vigorous plants, with good ground cover, are strongly disease resistant. Indeterminate.

#00007. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each; (D) 1/32 oz. \$9.95; 2+ \$9.35 each; 4+ \$7.45 each

Goliath™ Cluster Hybrid VFFT

65 days. Typically when we debut a Goliath™ variety, it's a big, bold, stand-alone beauty, but this superior cluster-type with all the "wow factors" caught our eye. Bright red, flavorful, 4 to 5 oz. fruits present themselves for select picking or cluster harvest, holding their fine form and flavor up to 2 weeks. Indeterminate.

#00196. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each; (V) 100 seeds \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

Goliath™ Old-Fashioned Hybrid T LB

78 days. *Variety Beef Maestro.* This large-fruited wonder has all the qualities of a fine heirloom variety – big fruits that are 13 oz. or more, and a pleasing combination of sweetness, flavor and very smooth texture. Fruits are oblate, a little flattened, with slightly rough shoulders. Plenty of vigor over a long harvest. Indeterminate.

#00009. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each; (D) 1/32 oz. \$9.50; 2+ \$8.90 each; 4+ \$7.15 each

Goliath™ Bush Hybrid VF

68 days. No wonder this remarkable tomato has gained such wide acclaim in its short history! Specially developed for patio gardeners and those with limited garden space, and unsurpassed by any other bush variety. Its attractive, compact plants grow up to 3-1/2 ft. tall and have a "patio" look ... the surprise is their huge, red, 3 to 4" fruits packed with flavorful meat and high sugar content. Bears consistently up to frost and needs little staking. Determinate.

#00002. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each; (D) 1/32 oz. \$9.95; 2+ \$9.35 each; 4+ \$7.45 each

Goliath™ Griller Hybrid

70-73 days. *Variety Santa Fe Garden.* This variety's finest characteristic is its versatile flavor – pungent enough to make a fantastic roaster, but mild enough to eat fresh if you like a pepper with a little bite. Smooth fruits, up to 8-1/2" long and about 1" wide, mature green to red and yield better than other hot peppers under cool growing conditions. Widely adapted, with good disease resistance.

#00008. (A) pkt. (20 seeds) \$3.75; 3+ pkts. \$3.45 each; (V) 100 seeds \$10.95; 2+ \$10.25 each; 4+ \$8.25 each

"GOLIATH" COLLECTION

One packet each of all Goliath varieties. #00871(X). 13 pkts. for just \$39.50

Cages & Support for Tomatoes & Peppers

Collapsible Tomato Cages

Simple to set up with one square cage per determinate plant and two stacked on each other per indeterminate plant. Easy to disassemble and store at the end of the growing season as they fold flat. Spikes are made of heavy gauge wire for durability and will sink about 6" in the ground to stabilize cages. Measures 14-1/2"W x 40"H. **#83021. 3 for \$34.95**

Jumbo Tomato Cages

These folding cages provide more growing space and support for raising big tomato plants. Constructed of heavy-duty galvanized steel with a powder coated finish of green or red. Taller and wider than Collapsible Cages, with 8 support legs. Measures 18"W x 18"D x 58-1/4"H.

#54276. Green #54277. Red
Pkg. of 2 for \$42.95; 2 or more pkgs. \$39.95 each

Collapsible Pepper Cages

A smaller version of our popular Collapsible Tomato Cages. Easy to set up, disassemble and store at the end of the growing season. Perfect for eggplants, as well. 32"H x 14"W.

#53472. Pkg. of 3 for \$29.95

Super Stakes

Garden stakes are green plastic coated with a steel core. Weather and rust-proof with water tight closures on both ends – won't rot or split. Perfect for tomatoes, peppers and vining plants. Spurred to prevent ties from slipping. Reusable year after year.

#57850-4. 4 ft., 20 for \$24.95

These Simple Steps Yield Totally Terrific Tomatoes

SEEDING:

Determine the proper time for seeding tomatoes by counting back 6 to 8 weeks before the last average spring frost in your area. Not sure of the frost date? Consult your local county extension service.

Timing will determine the quality of your seedlings, so plan your schedule carefully. Seedlings started too early will become leggy and may become stunted in your containers. Seedlings held too long indoors will have a difficult time adjusting to conditions in the garden. Seedlings started too late, on the other hand, will delay your harvest.

The easiest way to schedule seeding is to use two or three dates about a week apart. It takes 7 to 14 days at a temperature of 70 to 80°F for germination, so staggered seeding would give you several sizes of plants for staggered planting and a slightly staggered harvest.

When you are ready to seed, use a good seed starting mix (see page 62) or soilless mix. Firm gently, but do not pack, and moisten. Make a hole in the center of the potting mix about 1/4" deep, drop in two or three seeds and refill the hole. Or you can simply use **Jiffy-7® Peat Pellets** (see Order Form), drop the seeds in the center opening and moisten well.

Seedling Heat Mats

Designed for gardeners who need to germinate only a few flats. Unroll the mat on any flat surface and place starter tray(s) directly on top. Direct contact with the poly-vinyl

mat means no heat loss. Built-in thermostat holds temperature at 10 to 20°F above room temperature to a maximum of 85°F. 110 volts. UL approved.

#53252. 9" x 19-1/2" (for 1 flat), \$32.95 each
#53253. 20" x 20" (for 2 flats), \$54.95 each
#53254. 48" x 20" (for 4 flats), \$89.95 each

If sowing in market packs or flats, sow seeds sparingly in rows or scatter thinly across the soil surface, cover with 1/4" of potting mix and firm lightly. Mark containers with variety names and planting dates. Water thoroughly with a fine spray or wet soil from the bottom, allowing water to be absorbed until surface is moist. Keep containers moist, but not wet, and in a warm place, 70 to 80°F, until seeds germinate. To speed germination, apply bottom heat with a seedling mat, checking often, so seedlings can be moved to full light as soon as they emerge.

GROWING ON:

As soon as seedlings emerge, locate them in the sunniest spot available. Grow lights (above right and pg. 35) may also be used, positioning plants 4 to 8" below the light source, and lighting 12 to 18 hours per day, but off at night. Seedlings will grow best at temperatures of 60 to 70° F. Provide air circulation and keep the soil surface moist.

Jump Start T5 4 ft. Grow Light System With Timer

Using the built-in timer, simply choose your lighting schedule with a single button press – 12 hours on/12 hours off or 18 hours on/6 hours off. Easy lamp height adjustment makes it a snap to direct light where plants need it most. Just plant seeds and use the simple toggle clamp to lower it to a few inches above the soil. Raise it as plants grow, staying 3 to 6" above the plant canopy. Includes T5 high

output grow light fixture with 6400K full-spectrum lamp, Jump Start Light Stand and 6 ft. cord with on/off switch.

#52960. \$134.95 each

T5 Replacement 4 ft. Bulbs

#74671. Pkg. of 4, \$49.95

If growing plants in market packs or flats, young seedlings are ready for transplanting to individual pots when they develop their first pair of true leaves. Thin plantings down to the strongest single seedling by pinching off weaker ones at the soil level.

Fertilize sparingly when seedlings are 3 to 4 weeks of age, using a foliar feed concentration (1/3 to 1/2 of regular strength) of a complete (20-20-20) water-soluble plant food.

HARDENING OFF:

About a week to 10 days prior to transplanting to the garden, begin adapting plants to outside conditions. Utilize a sheltered location such as a cold frame or screened-in porch to protect from wind and sun at first, then gradually accustom them to garden conditions as the weather permits. Hardening off strengthens plant cell structure and results in sturdier and more rapidly growing plants after transplanting.

4-Tier Mini-Greenhouse

Economical and ideal for seed propagation, plant growing and display. Features a rugged steel framework and durable, nylon-stitched, clear plastic cover with a rust-proof plastic zippered front panel. Cover is easily removed for storage. Assembles in minutes without tools. 5'3"H x 2'3"W x 19"D.

#52967. \$62.95
#52967C. Replacement Cover, \$29.95

SITE PREPARATION:

As soon as all danger of frost has passed, seedlings are ready for transplanting to a prepared site in the garden. Tomatoes thrive in any reasonably good soil that is well drained and gets full sun. The soil should be tested (pgs. 3 & 21) and the pH adjusted to within the range of 5.5 to 6.5, preferably in the fall. This is also a good time for deep spading or plowing to a depth of 8 to 12", and the soil should be enriched by adding compost, leaf mold or peat moss, as needed.

In early spring, till or spade the surface again, and rake to break up clods and remove debris. Fertilize as recommended on your soil test result form. Manure should be used, if at all, with caution, because excessive nitrogen tends to cause tomato plants to produce an overabundance of foliage rather than fruit. Using a fertilizer with a high phosphorus and potash analysis and low in nitrogen (such as 5-10-10) may be beneficial. If the soil is already fairly rich, the addition of organic matter along with a dressing of superphosphate should be sufficient. Some additional side-dressing of fertilizers may be necessary on light, sandy soils at regular intervals (14-21 days) during the growing season.

In larger plantings, rows of staked tomatoes should be 30 to 42" apart and plant spacings in the row at 24 to 30". If tomatoes cannot be staked, row spacings of 6 ft. and plant spacing of 4 ft. in the row are needed for proper air movement and plant development. Staking is the preferred method where space is limited and plants will yield a much higher proportion of clean, undamaged fruits.

Tomato Trellis

Get better quality tomatoes and save space by keeping vines off the ground. Provides greater exposure to sun and air for a healthier plant. Ideal for tomatoes, cucumbers and other vining crops.

Durable, extruded one-piece nylon net won't burn or harm tender shoots by sun "heat-up". Tangle-free and reusable. Handy 7" reach-through mesh makes harvesting easy.

#53282. 5'W x 10'L, \$8.95
#53283. 5'W x 15'L, \$9.95
#53284. 5'W x 30'L, \$14.95;
2 or more \$13.95 each

Wooden stakes or wire cages (pg. 9) work well as supports. These supports should be 40 to 72" tall, the shorter for "determinate" varieties and the taller for the "indeterminates." Determinate or bush varieties reach a certain plant height and then stop growing, with most fruit borne over a 4 to 6 week period. Indeterminate varieties continue to grow and flower throughout the season, but have less mature fruits at any one time. Indeterminate Short Internode (SI) varieties combine the controlled growth habit of a determinate with the unlimited production potential of an indeterminate.

TRANSPLANTING:

When transplanting hardened-off plants, choose a cloudy, wind-free day, if possible, or plant in the late afternoon. Be sure the danger of frost has passed, but emergency protection devices, such as plastic jugs with the bottoms removed, or **Kozy Coats™** protectors, may help if a late frost occurs.

Kozy Coats™

Reusable water filled teepees will reward you with an early season of delicious tomatoes, cucumbers, melons and other heat loving plants. The earlier you plant, the earlier you'll pick. No need to worry about heavy frost or late blizzards. Protects your plants through the worst spring weather. Even if the water turns to ice, your plant is still protected. Keeps heat in to warm the soil around your plants. **#53725. Pkg. of 3 for \$14.95**
#53726. Repair Sleeves, Pkg. of 10 for \$5.95 each

Water plants thoroughly about one-half hour prior to planting, using a full-strength solution of water-soluble fertilizer (pg. 64).

When planting, always make sure the holes are large enough to accommodate all the roots without crowding. Plants should be set in deeper than they originally were in containers. Since tomato plants root freely from any portion of the stems buried beneath the soil, they may be planted down to the first leaves. For plants that have become leggy, dig out furrows and lay in the plants, burying excessively tall stems.

Partially fill the hole with soil to within about 3" of the surface and water in thoroughly, being careful to settle soil around roots, eliminating air pockets. Finish filling the hole with soil and firm soil around stem.

CULTURE:

Keeping plants well-watered during the growing season, particularly during periods of drought, will help ensure better yields and help control problems such as Blossom End-Rot, a blackening of the fruit on the blossom end due to a calcium deficiency often related to water uptake. Proper soil testing, lime applications and foliar treatment with calcium solutions will also help avoid this problem.

Jack's Classic® Tomato FeED 12-15-30

Water soluble plant food for vigorous plant growth from roots to green foliage, abundant flowering and fruit set. Contains micronutrients and magnesium for improved feeding results under diverse soil and growing conditions. It also includes

calcium, an effective nutrient to help prevent Blossom End-Rot. Enhances blooming and keeps leaves green by preventing leaf tip yellowing. Use on tomatoes, peppers, cucumbers, eggplant, squash and zucchini. **#51236. 1-1/2 lbs., \$14.95**

The control of weeds is also extremely important when it comes to growing tomatoes, they compete with plants for water, food and space. Keep soil cultivated to about a 1" depth or remove all established weeds and use a liberal application of mulch to prevent any new weeds from emerging. Mulch materials, such as straw or plastic film (pg. 6), also help conserve moisture, protect fruits from rot and blight diseases, and maintain even soil temperatures.

Plants grown on stakes or trellises will need tying at regular intervals throughout the summer. Do not tie stems so tightly that they are likely to be strangled by the ties as the stems grow and thicken. Use soft string, strips of old sheeting or other soft, stretchable materials. For those of you into recycling, strips of old pantyhose make excellent ties!

Ripening time varies with location and growing season and is influenced by soil and weather conditions, but the days to maturity cited in this catalog gives you the approximate number of days from transplanting until the first fruits should ripen.

Leave the fruits on the vine until they become completely ripe for best flavor and food value. When tomatoes reach their full color, they are ready for picking – pull them off gently to prevent bruising.

After picking, tomatoes should be stored in a cool, dark place (but NOT in the refrigerator), where they will keep better than if left on the vine. In hot, damp weather fruits will be firmer if they are picked slightly before they are fully ripe and allowed to ripen indoors away from direct sunlight.

At the end of the season, all green fruits should be picked before the first hard frost. The greenest fruits may be used for making pickles, and those of ripening size may be stored in shallow boxes or trays in a cool, frost proof area where they will ripen gradually and provide usable (although not vine-ripened quality) fruits for many weeks.

DISEASES & PESTS:

Tomatoes can be attacked by a range of diseases and pests, so inspect plants for problems throughout the growing season. Damaged or stripped foliage is almost a sure sign of tomato hornworms, and holes bored into fruits mean tomato fruitworms have hatched. Blotched and yellow foliage may mean blights are present, while stunted plants could mean nematodes have invaded.

Zonix™ Biofungicide

Prevents and protects against Downy Mildew, Late Blight, Root Rot and more. Works by killing the spores that spread disease and helping plants absorb nutrients more easily, giving them better protection. Apply as a foliar spray before the first signs of disease or as a preplanting soil drench to kill disease spores. Can be used to treat seeds, transplants, roots, cuttings and both ornamental and edible plants. Great for organic gardeners. Easy-to-use. Mix 1/2 to 3/4 oz. per gallon of water. **#50270. 8 oz. Concentrate, \$44.95**

Organic gardeners often choose to hand pick uninvited guests, or perhaps utilize insecticidal soaps or pyrethrins as treatments in combination with natural predators. Other gardeners, especially those with larger plantings, may need chemical pesticides for control of various insects and diseases. Be certain that the pesticides you use are labeled for your specific crop and pest, and follow label directions.

To combat diseases, you can grow varieties bred with resistance to common disease problems. With the help of your local extension service, determine what diseases are common in your area. Look for varieties with codes indicating resistance to those diseases. The codes below follow the variety names. Note that even resistant varieties may need some preventative fungicide application, especially in wet seasons when disease pressure is high.

- V – Verticillium Wilt
- F – Fusarium Wilt (FF – Races 1 & 2; FFF – Races 1, 2 & 3)
- N – Nematodes
- T – Tobacco Mosaic Virus
- A – Alternaria Stem Canker
- St – Stemphylium Gray Leaf Spot
- TSWV – Tomato Spotted Wilt Virus
- BS – Bacterial Speck
- EB – Early Blight
- LB – Late Blight
- YLCV – Yellow Leaf Curl Virus

CONTAINER GARDENING:

Those with limited space or even just a porch or patio, take heart! Container gardening continues to gain popularity, resulting in varieties bred specifically for growing in pots. Some of our best-selling container varieties, **Better Bush Hybrid & Bush Early Girl Hybrid** (pg. 15) and **Patio Hybrid** (pg. 18), are excellent performers.

For even smaller containers, some of our most popular cherry varieties like **Micro-Tom** (pg. 37) considered to be one of the worlds smallest tomato plants, **Tumbler Hybrid** and **Tumbling Tom Yellow** (pg. 40) perform especially well in hanging baskets.

Always use a good, well-drained potting mix for containers. See our **Ferti-lome Organic Potting Mix** (pg. 62). Water when the upper surface of the media dries out.

Check out our uniquely different **Vintage Grow Bags** (pg. 66) and our red **Tomato Patio Planter Bags** (pg. 8). They're ideal for tomatoes and peppers.

Jobe's® Tomato Spikes

A timed-release fertilizer concentrated into spike form for easy application and consistent vigorous growth of tomato plants. Special 6-18-6 analysis is customized for growing tomatoes. Push two spikes into the ground about 6 to 8" from base of each stem and water as required. 18 spikes per box. **#59450. \$6.95 per box; 3 or more boxes \$5.95 each**

Fertilize every 10 to 14 days with a water soluble fertilizer or timed-release fertilizer such as **Jobes Tomato Spikes**.

PRESERVING:

Tomatoes are so versatile that many gardeners plant extras for canning, freezing and juicing. You can easily prepare your own soups, juices, spaghetti and other sauces, tomato pastes, pickles and many other recipes. An enormous amount of information and recipes are available in **The Practical Produce Cookbook** (see Order Form) and **The Pickled Pantry** (page 34). Your local extension service is also helpful for information on home freezing and canning.

Victorio® Steam Canner

Saves time, energy and water! Requires only 2 quarts of water as it steam-cooks fresh and frozen foods. Cuts preheating time by 50% over water bath canning and eliminates heavy lifting. Steam is hotter and more efficient than boiling water, killing enzymes that can attack flavor and texture of canned fruits. A built-in temperature indicator on the lid tells you exactly when to begin processing time. The base and rack make an excellent roaster. Aluminum construction ensures quick heat-up and cool-down times. Not recommended for low-acid vegetables and meat. Ideal for tomatoes, fruits and other high-acid foods. **#53975. \$62.95 each**

TOMATO SEED COUNT

One ounce of most tomato seed varieties contains 8,000 to 10,000 seeds. Larger sizes contain the following approximate counts:

- 1/32 oz. contains 250 seeds
- 1/8 oz. contains 1,000 seeds
- 1/16 oz. contains 500 seeds
- 1/4 oz. contains 2,000 seeds
- 1/2 oz. contains 4,000 seeds

CHERRY TOMATO SEED COUNT

One ounce of most cherry tomato seed varieties contains approximately 12,000 seeds. Larger sizes contain the following approximate counts:

- 1/32 oz. contains 375 seeds
- 1/8 oz. contains 1,500 seeds
- 1/16 oz. contains 750 seeds
- 1/4 oz. contains 3,000 seeds

Large, Mouthwatering Hybrids!

Varieties on pages 12-14 typically grow fruits 10 oz. or larger

AMERICAN ORIGINAL RED

American Original Red Beefsteak Hybrid

65 days. Gardeners everywhere will love the heirloom look and feel of these large, 12 to 14 oz. beefsteak fruits bred to hold their texture and flavor longer after picking. Packed with exactly the right amount of flavor for fresh eating in salads and on sandwiches. Indeterminate.
#00025. (A) pkt. (20 seeds) \$4.75; 3+ pkts. \$4.40 each

Beefmaster Hybrid VFNASt

80 days. One of the most popular hybrid beefsteak-types, with improved disease resistance, better yields, larger fruits and good tolerance to cracking and splitting. Solid, meaty, bright red tomatoes weigh up to 2 lbs. Bacterial Leaf Spot resistant. Indeterminate.
#00061. (A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each; (G) 250 seeds \$14.45; 2+ \$13.45 each; 4+ \$10.85 each

BEEFMASTER

Bella Rosa Hybrid VFFAST TSWV

75 days. Large, 10 to 12 oz., bright red tomatoes are round, firm and highly flavorful with a good balance of acid and sugar. A heat tolerant variety which does well in hot humid areas. Plants produce high yields. Perfect for home gardens. Determinate.
#00066. (A) pkt. (20 seeds) \$3.75; 3+ pkts. \$3.45 each; (V) 100 seeds \$12.75; 2+ \$11.90 each; 4+ \$9.55 each

BELLA ROSA

Better Boy Hybrid VFNASt LB

75 days. A spectacular, mid-season variety with plump, juicy, deep red tomatoes that often weigh more than 1 lb. Once they arrive they just keep on coming! Fruits are extremely flavorful, with flesh that's juicy, yet firm. Heavy foliage protects fruits from sunscald. A highly adaptable variety that thrives in nearly any climate. Demonstrates excellent disease resistance. Indeterminate.
#00068. (A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each; (G) 250 seeds \$14.45; 2+ \$13.45 each; 4+ \$10.85 each

BETTER BOY

Big Beef Hybrid VFFNTASt

73 days. 1994 AAS Winner. A miracle of modern breeding. Many experts at AAS trials described this variety as "the best tomato yet developed." Smooth fruits are globe-shaped, weighing 9 to 16 oz. A good choice to try in virtually any climate, readily overcoming adverse growing conditions and adapting easily to different environments. Coupled with old-fashioned, rich flavor, it features bred-in hybrid qualities—colossal fruit size and yield, uniformity and a full spectrum of disease resistance. Indeterminate.

Carolina Gold Hybrid VFF

71 days. Extra-large, 10 oz. fruits are yellow-gold and deeply oblate with very few seeds. Flesh is firm and meaty with low acid. Vigorous, medium-tall plants should be staked. Resistant to Gray Wall and Crack tolerant. Determinate.
#00162. (A) pkt. (30 seeds) \$4.85; 3+ pkts. \$4.45 each; (G) 250 seeds \$24.95; 2+ \$23.30 each; 4+ \$18.75 each

CAROLINA GOLD

CHEF'S CHOICE HYBRID SERIES

This award winning (except Purple and Striped) series, features superior taste and texture. Great for canning, stewing and eating fresh. All are indeterminate.

Black VFT

75 days. 2019 AAS Winner. Large, dark, red-purple, 8 to 12 oz. fruits have attractive green shoulders and a flattened globe shape. Delicate skin surrounds very juicy, deep crimson flesh that's full of flavor and has a slight saltiness that enhances the taste. Crack resistant. #00164.

Red VF

85 days. 2018 AAS Winner. Beautiful red, globe-shaped, scar-free, 8 oz. fruits. Beefsteak-type, 6 to 7" tomatoes have firm flesh with just the right balance of acid to sugar creating a flavor similar to heirlooms. Scab resistant. #00179.

Prices, above 2: (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each

Bi Color FT

75 days. 2020 AAS Regional Winner. Large, eye-catching fruits weigh 10 to 12 oz. each, are globe-shaped and absolutely delicious! Heirloom-type, pale yellow tomatoes are brushed with deep red splashes on the blossom end and throughout the exquisite lemony yellow flesh. Vigorous plants are heavy yielders. Anthracnose and Scab resistant. #00160.

Pink VFT

80 days. 2015 AAS Winner. Very large, 12 to 14 oz. (often over 1 lb.!), pink, meaty fruits have the perfect acid to sugar ratio. Easier to grow than most beefsteaks – definitely give this one a try. Potato leaved plants produce high yields. Anthracnose, Crack and Scab resistant. #00177.

CHEF'S CHOICE BI COLOR

Green VF

90 days. 2016 AAS Winner. Beautiful green fruits, 6 to 7" in diameter, have subtle yellow stripes and a wonderful sweet, yet tangy, flavor. Plants, with dark green foliage, produce heavy yields of large, 9 to 10 oz. beefsteak type fruits, with a flattened globe shape. A unique choice that's sure to become a staple in all your favorite dishes! #00176.

Purple FN

70 days. Fans of Cherokee Purple (pg. 23) will fall in love with this exceptionally flavored heirloom hybrid. Attractive, flattened globe shaped, 9 to 10 oz. fruits are firm, smooth and truly purple inside and out. Anthracnose and Scab resistant. #00182.

Orange F

75 days. 2014 AAS Winner. Bred from the popular heirloom tomato Amana Orange (pg. 22), this variety captures the wonderful flavor and unique color of the heirloom, but with much earlier maturity so you can begin enjoying the fruits sooner – also features an improved disease resistance. Beefsteak-type, 5 to 6" fruits have a flattened globe shape and average 9 to 12 oz. each. Bright orange, almost neon, both inside and out – won't fade or discolor when cooked. Anthracnose, Crack and Tomato Mosaic Virus resistant. #00178.

Striped T

75 days. A unique addition to the series, with 6 to 7 oz. beautiful globe-shaped fruits. Stunning yellow skin is covered with pink/red stripes that resemble brush strokes. Flesh is not only delicious, but is an eye-catching bright yellow with a slight red blush on the blossom end. Anthracnose and Scab resistant. #00185.

Yellow VF

90 days. 2017 AAS Winner. Gorgeous, 10 oz. beefsteak-type, fruits have a sweet, citrus-like flavor with just the right amount of acid and the perfect tomato texture. Plants produce loads of 6 to 7", golden yellow fruits. Crack, Scab and Tomato Mosaic Virus resistant. #00173.

COUNTRY TASTE

Country Taste Hybrid VFFT

70 days. Tomato lovers won't get enough of Country Taste, with its smooth, round, deep red fruits weighing up to 1 lb. Color is consistent from the skin straight through the center. Flesh is firm and juicy, packed with "real tomato" flavor. Produces high yields of beefsteak fruits that pay tribute to the old-time qualities of hearty, country-style tomatoes. Great for fresh eating. Indeterminate.
#00205. (A) pkt. (20 seeds) \$3.55; 3+ pkts. \$3.25 each

DAMSEL

Damsel Hybrid VN LB

73 days. An outstanding pink beefsteak variety with impeccable heirloom flavor! Uniform fruits weigh up to 12 oz. on compact plants that grow 4 to 5 ft. Makes an excellent slicer and is perfect in salads. In our trials, it was an excellent producer, even in less than ideal conditions. Indeterminate.
#00218. (A) pkt. (10 seeds) \$4.85; 3+ pkts. \$4.45 each

Dixie Red Hybrid VFFNA TSWV

80-90 days. Large firm fruits weigh 11 to 12 oz. each and have a deep oblate-shape. Plumpness, deliciousness and juiciness makes this the perfect choice for fresh salads, in soups or on those tasty BLT's. An early-main season variety bred to perform well in hot, humid climates. Highly resistant to Gray Leaf Spot. Heavy yielder. Determinate.
#00221. (A) pkt. (10 seeds) \$4.65; 3+ pkts. \$4.30 each

DIXIE RED

Galahad Hybrid VFFFN TSWV LB

75 days. 2020 AAS Winner. If you're having problems growing tomatoes because of Late Blight, then you'll need to give this variety, bred from parent lines that are both resistant, a try. Large, round, great tasting, 12 oz. fruits have broad shoulders and are slightly ribbed. Excellent for canning, salsas, sauces and sandwiches. AAS judges agreed that the sweet, meaty flavor is better than that of comparable varieties and boasts good crack resistance. Strong sturdy plants are high yielding and also resistant to Gray Leaf Spot. Determinate.
#00284. (A) pkt. (10 seeds) \$4.85; 3+ pkts. \$4.45 each

Grandma's Pick Hybrid VFNST

78-80 days. A modern day hybrid combining the look and taste of an heirloom beefsteak with earlier, more productive and disease resistant yields. Fruits are deeply globed, weigh 10 to 14 oz. each, have an excellent flavor and are high in lycopene. An excellent choice for home gardens, specialty markets and roadside stands. Indeterminate.
#00325. (A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each

GALAHAD

TOUGH BOY

PARK'S WHOPPER CR IMPROVED

Park's Whopper CR Improved Hybrid VFFN

65 days. Earlier and tastier than the original Whopper, with big, red, 4" fruits that have improved disease and crack resistance, as well as a more uniform fruit size. You'll start harvesting early and pick until frost! A popular choice for fresh markets and home gardens. Vigorous, stocky plants. Indeterminate.
#00533. (A) pkt. (30 seeds) \$5.45; 3+ pkts. \$5.05 each; (G) 250 seeds \$35.95; 2+ \$34.95 each; 4+ \$32.95 each

Roadster Hybrid VFFFA TSWV

65-70 days. This candy apple red beauty will turn heads with its glossy, 8 to 12 oz., very firm fruits. Tomatoes have smooth shoulders, are globe-shaped, and have exceptional taste with rich red color inside and out. Plants have a high yield potential, are widely adaptable and benefit from light pruning. Great for container gardening. Resistant to Fusarium Crown and Root Rot with intermediate resistance to Gray Leaf Spot. Determinate.
#00636. (A) pkt. (10 seeds) \$4.15; 3+ pkts. \$3.85 each

SummerPick Hybrid VFFFS TSWV

70-75 days. Vine-ripened fruits have the perfect balance between acid and sweetness. An early-mid season variety with high yields of impressive 11 oz. fruits. Strong, vigorous plants produce concentrated fruit sets. Adapts well to patio containers. Excellent disease resistance. Determinate.
#00689. (A) pkt. (15 seeds) \$4.55; 3+ pkts. \$4.20 each

Super Fantastic Hybrid VFN

70 days. An improved version of the ever-popular Fantastic (pg. 16) with stronger disease resistance. Heavy yields of solid, meaty, smooth fruits weigh an average of 10 oz. each. Indeterminate.
#00720. (A) pkt. (30 seeds) \$5.45; 3+ pkts. \$4.95 each; (V) 100 seeds \$15.95; 2+ \$14.90 each; 4+ \$11.95 each

Supersonic Hybrid VF

75 days. Big red, mid-season fruits with great flavor, size and quality! Firm, meaty, very large, 12 oz. fruits are slightly oblate in shape and are smooth, with excellent resistance to cracking. Sturdy plants are vigorous and disease resistant. Indeterminate.
#00732. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each; (G) 250 seeds \$14.95; 2+ \$13.95 each; 4+ \$11.25 each

Tough Boy Hybrid VFFNST

75 days. Also known as Momotaro. Extra early and vigorous. Pink, very sweet fruits weigh approx. 1 lb. and grow in clusters of 6 to 7. Ideal for home gardens or fresh market. Plants have medium sized leaves and medium short internodes. Intermediate resistance to Bacterial Wilt. Crack resistant. Indeterminate.
#00778. (A) pkt. (15 seeds) \$5.05; 3+ pkts. \$4.55 each

SUPERSONIC

SUPER FANTASTIC

ROADSTER

SUMMERPICK

GRANDMA'S PICK

Is Medium to Large Your Ideal Size?

Amelia VR Hybrid VFFFNSt TSWV

75 days. Specially bred for Southeastern gardens – this southern belle thrives in hot climates. Produces large, 8 to 10 oz. firm, uniform fruits. Very flavorful and excellent when picked green or red. Great for sandwiches, salads and salsas. Good crack resistance and performs best with moderate pruning. Perfect for container gardening. Heavy yielder. Determinate.

#00033. (A) pkt. (10 seeds) \$4.25; 3+ pkts. \$3.95 each

Andiamo Hybrid

65 days. A true San Marzano type. Strong, vigorous plants produce heavy yields of bright red, 5" elongated, 5 to 6 oz. fruits that are firm, meaty and loaded with sweet flavor and just the right amount of acid. Excellent for fresh eating, salsas and perfect for making pastes, sauces and for canning. Indeterminate.

#00056. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each

Best Boy Hybrid VFN

75 days. Beautiful bright red, firm, 8 oz. deep globe shaped fruits are smooth and really delicious. Some claim it's better than Better Boy – you be the judge! An excellent choice for mid-early production. Vigorous plants produce heavy yields. Indeterminate.

#00067. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each

Better Bush Hybrid VF

68 days. This early home garden variety bears all season long. Plants feature a strong central stem capable of supporting its 48" height with very little need for staking. Produces big 4" fruits that are mouth-watering, sweet and meaty, with the much-sought-after "real tomato" taste. If you love container gardening, definitely try this one! Determinate.

#00072. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each; (G) 250 seeds \$9.25; 2+ \$8.65 each; 4+ \$6.95 each

BHN 444 Hybrid VFFTSt TSWV

75 days. If you're looking for reliable, all-around quality and healthy yields, this one will be high on your list. Plants have the added advantage of being resistant to Tomato Spotted Wilt, the virus that plagues growers in many parts of the South. Excellent yields of bright red, globe-shaped fruits are firm with smooth exteriors and a good flavor. Determinate.

#00073. (A) pkt. (10 seeds) \$3.35; 3+ pkts. \$3.05 each

Biltmore Hybrid VFFAST

70 days. This mid-season variety is a reliable producer with manageable plant size and an extended harvest of large, smooth, globe-shaped, 8 to 10 oz. fruit with deep red exteriors. Matures earlier than varieties of similar size with fully developed flavor that has proven tough to beat in farmers market taste tests. Semi-determinate.

#00085. (A) pkt. (20 seeds) \$5.05; 3+ pkts. \$4.55 each

Varieties on pages 15-17 typically grow fruits 6 to 10 oz.

Buffalosteak Hybrid VFNT

75 days. High quality beefsteak-type fruits average 6 to 7 oz. and have a superior, robust old-fashioned tomato flavor. Bright red flesh is solid and meaty with very few seeds making it excellent for slicing to top sandwiches and burgers. Vigorous plants are very productive and quite disease resistant. Indeterminate.

