Dear Gardener,

Individuality is a part of every garden...you choose what to grow, where to grow it, how to grow it...it's yours. While some of you may like to take risks and try the new and unusual, others like to play it safe and stick with the classics - we have some of the finest varieties available for both!

Speaking of classics, could some of the most well-known tomatoes in the world possibly get any better? Absolutely! The Plus Collection (right) is a series that has done just that! Everyone loves traditional red tomatoes, but colorful varieties also bring a lot to the table. We have some eye-catching beauties you'll want to try like Bandida (p. 4), Tough Boy Gold (p. 3) and Mingle Mix (Back Cover) - their delicious flavor, as well as their looks will impress you and your neighbors!

Still searching for that explosively hot pepper? Try Armageddon (Back Cover). Some claim it's hotter than Carolina Reaper - we'll let you be the judge of that! If you can't take the heat, check out Muscato (Back Cover) and Delite Series (p. 3)...they are all bursting with sweetness!

So whether you're a beginner, a seasoned gardener or somewhere in between, get busy preparing those gardens that will ultimately flourish with homegrown goodness! Happy gardening!

TOTALLY TOMATOES

P.S. Look for us on Facebook and Instagram.

#### HEARTBREAKERS™ HYBRID COLLECTION TOMATOES

70-85 days. Get ready to fall in love with Dora & Twiggy whose adorable little fruits reveal a lovely heart shape when cut in half. Juicy fruits have tender skins, the perfect sugar to acid ratio and a Brix of 9%. Great indoors on windowsills, in small gardens, raised beds and in containers or hanging baskets mixed with trailing vegetables or flowers. Plants have excellent vigor and naturally remain dwarf without any pinching or pruning.

Produces abundantly. Determinate.

##### Dora Red

Fruits grow in clusters of approx. 8 to 10, weigh up to 1/2 oz. each and are about the size of a quarter. Bred for regrowth after harvest of the first fruits; plants will continue to set new fruit, but only if ripe fruit is kept harvested. Sturdy, dwarf plants have nicely branched trusses of fruit that lay outside of the foliage for easy visibility and harvest. Ideal pot size is 6 to 8". Mature plants grow to just 16" tall. #00333.

##### Twiggy Series

Fruits grow in clusters, weigh approx. 1/4 oz. each and are about the size of a nickel. Plants are considerably more compact than Dora. Ideal pot size is 5 to 6". Mature plants grow to just 12" tall.

##### Orange #00334.

##### Red #00331.

Prices, above 3, per variety: (A) pkt. (10 seeds) \$5.05; 3+ pkts. \$4.55 each

#### Pot-a-peño Hybrid Pepper

60-65 days. 2021 AAS Regional Winner! This newcomer has a unique cascading habit perfect for hanging baskets or containers. Early maturing, 3 to 4" jalapeño fruits hang down beneath the plant for easy harvest - yet another unique trait!

Green fruits have a traditional spicy flavor in 45 to 50 days or left to fully mature to bright red, they have a sweet, mildly hot flavor at less than 500 Scovilles. Plants have a dense canopy of small, dark green leaves to protect fruits. High yielding. 12-15"

#03067. (A) pkt. (10 seeds) \$4.25; 3+ pkts. \$3.85 each

HEARTBREAKERS™  
TWIGGY ORANGE

HEARTBREAKERS™  
TWIGGY RED

POT-A-PEÑO

#### PLUS HYBRID COLLECTION TOMATOES

These newcomers have all the great qualities that make the originals so famously popular, PLUS they have more flavor, more attractive fruits, more disease resistance and better adaptability.

#### Better Boy Plus VFNTAST TSW

75 days. Bright red, unbelievably juicy fruits weigh up to 1 lb. and with a higher Brix of 6.6, it's packed with an unbeatable, sweeter flavor. PLUS it's highly resistant to Tobacco Mosaic Virus, Tomato Spotted Wilt Virus and Fusarium Crown & Root Rot. Indeterminate. #00074.

#### Big Beef Plus VFFTAST TSW

75 days. With the added crimson gene this beauty is visibly deeper red inside and out. Fruits are sweeter with a higher Brix of 6.2 and weigh 9 to 16 oz. PLUS it's highly resistant to Tomato Spotted Wilt Virus, Fusarium Crown & Root Rot and Tomato Torrado Virus with intermediate resistance to Root-knot Nematode. Higher yield potential. Indeterminate. #00080.

#### Celebrity Plus VFFFNTAst TSW

70 days. Large, smooth 8 oz. fruits have an outstanding flavor. Widely adaptable for fresh markets and home gardens. PLUS it's highly resistant to Tomato Spotted Wilt Virus. Semi-determinate. #00195.

#### Lemon Boy Plus VFFNTAST

75 days. Attractive 6 to 7 oz. fruits have a unique yellow color and a sweeter (with a higher Brix of 6.6), yet tangy flavor. PLUS it's highly resistant to Tobacco Mosaic Virus, Fusarium Crown & Root Rot, Tomato Torrado Virus and Leaf Mold. Indeterminate. #00430.

### Loki Hybrid FFNT Tomato

70-75 days. Delicious, medium round fruits grow up to 3/4" and have fewer blemishes than typical heirloom varieties. Early-maturing, bright red fruits are full of delicious flavor, weigh approx. 6 to 8 oz. each and make excellent slicers. Highly resistant to Tomato Mosaic Virus. Leaf Mold resistance makes it a great option for growing in high humidity areas. High yielder. Indeterminate.  
#00439. (A) pkt. (10 seeds) \$4.95; 3+ pkts. \$4.55 each

### Tough Boy Gold Hybrid VFFNSt Tomato

75-85 days. Early to extra early, deep yellow to orange, 7½ to 8 oz., deliciously sweet flavored fruits are uniform and firm. Plants have medium-sized leaves, short internodes and a better root system than similar varieties. Good setting ability under colder temperatures. A great fresh market variety that will be very appealing to home gardeners and at roadside stands. Resistant to Blossom End-Rot and Tomato Mosaic Virus. Crack resistant. Indeterminate.  
#00770. (A) pkt. (10 seeds) \$5.75; 3+ pkts. \$5.25 each

### DELITE® HYBRID SERIES PEPPERS

58-65 days. This "delite"ful new series will be a favorite for the whole family – kids will love the vivid colors and gardeners will love how easy the plants are to care for.

Large-fruited snack peppers have very early to early maturity and good heat setting ability. Fruits grow to approx. 2½ to 4" long by 1½" wide and weigh up to 1¾ oz. each. Crunchy, flavorful peppers are smooth and firm with glossy bright colors at full maturity. High in beta-carotene and vitamin C, attractive fruits ripen from green to lemon yellow, deep orange and ruby red. Excellent for container gardening.

Upright vigorous plants provide good fruit cover and are high yielding with continuous setting ability. Highly resistant to Tobacco Mosaic Virus and Bacterial Spot.

Races 0-3, 7 and 8.

Lemon #02835. Ruby #02837. Orange #02836.

Prices, above 3, per variety:  
(A) pkt. (5 seeds) \$4.95;  
3+ pkts. \$4.55 each

### Free Seed Offer!

Enjoy TWO FREE TRIAL SEEDS PACKETS (while supplies last).

Simply place your order for \$10.00 or more (excluding shipping charges and taxes) by March 15, 2022.

### Ancho Gigantia Pepper

80 days. Thick-walled, 3" long by 2¼" wide peppers are mildly hot with a Scoville rating of 2,000. Green fruits mature to red and can be eaten at either stage. Perfect fresh, roasted, stuffed and dried (in the red stage). Purchase more!

#09200. (A) pkt. (30 seeds) \$2.95;  
3+ pkts. \$2.75 each

### Horizon Tomato

75 days. Heirloom beefsteak-type fruits are thick, meaty, juicy and deliciously sweet. Plants are very leafy and produce huge, 4 to 6", red, smooth, slightly heart-shaped, sometimes oblate fruits. Indeterminate.

Purchase more!

#00359. (A) pkt. (30 seeds) \$2.95;  
3+ pkts. \$2.75 each

### EDIBLE POTTED HYBRID SERIES TOMATOES

70-84 days. Get deliciously sweet cherry fruits right from your windowsill or countertop. Plants grow just 6 to 8" tall and wide and produce ½ to 1" fruits, stay tidy and benefit from being grown dry. Great grown in containers on patios. Determinate.

Cocoa #00200.

Red Velvet #00610.

Prices, above 2, per variety:

(A) pkt. (10 seeds) \$5.85; 3+ pkts. \$5.35 each

**NEW!**

JOLENE

## Classic, Novel, Bold & Vibrant ...

### Jolene Hybrid VFFSt Tomato

**73 days.** Attractive, large to extra-large, 8 to 10 oz. fruits have deep, dark red flesh and an excellent flavor. Early maturing, globe-shaped, 3½ to 4" fruits are firm with a clean blossom end and uniformly smooth shoulders. In trials, Jolene displayed outstanding performance in the southeast. A great fresh market variety. Highly resistant to Fusarium Crown & Root Rot with intermediate resistance to Tomato Yellow Leaf Curl Virus. Determinate.