#00117. (A) pkt. (10 seeds) \$5.75; 3+ pkts. \$5.25 each

Bush Early Girl Hybrid VFFNT

54 days. This sister to popular Early Girl (pg. 16) delivers the same desirable qualities in a compact, patio-sized variety. Extremely early with huge yields of firm, meaty, flavorful fruits that are larger than Early Girl – a full 4" in diameter. Determinate.

#00149. (A) pkt. (20 seeds) \$3.75; 3+ pkts. \$3.45 each

Cedro Hybrid VFFFA

75-80 days. Beautiful, large, up to 6 oz., saladette-type, high quality fruits. Great tasting, smooth, bright red tomatoes have an elongated oval shape, are uniform and very firm with beautiful color inside and out. Fruits grow in clusters on compact plants that have short internodes, mid vigor and excellent yield potential. Widely adaptable and performs well grown under conditions from warm to cool with good heat set ability. Highly resistant to Tomato Mosaic Virus Races 0-2. Indeterminate.

#00163. (A) pkt. (10 seeds) \$4.85; 3+ pkts. \$4.45 each

Celebrity Hybrid VFFNTAST

70 days. This 1984 AAS Winner established a new standard for main-crop hybrids requiring multiple disease resistance. Highly adaptable from Canada to the South. Medium-sized, globe-shaped fruits are crack resistant and average 7 oz. Semi-determinate.

#00175. (A) pkt. (30 seeds) \$4.25; 3+ pkts. \$3.95 each; (G) 250 seeds \$17.75; 2+ \$16.55 each; 4+ \$13.35 each

Champion II Hybrid VFFNTA YLCV

62-65 days. Features even more disease resistance than the original Champion Hybrid while maintaining the same delicious flavor and timing. Delivers high yields of meaty, sweet, 6 to 10 oz., bright red fruits that are great on sandwiches and burgers. Indeterminate.

#00180. (A) pkt. (30 seeds) \$4.95; 3+ pkts. \$4.50 each; (G) 250 seeds \$24.55; 2+ \$22.85 each; 4+ \$18.45 each

CHARGER

Then Try These Hefty Hybrids!

Charger Hybrid VFFFAST YLCV

76 days. This excellent variety takes charge of disease resistance – features strong resistance to the dreaded Yellow Leaf Curl Virus. Brilliant red, oblate, 8 to 10 oz., fruits are very firm and smooth shouldered with good flavor that's high in sugar and low in acid. A high yielding salad variety that's perfect for home gardens. Widely adaptable. Plants grow to 24" and spread to 36". Crack resistant. Determinate.
#00183. (A) pkt. (10 seeds) \$3.35; 3+ pkts. \$3.05 each

DEFIANT

Defiant Hybrid VFF EB LB

70 days. This variety cracks the genetic code to produce the first tomato bred for resistance to the modern strains of Late Blight. High yielding plants produce 6 to 8 oz. globe-shaped fruits that combine disease resistance with great old-fashioned tomato flavor. Determinate.
#00213. (A) pkt. (10 seeds) \$5.45; 3+ pkts. \$4.95 each

Early Girl Hybrid VFF

57 days. It's hard to find tasty, full-sized fruits like this extra-early in the season! Meaty, ripe red fruits, 4 to 6 oz., are slightly flattened and bright crimson throughout. Very appealing, with firm texture and blemish-resistant skin. Heavy yields on hardy vines. Indeterminate.
#00240. (A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each; (G) 250 seeds \$18.95; 2+ \$17.65 each; 4+ \$14.35 each

Fantastic Hybrid VFA

65 days. Globe-shaped, scarlet red, 3 to 5", medium-sized fruits are almost crack-free and rich in beefsteak flavor. Heavy yields are excellent for canning. Indeterminate.
#00262. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each; (D) 1/32 oz. \$7.95; 2+ \$7.45 each; 4+ \$5.95 each

EARLY GIRL

Florida 47 Hybrid VFAST

75 days. Home gardeners will love this variety, originally bred for commercial production, for its versatility in using fruits green or vine ripened red. Smooth, uniform fruits are deeply oblate and weigh up to 10 oz. Great for juices, sandwiches, salads and canning. Plants have excellent foliage cover, produce heavy yields and are highly disease resistant. Determinate.

#00274. (A) pkt. (10 seeds) \$4.25; 3+ pkts. \$3.95 each

Moon Sign Book

Popular since 1905. This is the only almanac you'll need this spring! Includes lunar timing tips on planting and harvesting and a guide to companion plants. Also provides recommended dates on fishing and hunting, as well as weather forecasts. Customers come back year after year because of its accuracy and reliability. Paperback. 312 pages. *Suggested retail \$12.99.* #53454. \$11.95 each

Fried Green Hybrid

80 days. The first variety specifically bred to remain firm when cooked. Versatile fruits average 6 to 7 oz. each, and can be harvested when apple green or yellow. Holds well in the field and on the shelf, so that you can make the most of each harvest. Plants continue to set throughout the season. Indeterminate.
#00275. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (D) 1/32 oz. \$9.95; 2+ \$9.35 each; 4+ \$7.45 each

Giant Garden Paste Hybrid

95 days. This delightful variety has the perfect balance of sugary sweetness and tangy acids. Gorgeous large, bright red fruits have a unique ruffled, boat shape and weigh 8 to 10 oz. Solid, meaty flesh has good gel content and is excellent for canning, sauces or eating fresh. Heavy yielder. Crack resistant. Indeterminate.
#00296. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each

Heatmaster Hybrid VFFNTAST

75 days. Bred for hot and humid tropical climates, Heatmaster has the ability to set fruit under higher temperatures than other varieties. Produces exceptional yields of large, 7 oz., firm fruits that have a good shelf life. Fruits are an attractive deep red color and deep oblate in shape. Excellent for fresh eating. Bacterial Wilt resistant. Determinate.

A Colorful Rainbow Of Varieties

Husky Red Hybrid VFFAST

68 days. The unlimited production potential of an indeterminate and the controlled growth of a determinate combine for season-long production! Attractive fruits typically weigh 5 to 7 oz. Compact plants are only 4 to 4-1/2 ft., with dark green, rugose foliage and strong, thick central stems. Ideal for small spaces, patios, planters and even larger pots. Dwarf indeterminate.

#00367. (A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each

Jet Star Hybrid VF

70 days. Prolific producer of big, globe-shaped fruits that ripen all the way through. Excellent flavor with low acidity. Nice, compact habit. Indeterminate.

#00392. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each; (G) 250 seeds \$13.95; 2+ \$13.05 each; 4+ \$10.45 each

Jetsetter Hybrid VFFNTAST

64 days. Earlier than Jet Star, with better disease resistance! Jetsetter sacrifices nothing for its early maturity – delivers great “real tomato” flavor in large, 8 oz. fruits that are smooth, juicy, flattened globes, with consistently huge yields and good disease resistance. Indeterminate.

#00395. (A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each

La Roma III Hybrid VFFNAST

76 days. An excellent roma tomato known for its vigor and uniformity. Bright red, meaty fruits are large, 5 to 8 oz., and full of flavor. Disease resistant plants are very vigorous and produce fruit abundantly throughout the growing season.

The perfect variety for any home gardener who enjoys canning or making their own pastes and sauces. Determinate.

#00422. (A) pkt. (30 seeds) \$4.85; 3+ pkts. \$4.45 each

Lemon Boy Hybrid VFNAST

72 days. Lemon yellow, not golden, in color. Highly adaptable plants yield large, deep oblate fruits, averaging 6 to 7 oz. and about 3-1/2" across. Out yields all other “golden” tomatoes available. Mild-flavored and adds an inviting color to salads. Indeterminate.

#00427. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each; (G) 250 seeds \$17.75; 2+ \$16.55 each; 4+ \$13.35 each

Pink Girl Hybrid VFAST

76 days. Heavy producer of pink fruits, averaging 6 to 8 oz., that are extremely crack resistant and low in acid. Rich flavor and superior quality in a disease resistant variety. A season-long high yielder. Indeterminate.

#00556. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each; (G) 250 seeds \$17.75; 2+ \$16.55 each; 4+ \$13.35 each

Purple Boy Hybrid VFNT

65-70 days. A unique heirloom-type hybrid that offers something special to home gardens. Beautiful purple, beefsteak-type fruits have the vigor and disease resistance package typically offered by a hybrid, combined with the rich, traditional flavor that's expected of heirlooms. Round, 6 to 7 oz. fruits are packed with sweet flavor and a gorgeous color that looks great when sliced. Strong plants are heavy yielders. Highly resistant to Fusarium Crown, Root Rot and Tomato Mosaic Virus. Semi-indeterminate.

#00587. (A) pkt. (10 seeds) \$4.65; 3+ pkts. \$4.30 each

Rugged Boy Hybrid VFFNTSt LB

75 days. A tomato with beauty and brawn – tastes as good as it looks and is super tough on diseases! Smooth, 6 to 8 oz. red fruits grow on hardy, high yielding plants. Makes the perfect slicer for burgers and sandwiches. Great for container gardening. Good disease resistance. Determinate.

#00634. (A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each

Stellar Hybrid VFF LB

70-75 days. Beautiful red, round, 5 to 7 oz. delicious, slicing tomatoes are perfect for all uses. A high yielder, with excellent resistance to Late Blight, that stands tough in areas plagued with this disease. Also has intermediate resistance to Early Blight and Septoria Leaf Spot. All of these qualities make this an excellent variety gardeners can count on. To maintain the highest level of disease resistance, plant apart from other tomatoes. Ideal for small-space gardens and large containers. Determinate.

#00674. (A) pkt. (10 seeds) \$4.85; 3+ pkts. \$4.45 each

Tasti-Lee® Hybrid VFFFSt

72-75 days. Higher lycopene – up to 40% more than other varieties – gives fruit a rich, healthy red color inside and out and boosts antioxidant activity. A true tomato flavor – great in salads, sandwiches, salsa and sauces. Determinate.

#00755. (A) pkt. (10 seeds) \$5.05; 3+ pkts. \$4.55 each

Ultimate Opener Hybrid VF

57 days. More often than not, early-ripening tomatoes are undersized, have marginal flavor and color with way too many blemishes. This tomato, developed by the same breeder of Early Girl and Better Boy Hybrids, produces blemish-free fruits about 33% larger than Early Girl with marvelous flavor that's sweet and juicy. Strong, vigorous plants are capable of tremendous yields. Strong disease resistance. Indeterminate.

#00785. (A) pkt. (20 seeds) \$3.25; 3+ pkts. \$2.95 each; (D) 1/32 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

EARLY DOLL

Early Resilience Hybrid VFFAST LB

115 days. 2020 AAS Winner. An excellent variety for the home canner! Large, blocky roma tomatoes weigh up to 3-1/2 oz. each, are 2" in diameter and have uniform maturity. Great tasting fruits have a deep red interior and good quality flesh with the perfect balance of sugar to acid. Compact, bushy plants are perfect for containers. AAS judges noted its excellent resistance to Blossom End-Rot, resulting in high yields and less fruit loss. Compared to similar varieties, it had much healthier plants and fruits. Tolerant to Bacterial Canker of Tomato and Bacterial Spot. Determinate. #00243. (A) pkt. (10 seeds) \$3.45; 3+ pkts. \$3.15 each

EARLY RESILIENCE

Golden Rave Hybrid FT

67 days. Beautiful, golden yellow, up to 2 oz. fruits, are just 2" long. A romanita-type that will perform well in a wide range of climates. Sweet fruits have little or no cracking. If yellow tomatoes aren't your usual pick, try this variety – it will give you plenty to 'rave' about. Indeterminate.

#00318. (A) pkt. (15 seeds) \$4.95; 3+ pkts. \$4.50 each; (V) 100 seeds \$23.95; 2+ \$22.35 each; 4+ \$17.95 each

GOLDEN RAVE

Health Kick Hybrid FFTAST TSWV BS

72 days. A perfect saladette variety – healthy, fine-flavored, with better wilt resistance and fruits of the brightest red imaginable, thanks to 50% higher levels of the antioxidant lycopene. Juicy, plum-shaped fruits weigh about 4 oz. and are strongly disease resistant. Sets loads of fruit under average growing conditions. Plants grow to about 4 ft. tall if staked. Determinate.

#00342. (A) pkt. (30 seeds) \$4.25; 3+ pkts. \$3.95 each; (G) 250 seeds \$24.95; 2+ \$23.30 each; 4+ \$18.75 each

HEALTH KICK

Incas Hybrid VFF

70 days. A very early San Marzano type ripening as early as late June from an early April sowing. Bright red fruits weigh about 3 oz. and have firm, thick, meaty flesh with excellent keeping quality. Perfect for growing in large containers. Ideal in pastes, sauces, canning or used fresh. Determinate. #00370. (A) pkt. (15 seeds) \$3.55; 3+ pkts. \$3.25 each

INCAS

Kitchen Helpers

Fiskars® Fast-Prep Kitchen Shears

A unique design makes it easy to quickly cut herbs, veggies and even meat without a knife or cutting board. Engineered to maximize the power of your thumb and index finger to improve control. INVINCIBLE

Super Series – Totally Delicious!

HEIRLOOM MARRIAGE™ HYBRID SERIES

These varieties are produced from modern day unions of heirloom parents, providing hybrid vigor while maintaining the virtue and integrity of their old-fashioned beginnings. They were bred for improved yield, earlier maturity, fewer blemishes and the same old-time flavor we've all come to love. All are indeterminate.

Big Brandy

75-80 days. Pink beefsteak-type – a cross of Big Dwarf and Brandywine. 12 to 15 oz. #00077.

Cherokee Carbon

75-80 days. Purple beefsteak fruits, 10 to 12 oz., are full of rich flavor. A cross of Cherokee Purple and Carbon. #00172.

Genuwine

70-75 days. Slicing type – a cross of Costoluto Genovese and Brandywine. 10-1/2 to 11-1/2 oz. #00279.

Marziner

70-75 days. Meaty, 2 to 3 oz., bright red roma/paste fruits are great for salsas, canning and cooking. A cross of San Marzano and Cream Sausage. Plants produce heavy yields. #00171.

Prices, above 4, per variety: (A) pkt. (15 seeds) \$3.95; 3+ pkts. \$3.65 each

INDIGO™ SERIES

These uniquely colored tomatoes are all high in anthocyanin (a powerful antioxidant with disease fighting properties) – making them among the healthiest tomatoes in the world and is also what causes the blue pigment.

Allow fruits to fully mature for best flavor.

Apple

70-75 days. A cross between Indigo Rose and a red cherry tomato. The unripe green fruit, 2 to 4 oz., will show lots of purple, which is brought on by sunlight, but will eventually turn almost a true black. Excellent sweet tomato flavor. Indeterminate. #00365. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.65 each

Blue Beauty

80 days. A cross between Beauty King and a blue tomato. Meaty pink, 4 to 8 oz., beefsteak fruits, with lovely dark, blue-black shoulders. Holds well on the vine for extended periods. Sunburn and crack resistant. Very good flavor. Indeterminate. #00366. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.65 each

Blue Berries

75 days. An eye-catching cherry tomato which ripens from amethyst purple to a stunning, almost black, with a brick red bottom. Flavor is great and is an all around crowd pleaser. Indeterminate. #00374. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.65 each

Cherry Drops

65 days. (PVP) This stunning cocktail cherry, with excellent sweet flavor, may just be the best-tasting Indigo yet! Round, 1" fruits have indigo shoulders with rosy undersides and deep red flesh. Expect huge yields – potentially 500 to 1,000 fruits per plant under ideal growing conditions! Indeterminate.

#00364. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.65 each

Kumquat Hybrid

75 days. A cross between Indigo Rose and a yellow cherry tomato. Tangerine-orange, oval shaped fruits, with indigo shoulders, weigh 1 oz. and grow in clusters of up to 8. Semi-sweet flavor with an excellent fragrance. Semi-determinate. #00375. (A) pkt. (10 seeds) \$6.35; 3+ pkts. \$5.75 each

LITTLE HYBRID SERIES

Compact plants have a tidy habit and healthy green foliage. At less than 24" tall, they flourish in containers, stay a manageable size and produce lots of tomatoes in a period of a few weeks for a large harvest. Fruits are delicious fresh or in your favorite recipes. Small trellises can be used if needed. Both are determinate.

Bing VFF

60-65 days. Bright red, 1" cherry fruits. #00435.

Napoli VF

60-65 days. Bright red, pear shaped, 2 to 2-1/2 oz., roma fruits are meaty and full of flavor. Harvest enough at one time for a batch of your favorite sauce or some delicious homemade salsa. #00441.

Prices, above 2, per variety:

(A) pkt. (15 seeds) \$3.95; 3+ pkts. \$3.65 each

MOUNTAIN DELIGHT

MOUNTAIN FRESH PLUS

MOUNTAIN MAGIC

MOUNTAIN MAJESTY

MOUNTAIN MERIT

MOUNTAIN PRIDE

OUR FAMOUS MOUNTAIN HYBRID SERIES

Working at NC State University's Mountain Crops Research Station, Randy Gardner, Ph.D., developed a family of exceptional fresh market varieties particularly well-adapted to the Southeast. While bred especially for mountain regions and higher elevations, nationwide trials have suggested that the series is well adapted everywhere! Ideal for the home garden or fresh market.

Delight VFF

70 days. Similar to Mountain Fresh Plus and Mountain Spring, but plants are more compact with slightly higher yields. Fruits are 10 oz. and packed with flavor. Determinate.
#00487. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each;
(D) 1/32 oz. \$10.50; 2+ \$9.80 each; 4+ \$7.95 each

Fresh Plus VFFN EB

79 days. Smooth, clean fruits, often exceeding 3-1/2", are 10 to 12 oz., have uniform color and great flavor. Plants provide good leaf cover so fruits are protected from sunscald. Produces good yields. Smooth blossom scar. Determinate.
#00490. (A) pkt. (30 seeds) \$4.95; 3+ pkts. \$4.50 each;
(G) 250 seeds \$22.25; 2+ \$20.65 each; 4+ \$16.75 each

Magic VFF EB LB

72-75 days. Heirloom qualities meet modern day disease resistance in a supersweet, Campari-type tomato. Heavy producer of round, to deep round, 2 oz. fruits that are uniformly red inside and out with a long shelf life. Tolerant to Early Blight and highly resistant to Late Blight – both huge threats to tomatoes. In flavor taste tests Mountain Magic held it's own against heirloom varieties. Indeterminate.
#00495. (A) pkt. (10 seeds) \$5.45; 3+ pkts. \$4.95 each

Majesty VFF TSWV

78 days. Good yields of high quality, deep oblate to flattened globe shaped, extra large fruits have the ability to stay firm when fully ripe. If you love the other varieties in this series, you will definitely want to include this deep red beauty in your garden. Vigorous plants offer heavy foliage to protect fruits. Includes intermediate resistance to Tomato Spotted Wilt Virus. Good crack resistance. Determinate.
#00494. (A) pkt. (10 seeds) \$4.25; 3+ pkts. \$3.95 each

Merit VFFN TSWV EB LB

75 days. 2014 AAS Winner. A praise-worthy variety offering multiple resistances not typically combined in most varieties. Deep red, 8 to 10 oz. fruits are firm, oblate to flattened, with generally smooth blossom end scars – makes the perfect slicing tomato. A fresh market variety with excellent resistance to cracking. Determinate. #00497. (A) pkt. (10 seeds) \$3.75; 3+ pkts. \$3.45 each

Eco Friendly Helpers

Cowpots™

Made from 100% natural composted cow manure, completely odorless and biodegradable. As plants grow, roots are able to penetrate the sides of the pot for better root growth, while absorbing valuable nutrients. Transplant directly into the soil, so there is no transplant shock. Pots fully decompose within weeks, leaving valuable nutrients and organic matter behind. Environmentally friendly.

#54375. 3" Pots, Pkg. of 12, \$8.95; 2+ \$7.95 each
#54376. 4" Pots, Pkg. of 12, \$10.95; 2+ \$9.95 each

EcoGrow™ Enviro-Grow Containers

Made from recycled paper and natural ingredients that breakdown over time. Ideal for transplanting seedlings or starting seeds indoors, holds up through watering. Fiber material breathes like clay to keep roots healthy. At planting time, peel off the bottom of the pot, position in the hole, place the bottom beside it and fill with soil. Completely compostable and biodegradable. Made in the U.S.
#54320. 3-3/4" Round Pots, 10 for \$3.95; 50 for \$17.50

WILD BOAR SERIES

An introduction from Brad Gates, a small organic farmer, tomato breeder and grower of heirlooms since 2000. Mr. Gates, owner of Wild Boar Farms, has bred numerous tomatoes, hand picking his varieties based on flavor from over 1,000 heirlooms, crosses and hybrids. His main focus is on bicolor and striped fruits with extreme flavor and fascinating looks. Performs exceptionally well for home and market gardeners – even in areas with challenging climates. Several varieties were featured in the July/August 2013 issue of Martha Stewart Living magazine. These are sure to be some of the prettiest, tastiest and most unique tomatoes you'll ever grow and eat! All varieties are indeterminate.

Beauty King

75-90 days. Possibly one of the best looking and tasting, red and yellow bicolor striped tomatoes you'll ever try! Very sweet fruits can grow up to 20 oz. each and have meaty yellow flesh with bright red streaks. A cross between Big Rainbow and Green Zebra. #00820.

Evan's Purple Pear

75 days. Attractive 2 oz. fruits have exceptionally rich flavor and are a cross between Pruden's Purple (pg. 27) and another small fruited variety. Great fresh, in sauces, pastes and canning. Potato leaved plants produce heavy yields. #00255.

Janet's Jewel

90 days. Large, bright orange striped, beefsteak fruits – many weighing over 1 lb. each! Very meaty and sweet tasting with fruity undertones. Late but worth the wait. #00819.

Large Barred Boar

65-75 days. Unique pinkish brown tomatoes with metallic green stripes, weigh 8 to 12 oz. Flattened beefsteak fruits are very meaty and extremely flavorful. #00809.

Mint Julep

75 days. Also known as Michael Pollan. Unique plum/pear shaped, 1-1/2 oz. fruits have a pleasant tomato taste with a nice overall sweet flavor that is less tart than other green varieties. Extremely high yields with one plant often producing as much as 5 gallons of fruit! #00810.

Pineapple Pig

75 days. Large, creamy yellow bicolor striped with rose blush. Meaty fruits grow up to 1 lb. each and are low in acid with sweet flavor. You might try it for the name, but the flavor will keep you coming back. #00817.

Pink Berkeley Tie-Dye

65-75 days. Large beefsteak fruits are the color of port wine with metallic green stripes and weigh 8 to 12 oz. Its excellent sweet flavor was put to the test against Cherokee Purple in farmers markets taste tests and was preferred every time. #00811.

Solar Flare

75 days. Strikingly gorgeous red fruits are 6 to 10 oz. beefsteaks with gold stripes. Luscious and meaty with a slightly sweet full tomato flavor. Good Scab resistance. #00814.

Sweet Carnenos Pink

65 days. Beautiful rose and gold striped, 2 to 4 oz. round fruits have a deliciously sweet, slightly tangy gourmet flavor. High yields and crack-resistant. #00816.

Prices, above 9, per variety: (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each

Soil Testing & Analyzing

Electronic Soil Tester

Tests soil pH and fertilizer levels in a quick, one-minute test. Directions include ideal pH range for 350 plants and easy guidelines for soil correction. Convenient slide switch. Requires one AA battery, not included. #51309. \$24.95

4-Way Analyzer

Measures the four most important aspects of plant health – light, soil moisture, soil pH and soil fertility. It determines the light level where the plant is located, and the moisture level where it counts – at the roots. Soil pH is measured on a scale of 0 to 9, and a combined Nitrogen, Phosphorus, Potash reading is determined using USDA standards. No batteries required. One year manufacturer's warranty. #51307. \$34.95

Professional Soil Test Kit

For the homeowner desiring accurate, detailed soil analysis at a reasonable cost. Kit contains 10 tests each of soil pH, Nitrogen, Phosphorus and Potash. Includes instructions for amending soils based on test results. Packed in a sturdy plastic carrying case. #51345. 40 Test Kit, \$19.95 #51346. Supersized 80 Test Kit, \$29.95

Large Open-Pollinated Tomatoes...

Varieties on pages 22-28 typically grow fruits 10 oz. and larger

ABRAHAM LINCOLN

Abraham Lincoln Original

87 days. Beautiful dark red fruits are sweet and meaty. Fruits are smooth, free from cracks and seams, and – although large – ripen all the way through. Ideal for ketchup, juice or slicing. Indeterminate. #00014. (A) pkt. (20 seeds) \$2.95; 3+ pkts. \$2.70 each; (D) 1/32 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

Amana Orange

90 days. Discovered by a gardener in Florida and named after a town he was fond of. Features large, up to 5" in diameter, mild beefsteak fruits of a distinctive orange color. Indeterminate. #00026. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.70 each; (D) 1/32 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

AMANA ORANGE

Ananas Noire

85 days. Also known as Black Pineapple. Large, dark-purple fruits averaging up to 1-1/2 lbs. have a distinctive, streaked interior of pink, red, green and yellow. Green-shouldered fruits deliver a complex, hearty tomato taste that's both sweet and rich, with smoky and acidic undertones. Makes a great tomato sauce! Needs space – regular leaf plants are large and sprawling, but earn their keep with heavy yields. Indeterminate. #00031. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each

Anna Russian

65-70 days. This luscious heirloom was reported to have been brought to Oregon by a Russian immigrant generations ago. Pinkish-red, heart-shaped fruits are large, early and juicy with outstanding flavor and weigh up to 1 lb. Wispy foliage on hardy vines. Indeterminate. #00037. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

ANANAS NOIRE

Artisan™ Orange Jazz

85 days. A large variety from the Artisan Series (pg. 33) with outstanding flavor and just a hint of fresh peach sweetness! Unique, orange beefsteak-type, 10 to 16 oz., fruits are brushed with yellow stripes. Vigorous vines produce heavy yields. #00054. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.65 each

Aunt Ruby's German Green LB

80 days. Heirloom beefsteak with a deliciously sweet flavor enhanced by a spicy undertone. Globe-shaped, 12 to 16 oz. fruits have light green, smooth skins at maturity and just a hint of yellow. Flesh is green blushed with pink, meaty and flavorful. Makes interesting juice! Indeterminate. #00043. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (D) 1/32 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

ANNA RUSSIAN

BOX CAR WILLIE

BLACK KRIM

Beefsteak

80 days. Large, flattened, solid, meaty, juicy, brilliantly red fruits are slightly ribbed and weigh up to 2 lbs. each. An excellent slicer, with a rich, sub-acid flavor. Indeterminate. #00065. (A) pkt. (50 seeds) \$2.95; 3+ pkts. \$2.70 each; (F) 1/16 oz. \$5.50; 2+ \$5.15 each; 4+ \$4.15 each

Black From Tula

80-85 days. A robust Russian heirloom and one of the largest of the dramatic blacks, with dark, greenish-black shoulders on dark, brownish-red, slightly flattened fruits that grow 3 to 5" in diameter. Full-flavored, chocolate-brown flesh, with green gel, is rich and satisfying. Performs well in dry conditions. Indeterminate. #00094. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$6.75; 2+ \$6.30 each; 4+ \$5.05 each

Black Krim LB

69 days. A most unusual novelty. Fruits, 8 to 12 oz., are a dark, deep red (almost a shiny black) with heavy green shoulders. Interior is a deep, reddish-green color. Sweet and tasty. Matures extremely early. Indeterminate. #00095. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (D) 1/32 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Box Car Willie

80 days. We predict this old-timer might become your main crop variety. Prolific yields of smooth, reddish-orange fruits average 10 to 16 oz. each. With an old-fashioned flavor you'll remember from childhood, these high-yielding, multi-use tomatoes will last throughout the season and are ideal for canning, freezing or for home-cooked meals. Crack resistant. Indeterminate. #00103. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

Weedcomb

This customer favorite effortlessly comb out weeds! Grabs weeds and grass by the crown and pulls them out. Weeds get stuck in the teeth so you remove and clean up with one action. Aerates the soil at the same time to promote root growth and water penetration. The comfortable, ergonomic handle features a softer, more comfortable foam and a new thumb screw tightening design so an extension handle can be added. Made of steel and plated with rust-resistant zinc for a lifetime of use. Measures 14" long. #53093. \$19.95 each

ARTISAN™ ORANGE JAZZ

AUNT RUBY'S GERMAN GREEN

BEEFSTEAK

BLACK FROM TULA

Phone Toll-Free (800)345-5977

Brandywine EB LB
90-100 days. Heirloom dating back to the 1880's. Potato leaf plants with good yields of extra-large, up to 1-1/2 lbs., clear-skinned, light rosy-pink fruit. Considered one of the world's best-flavored tomatoes. Indeterminate. #00112.

Brandywine, Black

90-100 days. A prolific yielder whose novel, black, up to 1 lb. fruits are well-formed, oval shaped, with "real tomato taste" on potato leaf plants. Indeterminate. #00091.

Brandywine, Orange

80 days. The latest member of our Brandywine family and some say the best pure orange beefsteak available. Potato leaf plants produce enormous yields of meaty 1 lb. fruits that have a superb flavor and a nice smooth texture. Enjoy fresh, in salads, salsas and more. Indeterminate. #00109.

Brandywine, Red

90-100 days. Pennsylvania Amish heirloom dating to 1885. Delicious, scarlet-red fruits weigh up to 2 lbs. Regular leaved plants. Indeterminate. #00600.

Brandywine, Yellow

90-100 days. Prolific yields of golden-yellow, flattened, semi-irregular, up to 2 lb. fruits. Potato leaf. Indeterminate. #00830.

Prices, above 5, per variety:

(A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each;
 (D) 1/32 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

#00875(X). Get 1 packet each of all 5 Brandywines for just \$11.35

Carbon

80 days. Rich, complex flavors made this variety the winner of heirloom tomato taste tests at Cornell University. One of the darkest black tomatoes we offer. Produces large, 10 to 12 oz. crack resistant fruits – similar to Cherokee Purple. Excellent for salads and sandwiches. Indeterminate.

#00155. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each

Caro Rich

80 days. Large, beefsteak-type, 10 to 12 oz. fruits get their deep golden-orange color from their high vitamin content, particularly that of beta-carotene (10 times as much as most tomatoes). Heavy production of 3-1/2", nearly globe-shaped, smooth fruits. Very low in acid for a nice, sweet flavor. Indeterminate.

#00158. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each; (D) 1/32 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Caspian Pink

80 days. The first tomato to beat Brandywine in taste tests! We all love Brandywine, generally considered to be the world's finest flavored tomato, but in California trials, heirloom Caspian Pink beat Brandywine for several years! Originally grown in Russia in the area between the Caspian and Black Seas. Fruits average 12 oz. Indeterminate.

#00170. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each;
 (D) 1/32 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Cherokee Purple
80-90 days. A reliable producer of unusual, medium pink-purple fruits that appear brown in color, and average 10 to 12 oz. each. Fruits are round to oblate, with no cracking. Tolerant to mild drought. Indeterminate.

#00188. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each;
 (D) 1/32 oz. \$10.95; 2+ \$10.25 each; 4+ \$8.25 each

Climbing Trip-L-Crop (Italian Tree)

85 days. Enormous yields, on vigorous potato leaf vines which may grow up to 25 ft. and should be trellised. Produces 2 to 3 bushels of red, meaty fruits, each measuring up to 6" across. Great for canning. Indeterminate.

#00380. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each;
 (F) 1/16 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Comstock Sauce and Slice

80-85 days. An Italian variety originally introduced in the early 1980's. Beautiful, meaty, deep-red, roma shaped fruits weigh up to 1 lb. and have very few seeds. A dual-purpose variety excellent for canning, pastes, sauces and fresh eating. Indeterminate.

#00202. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each

Cuore de Toro (Bull's Heart)

89 days. This Italian heirloom, a huge, pink Oxheart-type, weighs in at a gigantic 2 lbs. or more! Abundant, 4" fruits on vigorous plants are a colorful pinkish-red with a wonderful sweet flavor. Indeterminate.

#00209. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.70 each;
 (D) 1/32 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

DELICIOUS

Delicious

77 days. An excellent slicer. Most fruits weigh over 1 lb. – many 2 to 3 lbs. and even held the Guinness World Record of 7+ lbs. for a single fruit for 28 years! Plants produce smooth and solid fruits that seldom crack, with small cavities, nearly solid meat, and excellent flavor. Developed from Beefsteak after years of careful selection. Indeterminate.

#00131. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.70 each; (F) 1/16 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

DESTER

Dester

80 days. This German heirloom has won numerous taste test competitions! Large, 1 to 2 lb., pink beefsteak fruits with rich, sweet flavor are excellent for eating fresh or canning – a great one slicer. Gardeners will love this heavy yielding variety. Indeterminate. **#00217. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.70 each**

Dinner Plate

90-100 days. Large red fruits averaging 1-1/2 to 2 lbs. each are radially flattened and heart-shaped. Fine quality flesh has excellent flavor. Indeterminate.

#00216. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (D) 1/32 oz. \$8.95; 2+ \$8.40 each; 4+ \$6.75 each

Dixie Golden Giant

85-100 days. An unusual heirloom, grown by the Amish since the 1930's. Huge, golden-yellow beefsteak tomatoes have a delicious, fruity flavor with few seeds. Fruits grow 1 to 2 lbs., mature earlier than similar varieties and may feature a pink blush on the blossom end. Very vigorous vines. Indeterminate.

#00219. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

DINNER PLATE

Dr. Wyche's Yellow

80 days. Don't be fooled by the light-yellow color – there's nothing pale about the flavor of this rich-tasting beefsteak! Slightly flattened fruits, weighing up to 1 lb., have flesh that is almost porous, meaty and blemish free. Fruits mature to golden-orange. Indeterminate.

#00227. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.70 each; (F) 1/16 oz. \$7.95; 2+ \$7.45 each; 4+ \$5.95 each

Fireworks

60 days. Exploding with a sweet, but well-balanced, flavor and one of the largest super-early, slicing varieties we offer. Plants produce high yields of 8 to 12 oz. bright red, slightly flattened, 2 to 3" meaty fruits. Excellent for salads and sandwiches. Indeterminate.

#00258. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each

GREAT WHITE

GRANNY CANTRELL'S

GIANT BELGIUM

GERMAN JOHNSON PINK

DR. WYCHE'S YELLOW

FIREWORKS

GEORGIA STREAK

GERMAN HEAD

Georgia Streak

90 days. Lovely bicolor fruits are rich gold, blushed with a delicate pink. As if that wasn't enough, the real surprise is inside – the firm flesh is streaked with red! Large, globe-shaped fruits weigh 1 to 2 lbs., and have a sweet, yet hearty, flavor. Indeterminate.

#00280. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each; (D) 1/32 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

German Head

80-90 days. An old-time favorite with large, beefsteak-type, dark pink, crack-free fruits that have a delicious flavor and weigh 1 to 2 lbs. A nice fresh market variety. Excellent yielder. Indeterminate.

#00283. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.70 each; (D) 1/32 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

German Johnson Pink

80 days. A potato leaf version of the heirloom German Johnson. Vigorous, potato leaf vines produce mildly-flavored, meaty, rough, 12 to 24 oz. fruits with pink skin, yellow shoulders, and low acid flavor. May contain a small percentage of regular leaf plants. Highly rated for flavor and yield. Indeterminate.

#00289. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

Giant Belgium

82-90 days. One of our most popular heirlooms. Huge, sweet fruits average 1 to 2 lbs. and have weighed in at nearly 5 lbs.! Dark pink fruits have smooth blossom ends and a low acid, mild flavor, so sweet that some growers use them to make wine. Solid meat and size means one slice per sandwich! Indeterminate.

#00299. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

Granny Cantrell's

85 days. Original seeds were given to Lettie Cantrell from a World War II soldier returning home from Germany. Beefsteak-type fruits weigh up to 2 lbs. and are slightly flattened. Delicious for fresh eating, cooking and canning. The perfect one-slicer for sandwiches and burgers. Won a Best of Taste award in 2006. Heavy yields. Indeterminate.

#00327. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.70 each

Great White

80 days. A magnificent, almost perfect, "white" tomato with low acidity and few seeds. Good drought and crack tolerance. Fruits are protected under vigorous, heavy foliage. Indeterminate.

#00323. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (D) 1/32 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

Genuine Classic Flavor ...

Henderson's Pink Ponderosa

80 days. First introduced in 1891 by Peter Henderson & Company, who claimed it to be their most popular tomato ever and remains a home gardener's favorite today! Extra large, pink, beefsteak-type fruits weigh one pound or more – some often weighing as much as 2 lbs.! Rich and meaty flesh is thick and delicious. Great for slicing and canning. Indeterminate.

#00358. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each

Hillbilly

85 days. This heirloom hails from the hills of West Virginia, where they know a superb tomato when they see one! Huge, mildly-flavored, beefsteak-type fruits weigh 1 to 2 lbs. each, are low in acid and a most unusual orange-yellow, streaked and mottled in shades of red and pink. Regular potato leaf variety. Indeterminate.

#00347. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (F) 1/16 oz. \$7.95; 2+ \$7.45 each; 4+ \$5.95 each

Italian Giant Beefsteak

83-85 days. This blockbuster of a beefsteak was brought over from Italy in the early 1900's, and still rules the garden for sheer size, with some fruits growing larger than two fists! Deep red, flattened fruits average 1 lb. and are 4" in diameter – meaty and delicious, yield after impressive yield. Indeterminate.

#00373. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$8.95; 2+ \$8.40 each; 4+ \$6.75 each

Kellogg's Breakfast

80-85 days. Lovely, pale-orange fruits are solid and meaty throughout, packed with mild, superb tasting flesh. A long-season producer of large, beefsteak-type fruits, up to 1 lb. with solid centers that have just a few seeds at the edges. Very desirable! Indeterminate.

#00415. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each; (D) 1/32 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

Kentucky Beefsteak

115 days. An old heirloom from the hills of its namesake, eastern Kentucky. Like most beefsteaks, the fruits are enormous, often weighing as much as 2 lbs. and lack much of the roughness usually associated with heirloom beefsteak-types. Fruits are actually quite attractive – globe to oval-shaped and a beautiful deep orange in color. Indeterminate.

#00418. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.70 each; (F) 1/16 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

Lillian's Yellow Heirloom

95-98 days. Magnificent, clear-yellow, globe-shaped, beefsteak-type fruits weigh up to 1 lb. each. Mild flesh is so rich in flavor, it actually has a creamy taste on the tongue. Vigorous, potato-leaved plants are unique in such a large-fruited, yellow variety, and provide cover for heavy yields. Local heirloom from Manchester, Tennessee. Indeterminate.

#00436. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

Missouri Pink Love Apple

75-85 days. This heirloom has been grown since the Civil war by Grandpa Barnes, who grew it as an ornamental, believing (as many people did at the time) that tomatoes or "love apples" were poisonous. Big, pink beefsteak-type, 3" fruits are slightly sweet with a juicy, meaty texture. Potato leaved plants are heavy yielders. Indeterminate.

#00476. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each

Mortgage Lifter

75-85 days. Also called Radiator Charlie. Long-time favorite with good yields of very large, 1 to 2 lb., smooth, pink-skinned fruits even in droughts. Very meaty fruits with few seeds, much like Giant Belgium (pg. 24), but not quite as large. Very mild, delectable, sweet flavor. Indeterminate.

#00481. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

PERSIMMON

PAUL ROBESON

OMAR'S LEBANESE

ORANGE STRAWBERRY

OXHEART, GIANT

OXHEART, ORANGE

Orange Strawberry

80 days. Lovely, heart-shaped fruits have pointed tips and are almost blemish-free. Strong, sweet taste in juicy fruits that are a vibrant, deep orange in color when mature, averaging 8 oz. to 1 lb. Don't be fooled by the wispy leaves – plants are very vigorous and high yielding. Indeterminate.
#00529. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each; (D) 1/32 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

Oxheart, Giant

90 days. This well-named giant produces large, 12 oz. to 2 lbs., firm, meaty, heart-shaped, pink fruits with thick walls, few seeds and a mild flavor. Vigorous vines produce high yields of fruits that mature late but are well worth the wait! Indeterminate.
#00300. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (F) 1/16 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Oxheart, Orange

80 days. Strong vines yield numerous large, 3", vibrant golden orange, oxheart-shaped, 10 to 12 oz. fruits. Meaty, with a delicious, well-balanced flavor. Tremendous eye appeal. Indeterminate.
#00527. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (D) 1/32 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

Paul Robeson

80-90 days. A Russian heirloom that continues to be a favorite in taste test competitions! Brick red, 8 to 12 oz., fruits have dark green shoulders and red flesh. Flavor is exceptional with a nice balance of sweetness and acidity. Named in honor of Paul Robeson, the famous opera singer and civil rights activist. Indeterminate.
#00540. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each

Persimmon

80 days. Great flavor and eye appeal! Large, plump, golden-orange fruits average 1 to 2 lbs. – meaty, with luscious flavor and only a few seeds. Vigorous plants produce good yields. Indeterminate.

Heirlooms... All-Around Goodness!

Pineapple
85-90 days. Enormous, uniquely-patterned, yellow-red striped fruits will be the center of attention. Beefsteak-type fruits easily grow 5" and larger, are orange-yellow with red streaks and no green shoulders. Meaty flesh has a nice mild flavor. Heavy-foliaged plants produce good yields. Indeterminate.

#00553. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each; (D) 1/32 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.95 each

Ponderosa Pink

80 days. Extra-large, up to 1 lb., beefsteak-type fruits, like Ponderosa Red, but rosy-pink. Almost seedless, with low acidity and meaty flesh. Indeterminate.

#00577. (A) pkt. (50 seeds) \$2.95; 3+ pkts. \$2.70 each; (F) 1/16 oz. \$5.75; 2+ \$5.40 each; 4+ \$4.35 each

Ponderosa Red

80 days. This old-time favorite is an extra-large, up to 1 lb., beefsteak-type with mild flavor. Almost seedless, with low acid, solid, meaty, deep red flesh. Vigorous vines produce heavily. Indeterminate.

#00580. (A) pkt. (50 seeds) \$2.85; 3+ pkts. \$2.60 each; (F) 1/16 oz. \$5.75; 2+ \$5.40 each; 4+ \$4.35 each

Pruden's Purple

75 days. Large, 10 oz. to 1 lb., dark pink, nearly purple fruits mature quite early, with the delicious flavor and good production that heirlooms are known for. Potato-leaved vines. Indeterminate.

#00592. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (D) 1/32 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

Rainbow (Big Rainbow) LB

80-85 days. Very large, orange fruits, with red spots or streaks, grow up to 4-1/2" in diameter and weigh up to 2 lbs. Firm, meaty flesh with low acidity, produces a delicious flavor that's ideal in a variety of dishes or eaten plain. Indeterminate.

#00595. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (D) 1/32 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

Rainbow Beefsteak Blend

77-115 days. This eye-catching mix of colorful tomatoes has continued to impress our customers the same, if not more, as our Gourmet Rainbow Pepper Blend (pg. 43). Blend contains a full spectrum of pink, red, yellow, green, black and orange varieties, with fruits ranging from 12 oz. to 3 lbs. Indeterminate.

#00596. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (D) 1/32 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

Rose

75-80 days. An Amish heirloom from Pennsylvania. Large, crack resistant, 10 oz. fruits are meaty and dusty rose colored. Flavor is excellent, and is considered by some to rival Brandywine (pg. 23). Plants are vigorous and strong with good leaf cover. Indeterminate.

#00620. (A) pkt. (20 seeds) \$3.10; 3+ pkts. \$2.85 each

Soldacki

75 days. Poland sends us this heirloom variety, memorable for its low acid and intensely sweet flavor. Dark pink fruits, flattened in shape, weigh about 1 lb. and are packed with firm flesh inside thin skins. Indeterminate.

#00663. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

Striped German

80 days. Considered by many to be one of the most popular bicolored beefsteak tomatoes ever grown! Large 12 to 16 oz. fruits – some weighing in at almost 2 lbs.! – are slightly ribbed and yellow with red marbling, inside and out. A delicious beauty when sliced and also makes a great canning tomato. Meaty fruits have a complex tropical flavor and an excellent smooth texture. Heavy yielder. Indeterminate.

#00672. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each

Tasmanian Chocolate

70 days. A unique dwarf variety! Sturdy, 2 to 3 ft. plants, with dark green rugose foliage, produce large, 8 to 12 oz., beefsteak-type fruits that ripen to a beautiful mahogany red. Full of delicious, balanced flavor and perfect for eating fresh or cooked. A cross between New Big Dwarf and Paul Robeson. Great for small spaces and containers. Dwarf determinate.

#00752. (A) pkt. (15 seeds) \$3.95; 3+ pkts. \$3.65 each

Vintage Wine

85 days. One of the very few pastel-hued tomatoes. A favorite of gourmet grocers, with attractive, 1-1/2 lb., pale pink fruits set off by golden stripes. Elegant, sweet and tasty, with a nice, mild flavor that compliments most dishes. Tall, 78" plants with potato-leaved foliage. Indeterminate.

#00796. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each

VIRGINIA SWEETS

Virginia Sweets

80 days. This bicolored heirloom is sure to become one of our most popular varieties. Enormous 1 lb. dark yellow, beefsteak-type fruits, with red stripes are stunningly beautiful. Full of rich, super sweet flavor with just the right amount of acid. Perfect for salads, slicing and cooking. Heavy yields. Indeterminate.

#00801. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each

Watermelon Beefsteak

75 days. An heirloom from the 1800's, with good, old-fashioned flavored fruits weighing 2 lbs. or more. Pink-skinned and very mild, with purplish-red flesh. Indeterminate.

#00803. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (D) 1/32 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

Wherokowhai

75 days. Also known as *Lucky Cross Dwarf*. A unique dwarf variety that produces large, 8 to 12 oz. beefsteak-type fruits with an excellent sweet flavor. Sturdy plants, with dark green rugose foliage, grow just 2 to 3 ft. tall and are loaded with fruit. Great for small spaces and container gardening. Wherokowhai means red/yellow in the native New Zealand language and is pronounced fer-dow-co-fi. Developed by the Dwarf Tomato Project. Dwarf Indeterminate. **#00429. (A) pkt. (20 seeds) \$3.55; 3+ pkts. \$3.25 each**

WATERMELON BEEFSTEAK

WHEROKOWHAI

Amish Paste

74 days. Dates back to the turn of the century, and is the best for sauces and canning. Deep red fruits, about 8 oz., are large for canning types with "real tomato" flavor. Not overly acidic. Indeterminate.

#00029. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (D) 1/32 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Arkansas Traveler

90 days. Bred at the University of Arkansas by Joe McFerran as an updated version of this region's famously high quality pink tomatoes. Fruits are rough, medium-sized, about 6 oz., with an excellent, creamy, mild flavor. Highly adaptable. Indeterminate.

#00040. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each; (F) 1/16 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Black Sea Man

75 days. A hardy Russian heirloom that looks oddly attractive but tastes delicious. Rich, tangy tomato flavor in medium-sized, up to 8 oz. fruits, with brown-black skins and pink shoulders. Fruits are slightly plum-shaped, revealing skeleton-like veins when blanched and peeled. Short, potato leaf plants. Determinate.

#00089. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each

ARKANSAS TRAVELER

BLACK SEA MAN

Wins All

80 days. An offspring of Ponderosa Pink (pg. 27), developed by a breeder in the 1920's for improved consistency and flavor. Produces moderate to high yields of blemish-free, 1 lb. fruits that are pink, round and juicy. The flavor is complex and rewarding – sweet and tangy, but never overwhelming. Robust potato-leaved plants, with heavy cover, resist foliage diseases and Blossom End-Rot. Indeterminate.

#00825. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.70 each; (D) 1/32 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Yellow Giant Belgium (Goldie)

85-95 days. Since the early 1800's, this heirloom has been widely grown for its vigorous vines that produce loads of giant, slightly flattened golden globes, with mild flavor. Tasty, non-acidic fruits are highlighted by smooth blossom ends. Indeterminate.

#00836. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (D) 1/32 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

Medium To Large Favorites

Varieties on pages 28-31 typically grow fruits 6 to 10 oz.

Bonny Best

72 days. An old-time favorite producing 8 to 10 oz. globed-shaped fruits that are solid and meaty. Highly adaptable and performs especially well in the North. Indeterminate.

#00100. (A) pkt. (50 seeds) \$2.85; 3+ pkts. \$2.60 each; (F) 1/16 oz. \$5.50; 2+ \$5.15 each; 4+ \$4.15 each

Bush Beefsteak

62 days. The perfect sandwich-sized fruit! Solid-fleshed fruits are a deep, rich red and average 8 oz. Vigorous, bushy plants are high yielders. Determinate.

#00145. (A) pkt. (50 seeds) \$2.85; 3+ pkts. \$2.60 each; (F) 1/16 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

Campbell's 33 VFA

69 days. Produces medium-early 7 oz. fruits that are oblate, bright red, with green shoulders and good interior color. Sets fruit well under unfavorable conditions, with tolerance to cracking and good disease resistance. Determinate.

#00150. (A) pkt. (50 seeds) \$2.85; 3+ pkts. \$2.60 each; (F) 1/16 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

Old-Fashioned, Yet Trendy...

Cherokee Green

72 days. A selection from the ever popular heirloom Cherokee Purple (pg. 23) and possibly one of the best green tomatoes you'll ever grow! Medium-sized, green fruits weigh 8 oz. or more each and show some yellowish-orange color on the blossom end when ripe. Flesh is full of bold, acidic, complex tomato flavor that green varieties are known for. Plants need to be staked for best garden performance. Bred and selected by Craig LeHoullie. Indeterminate. #00159. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each

Costoluto Genovese

90 days. An excellent performer in both gardens and greenhouses. Plants are vigorous and produce ribbed, firm, fleshy fruits weighing up to 7 oz., with a delicious sweet flavor. Indeterminate. #00203. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

Get Stuffed!

75 days. Fruits are shaped like bell peppers, are completely hollow and possibly the boldest striped variety available. Fruits average 5 to 7 oz. and have a delicious classic tomato flavor. Create unique, eye-catching presentations in recipes requiring stuffing tomatoes or bell peppers. Good yields. Tolerant to Powdery Mildew. Indeterminate. #00294. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each

Giallo De Summer

75 days. An attractive, tasty beefsteak with true yellow to pale orange skin and yellow flesh. Fruits weigh 6 to 7 oz. with a juicy, sweet flavor that is surprisingly pleasant for a yellow tomato. Excellent for growing in hot, humid areas. Indeterminate. #00297. (A) pkt. (10 seeds) \$2.85; 3+ pkts. \$2.60 each

Golden Jubilee A

72 days. Mild flavor and low acidity make this one of the best varieties for tomato juice. Bright, golden-orange fruits, 2-1/2 to 3" in diameter, average 6 to 7 oz. each and have meaty, thick walls. Fruits are solid, with few seeds. Medium-sized plants need staking, and produce high yields, making them ideal for home gardens and fresh markets. Indeterminate. #00316. (A) pkt. (50 seeds) \$2.85; 3+ pkts. \$2.60 each; (F) 1/16 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Heinz 1370 FAST

75-77 days. Excellent for fresh markets, as well as making ketchup, purées and sauces, as its name suggests! Fruits resist cracking and plants feature good foliage cover. Smooth, round, 4 to 6 oz. globes. Good disease resistance and high meat content. Determinate. #00344. (A) pkt. (50 seeds) \$2.85; 3+ pkts. \$2.60 each

Homestead FA

80 days. Highly adaptable, especially in hot conditions. Fruits are medium-large, very smooth, red, meaty and flavorful, averaging about 8 oz. each. Determinate. #00350. (A) pkt. (50 seeds) \$2.95; 3+ pkts. \$2.70 each; (F) 1/16 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Manitoba VF

58 days. An extremely early variety developed by the Morden Experiment Farm in Manitoba for southern Canadian prairies. Fruits are bright red, slightly flattened, good-flavored, and weigh about 6 oz. each. Particularly well-suited for extreme northern areas of Montana, Dakotas, Minnesota, Wisconsin, Michigan and New England. Easily grown in a small area. Determinate. #00448. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.70 each; (F) 1/16 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

Marglobe Improved VF

72 days. This highly adaptable, tasty old favorite produces high yields of globe-shaped fruits on uniform vines. Medium-sized, 5 to 8 oz. fruits are uniform, very sweet and thick-walled. Determinate. #00450. (A) pkt. (50 seeds) \$3.15; 3+ pkts. \$2.90 each; (F) 1/16 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Marion FST

78 days. An early Rutgers type with good disease resistance. Strong vines feature medium-large, smooth, 6 oz. globes, with small blossom end scars and high yields. Especially adapted to the Southeast. Crack resistant. Indeterminate. #00453. (A) pkt. (50 seeds) \$2.85; 3+ pkts. \$2.60 each; (F) 1/16 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

GOLDEN JUBILEE

With Real Old-Time Value!

MULE TEAM

Mule Team

78 days. Saved by generations of gardeners and reintroduced because of its enduring qualities – vigorous fruit set, round, medium-sized, red globes that weigh 8-1/2 oz. and are 2-1/2 to 3" across, with a sweet, mild flavor. Meaty, textured fruits are produced continuously til frost on sturdy plants. Indeterminate. #00509. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

NEW YORKER

New Yorker VA EB

66 days. One of our earliest standard-sized varieties. High yields of smooth, meaty, 4 to 6 oz., scarlet globes. Bush beefsteak-type plants set fruit in cool, short-season conditions. Won't split or suffer Blossom End-Rot. Determinate. #00515. (A) pkt. (50 seeds) \$2.85; 3+ pkts. \$2.60 each; (F) 1/16 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

OLD BROOKS

Old Brooks EB LB

75-85 days. Smooth, blemish-free fruits are known for their superior resistance to Blossom End-Rot. Gourmet quality flesh, with a fine, even texture. The taste is somewhat acidic, which proves to be an asset in home canning. Good all-around variety. Indeterminate. #00518. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (D) 1/32 oz. \$7.95; 2+ \$7.45 each; 4+ \$5.95 each

Opalka

85 days. Richer and more flavorful than most paste tomatoes. Long, pepper-shaped fruits grow 4 to 6" long, clustered in groups of 2 to 5. So sweet and refreshing, and can be eaten straight off the vine, but is highly prized for sauces and canning. Indeterminate. #00526. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each; (D) 1/32 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

OPALKA

Purple Russian

80 days. Also known as *Ukrainian Purple*. Original stock of this variety came from Irma Henkel in the Ukraine. Meaty, plum-shaped, 6 oz. purplish-black, smooth skinned fruits are 3 to 4" long. Sweet and flavorful – a good choice for salsa, sauces or straight-from-the-vine. High yielding. Crack resistant. Indeterminate. #00591. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each

Rutgers VFAST

75 days. A popular all-purpose variety that is ideal for canning. Bright red fruits, with heavy walls, average about 7 oz. and ripen evenly from the inside out. An attractive, old-time favorite with full-bodied flavor. Disease resistant. Determinate. #00624. (A) pkt. (50 seeds) \$2.85; 3+ pkts. \$2.60 each; (F) 1/16 oz. \$5.50; 2+ \$5.15 each; 4+ \$4.15 each

PURPLE RUSSIAN

TAXI

SUPER SIOUX

SKYREACHER

RUTGERS

SAUSAGE

SHEBOYGAN

STRIPED STUFFER

Sausage

75 days. Fruits, up to 6" long, resemble huge, red banana peppers. A prolific paste tomato, with very fine-flavored meat that is especially ideal for ketchup or sauces. Indeterminate. #00639. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.70 each; (D) 1/32 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

Sheboygan

80 days. Lithuanian immigrants in Wisconsin are credited with introducing this pink, paste-type heirloom in the early 1900's. Full-flavored fruits average 4 to 6 oz. and are 4" in diameter, with meaty flesh and plenty of juice, making this one of the best varieties for canning. Heavy yields. Indeterminate. #00644. (A) pkt. (20 seeds) \$2.95; 3+ pkts. \$2.70 each; (V) 100 seeds \$7.95; 2+ \$7.45 each; 4+ \$5.95 each

Skyreacher

75 days. A prominent stand-out in the garden! Excellent flavored, very pretty, small, round slicer with a beautiful red and orange striped exterior. Strong plants produce enormous yields of blemish-free and crack resistant fruits. Performs well in a variety of conditions. Indeterminate. #00655. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each

Striped Stuffer

85 days. Bell peppers shaped fruits are completely hollow and easy to stuff. Showy, 5 to 7 oz. red fruits have conspicuous golden-orange stripes, and classic tomato taste. A good yielder and highly resistant to Powdery Mildew. Indeterminate. #00677. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (G) 250 seeds \$8.95; 2+ \$8.40 each; 4+ \$6.75 each

Super Sioux

70 days. An excellent variety for areas with hot summer temperatures, since it sets fruit well in spite of the heat and dry conditions. Thick-walled, crack-free, 4 to 6 oz. red globes have an acidic flavor. Perfect for canning. Semi-determinate. #00726. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (D) 1/32 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

Taxi

65-70 days. The best yellow variety for short season areas. Bright yellow, 4 to 6 oz. fruits are smooth and blemish-free. Flesh is meaty, mild and acid free. Excellent fresh for salads, sandwiches or adds a nice splash of color to salsas. Heavy yielder over a 3 to 4 week period. Determinate. #00757. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each

Thessaloniki

68 days. Uniform, baseball-sized, 6 to 8 oz., fruits are the trademark of this variety developed in sunny Greece. Resistant to sunburn, cracks and spots. Perfect blossom ends resemble those of greenhouse tomatoes. Fruits have a pleasant, mild flavor and virtually refuse to rot, even when completely red and ripe. Indeterminate.
#00762. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Wisconsin 55 EB

75 days. 2020's Free Trial! A superb tomato developed at the University of Wisconsin. Large, deep red fruits resist shoulder cracks and Blossom End-Rot, ripen evenly and have strong skin and solid flesh. Vigorous plants are tolerant to Leaf Spot. Semi-determinate.
#00824. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.70 each

THESSALONIKI

Small to Medium Open-Pollinated Types

Varieties on pages 31-33 typically grow fruits 2 to 5 oz.

42 Days

42 days. Be the first in your neighborhood to harvest ripe tomatoes! One of the world's earliest tomatoes with an excellent flavor. Golf ball size fruits are bright red with very few seeds. While most early tomatoes originate from cooler climates, this variety is believed to have come from Mexico, so it's rather unique, as it does well in cool and warm climates. Excellent for containers. Determinate.
#00257. (A) pkt. (20 seeds) \$3.15; 3+ pkts. \$2.90 each

Amish Gold Slicer

80 days. Beautiful, 3 to 4" round slicer that's been a trial favorite year after year. Fruits, up to 5 oz., are blemish-free, very firm and have excellent flavor. Great for fresh eating and canning. Extremely productive. Indeterminate.
#00034. (A) pkt. (10 seeds) \$2.85; 3+ pkts. \$2.60 each

Black Plum LB

80 days. A very prolific Russian strain. Brownish-gray fruits are so sweet and meaty that some prefer it to Roma for making sauces. Also excellent when used in salads or for drying. Oval fruits average 2 to 4 oz., and turn a deep mahogany-brown color at maturity. One of our best yielders for both fresh market and home use. Indeterminate.
#00097. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each; (D) 1/32 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

Bloody Butcher

55 days. Sensational, multi-purpose, very early and high-yielding. Strong tomato flavor in medium sized, round, 4 oz. fruits that are deep, dark red inside and out. Potato-leaved plants are fast growing. Indeterminate.
#00090. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each

Garden Peach LB

75 days. This unique heirloom looks very much like a small peach – it even has slightly fuzzy skin! Small, 2 oz., light-yellow fruits have a delicate, distinctive flavor that's light, clean and a little bit fruit-like. Prolific producer of juicy fruits with excellent keeping quality. Introduced to American gardens in 1862. Indeterminate.
#00276. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each

Green Zebra LB

78 days. This is one of the most unusual varieties you'll ever grow! Fully ripened fruits are bright green, with stripes of a still lighter green. Small, round, 2 to 4 oz. fruits have excellent, "real tomato" flavor. Plants are vigorous and indeterminate.
#00329. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (F) 1/16 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

Independence Day

55 days. If planted in early May, you can have ripe tomatoes by the Fourth of July. Round, 2 to 3" pink fruits have a great tomato flavor which is not always typical with other early varieties. Perfect for salads and for slicing. Indeterminate.
#00362. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each

Japanese Black Trifele

85 days. Heavy producer of pear-shaped fruits that are free of blemishes and cracks and range in color from intense black to dark gray blushed with magenta. Potato leaf plants produce prolific yields of picture-perfect, 3 to 5 oz. fruits that look stunning when sliced and arranged on a plate. As delicious as it is unique. An excellent canner as it holds its flavor and color well. Indeterminate.
#00382. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each; (F) 1/16 oz. \$7.95; 2+ \$7.45 each; 4+ \$5.95 each

Jaune Flammée

80 days. A gorgeous study in contrasts, with bright orange skin surrounding reddish flesh that is a rare find in heirloom tomatoes! Fruits are slightly larger than cherry varieties, about 2 to 3 oz., with thick walls that are tender and flavorful. Sweet, high-yielding and especially valued as a salad tomato for its beautiful appearance. Indeterminate.
#00384. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each; (D) 1/32 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

JERSEY DEVIL

Jersey Devil

90 days. An extremely prolific, paste-type heirloom shaped like a banana pepper. Fruits grow to about 5 to 6", are very juicy, meaty and have few seeds. Very flavorful and excellent used in sauces and salsas. Indeterminate.
#00390. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each

MARTINO'S ROMA

Martino's Roma

75 days. You can't go wrong with this Italian heirloom, no matter what you have in mind – sauces, salsas, pastes, farmers market – bring it on! Richly flavored, meaty, pear-shaped fruits set heavily on compact plants with rugose, dark green foliage. So heavily productive, the 2 oz., 3" fruits tend to drop from the vine when ripe. Most often used for cooking, but perfectly suited to eating fresh. Dwarf determinate.
#00461. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each;
(G) 250 seeds \$7.95; 2+ \$7.45 each; 4+ \$5.95 each

MOONGLOW

Moonglow

80 days. Bright orange fruits glow with neon intensity against 36" vines. A high yielder and good keeper, producing loads of tasty, 3 to 4 oz., globe-shaped fruits that are dense and meaty, with thick walls and few seeds. Sweet flavor with a hint of tartness, but without that strong acidic taste. Indeterminate.
#00480. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each;
(G) 250 seeds \$7.50; 2+ \$7.05 each; 4+ \$5.60 each

Oregon Spring V

60 days. Early variety that sets loads of meaty fruits weighing 3 to 5 oz., with excellent flavor. Compact plants set fruits even in cool weather and continue to yield all season long. Nearly seedless. Perfect for ketchup and sauces. Determinate.
#00530. (A) pkt. (50 seeds) \$2.95; 3+ pkts. \$2.70 each;
(D) 1/32 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

OREGON SPRING

Quedlinburger Fruhe Liebe

40 days. An extremely early German heirloom that continuously produces until frost – one of the strongest all-season producing plants you can grow. Fruits weigh approx. 2 oz. and have a great flavor and acid level for such an early variety. In trials, it was one of the best. Round red, 1 to 2" fruits set in clusters of 4 to 6 on potato leaf plants. Yields great in hot summer temperatures, and surprisingly sets well in cool climates also. Indeterminate.
#00588. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.70 each

QUEDLINBURGER FRUHE LIEBE

Tomato Growing Guide

To ensure that our customers understand how easy tomatoes are to grow, we've devoted two pages (10 & 11) in our catalog to provide the basics of the culture. For an easily understood, more comprehensive explanation, though, we offer John Page's detailed, 32-page guide at this very special price!
#82455. Regularly \$3.95 – Specially priced at \$2.99! Save 25%!

Red Pear

70 days. One of the rarest of the heirloom varieties still grown today! Hardy, medium-sized plants yield plenty of small, red, pear-shaped, up to 2" fruits with very few seeds. Perfect for salads, sauces or pickles. Indeterminate.
#00606. (A) pkt. (50 seeds) \$2.85; 3+ pkts. \$2.60 each;
(F) 1/16 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

Red Zebra

85 days. One of the best looking and best tasting of all striped tomatoes available on the market today! Fruits are dark red inside, and brighter fire engine-red outside, with skins streaked by dramatic, golden stripes. Juicy and flavorful, with large crops of 3" fruits on strong, productive plants. Indeterminate.
#00613. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each;
(G) 250 seeds \$8.95; 2+ \$8.40 each; 4+ \$6.75 each

Roma VF

75 days. Roma is considered to be the most well-known paste-type tomato, perfect for sauces, pastes and ketchup. Heavy crops of bright red, pear-shaped, 2 to 3 oz. fruits are nice and meaty, with very few seeds. Determinate.
#00618. (A) pkt. (50 seeds) \$2.85; 3+ pkts. \$2.60 each;
(F) 1/16 oz. \$5.50; 2+ \$5.15 each; 4+ \$4.15 each

San Marzano

80 days. A little later than Roma, with superb flavor in long, blocky shaped fruits, 3-1/2" by 1-1/2", that are bright red and hang in large clusters. Holds well on the vine and in storage. Extra-high solid content is perfect for canning. Indeterminate.
#00630. (A) pkt. (50 seeds) \$3.10; 3+ pkts. \$2.85 each;
(F) 1/16 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Saucy Lady

80 days. Possibly the best sauce tomato that we have offered for quite some time. Attractive, 3 to 4 oz. fruits are deep crimson in color and extremely firm. Excellent for making delicious sauces and pastes. Determinate.
#00641. (A) pkt. (15 seeds) \$3.45; 3+ pkts. \$3.15 each

Speckled Roman

85 days. Tomato lovers everywhere are tipping their caps to John Swenson, who developed this cross of Antique Roman and Banana Legs. Orange-red, 5" long fruits are a speckled paste-type, marked by irregular yellow stripes. Meaty fruits have hearty, "real tomato" flavor and almost no seeds. Indeterminate.
#00669. (A) pkt. (20 seeds) \$2.85; 3+ pkts. \$2.60 each;
(V) 100 seeds \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

SPECKLED ROMAN

SAUCY LADY

RED PEAR

RED ZEBRA

ROMA

SAN MARZANO

Stupice LB

52 days. A native of Czechoslovakia, where its extreme earliness, tolerance to cold, superior flavor and high yields earned it worldwide attention. Tests show an astounding average of 87 fruits per plant. Fruits are sugary sweet and weigh up to 2 oz. Indeterminate. #00678. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

Ten Fingers of Naples

75 days. Excellent paste-type, elongated, pointed, 5 to 6" meaty fruits weigh up to 3 oz. and are produced in long trusses, giving them a finger-like appearance! Flavor is sweet, rich and superior to many modern day varieties. Ideal for cooking, canning and preserving. A popular heirloom from Naples, Italy. Heavy yielder. Determinate. #00756. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each

Umberto Pear

80 days. A very old heirloom variety brought back from near extinction. Just one plant can produce up to 250 pink, meaty 2 oz. fruits. Robust flavor is excellent for both fresh eating and sauces. Indeterminate. #00786. (A) pkt. (10 seeds) \$2.85; 3+ pkts. \$2.60 each

Yellow Pear VFA LB

78 days. Vigorous vines produce high yields of 2", yellow-skinned, pear-shaped fruits with few seeds. Slightly later than Red Pear (pg. 32), but with the same prolific yields and performance. Indeterminate. #00842. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (D) 1/32 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

Cherry Tomatoes – Big Yields ...