#00394. (A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each

**NEW!**

BENDIDA

### Bendida Hybrid VFFT Tomato

**60-80 days.** Beautiful deep orange, glossy fruits are firm, round, average up to 7 oz. each and are high in beta carotene. Fruits grow in clusters of 6 to 7 and have a superbly, well-balanced flavor. Perfect for pastes, sauces, canning, salads and slicing. High yielding. Resistant to Leaf Mold. Semi-determinate.

#00071. (A) pkt. (15 seeds) \$3.85; 3+ pkts. \$3.55 each

**NEW!**

SUN DRIED CHERRY

### Sun Dried Cherry Hybrid Tomato

**60-65 days.** If you love sun dried tomatoes but don't like paying those high supermarket prices, you'll want to give this newcomer a try! Make your own in the comfort of your home – it's more affordable AND you can control the ingredients. Round, red, 1 oz. sweet cherries with a Brix of 6 are produced in trusses that can be dried right on the vines, hung outside to dry or slow roasted in the oven. High yielding plants produce hundreds of fruit during the season. Indeterminate.

#00701. (A) pkt. (20 seeds) \$2.95; 3+ pkts. \$2.75 each

**NEW!**

GOLD FORTUNE

### Gold Fortune Hybrid Pepper

**80-90 days.** Delivers bold color and incredible fruit size – a whopping 6" long by 3¼" wide! Lamuyo-shaped, 9 to 10½ oz., uniform, high quality fruits are smooth, firm, thick-walled, blocky and glossy golden yellow at maturity. Tall, strong, vigorous plants are high yielding. Excellent for farmers markets. Great for containers. Highly resistant to Potato Y Virus Races 0, 1 and 2, with intermediate resistance to Powdery Mildew and Tomato Spotted Wilt Virus.

#03152. (A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each

### Marzito Hybrid FNT Tomato

**50-55 days.** Elongated, mini marzano-type fruits grow up to 2¼" long by ¾" wide and resemble small romas, the staple variety used for canning for generations. Flesh has a firm texture and a sweet, rich flavor. This multi-purpose tomato is versatile and perfect for eating straight-from-the-vine, for cooking or canning. Highly resistant to Leaf Mold and Tomato Mosaic Virus. Indeterminate.

#00458. (A) pkt. (10 seeds) \$4.95; 3+ pkts. \$4.55 each

MARZITO

4

Phone Toll-Free (800)345-5977

### Bellatrix Hybrid VFFT LB Tomato

**65-70 days.** Bright red roma/paste-type tomatoes grow up to 3" long by 2¼" wide. Fruits ripen in a short period of time, allowing for a large harvest over the season. Excellent for sauces and salsas. Great for growing in containers. Plants are highly resistant to Tomato Mosaic Virus. Determinate.

#00070. (A) pkt. (10 seeds) \$4.25; 3+ pkts. \$3.85 each

### Trident Hybrid Pepper

**80-85 days.** Extra-large, ancho/poblano peppers grow up to 7" long by 3½" wide and mature from mid-dark green to deep red. Glossy fruits are mildly hot at 250 to 1,500 Scovilles, weigh approx. 5½ oz., are firm, straight and have a high percentage of two lobes. Peppers have a good dry weight ratio and are excellent fresh or dried. Plants produce multiple harvests and maintain fruit size. Great for farmers markets and roadside stands. Vigorous plants produce high yields and are widely adaptable. Highly resistant to Tobacco Mosaic Virus.

#03794. (A) pkt. (15 seeds) \$4.25; 3+ pkts. \$3.85 each

### ChaaK Hybrid Pepper

**75 days.** Attractive habanero fruits are uniform, quickly ripen from green to golden yellow and finally to a beautiful orange and have an average of 200,000 Scovilles. Heavy, large, thick-walled, 2½" long by 1½" wide fruits weigh approx. ½ oz. each and have fruity/floral undertones once you get past the heat. Peppers mature up to 2 weeks earlier than similar varieties and have a good shelf life. Strong, vigorous plants are upright, have short internodes and hold fruit well. High yielding. Crack tolerant. Intermediate resistance to Tomato Spotted Wilt Virus.