Artemis Hybrid FFNT

50-55 days. Deliciously super-sweet, rich, red cherry tomatoes have a unique, crisp, firm texture. Attractive, round, 1" fruits weigh up to 1/2 oz. each and are great for eating straight-from-the-vine, in sauces and salsas. Highly resistant to Leaf Mold and Tomato Mosaic Virus. Indeterminate. #00021. (A) pkt. (10 seeds) \$4.85; 3+ pkts. \$4.45 each

ARTISAN™ SERIES

Produced by a small breeder who concentrates on varieties specifically for small growers, local and specialty markets. Combines excellent flavor with unique colors, shapes, sizes and stripes. The Tigers are julienne types with a tropical flavor and can be allowed to ripen off the vine without compromising the flavor. Fruits weigh up to 1 oz. and are great for appetizers and salads to main courses. Vigorous vines produce continuously over a long growing season. All are indeterminate.

Bumble Bee Pink

70 days. Pink fruits are striped with yellow and are crack resistant. #00042.

Bumble Bee Purple

70 days. Fruits are purple striped with green. #00044.

Bumble Bee Sunrise

70 days. A beautiful orange-yellow, 1-1/2" cherry with red stripes and pink flesh with an excellent sweet, yet tangy, flavor. #00036.

Tiger Blush

75 days. Fruits are golden yellow with a pink blush. #00045.

Tiger Pink

70 days. Fruits are pink and striped with orange. #00048.

Tiger Mix

70-75 days. A colorful striped mix of Blush, Green and Pink Tiger. #00049.

Artisan™ Mix

70-75 days. A mix of Bumble Bee & Tiger Series. #00041.

Prices, above 7, per variety: (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each

Black Opal

70 days. Possibly one of the best black-fruited cherries on the market! Bred from the popular heirloom Black Cherry and selected specifically for its improved growth habit, firmer texture and superior flavor. Masses of 1/2", attractive round fruits are excellent for fresh eating, grilling or sauces and for making pastes. Extremely productive. Indeterminate. #00096. (A) pkt. BRAVEHEART

And Bold Color!

Braveheart Hybrid FTSt

60 days. Bright red, 1 oz. cherries have a deliciously sweet and juicy, bold tomato flavor. Fruits are thin skinned and ripen quickly and uniformly, extending harvests throughout the season. Expect prolific yields on medium-sized plants that are easily managed. Crack resistant. Indeterminate.

#00108. (A) pkt. (20 seeds) \$3.15; 3+ pkts. \$2.90 each

BROWN BERRY

Brown Berry

70 days. An unusual variety with cherry-type fruits dressed in appealing, earthy-brown skins. More than a novelty, 1" fruits have very good flavor and are sweet and juicy. A very different look for fresh and cooked cuisine. Sturdy, 78" plants. Indeterminate.

#00115. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (G) 250 seeds \$8.95; 2+ \$8.40 each; 4+ \$6.75 each

CANDYLAND RED

Candyland Red

55-60 days. 2016 AAS Winner. Dark red, 1/2" fruits weigh 1/4 oz. and are smaller than most cherry tomatoes. Fruits have an excellent sweet flavor and are the perfect size to 'pop' in your mouth to enjoy just like candy, straight from the garden! Plants have a tidier habit than other currant-types with the fruit tending to form on the outside of the plant making them easier to harvest. Indeterminate.

#00156. (A) pkt. (10 seeds) \$3.45; 3+ pkts. \$3.15 each

Celano Hybrid LB

60-70 days. 2020 AAS Winner. Deliciously super-sweet, ob-long fruits weigh up to 3/4 oz. each and have an average Brix of 9. AAS judges were impressed with this patio-type, grape tomato and its strong, healthy, bushy plant habit. In comparison to similar varieties, they agreed fruits were sweeter, had better texture and a deeper red color. Early, heavy yielding, vigorous plants grow up to 40" tall and are ideal for growing in containers. Semi-determinate.

#00161. (A) pkt. (10 seeds) \$4.15; 3+ pkts. \$3.85 each

CELANO

Cherry Fountain

60 days. Tidy habit and early establishment makes this a good choice for adding to mixed flowering containers and large baskets. Bright red, 1-1/2 to 1-3/4 oz., delicious, juicy fruits crop heavily over a long harvest period. Very vigorous plants cascade 36 to 40" and reach just 6" in height. Indeterminate.

#00184. (A) pkt. (10 seeds) \$3.35; 3+ pkts. \$3.05 each

CHERRY FOUNTAIN

CHERRY ROMA

Cherry Roma

75-80 days. Produces bountiful sets of 1" long, plum-shaped fruits with a surprising flavor that's both sweet and spicy at the same time. A real tasty treat when eaten fresh or dried to enjoy all year long! Indeterminate.

#00191. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each; (D) 1/32 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Chocolate Cherry

70 days. Extremely flavorful, uniform, round, chocolate-red fruits grow in trusses and measure 1" in diameter. Fruits hold stems very well, don't crack and can be picked several days before completely mature and allowed to ripen off the vine without sacrificing quality. Great variety for the home gardener or for packing into pints for market. Indeterminate.

#00186. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each

Chocolate Pear

70 days. Gorgeous pear-shaped cherries are light red swirled with various shades of green and brown – great for farmers markets and home gardeners that want to mix fruits into saleable pints or to simply enjoy for personal use. Fruits have a rich tomato flavor and make a beautiful presentation mixed with red, yellow and orange tomatoes. A consistent taste-test winner in trials. Indeterminate.

#00165. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each

Chocolate Sprinkles Hybrid FNT

50-55 days. Beautiful 1-1/2" cherries are red and striped with dark green. Fruits have a rich sweet flavor and grow in trusses of 5 to 7. Produces more fruit with better flavor than similar open-pollinated varieties. Very productive and early. Indeterminate.

#00174. (A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each

Christmas Grapes

75 days. Highly productive and easy-to-grow, this rewarding variety produces loads of 1-1/2 to 2 oz., bright scarlet-red fruits clustered in grape-like bunches. Fruits are very sweet at first bite, followed by strong tomato flavor. Indeterminate.

#00192. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each

CHRISTMAS GRAPES

The Pickled Pantry

By Andrea Chesman. Fresh, contemporary recipes for pickling everything from apples to zucchini. Beginners will welcome the simple, low-fuss methods and thorough coverage of the basics, and dedicated home canners will love the large-batch recipes and the stunning variety of flavors. Full color illustrations throughout. Paperback. 304 pages. #57483. \$19.95 each

Epic Tomatoes: How to Select & Grow the Best Varieties of All Time

By Craig LeHoullier. From sowing to harvest, this book has everything you need to know about more than 200 varieties of tomatoes. A comprehensive guide to various diseases and pests of tomatoes and how to avoid them. Full color photographs throughout. 256 pages. Paperback. #53556. \$16.95 each

CREAM OF THE CROP™ HYBRID SERIES

These exciting 6 varieties are not only delicious, but beautiful as well. Even if you don't typically eat tomatoes, you'll definitely want to give these a try – we'll bet your kids will love 'em, too! Bred for improved quality, longer shelf life and better disease tolerance. All are indeterminate.

Apricot Zebra

60-70 days. Unrivaled golf ball sized, 1-1/2 to 2" fruits are firm and meaty with a nice texture. Unique tangerine skins show prominent green stripes during ripening that almost disappear when the fruit is fully ripe. Strong tomato flavor is rich with moderate sweetness averaging a Brix of 7.5. High yielding. #00019.

Pink Champagne

60-70 days. In trials, this beauty was a favorite for snacking! An excellent variety with dark pink, grape-shaped fruits that have an amazing sweet flavor. Fruits have an average Brix of 9.5, measure a little over 1" long and grow on moderately long trusses. Good yielder. #00563.

Prairie Fire

60-70 days. If you like sweet tomatoes, you'll love this variety. In taste test trials, it rated the sweetest with a Brix of 10. Pointed, grape-shaped, 3" fruits have subtle gold striping and deep red flesh. Chances are, this one gets picked and eaten in the garden before it can make it to the kitchen! #00585.

Red Torch

60-70 days. 2019 AAS Winner. Excellent flavor, great texture and high yields. This award winner is a standout among other varieties in the trendy, specialized market of striped tomatoes. Attractive, oblong, 1-1/2" red fruits, with golden stripes, weigh up to 1-1/2 oz. each and are produced abundantly and early. #00615.

Sparky XSL

60-70 days. 2019 AAS Regional Winner. One of the few X-tended Shelf Life (XSL) cherry tomatoes available to home gardeners. Early to mature, prolific and very flavorful. Attractive, striped round fruits weigh 1 oz., are 1-1/4" in diameter and very sweet with an average Brix of 8.5. Also well-suited for market growers, producing a large number of quality fruits per plant. #00667.

Tropical Sunset

60-70 days. Gorgeous, 1-1/2" ping-pong ball sized fruits are gold with orange-pink striping and are almost translucent when ripe. Flavor is fruity and bright with an average Brix of 8. Holds in the ripe stage for a long time, providing a good shelf life. A real show stopper and a trial favorite! #00773.

Prices, above 6, per variety:

(A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each

Cupid Hybrid FAST BS

66 days. There are a lot of good grape tomatoes on the market, but Cupid advances to the next level in the areas of quality, flavor, yields and holding ability. Meaty, bright red fruits are nearly as firm as Roma types and are quite crack resistant. Vigorous plants set loads of fruits in long trusses for a long season that begins early, and due to a very high level of disease resistance, continues right up until frost. Indeterminate. #00208. (A) pkt. (10 seeds) \$5.45; 3+ pkts. \$4.95 each

Fantastico Hybrid LB

50 days. AAS Winner. Long clusters of bright red, super-sweet fruits, with a Brix of 12, grow in clusters toward the outside of plants making them very easy to harvest. In trials, fruits resisted cracking much better than similar varieties when left on the vine past maturity! High yielding plants produce up to 12 lbs. of 1/2 oz. fruits! Bred for growing in small gardens – perfect in large patio containers or hanging baskets. Determinate. #00260. (A) pkt. (10 seeds) \$4.85; 3+ pkts. \$4.45 each

Firefly Hybrid VFT

80 days. 2019 AAS Winner. Attractive round fruits are super-sweet, pale white to pale yellow, less than 1" in diameter and weigh about 1/2 oz. each. Delicate, translucent skins add a mild acidic flavor which enhances the juicy sweet flesh that explodes with flavor. Perfect for snacking, roasting and in salads. Crack resistant. Indeterminate. #00266. (A) pkt. (30 seeds) \$4.25; 3+ pkts. \$3.95 each

Lighting & Seed Starting

Q-Plug Starter Kit

Includes everything needed to start seeds and cuttings using a unique float system that gives plants constant access to the ideal air-to-water ratio – never over-water again! Extra large plugs encourage vigorous deep root growth and remove from the insert easily with no damage to the plant. Includes a 21"L x 11"W x 2-1/2"D heavy duty seed tray and 7"H dome with three vents, a 55 cell reusable floating styrofoam insert with large 1-1/2" cells and 55 aerated Q-plugs. #53826(X). \$34.95

FLAMING BURST

Flaming Burst

80 days. A sweeter, pear shaped version of Jaune Flammée (pg. 31). Productive plants produce an abundance of gold aromatic fruits, less than 1", with a firm texture. An excellent variety for farmers markets. Indeterminate.
#00281. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each

GARDENER'S DELIGHT

Gardener's Delight

72 days. A German-bred heirloom that produces long trusses of grape-like, red, 3/4" fruits in clusters of 6 to 12. Sugar-sweet, crack resistant and bears until frost. Hardy vines require staking or caging. Indeterminate.
#00277. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each;
(G) 250 seeds \$6.25; 2+ \$5.80 each; 4+ \$4.45 each

GERANIUM KISS

Geranium Kiss

65 days. An excellent choice for container gardening! Stocky, dwarf plants, with rugose foliage, grow just 24 to 30" tall and produce loads of golf ball sized, bright red fruits that are round with pointed ends. Tomatoes have a good texture, an exceptional flavor, grow in clusters of 10 or more and weigh about 1 oz. each. In trials, plants exhibited tolerance to Early Blight and Septoria. Bred by Alan Kapuler, Ph.D. of Peace Seeds. Dwarf determinate.
#00282. (A) pkt. (15 seeds) \$3.45; 3+ pkts. \$3.15 each

Gold Nugget

55 days. Vigorous plants bear numerous golden-yellow, fine-flavored, 1" oval "nuggets". Uniform, compact plants grow to just 24" tall. Determinate.
#00306. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each;
(D) 1/32 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

GOLD NUGGET

Green Grape

70 days. No more waiting for green tomatoes to turn red and ripe without spoiling. Fruits are just under 1" across and grow profusely on vigorous plants. Very juicy and sweet, perfect for green ketch-ups, soups, garnishes, sauces and hors d'oeuvres. Determinate.
#00326. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each;
(D) 1/32 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

GREEN GRAPE

Heirloom Cherry Blend

70-80 days. A customer favorite featuring a mouth-watering selection of cherry tomato varieties that have been carefully blended to have similar growth habits. Great for fresh summer salads, vegetable trays and selling at farmers markets. Enjoy a kaleidoscope of colors that include red, pink, green, white, yellow, black and bicolors. Indeterminate.
#00346. (A) pkt. (20 seeds) \$2.85; 3+ pkts. \$2.60 each

HEIRLOOM CHERRY BLEND

JELLY BEAN YELLOW

JELLY BEAN RED

JASPER

HELIX

HUSKY CHERRY RED

ILDI

Helix Hybrid VFFNT LB

50-55 days. Delicious, bright red cherries have the perfect balance of sweet and acid. Slightly elongated fruits are approx. 1-1/4" long by 1" wide and weigh up to 1/2 oz. each. Perfect for fresh eating. High yields. Highly resistant to root-zone and foliar diseases, including Tomato Mosaic Virus. Indeterminate.
#00356. (A) pkt. (10 seeds) \$4.85; 3+ pkts. \$4.45 each

Husky Cherry Red Hybrid VFA

65 days. Season-long production of outstanding 1" fruits that feature excellent flavor. A sister to Husky Red (pg. 17), whose dwarf indeterminate habit and quality production makes it perfect for small spaces and containers.
#00357. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each;
(G) 250 seeds \$14.95; 2+ \$13.95 each; 4+ \$11.25 each

Ildi

53 days. Early and high yielding, with masses of miniature yellow fruits, up to 75 per cluster! Plants naturally stop growing at 5 to 6 ft. and have three or four trusses per plant. Even after trusses are harvested and hung in cool storage, these tomatoes seldom drop. Grape-shaped with the occasional pear, and always firm and sweet with a tiny bit of tartness. Yummy in salads or as a garnish – a fantastic garden performer! Indeterminate.
#00369. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each

Jasper Hybrid FF EB LB

60 days. 2013 AAS Winner. An outstanding disease resistant package results in extended harvests of this delightful little tomato. Small, round, 3/4" red fruits weigh less than 1 oz. each with sweet, rich flavor and a pleasant creamy texture. Fruits grow on small trusses, holding their quality for a long time on the plant and after picking, resisting cracking and rot. Plants are extra vigorous and tall. Overcomes weather-related stresses with ease. Disease resistance includes Septoria Leaf Spot. Indeterminate.
#00385. (A) pkt. (10 seeds) \$5.25; 3+ pkts. \$4.75 each

JELLY BEAN HYBRID SERIES VFFAST

72 days. Grape-like fruits weigh up to 1/4 to 1/2 oz. and are aptly named for their bite-sized sweetness and intense colors. Heavy clusters of up to 30 fruits each mature early on plants that have good disease resistance. Indeterminate.

Red #00387.

Yellow #00837.

Prices, above 2, per variety:
(A) pkt. (30 seeds) \$4.25; 3+ pkts. \$3.95 each;
(G) 250 seeds \$21.45; 2+ \$19.95 each; 4+ \$16.05 each

Jolly Hybrid N

70-75 days. 2001 AAS Winner. Large, pink-fruited cherry with good acid content and exceptionally sweet flavor. You can expect 9 to 14 meaty fruits per cluster weighing about 1-1/2 oz. each, with a distinct peach shape. Resists cracking. Indeterminate.

#00397. (A) pkt. (20 seeds) \$3.75; 3+ pkts. \$3.45 each; (D) 1/32 oz. \$22.25; 2+ \$20.65 each; 4+ \$16.75 each

Juliet Hybrid EB

60 days. 1999 AAS Winner. Famous for yielding the first elongated, grape-like fruits that don't crack! Clusters of unusual, sweet-flavored fruits cling to the vine longer than most other cherry tomatoes. Glossy, red-skinned fruits weigh 1 oz. each. Resistant to Leaf Spot. Indeterminate.

#00400. (A) pkt. (20 seeds) \$3.25; 3+ pkts. \$2.95 each; (D) 1/32 oz. \$11.75; 2+ \$10.95 each; 4+ \$8.75 each

Large Red Cherry

72 days. An excellent salad tomato that grows in clusters of up to 5 on spreading, hardy vines, with dark green foliage. Full-season, high yields of deep scarlet, round, 1 to 1-1/4" diameter, flavorful fruits. Green fruits may be pickled while the ripe ones are used fresh or for preserves. Indeterminate.

#00424. (A) pkt. (50 seeds) \$2.85; 3+ pkts. \$2.60 each; (F) 1/16 oz. \$4.95; 2+ \$4.65 each; 4+ \$3.75 each

Little Birdy Red Robin

55 days. An extra-sweet, container-grown variety, just as good grown indoors as a potted plant. Round, red, 1-1/4" fruits are produced on compact, rugose leafed plants that grow just 8 to 12" tall. Ideal for windowsills, patios or hanging baskets. Dwarf determinate.

#00612. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each; (G) 250 seeds \$17.75; 2+ \$16.55 each; 4+ \$13.35 each

Mexico Midget

60-70 days. Old-time, south-of-the-border favorite that continues to prove its value as a salad tomato. Tiny, red, cherry-type fruits weigh down trusses with prolific yields throughout an extended growing season. Round 1/2" fruits explode with irresistible flavor. Very reliable. Indeterminate.

#00466. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each; (G) 250 seeds \$7.95; 2+ \$7.45 each; 4+ \$5.95 each

Micro-Tom FSt

50-60 days. Considered to be one of the world's smallest tomato plants – grows just 6 to 8" tall and bears loads of flavorful, 1 oz., deep red fruits. An ideal house plant for windowsills and patios for vine-ripened fruits year round! Developed by the University of Florida. Resistant to Leaf Mold. Dwarf determinate.

#00468. (A) pkt. (20 seeds) \$3.35; 3+ pkts. \$3.05 each; (G) 250 seeds \$17.45; 2+ \$16.25 each; 4+ \$13.05 each

Midnight Snack Hybrid

65-70 days. 2017 AAS Winner. Unique cherries ripen to red with a blush of glossy black-purple on the skin when exposed to sunlight due to the accumulation of anthocyanin pigment. Plants are productive all season, yielding 1-1/2" fruits that have a well-balanced flavor. Great in salads or eaten straight off the vine – a guilt-free treat any time of the day or night. Indeterminate.

#00469. (A) pkt. (15 seeds) \$4.25; 3+ pkts. \$3.95 each

Natures Bites Hybrid FFT

100 days. A gorgeous cherry tomato with exceptional sugar content. Brilliant, bright red fruits are easily grown in home gardens for straight-from-the-vine eating. Fruits weigh 3/4 oz. and grow in clusters of up to 20. Heavy yielder. Resistant to Fusarium Crown Rot. Indeterminate.

#00510. (A) pkt. (20 seeds) \$3.35; 3+ pkts. \$3.05 each

Orange Sunshine Hybrid

58 days. The qualities of these bright beauties just can't be beat! Beautiful orange, 1/2 oz. cherries are firm and as sweet as the ever popular Sungold (pg. 39)! Adds a dash of color and flavor to salads, pizzas, sautés, and salsas. Prolific yields. Indeterminate.

#00525. (A) pkt. (15 seeds) \$4.25; 3+ pkts. \$3.95 each

Orange Zinger Hybrid FT

60 days. If Sungold (pg. 39) is a favorite of yours, you're going to love this variety! Dark orange, 1" round fruits have big tomato flavor with the perfect sweet to tangy ratio. Excellent in salads or straight-from-the-vine. Crack-resistant and high yields. Indeterminate.

#00522. (A) pkt. (20 seeds) \$3.75; 3+ pkts. \$3.45 each

PATIO CHOICE HYBRID SERIES

50-60 days. Compact plants produce generous amounts of 1/2 oz. cherry fruits. Juicy, delicious and perfect for snacking. Specifically bred for small spaces and container gardening. Plant both for a dramatic effect. Determinate.

Red

Plants grow 24 to 30" producing trusses that cascade in hanging baskets. **#00541.**

Yellow

2017 AAS Winner. Enjoy fresh, roasted or sun-dried for a delicious sweet treat. Plants grow 18" and have short vines. **#00535.**

Prices, above 2, per variety:

PATIO PLUM

Patio Plum

60 days. This super dwarf beauty produces an abundance of small trusses of 3 to 5, grape-shaped, cherry fruits with well-balanced flavor. Its fresh-from-the-vine goodness makes it a great snacking or salad tomato. Perfect for containers as it produces for a very long period – moving containers indoors could further extend your harvest into November and December! Dwarf determinate.
#00537. (A) pkt. (20 seeds) \$3.75; 3+ pkts. \$3.45 each

RAINBOW CHERRY BLEND

Rainbow Cherry Blend

63-90 days. Our mix of Rainbow Beefsteak Blend tomatoes (pg. 27) sells so well that we just had to find room for this delightful mix of colorful cherries! All fruits are bite-size, up to 1-1/2" across and come in a full range of golds, oranges, creamy whites, yellows, pinks, greens, purples and reds – even bicolors!
#00598. (A) pkt. (20 seeds) \$3.35; 3+ pkts. \$3.05 each; (D) 1/32 oz. \$13.95; 2+ \$13.05 each; 4+ \$10.45 each

RAPUNZEL

Rapunzel Hybrid

68-70 days. Named for the fairy tale character, plants produce unique, long cascading trusses with up to 40 fruits. Very flavorful, bright red, 3/4 to 1 oz. cherry tomatoes make the perfect addition to salads and veggie trays. So sweet, you'll be tempted to eat them straight-from-the-vine. Indeterminate.
#00631. (A) pkt. (15 seeds) \$4.25; 3+ pkts. \$3.95 each

Ravello Hybrid VFT

60-65 days. A mini San Marzano shaped variety with fruits that are uniform and deep red, weighing approx. 3/4 oz. each. Tomatoes have an excellent fruity taste and grow in attractive clusters of 12 to 15. Very crack resistant and tolerant to Blossom End-Rot. Indeterminate.
#00602. (A) pkt. (15 seeds) \$3.95; 3+ pkts. \$3.65 each

RAVELLO

Red Racer Hybrid VFFNST

57 days. 2018 AAS Winner. Cocktail size, 1-1/2" tomatoes have a good sweet/acid balance, weigh 2 oz., are uniform in size and grow in clusters. Compact plants produce huge yields 7 to 10 days earlier than comparable varieties. Ideal for small space and container gardens. One judge summed up this winner saying "Red Racer is small in size but big in taste!" Also resistant to Tomato Mosaic Virus. Determinate.
#00605. (A) pkt. (10 seeds) \$4.85; 3+ pkts. \$4.45 each

RED RACER

Rosella

70 days. From the breeder of the extremely popular Sweet Aperitif (pg. 39). This gorgeous cherry has the perfect balance of sweetness and acidity. High yielding plants produce long trusses of 1/2" round, thin skinned fruits that weigh 1/2 oz. each. Makes a great paste tomato and can also be eaten fresh or grilled. Perfect for market gardeners and home gardeners alike. Indeterminate.
#00626. (A) pkt. (15 seeds) \$3.75; 3+ pkts. \$3.45 each

ROSELLA

RUBY CRUSH

Ruby Crush Hybrid FTST

60 days. Performs well in containers, shines in the garden and has sugary-acid balanced fruits that resist cracking. Smooth, bright red fruits are solid, oval, and weigh about 1/2 oz. each. Unlike other determinate grape varieties, compact plants are strong, have good leaf cover preventing sun damage and require minimal support. Resistant to Fusarium Crown and Root Rot. Determinate.
#00637. (A) pkt. (10 seeds) \$5.45; 3+ pkts. \$4.95 each

Siam Hybrid Edible Potted

70-84 days. Enjoy homegrown tomatoes year round! Referred to as 'Kitchen Minis®' by the breeder, these small potted plants were produced to grow indoors on windowsills or counters – pick delicious, 1/2" fruits in the comfort of your home. Plants, 14 to 16" tall, provide up to 2 quarts of tomatoes on one plant! Support with stakes if needed. Can be grown outdoors on patios, as well. Determinate.
#00650. (A) pkt. (10 seeds) \$5.45; 3+ pkts. \$4.95 each

Snowberry

75 days. Nicely rounded, 1-1/2 to 2 oz., firm fruits feature a creamy-yellow color outside with a white inside, making this unique variety the closest thing to a pure white cherry available on the market today. Sturdy plants produce trusses of uniform fruits and are sweet and fruity with a typical tomato flavor. Indeterminate.
#00658. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (G) 250 seeds \$8.95; 2+ \$8.40 each; 4+ \$6.75 each

Sugar Lump

65-75 days. A sweet German heirloom that produces heavy yields straight through until frost. Clusters of 6 to 12 smooth, deep-red fruits, average 3/4" to 1" in diameter. Excellent eating quality and flavor. Indeterminate.
#00684. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.70 each; (D) 1/32 oz. \$7.50; 2+ \$7.05 each; 4+ \$5.60 each

With Big Flavor!

Sugary Hybrid

80 days. 2005 AAS Winner. Sugary stands out as something really special in the world of cherry tomato competitions. Super-sweet, juicy, 2 oz. fruits, have appealing, reddish-pink skins. Huge yields of oval-shaped, slightly pointed fruits set continuously. Semi-determinate.
#00680. (A) pkt. (15 seeds) \$3.75; 3+ pkts. \$3.45 each

Summerlast Hybrid

65 days. Delicious cherry fruits weigh about 1-1/2 oz. each and are bright red. With built in Late Blight resistance and a new 'lasting performance' trait, this variety maintains very dark green and healthy foliage well into late summer when many other varieties are already spent. Excellent for patio containers with minimal support. Determinate.
#00700. (A) pkt. (15 seeds) \$4.15; 3+ pkts. \$3.85 each

Suncherry Extra Sweet Hybrid FT

55-60 days. No hors d'oeuvre table or salad will be without this bite-size delight, once you taste its super-sugary sweetness. Vigorous plants produce high yields of thin-skinned, 1/4 oz. fruits especially at the start of harvest. Indeterminate.
#00693. (A) pkt. (15 seeds) \$3.55; 3+ pkts. \$3.25 each; (G) 250 seeds \$27.25; 2+ \$25.35 each; 4+ \$20.45 each

Sunchocola Hybrid T

60-67 days. Fans of Sungold will love this beauty from the same breeders. Gorgeous chocolate-red, 1" fruits with a deliciously sweet, smoky flavor are very juicy and lower in acid than most typical cherry varieties. Clusters of 8 to 12 fruits, weighing approx. 1 oz. each, are grown on high yielding plants. An excellent color addition to all your favorite dishes, fresh or cooked. Indeterminate.
#00692. (A) pkt. (10 seeds) \$5.75; 3+ pkts. \$5.25 each

Sungold Hybrid F TSWV

57 days. A positively luscious, bite-size golden beauty overflowing with an abundance of fruits – thin-skinned, with a juicy flesh that holds its oh-so-sweet, fresh-from-the-vine flavor. Very early, and a heavy cropper both outdoors and in greenhouses. Cascading trusses are smothered in fruits that remain ripe and ready for picking over long periods of time. Indeterminate.
#00696. (A) pkt. (20 seeds) \$3.75; 3+ pkts. \$3.45 each; (G) 250 seeds \$24.05; 2+ \$22.35 each; 4+ \$17.95 each

Sungold Select

70 days. This open-pollinated version of our very popular Sungold has become a favorite as well! Flavor is fruity, yet tart, making these bite-sized beauties a great snacking tomato. Indeterminate.
#00694. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each

Sunpeach Hybrid T

60 days. A favorite from past summer trial gardens – we're sure you'll enjoy these sweet treats! Reddish-pink fruits are highly uniform in shape and each 1/2 oz. fruit bursts with fantastic flavor that is just the right balance between sweet and tangy. Skins are crack resistant, but not thick and chewy. High-yielding, disease resistant plants produce long trusses of fruits from late summer until fall. Resistant to Leaf Mold. Indeterminate.
#00703. (A) pkt. (10 seeds) \$5.45; 3+ pkts. \$5.05 each

SunSugar Hybrid FT

62 days. The ultimate in cherry tomatoes, this golden yellow beauty achieves a new level of sugary-sweetness and flavor, superb texture, and a tangy "true tomato" taste. Fruits are a lovely golden yellow, weigh 1/2 oz., and possess thin skins – remarkable, considering its wonderful crack resistance, even in heavy rains. Heavy early cropper. Very vigorous – can also be grown indoors in an unheated greenhouse in cold climates. Indeterminate.
#00711. (A) pkt. (20 seeds) \$3.75; 3+ pkts. \$3.45 each; (G) 250 seeds \$24.95; 2+ \$23.30 each; 4+ \$18.75 each

Supersweet 100 Hybrid VF

65 days. Staked plants produce long strands of 100 or more super-sweet cherry tomatoes, weighing about 1 oz. each and measuring 1" in diameter. Extra-high in Vitamin C. Plants bear fruits throughout the season. Requires staking or caging. Indeterminate.
#00735. (A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each; (G) 250 seeds \$14.50; 2+ \$13.50 each; 4+ \$10.85 each

Sweet Aperitif

80 days. This fresh tomato from England might be *the* sweetest cherry you'll ever eat! Bright red fruits have exceptional flavor and very high levels of sugar – up to a Brix of 13 – even sweeter than Sungold and SunSugar! – that are perfectly balanced with just the right amount of acid to give this tomato a deliciously, refreshing, tangy flavor. Plants have a multi-branching habit and are completely covered with bite sized, 1/2 oz. fruits. Indeterminate.
#00736. (A) pkt. (15 seeds) \$3.45; 3+ pkts. \$3.15 each

SUNGOLD

SWEET MILLION

Sweet Million Hybrid FT

60 days. Terrific flavor in high yields of super-sweet cherries that have an excellent, hybrid-bred disease resistance. Long chains of smooth, dark red, 1 to 1-1/2" fruits are produced on large, vigorous plants. Matures early and produces until frost. Resistant to Leaf Spot. Indeterminate.
#00747. (A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each; (G) 250 seeds \$15.25; 2+ \$14.20 each; 4+ \$11.45 each

SWEET 'N' NEAT SCARLET IMPROVED

Sweet 'n' Neat Scarlet Improved

60 days. An ultra-compact, dwarf variety bred to thrive on windowsills, decks and in patio containers. Strongly branched plants produce masses of sweet fruits over a long season for continuous harvests. Petite, 1" round fruits weigh less than an ounce, with a memorable flavor that sparkles with sweetness. Determinate.
#00742. (A) pkt. (20 seeds) \$4.55; 3+ pkts. \$4.20 each

Sweet Treats Hybrid FFTSt

75 days. One of the first pink cherry tomatoes in the world. Combines the flavor of pink tomatoes with the size of a cherry tomato providing a uniquely balanced flavor of sweetness and acidity. Good aroma and great texture with a deep rich matte finish on the outside. A perfect snack item, as well as a delicious addition in salads and in cooking. Uniform and crack-free, 1 oz. fruits with a Brix of 8 to 9, grow in clusters of 12 to 15 fruits per truss. Resistant to Fusarium Crown Rot and Leaf Mold. Indeterminate.
#00749. (A) pkt. (10 seeds) \$6.05; 3+ pkts. \$5.45 each

SWEET TREATS

Tiny Tim

60 days. Early, dependable, tree-like, rugose leaved plants are perfect for small gardens or containers. Only 15" tall, yet yields many small, 3/4" fruits. Super in salads. Dwarf determinate.
#00771. (A) pkt. (50 seeds) \$2.95; 3+ pkts. \$2.70 each; (F) 1/16 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

Tomatoberry Garden Hybrid T

60-70 days. Melt-in-your-mouth fruits resemble strawberries in appearance and taste extremely sweet. Petite, tapered, 1" fruits are deep red, with thick flesh and a small inner cavity. Juicier than some cherry tomatoes and ideal for snacking. Holds well on the vine and resists cracking. Indeterminate.
#00763. (A) pkt. (10 seeds) \$5.65; 3+ pkts. \$5.10 each

TINY TIM

Tommy Toe EB

70 days. Heirloom from the Ozark Mountains. Excellent in salads or for juices, 1/2 to 1" fruits are smooth, mild, glossy red and range from round to oval in shape. Resistant to Black Rot. Prolific reseeder. Indeterminate.
#00774. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (D) 1/32 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Tumbler Hybrid

45 days. Specially bred for hanging baskets. Bushy plants have pliable stems and look fantastic when mixed in containers with Lobelia or Ivy. Produces up to 6 lbs. of sweet, bright red, delicious fruits! Determinate.
#00783. (A) pkt. (10 seeds) \$3.55; 3+ pkts. \$3.25 each

TOMATOBERRY GARDEN

TOMMY TOE

ZEBRA CHERRY

YELLOW CHERRY

VALENTINE

TUMBLER

TUMBLING TOM YELLOW

TUTTI FRUTTI™ STUFFIN XS

Tumbling Tom Yellow

70 days. This magnificent variety cascades to 20" or more, making it ideal for hanging baskets and container gardens. Sturdy, plants are loaded with juicy, 1 to 2" fruits perfect for snacking and salads. A true ornamental that may seem too pretty to pick, but one sweet bite will have you coming back for more! Indeterminate.
#00767. (A) pkt. (20 seeds) \$3.55; 3+ pkts. \$3.25 each

Tutti Frutti™ Stuffed XS Hybrid

77-91 days. Amazingly unique, small tomatoes look just like mini bell peppers! Bright red, 2" by 1-1/2", blocky-shaped fruits are partly hollow which makes them easy to stuff – for those who don't like bell peppers, this is a tasty alternative. Makes an interesting addition to party platters. Prune and trim plants to expose fruits to sunlight and support with trellises or stakes. Perfect for growing in 7 to 9" pots. Plants have an upright growth habit and produce an abundance of clusters of tomatoes. Indeterminate.
#00780. (A) pkt. (10 seeds) \$6.05; 3+ pkts. \$5.45 each

Valentine Hybrid

55 days. 2018 AAS Winner. Redder than most typical tomatoes when fully ripe due to its high lycopene content. Gorgeous, deep-red, juicy fruits have a rich, complex flavor and hold longer on the vine without cracking or losing their superior quality. Flesh is firm and meaty like a Roma. For optimum flavor, pick when fruits are 1-1/2" long by 3/4" wide and deep red. Easy to harvest – fruits detach from trusses effortlessly and have an excellent shelf-life. Stands out and grabs attention at fresh markets. Plants stay healthy and green long into the season – even under strong Early Blight pressure. High yielding. Indeterminate.
#00798. (A) pkt. (10 seeds) \$5.65; 3+ pkts. \$5.10 each

Yellow Cherry

70 days. Lots of small, 1/2", pretty fruits to toss in your salads. Strong vines produce high yields of yellow jewels, preferred by taste-testers about the same percentage as Supersweet 100 (pg. 39). Indeterminate.
#00833. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (D) 1/32 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Zebra Cherry Hybrid

70 days. A compact, hard-to-find basket type producing loads of tangy fruits that are slightly larger than the average cherry at 1 to 1-1/2" in diameter. Exotic fruits have red and green stripes, with dark red, flavorful, firm flesh. Ideal for small spaces. Determinate.
#00846. (A) pkt. (15 seeds) \$4.25; 3+ pkts. \$3.95 each; (V) 100 seeds \$20.95; 2+ \$19.55 each; 4+ \$15.75 each

Tomatillos/Ground Cherries

Aunt Molly's Ground Cherry

65-90 days. Also known as *Cape Gooseberry*, *Husk Cherry* and *Strawberry Tomato*. An heirloom variety from Poland prized for its flavor. Golden-yellow, 1/2" fruits, with a strawberry-like flavor, are excellent for pies, preserves, jams and fresh eating. Productive plants, 18" tall and 24" wide, start fruiting in July and continue until frost. Indeterminate.

#02351. (A) pkt. (100 seeds) \$3.15; 3+ pkts. \$2.90 each

Pineapple

75 days. A unique ground cherry with a deliciously sweet and juicy pineapple flavor. Bushy, spreading plants grow 12 to 18" tall and produce loads of small, 1" yellow fruits that have a nice texture and are encased in husks. Makes an unusual, delicious salsa and is excellent in salads, desserts, jams and for canning. Indeterminate.

#00838. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each

Purple Coban

70 days. Attractive fruits are smaller than typical varieties, at approx. 1" in diameter, but they are packed with a sweet, distinctive tomatillo flavor. Fruits start off green and ripen to varying shades of mostly purple. Popular in Guatemalan cuisine. Collected in Coban, Guatemala by Baker Creek Seed Company. Indeterminate.

#00835. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each

Ornamental Peppers

Black Pearl

110-125 days. 2006 AAS Winner. (PVP) Marvelous in mixed containers and the perfect backdrop in garden beds. Bushy, upright plants have a well-branched habit, producing shiny black fruits that are very hot to the taste. Fruits mature dark red with a rounded, slightly pointed shape. Very vigorous, with a high tolerance to heat and humidity.

#07302. (A) pkt. (10 seeds) \$4.15; 3+ pkts. \$3.85 each

Chilly Chili Hybrid

72 days. 2002 AAS Winner. (PVP) Tapered, 2" long peppers change from greenish-yellow to orange to red in a continual display set off by lush and attractive foliage. Although peppers are edible, their primary use is ornamental. Best when grown in full sunlight.

#07303. (A) pkt. (10 seeds) \$4.15; 3+ pkts. \$3.85 each; (R) 50 seeds \$10.95; 2+ \$10.25 each; 4+ \$8.25 each

Medusa

72 days. (PVP) Narrow, twisted, snake-like peppers named for Medusa's mythological hair! Compact, well-branched plants produce huge yields of 2 to 2-1/2" pointed peppers held prominently upright over dark green foliage. Plants, 6 to 8", typically display 40 to 50 mildly pungent fruits at the same time, in a wide color spectrum ranging from ivory to yellow, orange and bright red.

#07309. (A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each; (R) 50 seeds \$10.95; 2+ \$10.25 each; 4+ \$8.25 each

ONYX RED™

PRETTY N SWEET

prolific (harvest weekly in peak season), has thicker walls and a much sweeter taste to enjoy fresh or in your favorite recipes.

#03204. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each

Pretty N Sweet Hybrid

60 days. 2015 AAS Winner. An ornamental pepper that can be eaten – and it tastes fantastic! Sweet, multicolored peppers on compact, 18" plants are very attractive in ornamental gardens and containers. Compared to similar varieties, it's earlier, more

Onyx Red™

110-125 days. 2018 AAS Winner. Compact, 6 to 12", plants have eye-catching foliage that turns dark black/purple under high light conditions. The contrast between the foliage and tons of shiny red fruit is striking – black fruits are equally as striking – and makes a bold statement. Vigorous plants retain their neat habit. Great for container gardening. Extremely heat tolerant.

#07308. (A) pkt. (10 seeds) \$4.85; 3+ pkts. \$4.45 each

NuMex Easter

90 days. 2014 AAS Winner. Bred by the Chili Pepper Institute at NMSU. Plants, 6" tall, are very compact and filled with clusters of 4 to 6 beautiful purple, lavender, yellow and light orange conical fruits that point upward, topping dark green foliage. Fruits are produced continuously in beds, borders and containers. Easy-to-grow. Tolerates heat, drought, humidity and rain.

#07306. (A) pkt. (20 seeds) \$4.25; 3+ pkts. \$3.95 each

Peppers – Always So Rewarding!

Photo courtesy of National Garden Bureau

SEEDING

Peppers, like tomatoes and eggplants, are members of the Nightshade Family, and thus similar in culture. There are a few differences, however. Peppers absolutely demand warm weather, as they are more susceptible to cold weather damage than tomatoes. Never rush transplanting seedlings – be certain all danger of frost and cold weather has passed.

Peppers thrive in soils rich in organic matter, with adequate moisture. Grow in full sun, and exercise caution when using fertilizers containing nitrogen, as

plants tend to produce excess foliage rather than fruits.

Sow in well-drained soil in a warm, 80° to 86°F, sunny location 6 to 8 weeks prior to the recommended transplanting date. Allow about 2 weeks later than the transplanting time for tomatoes to make sure the weather will be really warm. Seeds take 14 to 21 days to germinate and should be transplanted into flats as soon as they are big enough to handle easily.

Do not allow seedlings to suffer from drought or low temperatures as they develop. Keep them growing steadily and gradually harden them off (see page 10) prior to planting.

GROWING ON

Plant in full sun, with an 18" spacing in the rows and a 2 ft. spacing between rows. Cultivate often but not too deep to avoid root damage. In addition, you can mulch to help prevent weed germination and the loss of moisture.

Peppers can also develop Blossom End-Rot, so water them well and provide extra calcium by foliar feeding or side-dressing. Staking can be beneficial since plants are brittle. With proper care, plants will produce until frost.

DISEASES

We offer many disease resistant peppers, some of which have X3R® technology. These varieties feature a high resistance to Bacterial Leaf Spot (Xcv) races 0-3, 7 and 8.

WARM TO HOT TYPES

Colorful, hot peppers have become a staple in home gardens and earned the respect they deserve in the culinary world. Hot peppers offer a full spectrum of taste and heat. With a little information, and little work in the garden, you can grow varieties that add the perfect degree of heat to your specialty dishes all year long.

Anaheim Chiles (also called New Mexican or Colorado Chiles) are long, green chiles that are mildly hot. Meaty, thick-walled pods get sweeter, hotter and redder as they ripen. Anchos (also called Poblanos) are also among the least hot.

Medium-hot Jalapenos are favored as middle-of-the-road chiles – not too hot and not too mild, as are the small Serrano chiles and the medium-mild Pasillas. Chipotles are dried, smoked Jalapenos.

Cayennes, both red and gold types, are very pungent.

Habaneros, once considered the world's hottest peppers, have now been surpassed on the heat scale by Bhut Jolokia (also known as Ghost Chile), Carolina Reaper and Trinidad Scorpion – all rate more than one million Scoville units!

See our **Heat Scale on Page 50!** 

PEPPER SEED COUNT

One oz. of most pepper seed varieties contains 4,000 seeds. Our pkts. contain the number of seeds stated in the description. Larger sizes contain the following approximate counts:

1/32 oz. contains 125 seeds 1/8 oz. contains 500 seeds
1/16 oz. contains 250 seeds 1/4 oz. contains 1,000 seeds

Our Sweetest Bell Peppers!

Alliance Hybrid

70 days. Because of its disease resistance you'll be ensured of healthy yields of large, mostly 4-lobed, 4-1/2" blocky fruits with thick walls and smooth skin. Fruits mature from green to deep red. Strong plants have good leaf canopy offering protection from sunscald and easy harvest of fruits. Highly resistant to Bacterial Leaf Spot (1,2,3,5), Potato Virus Y, Potato Yellow Mosaic Virus, Tobacco Mosaic Virus and Pepper Mottle Virus with intermediate resistance to Cucumber Mosaic Virus.

#03105. (A) pkt. (15 seeds) \$4.55; 3+ pkts. \$4.20 each

Baron Hybrid

68 days. Formerly known as *Red Beauty*. The first widely-adapted red bell, sure to be king of the reds wherever it's grown. Impressive, 4-lobed fruits are packed with heavy, sweet flesh and set early. High yielder.

#03207. (A) pkt. (30 seeds) \$5.05; 3+ pkts. \$4.55 each; (V) 100 seeds \$11.95; 2+ \$11.20 each; 4+ \$8.95 each

Big Bertha Hybrid

70 days. One of our most popular for fresh market, home gardens and gourmet chefs. Extra-large, mostly 4-lobed, superior fruits mature up to a full 7" long by 3-1/2" across, turning deep green to red, with full-season fruiting. Resists Tobacco Mosaic Virus. Upright plants grow 25 to 30".

#03116. (A) pkt. (25 seeds) \$4.55; 3+ pkts. \$4.20 each; (V) 100 seeds \$13.75; 2+ \$12.85 each; 4+ \$10.35 each

California Wonder 300 TMR

75 days. Deep green to red, thick-walled with an attractive glossy flesh. Fruits are medium-sized, 4" by 4", 3 to 4-lobed, smooth and blocky. A nice stuffer. High yields on plants that grow 28" tall.

#03121. (A) pkt. (100 seeds) \$2.95; 3+ pkts. \$2.70 each; (F) 1/16 oz. \$5.50; 2+ \$5.15 each; 4+ \$4.15 each

Chablis Hybrid

60 days. Early maturity means early rewards from this easy-care variety, which produces blocky, 4" by 3" fruits on plants 18 to 24" tall. Popular for fresh salsa, salads, frying, stuffing, roasting and pickling. Weighty fruits are super sweet, with thick walls that hold their shape. High yields ripen from white to orange to brilliant red. Resistant to Tobacco Mosaic Virus and Bacterial Leaf Spot.

#03129. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (D) 1/32 oz. \$10.50; 2+ \$9.80 each; 4+ \$7.95 each

Peppers of the Americas

By Maricel E. Presilla – a three-time James Beard Award-winning author and chef-restaurateur. Culinary peppers (and pepper-based condiments, such as Sriracha and the Korean condiment gochujang) continue to gain popularity as more consumers try more and more new varieties and discover their known health benefits. This stunning visual reference to peppers, now seen on menus and in markets, showcases nearly 200 varieties with physical descriptions, tasting

notes, uses for home cooks and beautiful photographs for each. Also includes more than 40 popular Latin recipes for spice blends, salsas, sauces, salads, vegetables, soups and main dishes that highlight the big flavors and taste-enhancing capabilities of peppers. Hardcover. 352 pages. **#53551. \$34.95 each**

ALLIANCE

BARON

BIG BERTHA

CALIFORNIA WONDER

CHABLIS

Big, Little, Traditional, Gourmet ...

Chinese Giant

90 days. A mild, mid-season type perfect for home gardens. Produces uniformly large fruits that have a blocky bell shape and thick walls – ideal for stuffing. Sweet flavored and ripens to a brilliant cherry red color, each averaging 4 to 5" across and 6" in length.

#03128. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

Chocolate Beauty Hybrid

85 days. One-of-a-kind variety! High quality, flavorful medium-large, very smooth 3 and 4-lobed fruits mature from green to a very attractive chocolate color. Resists Tobacco Mosaic Virus.

#03132. (A) pkt. (30 seeds) \$4.95; 3+ pkts. \$4.50 each; (V) 100 seeds \$14.45; 2+ \$13.45 each; 4+ \$10.85 each

Early Summer Hybrid

70-75 days. Beautiful golden-yellow fruits will impress even the pickiest pepper critics! Extra-large, 4 to 5" fruits mature from dark green to yellow on strong plants with very impressive yields. High quality fruits are firm, smooth and glossy with thick walls and a uniform blocky shape. Excellent disease resistance.

#03141. (A) pkt. (20 seeds) \$4.15; 3+ pkts. \$3.85 each

Early Sunstation Hybrid

69 days. One of the earliest, biggest and brightest yellow bells ever! Very fine, extra-large, 4-1/2", smooth fruits mature from green to bright golden-yellow, when they are at their sweetest. An X3R® variety.

#03142. (A) pkt. (20 seeds) \$4.85; 3+ pkts. \$4.45 each; (V) 100 seeds \$15.75; 2+ \$14.70 each; 4+ \$11.85 each

Encore Hybrid

70 days. Extra-large, 5-1/2 to 6" blocky fruits are smooth with thick walls and are slow to turn to a deep dark red. Even under cool temperatures, plants produce abundant yields of high quality peppers that consistently maintain their large size and shape. Plants grow up to 24" and have excellent foliage cover to protect fruits against sunscald. Widely adaptable. Highly resistant to Pepper Mottle Virus and Potato Virus Y Races 0-2.

#03138. (A) pkt. (20 seeds) \$4.15; 3+ pkts. \$3.85 each

Excursion II Hybrid

75 days. Big, blocky, 4-1/2 by 4-1/2" bell peppers have thick walls and a juicy texture. Fruits are 4-lobed, intense deep green and ripen to a brilliant red. Compact plants produce excellent yields often with 8 to 10 fruits at the same time on a single plant. Resistant to Bacterial Spot, Tobacco Mosaic Virus, and Potato Virus Y.

#03140. (A) pkt. (20 seeds) \$4.75; 3+ pkts. \$4.40 each

Flamingo Hybrid

66 days. Very prolific, with high yields of smooth, slightly tapered fruits that are a sizable 3-1/2". Waxy fruits mature from creamy ivory to orange-red around crisp, sweet flesh, making this a bright choice as a salad pepper. If you've tried Gypsy (pg. 48), then try Flamingo for its improved yields and larger size. Widely adaptable plants with good TMV resistance thrive in open fields and gardens.

#03147. (A) pkt. (20 seeds) \$4.95; 3+ pkts. \$4.50 each

Garfield Hybrid

75 days. An impressive blocky bell pepper. Dark green, 4-1/2 to 5-1/2" fruits ripen to a vivid orange color. Uniform fruits are 4-lobed and thick walled. When fully ripe, this beauty has an excellent sweet flavor that will become a favorite with bell pepper lovers everywhere! An excellent addition to any pepper dish. Medium-size plants produce good yields. Resistant to Tobacco Mosaic Virus.

#03150. (A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each

Golden Calwonder

72 days. Very similar to California Wonder 300 TMR, except that its smooth, glossy fruits ripen to a beautiful, golden-yellow. Adds rich color and flavor to salads and dishes.

#03154. (A) pkt. (100 seeds) \$3.15; 3+ pkts. \$2.90 each; (F) 1/16 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Gourmet

58 days. A simple name for a simply fabulous bell whose brilliant orange fruits are packed with melt-in-your-mouth sweetness. Compact plants exceed expectations, producing prolific yields of blocky, 3 to 5" fruits with thick walls and crisp flesh that holds its tender texture through maturity. Exhibits excellent garden performance – crops early and continues over a long season. Good TMV resistance.

#03161. (A) pkt. (15 seeds) \$3.35; 3+ pkts. \$3.05 each

Gourmet Rainbow Blend

65-70 days. A formula mix of our most popular bell pepper colors. Grow a rainbow of vibrant sweet bells – red, yellow, green, orange, purple and brown – without buying more seed than you need of each! It's one of our best sellers!

#03158. (A) pkt. (25 seeds) \$3.25; 3+ pkts. \$2.95 each; (D) 1/32 oz. \$10.95; 2+ \$10.25 each; 4+ \$8.25 each

CHOCOLATE BEAUTY

EARLY SUMMER

EARLY SUNSTATION

GOURMET RAINBOW BLEND

EXCURSION II

ENCORE

GOLDEN CALWONDER

GOURMET

GARFIELD

FLAMINGO

GOURMET RED IMP.

Gourmet Red Improved Hybrid

70-80 days. Big, flavorful and sure to be the perfect pick for pepper aficionados! Large, 3 to 4-lobed, fruits weigh approximately 4 oz. and have a very sweet flavor. Adds a bright color to salads and veggie trays. Highly resistant to TMV, Tomato Mosaic Virus and Pepper Mild Mottle Virus. Plants, with a semi-upright habit, produce very early and abundantly.

#03214. (A) pkt. (20 seeds) \$4.25; 3+ pkts. \$3.95 each

Heritage VR Hybrid

75 days. Delivers all the good old-fashioned heritage qualities its name suggests. Sturdy, reliable plants never disappoint with early harvests of large to extra-large, 4-1/2 by 5" blocky peppers. Flavorful fruits are very resistant to Tomato Spotted Wilt Virus and Bacterial Spot, staying pretty as a picture when maturing from green to red.

#03168. (A) pkt. (15 seeds) \$5.05; 3+ pkts. \$4.55 each

Keystone Giant Resistant III

72-75 days. Large fruits, 4-1/2" by 3-1/2", are 4-lobed and thick-walled – perfect for stuffing! Plants bear heavily, even when under stress. Tobacco Mosaic Virus tolerant.

#03173. (A) pkt. (100 seeds) \$2.85; 3+ pkts. \$2.60 each; (F) 1/16 oz. \$4.55; 2+ \$4.25 each; 4+ \$3.45 each

King Arthur Hybrid

61 days. Formerly known as *Fat 'N Sassy*. Varieties bred for early yields usually give up some of their size. Not so with this one! Unmatched for its large fruit size and early maturity. Sweet, crunchy, 4-lobed fruits truly live up to their name – about 4-1/2" by 4-1/2", thick-walled and blocky. Plants grow to about 22" and perform well under a variety of conditions. Tolerant to most diseases.

#03144. (A) pkt. (25 seeds) \$4.55; 3+ pkts. \$4.20 each; (V) 100 seeds \$14.75; 2+ \$13.75 each; 4+ \$11.05 each

King of the North

68-70 days. Excellent in short-season gardens of Northern climates, due to early bearing and the huge, blocky shape of its thick-walled, bright red, 6" by 4" fruits. Great for stuffing. Mild taste becomes even more mellow as the fruits mature.

#03174. (A) pkt. (50 seeds) \$3.15; 3+ pkts. \$2.90 each; (F) 1/16 oz. \$5.25; 2+ \$4.85 each; 4+ \$4.15 each

Liberty Belle Hybrid

73-78 days. The naturally dwarf habit of this patio variety makes it outstanding for container gardening. Large, blocky bells, 4 to 5-1/2" by 3-1/2 to 4", are an attractive light green and mature to a gorgeous bright yellow. Very sweet peppers are great for stuffing, sautéing, roasting and using fresh. High yielding plants grow up to just 20" and withstand intense heat without fruit damage. Resistant to Tobacco Mosaic Virus.

Majestic Red Hybrid

75-85 days. Large, 6 to 7", blocky peppers have a mild, sweet flavor, weigh 4 to 6 oz. each and are smooth with thick, crunchy walls. Fruits are heavy for their size – perfect for stuffing! – and mature from green to a bright candy-apple red. Medium to large plants provide good foliage cover. Highly resistant to TMV and Bacterial Spot.

#03175. (A) pkt. (15 seeds) \$3.95; 3+ pkts. \$3.65 each

Merlot Hybrid

68 days. Rich, jewel-toned, 5" by 4" blocky fruits have gourmet eye-appeal, with crisp, thick walls and very sweet flavor. High-yielding plants mature early and are adaptable to weather conditions, growing 18 to 24" tall with good protection provided by lush foliage. Especially resistant to Tobacco Mosaic Virus and Bacterial Leaf Spot.

#03190. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each; (D) 1/32 oz. \$9.95; 2+ \$9.35 each; 4+ \$7.45 each

Mini Belle Blend

60 days. A festive, charming mix of tiny bell peppers, just 1-1/4", on 24" plants. Fruits have sweet, firm flesh that is surprisingly thick and flavorful. All peppers start out green, and mature to a range of yellows and reds. Prolific yields. Resistant to Tobacco Mosaic Virus.

#03187. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (F) 1/16 oz. \$5.50; 2+ \$5.15 each; 4+ \$4.15 each

Napoleon Sweet

70-90 days. Home gardeners everywhere will love this heirloom dating back to the 1920's. High yielding, 24" tall plants produce 8" long, thick fleshed fruits consistently up until frost. Flavor is as mild and sweet as an apple when green – even sweeter when red. Excellent for fresh use, frying or drying.

#03188. (A) pkt. (30 seeds) \$5.95; 3+ pkts. \$5.35 each

New Ace Hybrid

65 days. Earliness and high yields characterize this hybrid. Perfect for short growing seasons in the North. Deep green, large, 3-lobed fruits are nice fresh from the vine or for stuffing. Excellent resistance to Tomato Mosaic Virus and Tobacco Mosaic Virus.

#03189. (A) pkt. (20 seeds) \$3.35; 3+ pkts. \$3.05 each; (V) 100 seeds \$6.65; 2+ \$6.10 each; 4+ \$4.95 each

#03169. (A) pkt. (10 seeds) \$4.15; 3+ pkts. \$3.85 each

MAJESTIC RED

MERLOT

MINI BELLE BLEND

All Enticingly Tasty!

North Star Hybrid

60-65 days. Extremely early, and ideal for short-season areas. Plants are particularly well adapted to set blocky fruit even under unfavorable conditions. Deep green, 4-1/2 by 3-1/2", fruits turn bright red at full maturity. Tobacco Mosaic Virus resistant.
#03191. (A) pkt. (30 seeds) \$4.95; 3+ pkts. \$4.50 each; (V) 100 seeds \$14.45; 2+ \$13.45 each; 4+ \$10.85 each

Orange Blaze Hybrid

65-70 days. 2011 AAS Winner. Very sweet, early to mature, with multiple disease resistances. Gourmet-style, intense orange lobed fruits are 3 to 4" long and 1-1/2" wide, shiny and blemish-free. Flavor and color peak at the same time, letting you time your harvests to perfection. An X3R® variety.
#03192. (A) pkt. (10 seeds) \$4.25; 3+ pkts. \$3.95 each

Ozark Giant

70-85 days. Huge, 8" long, heirloom beauties! Eaten when red, fruits have a deliciously sweet flavor (can also be eaten green), are thick walled and juicy. Enjoy in salads, salsas and your favorite recipes. Sturdy plants have heavy foliage and should be supported as 'giant' yields can weigh it down.
#03202. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each

Purple Beauty

70 days. Special purple color for gourmet chefs. Fruits are blocky, thick-walled and dark purple. Compact plants set heavily, with good cover to protect fruits from sunscald.
#03201. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each; (D) 1/32 oz. \$5.50; 2+ \$5.15 each; 4+ \$4.15 each

Recovery Hybrid

60 days. Vigorous plants have an open bush habit and produce smooth, blocky 4 by 4" sweet fruits with good firmness and thick-walls. Peppers are very early and quick to mature to red under warm to hot temperatures and can be eaten at any stage. Widely adaptable for cool and warm growing conditions. Perfect for fresh markets. Heavy yielder. Highly resistant to Bacterial Leaf Spot.
#03227. (A) pkt. (20 seeds) \$4.55; 3+ pkts. \$4.20 each

Red Bull Hybrid

85-90 days. Produces strong heavy sets of four-lobed, large fruits that are blocky, smooth and very thick walled. Perfect for stuffing, roasting and eating fresh. Plants have excellent canopies of foliage to help prevent fruits from sunscald. Excellent disease resistance to TMV and Bacterial Spot Races 0-3.
#03208. (A) pkt. (20 seeds) \$3.35; 3+ pkts. \$3.05 each

Snackabelle Red Hybrid

70-75 days. Thick-walled, 2 to 2-1/4", blunt-end peppers have a rich, sweet flavor that's great for fresh eating – green or red – holds up well through grilling and stuffing. Fruits have an "easy-out" stem and seeds – simply push down or cut around cap to release seed cavity for quick cleaning. Superior disease resistance includes Bacterial Leaf Spot Races 1-3, 7, 8 and Tobacco Mosaic Virus.
#03216. (A) pkt. (10 seeds) \$3.55; 3+ pkts. \$3.25 each

Summer Sweet® #8610 Hybrid

73-83 days. Well-branched plants produce heavy yields of big, blocky, 3-1/2 to 4-1/2", peppers that ripen from rich green to an attractive golden yellow. Smooth fruits are blemish-free and have a crisp, juicy texture and wonderful sweet flavor. Highly resistant to Bacterial Spot, Tobacco Mosaic Virus and Potato Virus Y.
#03222. (A) pkt. (20 seeds) \$4.15; 3+ pkts. \$3.85 each

Super Heavyweight Hybrid

77 days. Back by popular demand! Enormous fruits, weighing up to 9 oz. each, are thick-walled, blocky, marvelously sweet and crunchy. An eye-catching variety in the garden, this 6" by 5" bell is such a handful, you may need two hands to pick one up! Peppers ripen from green to gold and have thick flesh that's high in Vitamin C. Perfect for stuffing or eating fresh – green or yellow. Good yielder.
#03241. (A) pkt. (25 seeds) \$5.15; 3+ pkts. \$4.65 each

Sweetie Pie Hybrid

60-70 days. 2017 AAS Winner. These small 3 oz. cuties are 2-1/2 by 3", thick-walled, sweet and flavorful and can be eaten at both the green and red stages. Excellent fresh, grilled, stir-fried or stuffed. Compact plants have heavy yields – as many as 30 mini bells each! Perfect for containers and small space gardens.
#03234. (A) pkt. (20 seeds) \$3.65; 3+ pkts. \$3.35 each

Tawny Port Hybrid

70 days. Beautiful, port wine colored fruits have an excellent, very sweet, flavor. Four lobed and very large, 4 by 5" bells are perfect for adding unique color to salads and stir-fries. Makes a beautiful stuffed pepper, too!
#03230. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each; (D) 1/32 oz. \$10.50; 2+ \$9.80 each; 4+ \$7.95 each

TEQUILA

Tequila Hybrid

75 days. A true purple sweet bell, deep in color with early maturity. Its 3 to 4-lobed fruits mature to a medium red. Attractive fruits make excellent stuffed peppers and stir-fries. Resists Tobacco Mosaic Virus.

#03229. (A) pkt. (10 seeds) \$4.55; 3+ pkts. \$4.20 each; (D) 1/32 oz. \$27.95; 2+ \$26.05 each; 4+ \$20.95 each

Trifecta Hybrid

50-65 days. Extra-large, blocky, 3-1/2" by 3-1/2", dark green fruits turn scarlet red and have brilliant color inside and out. Delicious, thick-walled bells are perfect for stuffing, grilling and for fresh eating. Perfect for market growers. Strong plants produce high yields and have good leaf cover to protect fruits. Highly resistant to Tobacco Mosaic Virus and Tomato Spotted Wilt Virus.

#03233. (A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each

TRIFECTA

Sweet Non-Bells ...

Alma Paprika

70-80 days. Paprika is a kitchen staple that's easy-to-grow and process. One of the best for drying, grinding, or picked straight from the prolific plants and eaten fresh. Thick-walled, sweet fruits start out creamy-white, then mature to orange and finally red.

#03102. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (D) 1/32 oz. \$5.50; 2+ \$5.15 each; 4+ \$4.15 each

Aruba Hybrid

65 days. A cubanella-type pepper producing unique, elongated, 3 to 4-lobed fruits up to 10" long, with a distinctive flavor that is mildly sweet and fruity with a hint of heat. Perfect for salads and stir-fries. Peppers mature from lime-green to orange to red to chocolate. A vigorous yielder.

#03103. (A) pkt. (25 seeds) \$4.25; 3+ pkts. \$3.95 each; (V) 100 seeds \$10.55; 2+ \$9.75 each; 4+ \$7.90 each

YELLOW MONSTER

Biscayne Hybrid

63 days. An improved Cubanella with 5", blocky, 3 to 4-lobed fruits that have thicker walls than the older varieties. Other improvements are an earlier maturity, more prolific yields, and a flavor that's sweeter than open-pollinated types.

#03221. (A) pkt. (30 seeds) \$4.95; 3+ pkts. \$4.50 each; (V) 100 seeds \$12.95; 2+ \$12.10 each; 4+ \$9.75 each

Candy Cane Red Hybrid

60-65 days. These unique sweet beauties will stand out at roadside stands and gardens. Elongated, 3-1/2 to 4" by 1-1/4 to 1-3/4", fruits ripen from green with creamy white stripes to solid red. Thin walls and crispy texture make it perfect for fresh eating at any stage of ripeness. Plants have unusual variegated foliage giving them an ornamental look and are ideal for patio containers and small space gardening.

#03118. (A) pkt. (10 seeds) \$3.75; 3+ pkts. \$3.45 each

CANDY CANE RED

CARMEN

Yellow Monster

70 days. Harvest yields of giant, elongated fruits. Strong 27" plants bear sweet, meaty, enormous fruits that can grow up to 8" long and 4" wide. As the fruits mature from green to bright sunny yellow the sweet flavor intensifies. Perfect fresh, fried, stuffed or roasted.

#03235. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each

Carmen Hybrid

60 days. 2006 AAS Winner. A distinctive horn-shaped Italian pepper, with a delightful flavor that's noticeably sweeter than other varieties, raw or cooked. Firm, tapered fruits grow to about 5 oz., 6" long and 2-1/2" wide at the shoulders and mature from green to red on upright, leafy plants. Excellent yields, widely adaptable, reliable and easy-to-grow.

#03127. (A) pkt. (15 seeds) \$3.75; 3+ pkts. \$3.45 each; (V) 100 seeds \$15.45; 2+ \$14.40 each; 4+ \$11.55 each

Cavalcade Hybrid

65-70 days. If you're a fan of Pageant (pg. 49), you're going to love this one. Smooth, slender fruits retain their bright yellow color longer providing flexibility in harvest. Thick walled peppers, 7-1/2" by 1-1/2" wide, mature to bright red and are ideal for eating fresh or for pickling. Widely adaptable and high yielding. A great variety for container gardening.

#03107. (A) pkt. (20 seeds) \$3.55; 3+ pkts. \$3.25 each

Cherry Pick Hybrid

68 days. Fruits measure 1-1/4" by 1-1/4" and are uniform in size and shape. Yield is superb, with tall, 24", vigorous plants setting loads of sweet, dark green fruits that mature to red, although normally harvested in the green stage. Makes excellent pickled peppers. Disease resistant and about 25% larger than the old strains.

#03126. (A) pkt. (20 seeds) \$4.55; 3+ pkts. \$4.20 each; (V) 100 seeds \$13.35; 2+ \$12.45 each; 4+ \$10.05 each

Chervena Chushka

80 days. In trials, this Bulgarian heirloom was one of the sweetest. Large tapered fruits measuring 2" wide by 6" long, ripen from green to light-brown to candy apple red. Traditionally, these peppers are used for roasting, but they are also great used fresh. Plants are very productive.

#03124. (A) pkt. (25 seeds) \$3.10; 3+ pkts. \$2.85 each

With A Not So Traditional Look!

Corbaci

75 days. Slender, sweet, 10 to 12" unique fruits change from light green, to yellow, to orange and finally to bright red. A perfect choice for fresh eating, pickling or frying, this rare heirloom is from Turkey and has a very rich, sweet flavor. Harvest edible green fruits in as little as 55 days or allow to fully mature at 75 days. Plants should be staked as very heavy yields will cause the plants to fall over.