#03778. (A) pkt. (10 seeds) \$3.55; 3+ pkts. \$3.25 each

### Aleppo Pepper

**80 days.** Attractive, thin-walled fruits grow 4 to 6" long, are mostly 3-lobed and ripen from green to rich red to burgundy. Moderately hot with about 10,000 Scoville units and has a nice smoky flavor. Fruits can also be enjoyed fresh – flavor is sweet with a kick of heat. Grown in Aleppo, Syria for centuries where it was traditionally used for drying and crushing into pepper flakes or grinding into powder. Very productive plants can grow 3 to 4 ft. tall and may require staking.

#03776. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each

**NEW!**

TRIDENT

CHAAK

# Eye-catching & Appetizing – Try ‘Em All!

## Golden Roma Tomato

**75-90 days.** Bright yellow, 3 to 4" elongated fruits are smooth and have a sweet flavor. These very attractive 3 oz. fruits are yellow versions of typical red roma types and are considered to be a true paste tomato. Fruits are consistently meaty and have less water and fewer seeds than fresh market tomatoes. Great for fresh salsas, sautéing, roasting, drying, canning and making sauces and soups. Heavy yielder. Indeterminate.

#00308. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

RUBE GODDESS

**NEW!**

RUBE PLUS

**NEW!**

## RUBE HYBRID VFFSt SERIES TOMATOES

Early maturity, great flavor, amazing color, thin, smooth skin, crack resistance and fantastic disease resistance – this series has it all. All are very good slicers. Highly resistant to Fusarium Crown & Root Rot, Leaf Mold and Tomato Mosaic Virus.

## Dawn

**57-60 days.** Fruits, 8 to 12 oz., are deep oblate, smooth, firm, have light green shoulders and are deep red at maturity. Flavor has a wonderful balance of sweet with a touch of tartness and a hint of floral overtones. Compact indeterminate. #00628.

## Goddess

**60-65 days.** High-quality, 8 to 10 oz. juicy fruits are flattened globe-shaped, firm and have a deep red color at maturity. Productive plants were top performers in trials. Features intermediate resistance to Late Blight. Indeterminate. #00629.

## Plus

**65 days.** Juicy fruits have thick, meaty flesh, weigh 8 to 10 oz., are flattened globe-shaped, firm and deep scarlet red at maturity. Smooth shouldered fruits grow in clusters of 2 to 3. The best slicer in the series. Indeterminate. #00633.

## Prize

**65 days.** Extra large, 9 to 10 oz. fruits are flattened globe-shaped, firm, have light green shoulders and are deep scarlet red at maturity. Sets clusters of 2 to 4, almost seedless fruits. Most popular in the series for flavor. Super productive plants have good leaf cover. Compact indeterminate. #00621.

Prices, above 4, per variety:

(A) pkt. (10 seeds) \$4.95; 3+ pkts. \$4.55 each

**NEW!**

## JALAPEÑO SPICE SERIES PEPPERS

**65 days.** Jalapeños are probably the most popular spicy pepper in the world and interest will continue to peak with the introduction of these NuMex varieties. Bright, colorful peppers, 2 to 3" long by 1" wide, have major eye appeal and will stand out in salsas and other fresh recipes.

Plants grow up to 24" and are great for container gardening.

## Lemon

Fruits ripen from green to bright yellow and are mild to medium hot at 25,000 Scoville units. #03780.

## Orange

Fruits ripen from green to orange and have a great fruity/citrus flavor. Hottest of the series at 79,000 Scoville units. #03783.

## Pumpkin

Green fruits ripen to a stunning pumpkin-orange, a color normally only found in bell peppers. Mild to medium hot at 22,000 Scoville units. The most productive of the series. #03784.

Prices, above 3, per variety:

(A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each

## Buffy Hybrid Pepper

**70 days.** 2022 AAS Winner! This is one delicious hot pepper and in trials, plants produced more than 250 fruits each! Juicy, thick-walled fruits grow to approx. 1½" long by ½" wide and ripen from green to an attractive bright red. Pungent, aromatic fruits are slightly larger and mature earlier compared to Tabasco and are perfect for pickling. Peppers are held high on the plants creating ornamental appeal and make for easy harvest. Ideal for large containers. Disease tolerant plants are strong, healthy, upright and produce good yields. #03777. (A) pkt. (10 seeds) \$3.75; 3+ pkts. \$3.45 each