#03125. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each

CORNITO HYBRID SERIES

75 days. Cornitos are only 5" long and 1 to 1-1/2" wide at the shoulders, very early, deliciously sweet and attractive smaller versions of Carmen and Escamillo, with similar maturity.

Perfect for grilling and roasting just like their full-size counterparts or eating fresh. Strong, sturdy plants yield prolifically all season long.

Giallo #03117. 2016 AAS Winner. **Rosso** #03122.

Prices, above 2, per variety:

(A) pkt. (25 seeds) \$4.95; 3+ pkts. \$4.50 each

Corno di Toro Red

72 days. Heirloom "Horn of the Bull" pepper imported from Italy. Fruits are 8 to 10" long, curved much like its namesake. Ripens to a gorgeous red cone at maturity, with superb taste and size. Tall plants are very vigorous.

#03134. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each;

(D) 1/32 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

CREST HYBRID SERIES

50-60 days. Medium, thick walled, Japanese conical-type sweet peppers are 6 to 7" long. Semi-upright plants produce smooth, tapered 4 oz. deliciously sweet fruits that mature early. Good leaf canopy provides protection from sunscald. Highly resistant to Tobacco Mosaic Virus, Tomato Mosaic Virus and Pepper Mild Mottle Virus.

Red #03135. **Yellow** #03136.

Prices, above 2, per variety:

(A) pkt. (15 seeds) \$4.25; 3+ pkts. \$3.95 each

Cubanelle

65 days. Sweet Italian frying type with a delicious taste.

Long, green, thick-skinned fruits have 2 to 3 lobes and turn yellow, then bright red at maturity. Peppers measure about 5-1/2" long by 2-1/2" wide and are tasty when fried in olive oil.

#03139. (A) pkt. (100 seeds) \$3.15; 3+ pkts. \$2.90 each; (F) 1/16 oz. \$4.95; 2+ \$4.65 each; 4+ \$3.75 each

Escamillo Hybrid

77 days. 2016 AAS Winner. Eye-catching corno di toro-type, 6 oz. fruits are big and bold, growing up to 8" long with broad, 2-1/2" shoulders. Peppers are held high on the plant, minimizing rot and making them easier to harvest. Excellent raw, cooked, sautéed, stuffed or fire roasted. Plants are compact and high yielding.

#03146. (A) pkt. (15 seeds) \$5.05; 3+ pkts. \$4.55 each

Felicity Hybrid

90 days. Jalapeno type hybrid that is heatless. Continuously sets large fruits that turn from green to red when mature. Plants have strong vigor and produce high yields of peppers that weigh between 1 to 1-1/2 oz.

#03029. (A) pkt. (20 seeds) \$3.75; 3+ pkts. \$3.45 each; (V) 100 seeds \$11.25; 2+ \$10.50 each; 4+ \$8.45 each

Foiled You Hybrid

65 days. Perfect for mild sauces, salsa and stir-fries ... not pungent or hot, but still enormously flavorful. Plants grow 27" tall, bearing loads of large, thick-walled fruits measuring 3-1/2" long and up to 1-3/4" wide at the shoulder, maturing from green to red.

#03035. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.65 each; (V) 100 seeds \$14.25; 2+ \$13.25 each; 4+ \$10.65 each

Giant Marconi Hybrid

70 days. 2001 AAS Winner. Not technically a marconi pepper, but displays so many similar traits it has earned the name! Large, tapered fruits grow to 8" by 3", with a sweet, smoky flavor that's equally delectable green or red, fresh or grilled. Widely adaptable, it produces larger than normal crops. Withstands severe weather and disease.

#03151. (A) pkt. (25 seeds) \$4.15; 3+ pkts. \$3.85 each; (V) 100 seeds \$13.25; 2+ \$12.35 each; 4+ \$9.95 each

Golden Treasure

80 days. Italian heirloom variety with long, 9" fruits that ripen from green to shiny yellow. Sweet flavor with medium thick flesh and tender skin. Excellent for frying, roasting and fresh eating.

#03155. (A) pkt. (20 seeds) \$2.85; 3+ pkts. \$2.60 each

Gypsy Hybrid

60 days. 1981 AAS Winner. An extremely early, heavy producer of wedge-shaped, tasty, 4" long by 2" wide peppers with sturdy walls and crunchy, firm, sweet flesh. A very reliable yielder all season long. Plants grow to 18" tall. Tobacco Mosaic Virus resistant.
#03163. (A) pkt. (25 seeds) \$4.25; 3+ pkts. \$3.95 each; (V) 100 seeds \$11.25; 2+ \$10.50 each; 4+ \$8.45 each

Habanada

70-90 days. A heatless habanero with an irresistible tropical flavor! Extremely productive plants produce 2 to 3" fruits that ripen from lime green to fluorescent orange and can be eaten at any stage. Excellent sautéed, pickled, roasted or fresh. Bred by Dr. Michael Mazourek of Cornell University.
#03162. (A) pkt. (15 seeds) \$3.75; 3+ pkts. \$3.45 each

Hungarian Cheese Mix Hybrid

65-68 days. This fun mix is very early maturing, yet sets continuous high yields. Peppers hang like ornaments on top of prolific, 18 to 24" plants. Fruits are flattened and round, with flutes around the stem end and unlike other mini-sweet peppers they have thick walls. Suitable for garden or container growing. Harvests have a long shelf life and are the perfect shape for stuffing. They also are great for salsa, fresh eating, canning or pickling – even use them as bowls for individual dip cups.
#03215. (A) pkt. (20 seeds) \$3.75; 3+ pkts. \$3.45 each

Jimmy Nardello's

80-90 days. A sweet frying pepper that grows 8 to 10" long and is mild, sweet and just a little spicy. Tapered fruits, on bushy plants, turn bright red at maturity. Flavor is distinctive but not overwhelming. A favorite for cooking and eating raw.
#03167. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.70 each; (D) 1/32 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Just Sweet Hybrid

65-75 days. 2019 AAS Winner. Attractive, unique snacking peppers are 4-lobed and look like elongated miniature bells. Fruits are approx. 3" long, have thick walls and crispy, delicate skin that's an exceptionally bright, shiny golden yellow, sometimes with hints of orange. Flavor is both sweet and tart with aromatic accents. Great eaten fresh, sautéed and stuffed. Plants are vigorous growers, up to 36" tall, and have been bred to have a strong, upright, bushy habit. Highly resistant to Tobamovirus.
#03166. (A) pkt. (10 seeds) \$4.85; 3+ pkts. \$4.45 each

Lipstick

53-73 days. A staple in specialty markets, where it is considered by many to be the ultimate sweet pepper for gourmet salads, salsa and cooking. Attractive, 4", blunt-tipped fruits are juicy and delicious throughout the maturity cycle. Harvest when dark green at the early end of the range, or wait 20 more days to ripen to a glossy red. As reliable as it is pretty, with heavy yields, even where cool summers prevail.
#03170. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each

Lunchbox Mix

75-83 days. Equal amounts of red, yellow and orange snack peppers make up this colorful mix. Beautiful, mini-sized, 2 to 3" fruits are remarkably sweet and flavorful, with red being slightly smaller and noticeably sweeter. Delicious fresh as a healthy snack, in salads or sautéed. Enjoy green fruits in just 55 days. Strong plants yield well.
#03177. (A) pkt. (15 seeds) \$4.25; 3+ pkts. \$3.90 each

Mama Mia Giallo Hybrid

85 days. 2014 AAS Winner. Bright yellow, tapered fruits grow 7 to 9" long and are very uniform with smooth skin and sweet flavor. Plants are somewhat compact at 20 to 24" tall with excellent leaf coverage to protect peppers from sunburn. Strong stems support the heavy yields of up to 30 fruits per plant. Excellent fresh, roasted or grilled – this Italian sweet pepper is a winner both in the garden and at the dinner table. Tobacco Mosaic Virus resistant.
#03186. (A) pkt. (25 seeds) \$3.55; 3+ pkts. \$3.25 each

Marconi

70-72 days. An Italian variety with traditional long, green, sweet peppers that mature to red. Large plants bear tasty, 3-lobed fruits which grow up to 12" long and 3" across at the shoulders. Good used green or red for salads and frying.
#03183. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (D) 1/32 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Melrose

55-75 days. A superb heirloom brought to the U.S. from Italy many years ago. Tender and sweet, thin skinned, 4" fruits, turn brilliant red and are produced very early. Flavor is good when harvested green, but becomes sweeter and more intense when allowed to mature. Great fresh, stuffed or fried.
#03181. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each

Nadapeño

75 days. A great choice for those who want the jalapeño flavor, but without the heat. This variety was bred to have no heat, yet keep the flavor and appearance of traditional jalapeños – no gloves needed for chopping or slicing! Attractive fruits are 3" long, ripen from green to red and are great for fresh use, stuffing and roasting. Sturdy plants produce heavy yields. Bred by A. P. Whaley Seed Company.
#03194. (A) pkt. (25 seeds) \$3.15; 3+ pkts. \$2.90 each

MAMA MIA GIALLO

Pageant Hybrid

60-65 days. This beauty comes in first place with its quality fruits, disease resistance and high yields! A sweet banana type producing multiple harvests of beautiful yellow, 6 to 7" long fruits all season long. Vigorous plants support elongated fruits well above the soil. Thick walled peppers are great fresh, broiled, grilled and pickled. Resistant to Bacterial Leaf Spot.

#03197. (A) pkt. (20 seeds) \$3.35; 3+ pkts. \$3.05 each

Pimiento Elite Hybrid

75 days. The first hybrid version of the pimiento pepper, with extra-heavy yields of thick-walled fruits measuring 3" long by 3-1/2" across. Fruits, less heart-shaped than Pimiento L, are more oblong or oval.

#03199. (A) pkt. (30 seeds) \$4.55; 3+ pkts. \$4.20 each; (V) 100 seeds \$11.95; 2+ \$11.20 each; 4+ \$8.95 each

Pimiento L

95-100 days. One of the mildest pimiento-types. Heart-shaped fruits mature from dark green to deep red. Ideal for salads, garnishes and canning. Compact, 18", plants produce high yields. Tobacco Mosaic Virus resistant.

#03200. (A) pkt. (100 seeds) \$3.95; 3+ pkts. \$3.65 each; (F) 1/16 oz. \$5.50; 2+ \$5.15 each; 4+ \$4.15 each

Sheepnose Pimento

80 days. A tried-and-true heirloom. Pimento-shaped, 3 by 4" fruits are very sweet and meaty, making them ideal for canning, freezing and eating fresh. Plants are very productive and fruits keep for weeks in the refrigerator.

#03212. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each; (D) 1/32 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Sweet Banana

66 days. One of the most popular peppers, excellent fresh or cooked! Thick-walled, pendant fruits with sweet, mild, waxy flesh start out a pale green, ripen to yellow, then red. Prolific plants grow 16 to 24".

#03217. (A) pkt. (100 seeds) \$2.85; 3+ pkts. \$2.60 each; (F) 1/16 oz. \$4.95; 2+ \$4.65 each; 4+ \$3.75 each

Sweet Cayenne

75 days. Sweet and Cayenne – two words that aren't typically used together! Unique, cayenne-shaped sweet peppers, have crunchy, thin-walls and grow up to a whopping 12" long! Excellent in stir-fries. Plants produce high yields of fruits that mature from green to red. This variety has it all – except the heat!

#03223. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each; (D) 1/32 oz. \$5.50; 2+ \$5.15 each; 4+ \$4.15 each

TRICKED YOU

Sweet Red Habanero

80-85 days. Habaneros have continually gained popularity among hot pepper lovers, but there are some that love the flavor they're known for, they just can't take the heat! If you're one of those people, you'll definitely want to try this heatless beauty. Attractive red, lantern-shaped peppers have the same fruity flavor as their hot cousins, but without the scorching heat and they mature slightly earlier than standard habaneros. Plants are eye-catching grown in containers on the patio.

#03226. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each

TENNESSEE CHEESE

SWEET SUNSET

SWEET RED HABANERO

Sweet Sunset Hybrid

85-90 days. 2015 AAS Regional Winner. Colorful, thick-walled banana peppers range from yellow to orange to red. Attractive fruits are great fresh, as well as for frying, pickling or cutting into rings for salads, sandwiches and pizza toppings. Compact, upright plants do not require staking making them perfect for container and small space gardening. High-yielding plants are vigorous, produce early, often and continue late into the season. An X3R® variety.

#03218. (A) pkt. (15 seeds) \$4.15; 3+ pkts. \$3.85 each

Tennessee Cheese

82 days. An ancient heirloom recovered from seeds donated by a couple living in Kingston, Tennessee. Originally from Spain, where it is still used as a staple in many dishes. Fruits are perfect for stuffing and are round, apple or tomato-shaped, with a flattened base and a thick, delicious skin. Use it fresh like a bell, pickled, canned or dried for paprika.

#03228. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Tricked You Hybrid

90 days. An improved version of our very popular Fooled You (pg. 47) that has become a favorite in its own right. Easy-to-grow, 4" fruits have excellent jalapeño flavor without the heat. Great for combining with hot jalapeños to customize the level of heat in homemade salsa and hot sauce. An X3R® variety.

#03090. (A) pkt. (15 seeds) \$4.25; 3+ pkts. \$3.95 each

Whitney Hybrid

65 days. How sweet it is! This magnificent stuffer puts all similar varieties to shame. Thick walls do the job to perfection, but instead of the tough, bland fruits typical of many stuffers, these tapered, 5" peppers are super-sweet and delicious. One of the earliest Hungarian-types on the market, delivering heavy yields of 8 oz. fruits turning from cream to gold and finally to a bright red.

#03239. (A) pkt. (20 seeds) \$4.25; 3+ pkts. \$3.95 each; (V) 100 seeds \$13.35; 2+ \$12.45 each; 4+ \$10.05 each

Yummy Orange Hybrid

73 days. Large, sturdy plants continuously set loads of petite, 2-1/2" by 1-1/4" fruits. These tender-crisp, super sweet, nearly seedless delights are perfect for vegetable trays, used with dips, stuffed with cheese or grilled on skewers. Keeps well for a long time without refrigeration.

#03240. (A) pkt. (15 seeds) \$4.15; 3+ pkts. \$3.85 each

HEAT SCALE

PLEASE NOTE:
Seeds & fruits can be very hot!
Handle with care.

AJI DULCE #2

Aji Dulce #2

85-90 days. Attractive peppers look just like a fiery hot, red habanero, have a similar aroma and flavor but without all the heat! Fruits have medium thick flesh and a nice fruity flavor that has only a hint of heat even when you use seeds and all. Popular in Central and South America for dishes that require that great habanero flavor but much lower levels of heat. Tall plants are very sturdy and produce an abundant harvest.
#03101. (A) pkt. (15 seeds) \$3.95; 3+ pkts. \$3.65 each

AJI HABANERO

Aji Habanero

70-85 days. Crisp, thin fleshed, 3" long peppers have a rich complex flavor that's best appreciated when eaten fresh, but also dries extremely well. Mildly hot, with just 5,000 to 10,000 Scovilles. High yielding plants are very easy-to-grow. Harvest green fruits at 70 days; orange at 85.
#03000. (A) pkt. (15 seeds) \$3.95; 3+ pkts. \$3.65 each

AJI RICO

Aji Rico Hybrid

60-70 days. 2017 AAS Winner. Thin-walled, crunchy, 3 to 4" fruits have a delicate, refreshing citrus flavor combined with a pleasing amount of medium heat. Narrow, conical shaped fruits mature from green to red and can be eaten at any stage. This unique hybrid matures earlier, has more plant vigor and is more productive than comparable open-pollinated types. Perfect for eating fresh, in salsas and making hot sauces. Also, dries well for a flavorful homemade spicy paprika.
#03752. (A) pkt. (10 seeds) \$4.75; 3+ pkts. \$4.40 each

Anaheim Chili

75 days. One of the most popular chili peppers. Two-celled, medium-hot fruits, with medium thick, dark green flesh, ripen to bright red. Continuous bearing, high yielding, vigorous, 24 to 30" plants are bushy and upright, providing good foliage cover.
#03001. (A) pkt. (100 seeds) \$2.95; 3+ pkts. \$2.70 each;
(F) 1/16 oz. \$4.95; 2+ \$4.65 each; 4+ \$3.75 each

ANAHEIM CHILI

Big Jim

75-80 days. Released by New Mexico State University. One of the largest of the chile peppers, with mildly hot fruits measuring 10 to 12" long and weighing up to 4 oz. Excellent for Chiles Rellenos. Sturdy 24 to 36" plants yield 24 to 30 peppers per plant which tend to ripen all at the same time.
#03008. (A) pkt. (50 seeds) \$3.15; 3+ pkts. \$2.90 each;
(D) 1/32 oz. \$4.95; 2+ \$4.65 each; 4+ \$3.75 each

BIG JIM

Biggie Chile™ Hybrid

68 days. (Sahuaro Cultivar) An improved Big Chile II with stronger plants and a heavier leaf canopy that protects fruits from sunscald. It has the same great qualities as Big Chile II – early maturity, huge yields, impressive, thick walled fruits up to 9" long, and a mild rating of 500 Scovilles on average. Light green fruits will mature to a bright red if left on the vine. Great for roasting or slicing to add the perfect zest to pizzas or salads. Resistant to Pepper Mild Mottle Virus.
#03009. (A) pkt. (20 seeds) \$4.55; 3+ pkts. \$4.20 each; (V) 100 seeds \$16.25; 2+ \$15.15 each; 4+ \$12.15 each

BIGGIE CHILE™

Buena Mulata

75 days. Stunning heirloom plants are extremely ornamental and produce loads of round, tapered fruits that are 6" long. Pods ripen from violet to brown to deep-red – as fruits ripen to red they will get sweeter and meatier. Heat level is similar to a cayenne and great for fresh use or drying. Perfect in the garden or in containers. Traces back to the early 20th century to Horace Pippin, an African American folk artist.
#03766. (A) pkt. (25 seeds) \$3.10; 3+ pkts. \$2.85

BUENA MULATA

Burning Bush™ Hybrid

85-100 days. Connoisseurs of hot peppers know that the best varieties temper heat with a touch of sweet. This one gets it exactly right, with a pleasant aftertaste to the medium-large fruits but plenty of fire at the leading edge. Strong plants produce excellent sets of firm fruits that mature green to orange, averaging 1-1/2" by 3" in length. The earliest-maturing variety of its type on the market, up to 3 weeks earlier, with a Scoville rating of 15,000 to 20,000.
#03022. (A) pkt. (15 seeds) \$4.25; 3+ pkts. \$3.95 each;
(V) 100 seeds \$15.05; 2+ 14.05 each; 4+ \$11.35 each

BURNING BUSH

Cajun Belle

61 days. 2010 AAS Winner. The perfect combination of mildly spicy, but still sweet flavor makes this the perfect choice to add zing to salsas, salads and stir-fry dishes. Fruits ripen green to red and can be eaten at either stage. Uniform plants reach 24" in width and height, producing plentiful yields of firm-walled fruits that average 3-1/2 to 4" at maturity. Space plants 14 to 18" apart in full sun for best results.
#03019. (A) pkt. (10 seeds) \$3.75; 3+ pkts. \$3.45 each

CAJUN BELLE

Cayenne Large Red Thick

75 days. Quite hot, thick-fleshed, 6" by 3/4" fruits are a favorite for using dried, pickled or in sauces. Concentrated sets of pendant fruits – wrinkled, tapered and curved – are borne on strong upright plants. Ripens from a lustrous dark green to a brilliant scarlet.
#03016. (A) pkt. (100 seeds) \$3.15; 3+ pkts. \$2.90 each;
(F) 1/16 oz. \$4.95; 2+ \$4.65 each; 4+ \$3.75 each

CAYENNETTA

Cayennetta Hybrid

69 days. 2012 AAS Winner. Attractive in containers or patio gardens with a prolific display of colorful, cascading fruits that are protected from sun scorch by the dense canopy of foliage. Elongated, mildly spicy, 3 to 4" green fruits mature to glossy red. An all-around good choice for home gardeners.
#03012. (A) pkt. (10 seeds) \$4.85; 3+ pkts. \$4.45 each

COUNT DRACULA

Count Dracula

110 days. Jet black leaves and purple flowers create a striking display on sturdy, 2 ft. plants. Adding to the drama are 2" long, black fruits which ripen to blood red. With a rating of 25,000 Scovilles, these spicy hot peppers definitely have a "bite".
#03006. (A) pkt. (10 seeds) \$3.75; 3+ pkts. \$3.45 each

CAYENNE LARGE RED THICK

Phone Toll-Free (800)345-5977

Craig's Grande Jalapeño

70 days. A great garden staple for jalapeño lovers. Large, 3 to 4" long fruits weigh 3 oz. and have thick flesh making them great for stuffing, roasting, drying, pickling or using fresh. Matures from green to red when they are at their hottest. Short, stocky plants are loaded with hefty fruits from mid-summer up until frost.

#03759. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each

Devil Serrano

73 days. High yields of dark green, finger-sized, glossy fruits begin to mature early so you can enjoy them all season, but be prepared – this one's a real firecracker, with a rating of 6,000 Scoville units. Prized for its vigorous habit and extended shelf life, both in the U.S. and Mexico. Semi-determinate plants are easy to harvest, with less sprawl and a more efficient use of garden space.

#03080. (A) pkt. (20 seeds) \$3.75; 3+ pkts. \$3.45 each

Dragon Grilling Hybrid

75-80 days. A unique hybrid selected from Shishito and Padrón peppers, combining the best traits from both varieties to get the perfect grilling, roasting or stir-fry pepper. Fruits are not spicy when picked young, tender and green at less than 2" long, however, when fruits are fully matured to red, they can be quite spicy, similar to a jalapeño. Red pods can also be dried and used for mild to medium chile flakes. Plants are high yielding.

#03765. (A) pkt. (25 seeds) \$3.45; 3+ pkts. \$3.15 each

Early Flame Hybrid

60-65 days. Large, uniform 4" long by 1-1/2" wide jalapeño fruits are firm, smooth and pungent with a Scoville rating of 1,500 to 4,000. Fruits mature from a glossy, dark green to deep red and make a delicious sweet/hot, rich jalapeño sauce. Attractive, compact plants are vigorous, have good leaf cover and set heavily in a short time frame. Great for container gardening. Highly resistant to Tobacco Etch and Potato Y Virus Races 0-2.

#03767. (A) pkt. (15 seeds) \$3.95; 3+ pkts. \$3.65 each

Early Jalapeño

60-65 days. Ideal for Mexican dishes. Deep green, sausage-shaped, 3-1/2" by 1-1/2", fruits mature to red and are great for pickling, too. Just like Jalapeño, but earlier and better adapted to cool, coastal conditions. Compact, non-brittle bushes.

#03028. (A) pkt. (100 seeds) \$2.85; 3+ pkts. \$2.60 each; (F) 1/16 oz. \$4.95; 2+ \$4.65 each; 4+ \$3.75 each

Emerald Fire Hybrid

90 days. 2015 AAS Winner. Compact plants boast extra large, 3-1/2", very tasty, jalapeño fruits with 2,500 Scoville units. Perfect for stuffing, grilling or using in salsa. Thick walled with very little cracking, even after maturing to red. A high yielding X3R® variety featuring better disease resistance than similar types.

#03039. (A) pkt. (15 seeds) \$4.25; 3+ pkts. \$3.95 each

HOLY MOLÉ

HOT SUNSET

Hot Sunset Hybrid

85 days. 2015 AAS Winner. Banana pepper lovers who desire a prolific and earlier harvest of delicious and spicy, 600 to 800 Scovilles, fruits are sure to make this X3R® variety a favorite. Thick-walled peppers have a great flavor, unlike other hot peppers where heat is all you get. Vigorous plants produce tasty and attractive fruits, up to 7", all season long. Perfect fresh, grilled, roasted or pickled.

#03054. (A) pkt. (15 seeds) \$4.25; 3+ pkts. \$3.95 each

GONG BAO

GARDEN SALSA

FISH

HUNGARIAN YELLOW WAX

Hungarian Yellow Wax

67 days. Spicy, fairly hot, banana-shaped fruits, 6" long and 1-1/2" across, are perfect for pickling. Matures from light yellow to bright red. Best hot pepper for cooler climates. Ever-bearing plants are 16 to 24" tall, strong and upright.
#03045. (A) pkt. (100 seeds) \$3.15; 3+ pkts. \$2.90 each; (F) 1/16 oz. \$5.50; 2+ \$5.15 each; 4+ \$4.15 each

INFERNO HOT BANANA

Inferno Hot Banana Hybrid

60 days. Early, high yielder produces big, 8" by 1-1/2" fruits that are ultra-smooth, with outstanding flavor – just hot enough to taste good with everything. Matures from yellow to red.
#03048. (A) pkt. (20 seeds) \$4.15; 3+ pkts. \$3.85 each; (V) 100 seeds \$15.95; 2+ \$14.90 each; 4+ \$11.95 each

Italico Hybrid

63-68 days. Formerly known as Spanish Spice. Flavorful and aromatic when grilled or fried, this European import looks like a green chile pepper, but has a pleasing spicy taste, rather than heat. Extra-early fruits average 7" in length and are sensational cooked or raw. Very thin walls allow peppers to cook quickly. A heavy yielder.
#03213. (A) pkt. (30 seeds) \$4.25; 3+ pkts. \$3.95 each; (V) 100 seeds \$11.05; 2+ \$10.35 each; 4+ \$8.35 each

ITALICO

La Bomba Hybrid

56 days. A high-quality jalapeño with good flavor and medium heat. Large, 2-3/4" long by 1" wide, dark green fruits have thick walls with little to no etching and are great fresh or used for 'poppers'. Strong, upright plants have a sturdy main stem for easy harvest, plus a dense leaf canopy to help prevent sunscald. Resists Potato Virus Y. Good for container gardening.
#03057. (A) pkt. (10 seeds) \$3.75; 3+ pkts. \$3.45 each

LA BOMBA

Longhorn Hybrid

85-95 days. Long, 6 to 9" fruits are much larger than comparable varieties and have an unusual 'curl' at the end – hence the name Longhorn. Peppers have an excellent spicy flavor with a Scoville rating of just 15,000 to 20,000. Vigorous plants can be grown in containers, but will require support due to the large volume of fruit.
#03782. (A) pkt. (10 seeds) \$3.75; 3+ pkts. \$3.45 each

LONGHORN

Mad Hatter Hybrid

65-75 days. 2017 AAS Winner. Judges were impressed with this plant's vigor, earliness, high yields, large fruits and awesome taste. Uniquely shaped, specialty peppers, 2 to 3-1/2" by 2 to 2-1/2", have a delicate floral scent and rich flavor that intensifies as it matures. In hot, dry climates some fruits will have a touch of heat close to the seed cavity, but the 'wings' are always sweet. Excellent fresh, pickled or stuffed. Plants are very productive, yielding more than similar open-pollinated varieties.
#03178. (A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each

MAD HATTER

MARIACHI

PAQUIME

MUCHO NACHO

MEXIBELL

MEXICAN SUNSET

Mariachi Hybrid

66 days. 2006 AAS Winner. Delicious, mild, fleshy, 4" by 2" fruits are low in pungency and have a Scoville rating of just 500 to 600 when grown under non-stressful conditions. Fruits mature red but are usually harvested yellow. Ready a full 10 days earlier than most other chile types. Delicate gourmet flavor with fruity overtones lends itself well to cooking, grilling, pickling and salads. Widely adaptable, 24" plants set fruits continuously.
#03058. (A) pkt. (20 seeds) \$4.65; 3+ pkts. \$4.30 each; (V) 100 seeds \$17.95; 2+ \$16.75 each; 4+ \$13.45 each

Mexibell Hybrid

70 days. 1988 AAS Winner. A bell pepper with a mild chile flavor? Absolutely! Plants grow up to 26" tall, bearing lots of 3 to 4-lobed fruits with firm flesh. Peppers ripen from green to chocolate to red and can be eaten at any color stage. Tolerant to Tobacco Mosaic Virus.
#03056. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each; (D) 1/32 oz. \$10.95; 2+ \$10.25 each; 4+ \$8.25 each

Mexican Sunset Hybrid

60-65 days. 2018 AAS Winner. Thick-walled, conical 6 to 7" hungarian-type, hot wax peppers mature from pale green, to light yellow, to orange and finally to a bright red. Spicy fruits have an average of 9,000 to 10,000 Scovilles and can be eaten at any stage. Delicious fresh, stuffed, baked, grilled or pickled. Highly ornamental, compact, bushy plants set fruits early and prolifically, creating a brilliant display of colors as they mature. Perfect for containers and small space gardens. TMV resistant.
#03746. (A) pkt. (25 seeds) \$3.55; 3+ pkts. \$3.25 each

Mucho Nacho Hybrid

68-70 days. A mucho impressive jalapeño from Mexico, with a big and powerful taste! Jumbo, 4" fruits are fatter, thicker, heavier, a bit hotter, 1" longer than regular jalapeños and are usually used green (they mature red). Vigorous, high yielding plants set fruits about a week earlier than is typical of jalapeños.
#03059. (A) pkt. (20 seeds) \$4.25; 3+ pkts. \$3.95 each

Paquime Hybrid

70 days. Consistently produces super-sized jalapeños that grow to nearly 5"! Fruits have a subtle to medium heat that doesn't linger on the tongue and become overwhelming. High quality peppers are smooth, firm and have thick walls that are the perfect size and shape for stuffing, grilling or for poppers. Sturdy plants grow up to 24" and easily support the heavy fruit load. Highly resistant to Potato Virus Y. Intermediate resistance to Root-knot Nematodes.
#03787. (A) pkt. (15 seeds) \$4.15; 3+ pkts. \$3.85 each

Peperoncino, Golden Greek 🌶️

72 days. You've seen these peppers pickled in gourmet shops. Abundant yields of thin, yellowish-green fruits, 2 to 4" long, are mildly hot with excellent flavor. Harvest when fruits are at the green stage. Vigorous plants grow to 30" tall.
#03195. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each;
(D) 1/32 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

Peter, Red 🌶️

90 days. The original strain from the Alfreys. Demand has continued to far exceed supply of this ornery old heirloom, grown as much to shock the prudish as for its culinary value! Pods are 4 to 6" long, blunt-ended, and mature to a deep red – excellent for chili powder. Dense plants grow 20 to 30" tall.
#03071. (A) pkt. (10 seeds) \$3.75; 3+ pkts. \$3.45 each

Primer Red Habanero Hybrid 🌶️

75-80 days. Big, bright red, 2 to 3-1/2" beauties are larger than typical habaneros with about 1/3 of the heat – enjoy traditional habanero flavor without the extreme burn! One of the earliest maturing habaneros available on today's market. Great fresh, roasted and in salsas. Excellent for container gardening. Huge yielder. Intermediate resistance to Tomato Spotted Wilt Virus.
#03789. (A) pkt. (10 seeds) \$4.15; 3+ pkts. \$3.85 each

Purple Jalapeño 🌶️

75 days. Fruits start out green, then turn purple a long time before turning red at maturity. Peppers are slightly larger than regular jalapeños. Excellent for fresh use in salsa and salads, for stuffing or pickling. Plants are very productive.
#03073. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each

Red Ember Hybrid 🌶️

75 days. 2018 AAS Winner. A specialty cayenne type with bright red, 1/2 oz. attractive fruits that grow up to 4-1/2" by 1". Versatile peppers have thicker walls and a flavor that is tastier than the traditional cayenne – pleasantly sweet and spicy, with just enough heat without being overwhelming. Excellent fresh, cooked or dried. Plants yield heavily even under cool weather conditions.
#03790. (A) pkt. (15 seeds) \$4.55; 3+ pkts. \$4.20 each

Roulette Hybrid 🌶️

85 days. 2018 AAS Winner. The same shape, size and color of traditional hot habaneros but with a Scoville rating of just 100! Large, red, uniform 3 by 1-1/2" fruits have thick walls and a nice citrusy habanero flavor. In trials, plants easily produced up to 100 peppers by the end of the season. Excellent fresh, pickled, roasted and sauteed. Widely adaptable.
#03220. (A) pkt. (10 seeds) \$4.15; 3+ pkts. \$3.85 each

Sandia Hybrid 🌶️

70-90 days. 2020's Free Trial! Pungent, 6 to 7" fruits have medium thick flesh that matures from dark-green to bright-scarlet. Can be eaten at green or red stage. Excellent for fresh eating, roasting and drying.
#03791. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each

Serrano Chili 🌶️

85 days. Green or red, this is one spicy pepper! Perfect for chili sauce, salsa, hot pepper vinegar and pickles. Vigorous 30" plants are covered with flavorful, 2" thin-walled fruits.
#03083. (A) pkt. (100 seeds) \$3.15; 3+ pkts. \$2.90 each;
(F) 1/16 oz. \$5.50; 2+ \$5.15 each; 4+ \$4.15 each

Spicy Slice Hybrid 🌶️

65 days. Extra-large, 4 to 4-3/4" tasty fruits mature from dark green to red, are firm, smooth, slice well and have a Scoville rating of 4,000 to 6,000. High yielding plants provide good leaf cover. Perfect for fresh market. Early maturing and widely adaptable throughout the U.S. Resistant to Bacterial Spot with intermediate resistance to Tobacco Etch.
#03082. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.65 each

Sriracha Hybrid 🌶️

65-70 days. Attractive, large, 5" by 1-1/4" dark green, chili-type fruits are firm and uniform with shiny, smooth skin and thick walls. Flavor is mildly hot, but not overpowering. Perfect for slicing, roasting and pickling. Peppers have a long shelf life.
#03793. (A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each

Sweet Heat Hybrid 🌶️

56 days. Sweet and mildly spicy flavor – like a pepperoncini, but with smoky undertones. Early and prolific, with loads of fruits that average 3 to 4" long by 1 to 1-1/2" wide. A perfect choice for grilling and salsa. Can be eaten at the green or red stage. Plants are compact and bushy.
#03088. (A) pkt. (20 seeds) \$4.55; 3+ pkts. \$4.20 each

Takara Hybrid 🌶️

60 days. A special hybrid version of the classic open-pollinated shishito type with the same shape, size and quality, but with better uniformity. Small, 3-1/2" by 1" fruits have a mild, but rich, flavor. Excellent sautéed, in stir-fries, grilled or eaten fresh. Compact plants have a spreading, well-branched habit, short internodes and are high yielding. Great for containers and small space gardens.
#03232. (A) pkt. (15 seeds) \$4.15; 3+ pkts. \$3.85 each

ROULETTE

RED EMBER

TRAVELER JALAPEÑO

Traveler Jalapeño

70-90 days. Attractive, 3" long fruits ripen from green to bright red and have a nice jalapeño flavor with just the right amount of heat. Flavor is best when fruits are fully mature. Great for salsas, roasting, pureeing for hot sauce or smoking to make chipotles. This great, widely adapted strain has been continuously selected for more than 20 years by Larry Pierce of Cabool, Missouri. He named it Traveler because he grew it for years as he moved from state to state throughout Oklahoma, Wyoming and Missouri. Plants are sturdy and high yielding. **#03792. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each**

TRINIDAD PERFUME

Trinidad Perfume

80-85 days. A sweet seasoning pepper that looks like a traditional habanero, but without the heat (although fruits can reach up to 500 Scoville units). Fruits grow 1 to 1-1/2" long and mature from green to a golden orange. Extremely flavorful and has a delicious scent when cooked, also can be used for pickling or fresh eating. Sturdy plants grow 2 ft. tall and are extremely prolific.

#03086. (A) pkt. (15 seeds) \$4.15; 3+ pkts. \$3.85 each

UTRI

Utri

55-75 days. An heirloom brought to the U.S. in 1909 by Rose Utrie. Hungarian type, medium hot peppers ripen from light green to dark green to red. The level of heat depends on how much of the interior ribbing is left after the peppers are cleaned. When the interior ribs are completely removed, fruits have a very pleasant, mild spiciness – if not removed, heat is a bit less than a jalapeño. Fruits are thin skinned and good for eating fresh, cooking and drying. Dried fruit maintains its heat level and can be ground for spicy paprika. Very productive.

#03795. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.70 each

Volcano Hybrid

60-70 days. Hungarian type with slightly taller plants and larger fruits than Hungarian Yellow Wax (pg. 52). Pendant shaped fruits, 4 to 6" long, are glossy greenish-yellow to red at maturity and are mildly pungent averaging 2,000 to 4,000 Scovilles. Excellent for pickling, roasting and fresh use.

#03097. (A) pkt. (20 seeds) \$2.85; 3+ pkts. \$2.60 each

Try our Purple Jalapeño for purple poppers!

Kitchen Helpers

GRIP-EZ® Pepper Corer

Yum! **#54054. \$22.95 each**

To Something In Between...

Bulgarian Carrot

65-68 days. A charming heirloom whose seed was supposedly smuggled out through the Iron Curtain years ago. Its fluorescent orange, 3-1/2" fruits seem to almost glow with a brilliant hue and intense flavor – fruity and pungent at the same time – adding a colorful tint to glazes, marinades and salsas.

#03011. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each; (D) 1/32 oz. \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

VOLCANO

Cayenne Long Thin

72 days. Long, slender, slightly wrinkled peppers are very hot and especially good for pickles, canning and drying. Excellent for chili and homemade salsa. Two-celled fruits start out dark green, mature to a brilliant, fiery red and are no thicker than a pencil.

#03018. (A) pkt. (100 seeds) \$2.85; 3+ pkts. \$2.60 each; (F) 1/16 oz. \$4.95; 2+ \$4.65 each; 4+ \$3.75 each

Cayenne Blend

60-75 days. Add some dramatic flair to your garden with this well-balanced blend of Cayenne varieties in a rainbow of colors – red, orange, yellow, purple and green. All are similar in shape and texture, with firm, tapered, 3" fruits that keep their color when dried. Very ornamental, but edible as well. Requires only average soil and occasional watering to produce prolific yields.

#03020. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (F) 1/16 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

CAYENNE BLEND

Giant Ristra Hybrid

80 days. 2014 AAS Winner. If you like versatility, this pepper is for you! It looks like a pretty red Marconi pepper, but has the heat of a cayenne with a Scoville rating between 30,000 and 50,000. Elongated, 6 to 7", fruits should be picked when red and are excellent fresh, roasted or dried. Can also be used to make a beautiful ristra of dried peppers. Compact, bushy plants produce high yields of uniform peppers. Easy-to-grow. Tobacco Mosaic Virus tolerant.

#03061. (A) pkt. (25 seeds) \$3.75; 3+ pkts. \$3.45 each

CAYENNE LONG THIN

GIANT RISTRA

BULGARIAN CARROT

Hot Portugal

65 days. Very hot, thin, red and glossy – this superb variety doesn't do anything halfway! Elongated, curved fruits on 4 ft. plants grow to 7" or more in length. Harvest and use at the green or red stage.

#03070. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each; (D) 1/32 oz. \$5.75; 2+ \$5.40 each; 4+ \$4.35 each

Lemon Drop

100 days. Terrifically hot, citrus-flavored heirloom popular as a seasoning in Peru, its country of origin. Bright yellow, crinkled, cone-shaped fruits are about 2-1/2" long, 1/2" wide and average less than 15 seeds per pepper. Dense plants, about 2 ft. high and wide, are typically covered with fruits. Makes an excellent choice for container gardening.

#03055. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each

Pequin

105 days. Numerous, very hot, pendant fruits, cover bushy plants and grow up to 3" long. Attractive plants can even be grown indoors during the winter.

#03196. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.70 each; (D) 1/32 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Super Chili Hybrid

75 days. 1988 AAS Winner. Highly ornamental, semi-compact, 24" plants bear 2-1/2" elongated fruits with plenty of hot chile flavor. Ripens from green to orange to red. Bred for increased yields. Ideal for patio and container gardens – bring plants indoors during severe winters for continuous yields all winter.

#03087. (A) pkt. (30 seeds) \$4.55; 3+ pkts. \$4.20 each; (V) 100 seeds \$12.75; 2+ \$11.90 each; 4+ \$9.55 each

Tabasco

80 days. Used for Louisiana's famous, extra-hot Tabasco® sauce since its introduction in 1868. Easily harvested fruits ripen from yellow-green to red. Vigorous and productive.

#03094. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (D) 1/32 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

Thai Hot

40 days. Ornamental as well as edible – if you can stand the heat! Stocky, up to 16" plants are covered with 2 to 3" peppers that start out a deep green, then mature to bright red. Fleshy pods are particularly good in Oriental dishes and chili. You'll also appreciate their beauty in borders and containers.

#03093. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.70 each; (D) 1/32 oz. \$5.95; 2+ \$5.60 each; 4+ \$4.45 each

To Fire Breathing Heat!

USE EXTREME CAUTION WHEN HANDLING SEEDS AND FRUITS!

Bhut Jolokia

80-85 days. Also known as Ghost Chile. The Guinness Book of World Records hottest pepper in the world from 2007 through 2010 measuring over one million units on the Scoville scale! More than a novelty, these orange-red peppers, which grow up to 3-1/2" long at maturity, can be used to spice up cuisine but should be eaten with extreme caution and kept away from eyes.

#03004. (A) pkt. (10 seeds) \$4.55; 3+ pkts. \$4.20 each

Caribbean Blend

90-120 days. Warning – this mix is blistering in its heat! A blend of our hottest Caribbean varieties, including Habanero, Orange Scotch Bonnet, Chiltepin and several others.

#03013. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (F) 1/16 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

Carolina Reaper

90 days. Officially the hottest pepper in the world as ranked by Guinness Records – Scoville units typically average a whopping 1.5 million and peak at 2.2 million! Devilish looking fruits, 1-1/2" wide by 2" long, are fiery red with a unique little stinger tail. Has a surprisingly good flavor once you get past the heat – if you dare! This scorcher was bred in Rock Hill, SC.

#03755. (A) pkt. (20 seeds) \$5.95; 3+ pkts. \$5.45 each

"WORLD'S HOT STUFF" COLLECTION

One packet each of Bulgarian Carrot, Chiltepin, Hot Portugal, Hungarian Yellow Wax & Mucho Nacho (pg. 52), Orange Scotch Bonnet (pg. 56) & Thai Hot. **#04218(X). 7 pkts. for just \$17.95**

Save 20%

Chiltepin

90 days. Don't be fooled by the unassuming size of these pea-like, 1/2" fruits – they pack a wallop! At 50,000 to 100,000 Scovilles, it's one hot pepper – some continue to rate this variety even higher on the heat scale. Prolific plants produce extremely hot peppers whose small size is very versatile in recipes.

#03024. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (D) 1/32 oz. \$5.50; 2+ \$5.15 each; 4+ \$4.15 each

Fatali

90 days. A five-alarm habanero type with a Scoville rating of 125,000 to 325,000. Sturdy plants thrive in pots, producing high yields of 3" long, tapered, golden-orange fruits. Pungent, citrusy and very, very hot. Perfect for salsas and sautéing.

#03030. (A) pkt. (20 seeds) \$2.95; 3+ pkts. \$2.70 each; (D) 1/32 oz. \$8.95; 2+ \$8.40 each; 4+ \$6.75 each

HABANERO CHOCOLATE

Habanero Chocolate

85-100 days. An outstanding variety made superior in every way through quality breeding. Expect very high yields of crunchy, 1-1/2 to 2-1/2" fruits packing some serious heat. Who knew that peppers this hot could be so flavorful? – but they are! Super-sized fruits are extra-versatile in the kitchen, adding just the right kick to stir-fries, salsas and sauces.

#03047. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each; (D) 1/32 oz. \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

HABANERO ORANGE

Habanero Orange

95 days. (The original strain) Among the hottest ever measured! Reportedly 1,000 times hotter than Jalapeño! Lantern-shaped, 1" by 1-1/2" peppers, with thin, wrinkled, light green flesh, ripen to a lovely golden orange. Slow to germinate, and must be grown in warm, moist conditions. A favorite for sauces. High-yielding plants grow 36" tall.

#03040. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each; (F) 1/16 oz. \$4.95; 2+ \$4.65 each; 4+ \$3.75 each

ORANGE SCOTCH BONNET

Fiery Ferments

By Kirsten K. Shockey & Christopher Shockey. Whet your appetite with 70 tongue-tingling recipes for hot sauces, mustards, pickles, chutneys, relishes, and kimchis from around the globe. Chiles take the spotlight with recipes such as Thai Pepper Mint Cilantro Paste and Mango Plantain Habañero Ferment, while other traditional spices like horseradish, ginger, and peppercorns also make cameo appearances. Features dozens of additional recipes for breakfast foods, snacks, entrées, and beverages that highlight the many uses for hot ferments, as well. Full color photographs throughout. Paperback. 272 pages. **#76325. \$24.95 each**

Orange Scotch Bonnet

120 days. Hotter than Habanero? You judge! Matures later and fruits are not as long. The bonnet-shaped fruits are bright orange when ripe; flavor is smoky and fiery hot. Plants, 30" tall, are excellent in containers in the North.

#03053. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.85 each; (F) 1/16 oz. \$6.75; 2+ \$6.30 each; 4+ \$5.05 each

Trinidad Scorpion (Moruga)

100 days. One of the hottest chili's on the planet! Wrinkled, lantern-shaped peppers ripen to a searing red-orange and have a tender fruit-like flavor which makes for the perfect sweet-hot combination. Averages 1.2 million Scovilles, and has reached over 2 million! Use extreme caution when handling these super hot fruits! Plants will act as a perennial if overwintered in mild climates or if brought indoors in the North.

#03002. (A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each

"6-ALARM" COLLECTION

Hot Sauce!

By Jennifer Trainer Thompson. Here are 32 recipes for making your own signature hot sauces, ranging from mild to blisteringly hot, as well as 60 recipes that use homemade or commercial hot sauces in everything from barbecue and Buffalo wings to bouillabaisse and black-bean soup. Try making chowders, tacos, ribs, salads, seafood and more. There are even recipes for scorchingly delicious cocktails, like Daiquiri Diablo and Slow-Burn Martinis. Full color photographs throughout. Paperback. 192 pages. **#56428. \$14.95 each**

TRINIDAD SCORPION

Cucumbers – Some Burpless, Some Seedless ...

Alibi Hybrid

50-55 days. Harvest medium green fruits at 2" for smooth gherkin pickles or allow to reach maturity at 3 to 4". Strong growing, vigorous plants are resistant to Powdery and Downy Mildew.

#02002. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (J) 1/4 oz. \$5.65; 2+ \$5.30 each; 4+ \$4.45 each

Artist Hybrid

45 days. Fine-spined gherkins have an excellent, non-bitter flavor and are great fresh or pickled. Enjoy abundant yields over a long harvest season. Parthenocarpic plants do not require pollination and are highly resistant to Cucumber Mosaic Virus with additional resistances to other common cucumber diseases.

#02006. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each; (G) 250 seeds \$16.95; 2+ \$15.85 each; 4+ \$12.75 each

ALIBI

ARTIST

Barese

60 days. Sweet, bitter-free, Italian heirloom novelty. Harvest fruits young for use as a traditional cucumber or allow to grow larger and use as a melon. Spineless fruits have a downy peach type fuzz. Very productive.

#02102. (A) pkt. (10 seeds) \$2.85; 3+ pkts. \$2.60 each

Bush Crop

62 days. Compact bushy plants produce 6 to 8" fruits that are deliciously crisp and tender. Perfect for containers or small garden spaces as vines are short. An excellent pickling variety.

#02210. (A) pkt. (50 seeds) \$2.85; 3+ pkts. \$2.60 each; (J) 1/4 oz. \$5.45; 2+ \$5.10 each; 4+ \$4.05 each

Bush Pickle

50 days. Compact vines produce 3 to 4" fruits that make tasty, crisp, whole pickles. Vines are compact, yet very prolific. Perfect for small gardens and containers.

#02220. (A) pkt. (50 seeds) \$3.25; 3+ pkts. \$2.95 each; (J) 1/4 oz. \$5.25; 2+ \$4.90 each; 4+ \$3.95 each

BUSH CROP

BUSH PICKLE

Phone Toll-Free (800)345-5977

Diva

58 days. 2002 AAS Winner. All-female variety, crisp, sweet and ideal for slicing. Fruits are spineless and bright green, with glossy tender skins. Best harvested at 4 to 8". Burpless and seedless. Very disease resistant. **#02108. (A) pkt. (20 seeds) \$3.15; 3+ pkts. \$2.90 each; (K) 1/2 oz. \$14.95; 2+ \$13.95 each; 4+ \$11.25 each**

Double Yield

50 days. Be amazed with the impressive yields of this old timer originally introduced in the early 1920's – the more it's picked, the more it produces! Dark green, slender fruits are 6" long with excellent flavor. Ideal for making pickles or eating straight-from-the-vine. Heat tolerant. **#02011. (A) pkt. (10 seeds) \$2.85; 3+ pkts. \$2.60 each**

Early Fortune

55 days. Also known as Special Dark Green. Introduced in 1906, this variety was described as "the earliest and best white spine cucumber ever offered." Fruits, 7 to 8" long and 2" in diameter, have a fresh clean taste that's almost never bitter. A very dependable performer. **#02111. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each**

Early Spring Burpless Hybrid

58 days. An excellent home garden variety with a taste that's as big as its fruit! Pale green, 10 to 12" fruits will grow straight when staked or will curl if left alone. Fruits are smooth and white spined. A bitter-free, burpless variety that is great when sliced – peeled or not. Early and a good yielder. **#02109. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each**

Eureka Hybrid

57 days. Uniform, crisp fruits are very green from the earliest stages, making it a marvelous pickling variety when 1-1/2 to 5" long. Harvest for salads when tiny, or at any stage up to full maturity at 7". Monoecious and virtually trouble-free. Excellent disease resistance. Best grown on a fence or trellis for easy harvest. **#02018. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each; (W) 500 seeds \$16.65; 2+ \$15.55 each; 4+ \$12.45 each**

Fanfare Hybrid

63 days. 1994 AAS Winner. Slender, deep green, uniform, attractive fruits are 8 to 9" long. Crisp flesh has a deliciously mild flavor. Produces over a longer period than other varieties. Great for containers, home gardens and market growers. Semidwarf, monoecious plants with 2 to 2-1/2 ft. long vines, produce heavy, high quality yields. Resistant to Powdery Mildew, Scab, Cucumber Mosaic Virus, Angular Leaf Spot and Anthracnose. **#02115. (A) pkt. (25 seeds) \$4.75; 3+ pkts. \$4.40 each**

General Lee Hybrid

66 days. Uniform 8" slicers have white spines, are attractive dark green and very straight. Originally bred for southern gardens, this prolific producer has proven its ability to perform in the North as well. Plants handle stress well with resistance to Powdery Mildew and Scab and intermediate resistance to Cucumber Mosaic Virus. **#02117. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each**

Gherking Hybrid

50-55 days. Early, large yields of bitter-free fruits won't become bitter even when left on the vine too long. Dark green, 3 to 5" gherkins with white spines, are perfect for pickling and fresh eating. Strong vigorous plants are parthenocarpic and gynocious. Excellent tolerance to Scab and Cucumber Mosaic Virus with intermediate resistance to Powdery and Downy Mildew. **#02026. (A) pkt. (20 seeds) \$4.15; 3+ pkts. \$3.85 each**

Goliath Hybrid

58 days. Tasty, productive, and highly disease resistant. Gynocious, parthenocarpic plants produce loads of dark green, nearly spineless fruits, up to 8" long and have a nice texture. Holds well on the vine. Resistant to CMV, Powdery Mildew, Anthracnose, Scab and more. Great for market growers. **#02116. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each**

Green Light Hybrid

30-37 days. 2020 AAS Winner. Compared to similar seedless varieties, yields were higher, maturity was earlier and more attractive, with a superior taste. Pick at 3 to 4" for sweet, crisp mini cukes that can be enjoyed with or without peeling. Makes a good pickler, as well. Grow vining plants on stakes or trellises for a more productive, easier harvest and cleaner fruits. **#02120. (A) pkt. (30 seeds) \$4.45; 3+ pkts. \$4.10 each**

Homemade Pickles

55 days. Medium-green fruits, with small white spines, are specially bred for making the best pickles you've ever tasted. Harvest when 1-1/2" long for tiny sweets, or 5 to 6" long for robust dills and spears. Solid and crisp with superb flavor. **#02020. (A) pkt. (100 seeds) \$2.85; 3+ pkts. \$2.60 each; (L) 1 oz. \$5.45; 2+ \$5.10 each; 4+ \$4.05 each**

Dill Dukat Herb

70 days. Easy-to-grow and perfect for pickling your favorite cukes. Produces more foliage before forming seeds than other varieties. Flower heads grow up to 10" across. **#02252. (A) pkt. (1,000 seeds) \$2.85; 3+ pkts. \$2.60 each**

It's Back!

Iznik Hybrid

60 days. Demand continues to be high for this terrific parthenocarpic female variety, so order early! Thin-skinned, smooth, crisp fruits are best when harvested at 3 to 4". Vining plants have small leaves, high yields and a compact habit – the perfect choice for patio container and trellis gardens. Very versatile.
#02019. (A) pkt. (10 seeds) \$5.65; 3+ pkts. \$5.10 each

Manny Hybrid

50 days. Why pay expensive supermarket prices when you can grow your own? Gourmet quality, 5 to 6" cucumbers are delicately sweet, with exceptionally tender, shiny skin. Great eaten fresh, in salads or pickled. A good choice for container gardening. Plants are parthenocarpic, have intermediate Powdery Mildew resistance and don't have to be supported but expect higher yields when trellised.
#02225. (A) pkt. (15 seeds) \$5.05; 3+ pkts. \$4.55 each

Marketer

55-70 days. 1943 AAS Winner. A great slicer for salads and makes delicious pickle chips. Slender, dark green, 8 to 9" fruits have a sweet, mild flavor. Vigorous, heat resistant plants are very productive with a long harvest season. White spined.
#02132. (A) pkt. (100 seeds) \$2.85; 3+ pkts. \$2.60 each;
(L) 1 oz. \$5.50; 2+ \$5.15 each; 4+ \$4.15 each

Martini Hybrid

69-74 days. This unique beauty stands out from the competition with a pale white exterior that won't turn yellow! Fruits are bitter-free, very sweet and crunchy with tender skins that don't need to be peeled if harvested at 5 to 6". Vining, monoecious plants are heavy yielders of high-quality, straight fruit – even in the heat of summer. Powdery Mildew resistant.
#02131. (A) pkt. (15 seeds) \$3.75; 3+ pkts. \$3.45 each

Mexican Sour Gherkin

60-70 days. Generous yields of 1 to 2" fruits look like miniature watermelons, and even fall off the vines when ripe. Sweet cucumber flavor, followed by a surprising sourness, lead you to believe they are already pickled! Excellent variety for trellises.
#02024. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each

Mini Munch Hybrid

50-65 days. The one-bite, seedless snack cucumber! Pick when 3" and enjoy as a fresh, healthy snack. Fruits have very smooth, deep green skin that requires no peeling and flesh that has a crispy crunch and delicious, mild flavor. Parthenocarpic and all-female flowering plants set multiple flowers and fruits per node resulting in terrific yields even under less than optimum conditions. Powdery Mildew tolerant.
#02227. (A) pkt. (10 seeds) \$7.95; 3+ pkts. \$7.25 each

Muncher

60-65 days. Very tender variety that is excellent for fresh eating right out of the garden. Nearly spineless fruits are 6 to 8" long and 3" wide on strong vigorous vines. Non-bitter, burpless and can be eaten at any stage of growth. For pickles, pick when the fruits are 4 to 6" long.
#02133. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each

Painted Serpent

55-70 days. These unique, Armenian type, burpless cucumbers can grow up to 36" long and curl into snake-like shapes! Fruits are light green with dark green stripes, slender and ribbed with a mild delicious flavor that is best when harvested at 8 to 15".
#02138. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each

Parisian Gherkin Hybrid

50 days. 2015 AAS Winner. An excellent, 2 to 4", mini cucumber that can be picked at midget or small stage for pickling. Numerous black spined fruits can also be enjoyed fresh in salads and slaws. Crisp with a sweet flavor. Semi-vining plants can be grown in the garden or in staked patio containers. Very easy-to-grow, produces quickly and is resistant to Scab, CMV and tolerant to Powdery Mildew.
#02031. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each

Patio Snacker Hybrid

39 days. Controlled, yet vigorous, short branching vines are a great fit for small gardens or large containers with a small trellis. Dark green-skinned, 8" fruit has good flavor, crunchy texture and a bitter-free peel – great for straight-from-the-vine eating. Free-flowering, monoecious plants are high-yielding with continuous harvests.
#02032. (A) pkt. (15 seeds) \$3.55; 3+ pkts. \$3.25 each

Pick A Bushel Hybrid

50 days. 2014 AAS Winner. Be prepared to pick lots of cukes from these compact plants. Medium green, white-spined fruits are sweet, firm and crisp. Pick at 3" gherkin size for great pickles or allow to grow to 6" for slicing fresh in salads. The semi-bush vines grow only 24" tall, so they are well-suited for growing in patio containers as well as the garden. Plants have excellent heat tolerance and disease resistances to Cucumber Mosaic Virus, Scab and Mottle Mosaic Virus.
#02039. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each

All Just Plain Great!

Picklers Pride Mix

53-65 days. A blend of white spined, medium to dark green, crispy cukes. Expect abundant yields of early, mid and late season fruits that are perfect for making delicious homemade pickles or eating fresh.
#02041. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each

Salad Bush Hybrid

57 days. 1988 AAS Winner. Dark green, 8" fruits are tender and crisp. Compact plants require only 2 ft. of garden space – perfect for patio gardening and hanging baskets. Good disease resistance.
#02230. (A) pkt. (20 seeds) \$5.05; 3+ pkts. \$4.55 each

Saladmore Bush Hybrid

55 days. 2014 AAS Winner. Vines spread only 24", yet produce an average of 10 to 12 fruits per plant. Harvest small, dark green fruits for pickles or allow them to fully mature, 7 to 8", for fresh use. Crisp flesh has a mild, sweet flavor. Keep fruits picked to extend the harvest season. Perfect for growing in containers or smaller gardens where space is limited. Resistant to CMV, Scab, Anthracnose and Powdery Mildew.
#02142. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.90 each

Southern Delight Hybrid

60 days. One of the best hybrid cukes for continuous yields of late spring to fall crops. Fruits have a crisp and delicious texture from the time they're small, harvested for pickling, right through full maturity at 8 to 10" long and 1" diameter. Deep green skin becomes glossier in high heat. Particularly well suited to warm climates, but proven reliable under a variety of conditions. Strong disease tolerance.
#02153. (A) pkt. (20 seeds) \$3.35; 3+ pkts. \$3.05 each

Summer Dance Hybrid

70 days. Japanese burpless type producing uniform fruits that are glossy, deep green and 8-1/2 to 9" long. A vigorous grower that produces many lateral vines for high yields. Highly resistant to Downy Mildew and Powdery Mildew with moderate resistance to Corynespora Leaf Spot. Tolerant to heat stress.
#02159. (A) pkt. (20 seeds) \$3.35; 3+ pkts. \$3.05 each

Summer Top Hybrid

65-70 days. Easy-to-grow – an early Japanese type. Burpless, deep green, 10" long fruits are straight and uniform, with few white spines. Heat tolerant and high-yielding, especially when grown off the ground where light and air can circulate. Superior resistance to

Downy Mildew, Powdery Mildew, Anthracnose and Cucumber Mosaic Virus.

#02161. (A) pkt. (20 seeds) \$3.55; 3+ pkts. \$3.25 each

SWEETER YET

TANJA

Suyo Long

60 days. An Asian heirloom burpless cucumber that grows up to 16" long. Fruits are delicious, tender, crispy, and non-bitter. Excellent for fresh eating or pickling – makes excellent bread and butter pickles. Fruits are spiny when young, become smoother at maturity and tend to curl on one end so trellis vines for straighter cukes. Plants produce excellent yields, are widely adaptable and heat tolerant.
#02167. (A) pkt. (50 seeds) \$2.85; 3+ pkts. \$2.60 each

Sweet Slice Hybrid

62 days. Sweet, burpless and non-bitter. Fruits, 10 to 12", are slim, dark green and very mild. Does not need peeling. Very vigorous vines, with excellent yields, are highly disease resistant.
#02160. (A) pkt. (30 seeds) \$4.95; 3+ pkts. \$4.50 each; (G) 250 seeds \$25.95; 2+ \$24.15 each; 4+ \$19.55 each

Sweet Success Hybrid

58 days. 1983 AAS Winner. The first AAS winning seedless cucumber. To grow fruits with no seeds, keep in a greenhouse where it cannot be pollinated. Fruits grow up to 12" long and are slender, with thin, smooth skin. One of the very sweetest – burpless, too! Best when trellised.
#02170. (A) pkt. (15 seeds) \$5.55; 3+ pkts. \$5.05 each; (V) 100 seeds \$28.25; 2+ \$26.30 each; 4+ \$21.15 each

Sweeter Yet Hybrid

48 days. Burpless, sweet and bitter-free. Cylindrical fruits have thin, dark-green skins that require no peeling. Early maturing fruits are best when harvested at 10 to 12" long. Vigorous vines grow up to 70" on trellises, 80" when left on the ground. Exceptional yields. A gynocious variety with a pollinator blended in.
#02175. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each; (J) 1/4 oz. \$12.25; 2+ \$11.40 each; 4+ \$9.15 each

Tanja

58 days. The ultimate burpless cuke. Bitter-free. Slim fruits, up to 14" long, have dark green skin and tender, crisp flesh that has outstanding flavor. Plants yield prolifically and continue to bear over a long harvest period. A premium home garden slicing cucumber in Europe and widely adapted for successful growing almost anywhere. Also suitable for growing in greenhouses.
#02178. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.70 each

A-Frame Trellis

This pyramid trellis grows healthier plants with better fruits and easier harvesting. The secret is in allowing the plants to grow off the ground preventing diseases, pests and poor quality fruits. Green powder coated metal frame folds and unfolds for easy setup and convenient storage. Frame is 58" tall and 42" wide.

TASTY GREEN

Tasty Green Hybrid

62 days. Can be grown in hot, humid areas and has strong tolerance to Mosaic mildews. Slim fruits, 10" long and 2" across, have dark green skins with small white spines. Bitter-free and burpless. #02180. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each; (W) 500 seeds \$22.25; 2+ \$20.65 each; 4+ \$16.75 each

Tasty King Hybrid

62 days. Delicious fruits are dark green, burpless, 10" long, thin-skinned and tender. Vines are vigorous with excellent disease resistance. A dependable high yielder. #02182. (A) pkt. (20 seeds) \$3.35; 3+ pkts. \$3.05 each; (J) 1/4 oz. \$13.95; 2+ \$13.05 each; 4+ \$10.45 each

TASTY KING

TENDER GREEN

ASPABROC

Aspabroc Hybrid Baby Broccoli

50-60 days. This baby broccoli is known as Broccolini in the produce section of your grocery store and on restaurant menus. Resembles a broccoli raab with an asparagus stem, with a mild taste. Easy-to-grow and requires little space. After first maturity of the central shoots, plants will set 3 to 5 shoots shortly there-after and continue for about 4 weeks in mild weather.

#01460. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.60 each

Jacaranda Hybrid Broccoli

60 days. A cross between broccoli and cauliflower. Large, 8 to 10" heads are light green flushed with royal purple and have a complex, broccoli-like flavor. Develops its best purple color in cooler temperatures. Excellent for eating fresh, steamed or sauteed. Florets lose their purple color when cooked. Recommended for spring planting.

#01427. (A) pkt. (20 seeds) \$4.55; 3+ pkts. \$4.20 each

Purple Haze Hybrid Carrot

70 days. 2006 AAS Winner. Imperator-type. Long, tapered, 10 to 12" smooth roots, with rich purple exterior color and bright orange centers. When cut, the color is amazing and the sweet flavor is incredible. Cooked flavor is also excellent, but the color fades. Easy-to-grow.

#01669. (A) pkt. (500 seeds) \$3.55; 3+ pkts. \$3.25 each

Rainbow Hybrid Carrot

70 days. Cylindrical, 7 to 8" roots in yellow, white, light and dark orange and coral, each with a distinctive flavor. High sugar content.

#01671. (A) pkt. (500 seeds) \$3.55; 3+ pkts. \$3.25 each

Cheddar Hybrid Cauliflower

68 days. Flavorful curds really are orange through and through! Smooth, dome-shaped heads are packed with almost as much beta carotene as carrots. Fantastic flavor and texture guarantees gourmet enjoyment cooked or raw. Color deepens when cooked. Prefers moderate to cool temperatures.

#01706. (A) pkt. (20 seeds) \$5.05; 3+ pkts. \$4.55 each

JACARANDA

PURPLE HAZE

Carrots Love Tomatoes

By Louise Riotte. Learn the secrets of companion planting and watch your garden thrive! Create plant relationships that result in natural insect control, weed control and increased yields simply by identifying good and bad plant companions. This illustrated guide contains hundreds of interesting and educational facts. 224 pages. #55469. \$14.95 each

Tendergreen Burpless

55 days. Extra sweet, non-bitter flavor – even with its thin skin left on. Cukes grow to about 6-1/2" long by 1-1/2" across, are slightly blocky and light green, with white spines. Tender flesh is ideal for slicing or pickling. Downy Mildew resistant.

#02186. (A) pkt. (100 seeds) \$2.85; 3+ pkts. \$2.60 each; (L) 1 oz. \$4.95; 2+ \$4.65 each; 4+ \$3.75 each

Fresh & Healthy Salad Fixin's!

Flame Star Hybrid Cauliflower

80 days. High levels of beta-carotene gives this variety its bright color.

Smooth, delicious, high quality, 7" heads are broad and relatively flat. Widely adaptable with uniform maturity and consistent performance under various conditions including heat stress. Suitable for fresh markets. High yielding.

#01708. (A) pkt. (20 seeds) \$4.55; 3+ pkts. \$4.20 each

Graffiti Hybrid Cauliflower

80-90 days. Dome-shaped heads and smooth curds turn deep purple at maturity, when they reach their peak in nutritional value. Large plants have purplish-green wrapper leaves, medium vigor and intermediate disease resistance. Serve with dip for a colorful presentation, or use as a side dish – retains its color when cooked!

#01711. (A) pkt. (20 seeds) \$4.75; 3+ pkts. \$4.40 each

Snow Crown Hybrid Cauliflower

65 days. AAS Winner. Heavy yields of uniformly shaped, semi-dome, 2 lb. heads, 8" across. Vigor and overall quality make this a top choice of serious growers everywhere.

#01730. (A) pkt. (100 seeds) \$4.15; 3+ pkts. \$3.85 each

CHEDDAR GRAFFITI PANTHER SNOW CROWN

Aristotle Basil Herb

60 days. A stylish, compact variety with tightly packed, tiny leaves that create pretty pale green mounds. Easy-to-pick and has a classic basil taste and aroma. Perfect for patio gardens, containers and window boxes. Plants have a dense, bushy habit that spreads to 15". Grows 12" tall, but is best when harvested at about 6".

#02359. (A) pkt. (50 seeds) \$3.55; 3+ pkts. \$3.25 each

Prizm Hybrid (Baby leaf) Kale

50-60 days. 2016 AAS Winner. Attractive short, tight ruffle edged leaves are content in containers and gardens. Easy-to-maintain, almost stemless, 3-1/2 to 4" stalks are quick to re-leaf. Harvest early and often for a continual supply. Excellent tasting, almost nutty flavored leaves are tender enough to enjoy in fresh salads, but also hold up well when cooked. Easy-to-grow.

#01457. (A) pkt. (100 seeds) \$4.15; 3+ pkts. \$3.85 each

RAINBOW

FLAME STAR

ARISTOTLE

PRIZM

Autumn Star Hybrid Kalettes®

110 days. A cross between brussels sprouts and kale. Using traditional breeding techniques, this easy to prepare, kale-like vegetable was developed. Florets grow along thick stalks and are mature when 2" in diameter. Simply cut and eat – no tough stems to remove! Great sauteed, roasted, grilled and raw. Grow like brussels sprouts. #01458. (A) pkt. (15 seeds) \$4.55; 3+ pkts. \$4.20 each

Konan Hybrid Kohlrabi

42-50 days. 2016 AAS Winner. Smooth, globe-shaped bulbs grow to about 6" in diameter and have snow-white flesh with a nice crunchy texture and a juicy, mild radish/cabbage flavor. Grow in containers or gardens. Upright, uniform leaves resist insect damage so plants stay healthy all season long. #02487. (A) pkt. (50 seeds) \$4.15; 3+ pkts. \$3.85 each

Green Ice Lettuce

45 days. This loose-leaf type is in high demand for all types of salads due to its sweet, vitamin-rich, crispy leaves and top quality semi-heads that are slow to bolt. #02560. (A) pkt. (1,000 seeds) \$2.95; 3+ pkts. \$2.70 each

Bon Vivant Mesclun Blend

35-45 days. A gourmet mix of exotic leaf lettuces of the best flavors, textures and colors. Includes deep reds and bronze tones and greens ranging from the lightest green to the darkest emerald. #02568. (A) pkt. (1,000 seeds) \$2.85; 3+ pkts. \$2.60 each

SIMPLY SALAD™ MESCLUN MIXES

Modern technology packs several species of greens into one easy-to-sow pellet. Plant 2 or 3 pellets in a 6" or larger container and in about 5 to 6 weeks begin harvesting fresh greens. Cut back to 2" and allow to regrow, then cut again.

Alfresco Mix

A mix of red and green leaf lettuces with arugula, endive and radicchio. #02542.

City Garden Blend

A mix of traditional red and green lettuces. #02543.

Global Gourmet Mix

A mix of red and green leaf lettuces and Asian greens. #02544.

Prices, above 3, per variety:

#02541(X). Get 1 pkt. each of all 3 Simply Salad Mixes for just \$10.65. Save 20%!

Candy Hybrid Onion

85 days. Extremely early cross between a long-day and a short-day onion. Jumbo bulbs have mild, sweet, white flesh. Small-necked and a golden-brown outside – inside, they have large, thick rings with mostly single centers. A good keeper when cured. Grows well anywhere in the U.S. (Sow in spring.) *Cannot be shipped to AZ, CA, HI, ID and WA.* #02722. (A) pkt. (250 seeds) \$3.55; 3+ pkts. \$3.25 each
#02722PL. 1 bunch (50-75 plants) \$12.95 each;
2 to 4 bunches \$11.95 each; 5 or more \$10.95 each

Warrior Bunching Onion

60 days. 2016 AAS Winner. An easy-to-grow bunching onion. Grows quickly producing a very uniform crop of slender, crisp, 1/2" onion stalks that are easy to harvest and clean. Holds up in the garden longer than similar varieties. Use raw to add texture, flavor and color to all kinds of dishes or try them grilled. #02741. (A) pkt. (250 seeds) \$3.10; 3+ pkts. \$2.85 each

Toy Choy Hybrid Pak Choi

30-35 days. An early maturing, 5", mini Pak Choi, with crisp white stalks and smooth, dark green leaves. Excellent mild flavor. Enjoy sautéed, roasted or in stir-fries. Great for summer growing. #02807. (A) pkt. (200 seeds) \$3.15; 3+ pkts. \$2.90 each

Easter Egg Blend II Radish

30 days. A multicolored mix of globe-shaped, 1" roots in a delightful array of colors – pink, red, lavender, purple and white all with white interiors. Crispy, mild taste. Great in salads or as part of a colorful relish tray. #03345. (A) pkt. (500 seeds) \$2.85; 3+ pkts. \$2.60 each

Sweet Baby Hybrid Radish

40-45 days. 2016 AAS Winner. Outstanding flavor, quality and uniformity. Crisp, crunchy and slightly spicy, 3" elongated, purple radishes are tasty. Interior color ranges from pale purple to white with violet streaks to mostly white with a few purple splashes of color. Enjoy multiple harvests with this early maturing variety. #03319. (A) pkt. (100 seeds) \$3.45; 3+ pkts. \$3.15 each

Watermelon Radish

59 days. A charming heirloom – crisp, mild and even a little sweet! Cream-colored, 2 to 4" roots slice open to mimic a tiny watermelon – green "rind" with brilliant pinkish red flesh. Prominent tops make them easy to pick even when small, when they tend to be the most colorful. Add one-of-a-kind flair to garnishes, salads, appetizers, stews, stir-fries and more. Roots hold well without turning woody. #03394. (A) pkt. (250 seeds) \$3.15; 3+ pkts. \$2.90 each

Fancycrook Hybrid Squash

43 days. Smooth, tasty, 5-1/2" long fruits are bright yellow with thin necks and resist the typical green streaking of similar varieties. Plants are very vigorous, yet open and easy to pick. Yields so high it beats out other hybrid crooknecks by more than 40%! #03537. (A) pkt. (15 seeds) \$3.55; 3+ pkts. \$3.25 each

Sunny Delight Hybrid Squash

40 days. Matures earlier, resists greening better, and holds its flat, scalloped shape longer on the vine than similar varieties. Uniquely shaped fruits, with small blossom scars, appear in abundance on semi-bush plants with an open habit for easy harvest. Ideal as a baby vegetable. #03586. (A) pkt. (20 seeds) \$3.75; 3+ pkts. \$3.45 each

BRIGHT LIGHTS

Bright Lights Swiss Chard

60 days. Brings pizzazz to the table with its stems of many colors and mild chard flavor. Begin harvesting the vitamin-rich greens in 4 to 5 weeks. Use greens fresh, steamed or like spinach.

#03742. (A) pkt. (200 seeds) \$3.55; 3+ pkts. \$3.25 each

BUCKINGHAM

Buckingham Hybrid Zucchini

40 days. A royal choice for the picky eater. Sturdy plants, with attractive dark green foliage, produce lots of delicious, bright yellow, tender zucchini which are at their peak when 6 to 10" long. The large yellow blossoms are ideal for use as edible flowers or for stuffing. Bushy plants have an upright habit, grow 18 to 22" tall and spread to 36". Ideal for pots and containers.

#03513. (A) pkt. (15 seeds) \$4.15; 3+ pkts. \$3.85 each

Egg'ceptional Eggplants!

Black Beauty

80 days. Produces many large, 1 to 3 lb. fruits per plant – each one rich, deep purplish black and enormous. Tender and tasty at all stages – fried, steamed, grilled or stuffed. Retains color and holds well in storage.

#02271. (A) Pkt. (850 seeds) \$3.15; 3+ pkts. \$2.90 each

Fairy Tale Hybrid

50 days. 2005 AAS Winner. Plants, 18 to 24", are much smaller than typical varieties and set fruits two weeks earlier. Lavender flowers produce clusters of elongated fruits marked by white stripes. Best harvested at 4" long by 1-3/4" across for sweet, bitter-free, nearly seedless eating. Attractive, soft green foliage and unique habit make it a natural for containers, ornamentals and gardens.

#02277. (A) pkt. (25 seeds) \$4.95; 3+ pkts. \$4.50 each

EASYPICK GOLD II & GREEN

Goya Hybrid

74 days. Attractive, 6 to 8", extra firm, round to globe shaped fruits, with green spineless, flat calyxes. Delicious flesh is great for making pastes, dips and sauces. Good shelf life. High yielding.

#02281. (A) pkt. (25 seeds) \$4.45; 3+ pkts. \$4.10 each

Gretel Hybrid

55 days. 2009 AAS Winner. Clustered, 3 to 4" fruits are very sweet and firm. Tender skins and few seeds make this an excellent choice for grilling and sautéing. Harvest frequently to encourage setting throughout the season. Plants grow 36 to 42" tall by 24 to 36" wide.

#02276. (A) pkt. (25 seeds) \$5.05; 3+ pkts. \$4.55 each

BLACK BEAUTY

FAIRY TALE

GRETEL & HANSEL

MILLIONAIRE

PATIO BABY

EASYPICK HYBRID SERIES ZUCCHINI

45-50 days. Count on easy and continuous harvesting on plants with nearly spineless leaves and stems. Simply twist the slender, 10" fruit to pick – less scarring and clean harvest means longer shelf life. Can't decide which one to choose? – pick 'em both! An excellent fresh-eating variety that can also be used for roasting, steaming and stir-fries, or try some on the grill.

Plants have an open habit.

Gold II #03533.

Green #03534.

Prices, above 2, per variety:

(A) pkt. (15 seeds) \$3.95; 3+ pkts. \$3.65 each

Hansel Hybrid

55 days. 2008 AAS Winner. Compact plants, under 36" tall, produce heavy yields of tender fruits over a long growing season. Clustered, 2 to 10" fruits mature to dark purple with no bitterness and few seeds. Widely adapted and miles ahead of the older, open-pollinated types.

#02279. (A) pkt. (25 seeds) \$5.05; 3+ pkts. \$4.55 each

Millionaire Hybrid

63 days. One of the most popular oriental varieties on the market. Long, slender fruits, up to 12" long, have smooth, tender, brilliant black skin and nearly seedless flesh. Delicious flavor makes it excellent for stir-fries and other popular Asian dishes. Upright plants produce early and vigorously.

#02288. (A) pkt. (25 seeds) \$3.15; 3+ pkts. \$2.90 each

Patio Baby Hybrid

45 days. 2014 AAS Winner. Great used as an ornamental edible in garden beds and containers. Grows less than 24" tall, yet produces a prolific number of 2 to 3" egg-shaped, glossy, purple-black fruits. Taste is excellent, mild and less bitter than comparable varieties. Try roasted or in dips and salads. Thornless leaves and calyxes allow for painless harvesting.

#02289. (A) pkt. (15 seeds) \$4.15; 3+ pkts. \$3.85 each

Seed Starting & Potting Mixes

Purple Cow Organics® Seed Starter Mix

OMRI Listed. Get seedlings off to a strong start. Compost based mix for seed starting in trays, blocks or small containers. Contains naturally occurring beneficial microorganisms and enough fertility for most transplants for up to 45 days – or until the roots begin to outgrow the space. #54342. 12 Qts., \$19.95 each #54343. 1 Cubic ft., \$34.95 each

Ferti-lome® Organic Potting Mix

Perfect for growing the best tomatoes! This moisture controlled formula is great for all containers and growbags, indoors or out.

Made from Mycorrhizae, worm castings, humic acids and slow release organic fertilizer. #55217. 8 Qts., \$17.95 each

Espoma® Organic Seed Starter Mix

A premium potting mix enhanced with Myco-tone™, a proprietary blend of 11 different strains of mycorrhizae, excellent for all seedlings and cuttings. Uses up to 30% less water than ordinary soils, improves transplant survival and growth and promotes bigger root growth for increased water uptake. Increases drought tolerance and other environmental stresses, improves soil structure and increases fertilization utilization.

#54395. 8 Qts., \$15.95 each

Flavorful Fruity Fixin's!

Ambrosia Hybrid Cantaloupe

86 days. Features a terrific, sweet flavor that's distinctively different. Round fruits, with peach-colored flesh, average 4 to 5 lbs. each, have heavy nets and light sutures. A favorite of gardeners and fresh markets. Resists Powdery Mildew.
#02618. (A) pkt. (25 seeds) \$5.45; 3+ pkts. \$4.95 each

Burpee Hybrid PMT Cantaloupe

82 days. Tops for quality, flavor and yield! Round to slightly oval fruits, 4 to 4-1/2 lbs., have dark orange, firm, juicy flesh and strong netting patterns and ribs. Highly adaptable nationwide, but particularly to Northern states.
#02623. (A) pkt. (25 seeds) \$5.45; 3+ pkts. \$4.95 each

Orange SilverWave Hybrid Melon

75 days. 2019 AAS Winner. An exotic, 3 to 4 lb., oval melon with extremely sweet, orange flesh and unique rind color. Vigorous vines produce up to 6 fruits each. Trellis plants for better disease control. Resistant to Melon Necrotic Spot Virus and Melon Fusarium Wilt.
#02631. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.65 each

Savor Charentais Hybrid Melon

85 days. High yielding, classic French Charentais type. Small, 2 lb. melons with pale green, smooth skin and extra-sweet, aromatic, bright orange flesh. Disease resistant.
#02696. (A) pkt. (30 seeds) \$6.25; 3+ pkts. \$5.65 each

Faerie Hybrid Watermelon

60 days. 2012 AAS Winner. Creamy-yellow rinds have thin stripes with sweet, pink-red flesh with a high sugar content and crisp texture. Vines are vigorous, yet spread only to 11 ft., so it takes up less garden space. Slightly oval, 7 by 8", melons weigh just 4 to 6 lbs. each. Disease tolerant. Prolific yielder.
#04110. (A) pkt. (20 seeds) \$4.55; 3+ pkts. \$4.20 each

Gold in Gold Hybrid Watermelon

70 days. 2017 AAS Winner. Excellent tasting, bright yellow fruits have gold stripes and golden-orange flesh that is crisp with a high sugar content. Oblong melons, 11 to 16 lbs., have a strong rind that resists cracking or bursting. Makes a perfect "icebox" melon. Early and high yielding with improved disease resistance.
#04119. (A) pkt. (25 seeds) \$3.95; 3+ pkts. \$3.65 each

Harvest Moon Hybrid Watermelon

80-100 days. 2013 AAS Winner. The first seedless watermelon to win an AAS award! Compact vines produce seedless, 18 to 20 lb. fruits with sweet, crisp, pinkish-red flesh and dark green rinds with yellow spots. Very productive. Plant 1 pollinator (included) for every 3 plants to ensure fruiting.
#04121. (A) pkt. (10 seeds) \$6.85; 3+ pkts. \$6.20 each

U.S.D.A. Hardiness Zone Map

This simplified plant zone map is available to view in full detail online. There is an interactive online feature that allows you to find your hardiness zone by typing in your zip code. Type this link into your web browser: <http://planthardiness.ars.usda.gov/PHZMWeb/?> or follow the Zone Map link on our website at www.totallytomato.com to find your hardiness zone.

Neptune's Harvest Crab & Lobster Shell 5-3-0 Organic Plant Food

An excellent dry organic source of nitrogen, phosphorus, calcium and magnesium. Retains moisture in soil and builds organic matter. Gives roots something to grab onto, for a food source, creating a deeper root system. Integrated into the soil, it encourages chitin eating bacteria which helps control/eliminate ants, grubs, fungus and root nematodes. Placed around plants, it keeps slugs and snails off. Also helps choke out weeds and keep moles, voles, mice, etc. from digging up bulbs and root vegetables. Perfect for use in flower beds, vegetable gardens and on lawns and turf. Safe for pets and kids. #55438. 4 lbs., \$14.95

NEW! Dr. Joe Tomato and Vegetable Bubble 14-17-17

Promotes healthy, high quality growth, increased yields and fruit size for tomatoes and other vegetables. Each tablet makes 1 gallon of plant food and covers 100 sq. ft. Tablets freely dissolve using modern bubbling technology – no stirring required. Apply once a week. Water-soluble effervescent tablets. #51091. Pkg. of 14 Tablets, \$7.95

Espoma® Tomato-tone® 3-4-6

Fertile soil, a pH of 6.5 to 7.5, and plenty of Tomato-tone® will produce super tomato yields! This formula is based on recommendations of six university studies. High organic content prevents rapid foliage growth at the expense of blooms. Provides all 15 essential nutrients for optimum growth. Mix according to directions and feed your tomatoes twice a month. #86945. (A) 4 lbs., \$12.95

Espoma® 10-10-10 Garden Food

A perfectly balanced, all-purpose fertilizer. Contains all 3 major nutrients in perfect balance making it the complete way to quickly feed plants. Promotes bigger, faster growth in flowers, vegetables, trees, and shrubs. Works great for both new and established plants. One bag covers approx. 450 sq. ft. #86568. (B) 6.75 lb. Bag \$14.95

Neptune's Harvest Fish & Seaweed Fertilizer 2-3-1

OMRI Listed. All natural, 100% organic. Get the best of both products with this organic fertilizer that perfectly blends fish hydrolysate and seaweed ensuring a complete fertilization program. Fish and seaweed are known to increase the natural sugars in plants which results in increased yields, improved shelf life of fruits and vegetables, as well as stronger, more colorful foliage and flowers. It does not deplete natural soil elements and has no odor. Mix 1 oz. per gallon of water and apply every 2 to 3 weeks. #51221. 18 oz., \$13.95 #51222. 36 oz., \$19.95

Monterey Foli-Cal®

A liquid formulation of calcium used to prevent and treat plant disorders associated with calcium deficiency such as Blossom End-Rot on tomatoes, peppers and melons. Can also be used on other vegetables, fruit trees and vine crops. It complements good soil fertility by supplying nutrients directly to the foliage and fruit of crops during critical growth stages. #50401. Pint, \$13.95

John & Bob's Soil Optimizer

Avoid heavy digging and lugging cumbersome bags of humus to repair poor soil. This 100% organic blend of concentrated, fully decomposed humus and other essential soil additives is simply spread over existing lawns or gardens and watered in. It's completely safe with no risk of burning plants or over-applying. Spreading 3 lbs. over 1,000 square feet gives the same result as working in hundreds of pounds of compost humus. When applied as directed, it's guaranteed to start improving soil that season. #51106. 3 lbs., \$27.95 #51107. 6 lbs., \$40.95

Neptune's Harvest Tomato & Veg Formula 2-4-2

The perfect complete fertilizer for tomatoes, vegetables and more. Made from fresh fish, seaweed, molasses, yucca extract and humic acids, this formula was uniquely designed for plants with intense growth or "vegging" stages. Growers will see increased stalk/stem mass resulting in higher yields. In addition, it provides necessary nutrients to keep your plants vigorous with strong root zones and lush foliage, increasing its tolerance to various diseases, temperature and drought. #51266. 32 oz., \$24.95 #51267. Gallon, \$49.95

Wiggle Worm Soil Builder

100% organic fertilizer produced naturally by earthworms. Earthworm castings are one of the purest forms of sustained release plant food. Castings won't burn even the most delicate plants, are naturally odor-free and improve soil structure, aeration and drainage. They are also rich in beneficial bacteria and microbes to help plants absorb nutrients. Mix with soil when potting or use as a top-dress in garden beds. #58014. (C) 15 lbs., \$19.95

Algoplus Fertilizer

This patented, all natural fertilizer revolutionized vegetable production! Its most remarkable feature is that it's 100% mineral based – no chlorides, carbonates or sodium – plus it's odorless, colorless and environmentally safe. It encourages rapid cell growth using three major elements along with micronutrients. Contains a higher percentage of potassium to promote production of larger tomatoes. Use on cucumbers, melons and peppers as well. Use one capful per gallon of water as a regular feed or 1/2 capful to spray directly on the foliage and watch the amazing results. A one-liter bottle makes 100 gallons. Water soluble. #51081. 4-6-8 Tomato #51080. 6-6-6 All-Purpose \$16.95 each; 2 or more \$15.95 each

Sea Magic™ Seaweed Extract

A natural growth activator. Dries quickly using special methods to keep its natural growth enhancers and disease fighting substances intact. Apply every 2 to 3 weeks as directed and watch everything grow bigger and better. Ideal for ornamentals, lawns, fruits, vegetables and more. A one oz. packet makes up to 66 gallons. **#51150. \$8.95**

Jack's Classic® All Purpose 20-20-20

Water soluble plant food considered the industry standard of general purpose fertilizers by professional growers. Feeds both through the roots and the leaves. This formula of nitrogen, phosphorus and potassium provides fast green-up and rapid leaf expansion. For use on all your indoor and outdoor plants. Indoors it is especially effective on foliage plants. A proven performer in the vegetable garden for generations. **#56316. (A) 1-1/2 lbs., \$14.95; (B) 4 lbs., \$27.95**

Purple Cow Organics® Tomato Gro

Made from all natural organic ingredients and addresses specific issues associated with growing tomatoes. When used according to directions, it takes just a few handfuls of this compost to feed the plant and take care of its growing needs. Excellent when added to garden soil or other planting mediums. **Warning:** Use of Tomato Gro may cause harvest time interaction with your neighbors or necessitate the additional hobby of canning! **#51020. 12 Qts., \$16.95**

Bonide® Tomato & Blossom Set Spray

This natural hormone-type spray makes blossoms set fruit even under adverse conditions. Nearly every blossom will produce larger, meatier, almost seedless tomatoes, ripening up to 3 weeks earlier. Also for use on cucumbers, eggplants, melons, peppers, beans, strawberries and grapes. **Cannot ship to CA or HI. #50440. 8 oz. Pump Spray, \$8.95**

Insect Repellents

Monterey Bug Buster-0 Insect Control

OMRI Listed. This organic insecticide controls over 100 insects. A natural pyrethrin, it quickly knocks down and kills Cucumber Beetles, Japanese Beetles, Stink Bugs, Tomato Hornworms and many more insects. It can be used on fruits, vegetables and ornamentals – even on the day of harvest. Easy-to-use. One of the few organic treatments for onion maggots. Dilute 1 to 1.4 fluid ounces in one gallon of water to cover 1,000 square feet. **#50012. 8 oz. Concentrate, \$39.95**

Safer® Tomato & Vegetable Insect Killer

OMRI Listed. Combines pyrethrins and potassium salts of fatty acids to kill and control many common garden insects on contact. Effective on both soft bodied and hard bodied insects such as beetles, aphids and caterpillars that cause damage to tomato and vegetable crops. Can be used up to the day of harvest. **#50325. 32 oz. RTU Spray, \$14.95**

Monterey Garden Phos™

One of the easiest to use and one of the most diversified systemic fungicides that can be used in all areas of the U.S. during most of the year AND it controls diseases that most fungicides don't touch. Controls Root Rot, Downy Mildew, Fire Blight, Phytophthora, Pythium diseases and more. Safe for use on ornamentals, trees, vegetables, fruits and bedding plants. **#55731. Pint, \$20.95**

Bonide® Revitalize® BioFungicide

For organic gardening. Triggers plant immune response and colonizes roots. A high potency biofungicide/bactericide that controls blights, molds, rots, spots and mildews on vegetables, fruits, nuts, ornamentals, lawns, houseplants and tropical plants grown inside or out. May be used right up to the day of harvest. Makes up to 96 gallons. Foliar spray or soil drench. **#50046. 16 oz. Concentrate, \$17.95**

Bonide® Fung-onil Multi-Purpose Fungicide

Ideal for tomatoes. Controls Anthracnose, Blight, Downy Mildew, Rust and other diseases on tomatoes, beans, carrots, cole crops, potatoes and vine crops. Also controls Black Spot on roses, numerous diseases on flowers, ornamentals and lawns. Use as little as 1-1/2 tsp. per gallon of water. Spray early to prevent infection before it sets in. Contains Chlorothalonil 29.6%. **#50232. (A) 8 oz., \$14.95; (B) Pint, \$21.95**

Insecticide/Fungicide

NEW! **Organocide™ Bee Safe 3-in-1 Garden Spray**
OMRI Listed. A patented blend of sesame and fish oils so safe you can enter your garden and yard immediately after application. Kills aphids, whiteflies, spider mites, fungus gnats, thrips, mealy bugs, scale insects and more. Controls Powdery and Downy Mildews, Black Spot, Greasy Spot and more. Use on fruits, vegetables, flowers, ornamentals, trees and shrubs. May be used right up to the day of harvest. Makes 10 gallons of spray. **#88626. 32 oz. Concentrate, \$19.95**

Weed Prevention

Preen® Vegetable Garden Organic Weed Preventer

Enjoy a weed-free vegetable garden without all the work. The organic way to keep weeds from sprouting. Use in fruit, vegetable, herb, and landscape beds anytime during the growing season to save time from backbreaking weeding. Formulated to control some of the toughest weeds like clover, bluegrass, crabgrass, foxtail, lambs-quarters and plantain. Just sprinkle once a month to prevent weeds from returning. Safe around kids and pets. Covers 250 sq. ft. **#89854. (A) 5 lbs., \$21.95**

Monterey Vegetable And Ornamental Weeder

One of the few weed killers safe to use on vegetable gardens. This preemergence herbicide kills weeds before they germinate. Controls grasses and broadleaf weeds for up to 5 months. Can also be used around trees, shrubs, roses and other ornamentals. 3 oz. mixed in 2 gallons of water treats 1,000 sq. ft. Active ingredient Trifluralin. **#50375. Pint, \$28.95**

Bonide® Grass Beater®

Kills weedy grasses without injuring desirable plants. This systemic post-emergent herbicide can be sprayed over flower beds, trees, shrubs, ground covers and vegetable plants to eliminate quackgrass and other weedy annual and perennial grasses. Stops growth of weed grasses within 2 days. **#52330. 8 oz. Concentrate, \$29.95**

Preen® Extended Control Weed Preventer

Stops weeds before they start – one application blocks weeds for up to 6 months! Apply anytime during growing season or in the fall to stop winter and early spring germination. Safe for use around more than 600 ornamentals. Covers 805 sq. ft. **#55668. 4.93 lbs., \$29.95**

Bonide® BurnOut® Weed Killer

All-natural organic weed and grass killer. Faster and safer than harsh chemicals, BurnOut® is made from plant-based, pet-safe ingredients. Kills weeds completely within 24 hours. Breaks down within 2 days of application so you can replant. Safe to use around ponds or streams and vegetable plants. Non-selective – eradicates even the toughest plants. One gallon finished spray treats 1,500 sq. ft. **#52333. Quart RTU Spray, \$11.95**
#52334. Quart Concentrate, \$24.95

Gardening Goods

NEW! Colander Trug

The perfect home and garden companion! From the garden or the grocer, this large, light-weight, easy-to-use colander is perfect for harvesting and cleaning fruits and vegetables. Features drainage holes

in one end – simply rinse, tilt and drain. Made of durable, recycled plastic with sturdy handles that fold down for convenient storage. Measures 22" L x 12"W x 4-3/4"H and weighs just 1/2 lb.

#54654. \$17.95 each; 2 or more \$16.45 each

Wooden Baskets

Perfect for harvesting fruits and vegetables. Also an attractive way to display flowers and produce in your home. Sturdy wire handles and wooden grips add rustic appeal to the baskets. Whether used in the home or garden, we're sure you'll be pleased. Baskets have a 1/2 peck capacity and measure 9"D x 6-1/2"H.

#56676C. \$8.95 each

Vintage Canvas Grow Bags

Unique, re-purposed bags look great as planters, inside or out. Made of faux leather (handles and bottom) and all-weather treated canvas with a poly-lined interior and reinforced drainage holes. Use as decor in kitchens and bathrooms, as well. 13"D x 15"H. 10 gallon capacity. **\$17.95 each**

#70801. Coffee #70803. Pig #70802. Flour #70804. Rooster

#70805(X).

Get all 4 for just \$64.50!

Vintage Burlap Grow Bags

All natural burlap fabric bags are enhanced with colorful screen printed graphics and coated for water retention. Includes reinforced drain holes for adequate drainage and rugged reinforced seams for added strength. Perfect for deck, balcony and patio gardening. Reusable and folds flat for storage.

#53906. Tomato, 20 Gallon, 20"D x 14-1/2"H, \$17.95 each; 2 or more \$16.95 each
#53902. Pepper, 10 Gallon, 12-1/2"D x 16"H, \$15.95 each; 2 or more \$14.95 each

Composting & Protection

RollMix™ Composter
Home composting has never been easier or quicker – it's possible to make your own compost in as little as 6 weeks! All you need to do is add water, a variety of kitchen waste and roll it. Its compact size makes it perfect to compost anywhere you have limited space.

Made of durable, polyethylene fabric that traps heat, holds odors in and keeps pests out. Makes approx. 32 gallons of compost, measures 26" L x 22" D and weighs less than 3 lbs.! Folds flat for easy storage. Instructional guide included.
#53076. \$37.95 each; 2 or more \$34.95 each

Twist-Up Tomato Cloche

Get plants in the ground earlier! Protects tomato, pepper and other tall plants against blight, slugs and harsh weather. Pops up quickly and folds down neatly. Works well with our popular Tomato Patio Planter™ Bags on page 8. Made of clear plastic to allow plenty of sunlight and warmth that plants need to grow. Includes aeration vents and ground pegs to hold in place. Measures 1'7-1/2" D x 3'7-1/4" H and weighs 1.75 lbs.
#84101. \$24.95 each; 2 or more \$22.95 each

Micromesh™ Tomato Tube

Beat the bugs without the chemicals! Offers simple, inexpensive crop protection for tomato plants. Made of ultra-fine 0.6mm micromesh netting that protects against the weather and insects as small as aphids and flea beetles, as well as birds and other animals. Tubes can be supported with canes (not included) and secured at the top with wire ties (included). Remove to allow pollination. Measures 6'7" L x 1'11-1/2" D. **#89404. Pkg. of 3, \$27.95 each; 2 or more \$25.95 each**

Greenhouses

Garden Starter Greenhouse

Economical! A double zippered doorway provides easy access to two tiers of shelving (included) on either side. Steel framework assembles quickly and easily. Velcro fasteners attach the UV-reinforced PVC cover to the frame. Ground stakes included. Easy to disassemble and store. 4'6" W x 6'3" H x 4'6" L.
#52968. \$169.95 each
#52968. (C) Replacement Cover, \$109.95 each

Extra Wide 4-Tier Growhouse

Similar to the 4-Tier Mini Greenhouse (pg. 10), except it's a little wider with a heavy-duty, reinforced cover. The rugged, steel frame assembles without tools in just minutes. The green plastic cover, with full length, roll-up zippered front panel, retains solar energy, yet easily allows access to plants. Overall size is 3'11" W x 18" D x 5'3" H. **#52963. Was \$98.95 Now \$89.95**

SunBlaster™ Nanodome Mini Greenhouse

Custom kit includes everything you need to start seedlings, propagate fresh cuttings or grow fresh herbs all year long! The high dome incorporates light tracks engineered to receive lighting bi-directionally. Includes 7" Nanodome with vents (for optimum temperature and humidity control), 1020 double thick tray and a SunBlaster™ 18" T5 light. **#52942. \$59.95 each**

Meet Our New Exclusives!

Totally Tomatoes invites you to try all 5! Your taste buds will thank you!

Perfectly Pink FN Hybrid Tomato

95 days. The maturity is long, but certainly worth the wait! The reward for your patience? Large, tasty summer treats. Attractive, beefsteak-type fruits are juicy, super sweet and weigh in at 1 lb. or more, making it a perfect one slicer! Potato leaf plants produce good yields. Indeterminate.
#00546. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.70 each; (G) 250 seeds \$7.95; 2+ \$7.45 each; 4+ \$5.95 each

Where's The Heat? Habanero Pepper

80-85 days. Attractive fruits are bright golden-yellow and completely sweet – however, there may be an occasional hot pepper, although not as hot as a typical habanero. The best part about these beauties is that they have the same fruity flavor hot habaneros have, but without the insane burn. Large, upright plants create a nice canopy to protect fruits from sunscald.
#03797. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.60 each; (V) 100 seeds \$5.25; 2+ \$4.85 each; 4+ \$4.15 each

Sweet Snax VF Hybrid Tomato

60 days. Looking for a variety that will potentially produce thousands of small, delicious nuggets of sweetness? Then we have just what you're looking for. This newcomer is a heavy producer of bright red cherry tomatoes that are less than an inch in diameter and filled with excellent, sweet flavor. Great for roasting, salads or just plain snacking. Crack resistant. Indeterminate.
#00731. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.65 each; (G) 250 seeds \$6.95; 2+ \$6.50 each; 4+ \$5.25 each

Belle of the Ball F Hybrid Tomato

70 days. A true hybrid heirloom bred from parents that originated in France over 100 years ago and were reselected for their uniformity. Beautiful, slightly flat, round fruits average 6 to 8 oz., are juicy and full of wonderful flavor that has the perfect balance of acid and sweetness. Great fresh or cooked. High yielder. Determinate.
#00069. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.70 each; (G) 250 seeds \$7.95; 2+ \$7.45 each; 4+ \$5.95 each

Little Hot Shots Hybrid Pepper

60-65 days green; 70-75 days red. These cute, 3/4" cherry peppers are fairly hot, with a Scoville rating of 9,000 to 10,000. Fruits ripen from dark green to a deep crimson red and can be enjoyed at either stage. Excellent fresh, roasted for chili paste, pickled or dried. Sturdy plants grow up to 20" tall and produce an abundance of fruit. An excellent choice for patio containers.
#03781. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each; (V) 100 seeds \$6.50; 2+ \$6.05 each; 4+ \$4.85 each

#04176(X). Get 1 pkt. each of all 5
New Exclusives for just \$11.95