## Red Snapper Hybrid VFFAst Tomato

**70-75 days.** Attractive, large to extra large fruits are deep red, weigh approx. 8 to 12 oz. each, are smooth, firm and deeply oblate. Flesh is scarlet red and full of great tomato flavor. Medium tall plants have dark green foliage that provides moderate cover for fruit protection. Makes a great slicer. Sets well in the

heat. Widely adaptable and a high yielder. Developed in cooperation with University of Florida's Food and Agricultural Science tomato breeding program. Intermediate resistance to Tomato Spotted Wilt and Tomato Yellow Leaf Curl Virus. Determinate. #00604. (A) pkt. (10 seeds) \$4.75; 3+ pkts. \$4.35 each

# GARDEN READY TOMATO & PEPPER PLANTS

Get an early start with these healthy, sturdy, 6 to 8" plants. Grown in individual 2½" pots, in our special potting mix. Once all danger of frost has passed, they are ready to be planted directly into the garden after hardening off. Plants will be shipped at the proper planting time for your area. See page 7 for shipping information.

Please read and follow the special growing instructions included with your plants.

Increases tomato yields by 40%! Red light is reflected off the tray to the plant to stimulate growth. Helps roots retain consistent moisture. Protects against drought and cutworms – yields earlier and tastier harvests. Use with tomato, pepper and vining plants. 12" x 12". #53123. Pkg. of 3 for \$10.95; 2+ pkgs. for \$9.95 each

## Tomato Helpers

### Tomato Crater

Designed for growing tomatoes, but can be used on a variety of garden plants. An easy way to get water and plant food to the roots, right where it's needed. A convenient two-part interlocking design allows it to be placed around plants, eliminating risk of plant injury. Slots in the base allow for a wire cage to be inserted. The red color warms the soil and reflects red light up into the plant to stimulate plant growth. Helps retain soil moisture, reduces the need for weeding and protects against cutworms and other ground insects.

### SRM-RED™ Reflecting Mulch Film

Increases tomato production 12 to 20% over traditional black mulch! Developed by Clemson University and the USDA. Thin plastic film uses a patented technology to reflect wavelength-specific infrared light from the sun up into the plant. Warms the soil and retains moisture.

#53321. 48"W x 30'L, \$17.95 each  
#53322. 48"W x 100'L, \$34.95 each

# GRAFTED PLANTS

Wondering why you should pay more for grafted plants? What makes them worth the extra price? These were some of the questions we also asked when grafted vegetables first appeared on the market. We admit we were skeptical – until we grew them ourselves and saw the proof. Grafted plants were stronger, produced fruit faster and because they were able to fend off diseases, the yields were higher.

Grafting joins the top of one plant (the scion) to the root system of a separate variety (the rootstock). As the tissues fuse, the vigor and disease resistance of the rootstock combines with the exceptional fruit qualities of the original variety. The result is a "Super-Powered" plant. Plants will be shipped in 2½" pots. Please read and follow the special growing instructions included with your plants. **We are unable to ship plants to the following states: AK, CA, GA, HI and TX.**

**3+ Plants \$10.95 each; 6+ \$9.95 each; 9+ \$8.95 each**

## TOMATO SAMPLER

1 plant each of Amish Paste (paste), Big Beef (beefsteak) & Cherokee Purple (heirloom).  
#39680(X). **\$26.85**

Our grafted plants have become such hot sellers, we've added 3 impressive new varieties!

### Dark Star Hybrid

**70-75 days.** Large, 8 to 10 oz., purple beefsteak-type fruits are oblate, ribbed and full of visual appeal. Dark purple/red flesh has a rich, smoky flavor and texture that is very similar to Cherokee and Carbon (page 23). Expect higher yields, healthier plants and better fruit quality than most heirlooms. Highly resistant to Late Blight. Indeterminate. #00223PG.

**75 days.** This rare find was introduced in 1893 by James Thorburn, a famous New York seedsmen. He claimed the heirloom was extraordinary in many ways – particularly in color, flavor and keeping qualities. Beefsteak-type fruits have attractive skins in varying shades of terra-cotta, orange-pink flesh and green seed gel. Very eye-catching and amazingly delicious, fruits are not only great for fresh eating, they are also excellent for making unique sauces. Indeterminate. #00768PG.

### Carolina Reaper

Officially the hottest pepper in the world as ranked by Guinness Records – Scoville units typically average a whopping 1.5 million and peak at 2.2 million! For more information, see page 54. #03755PG.

### Ketchup 'n' Fries®

#### Harvest tomatoes AND potatoes from a single plant!

We are pleased to offer these specialty, hand-grafted plants that have quickly become customer favorites! Since Luther Burbank's experiments in the early 1900's, researchers have explored ways to find a commercially practical way of grafting a tomato plant top onto potato roots. After many years of trials, American grafting leader, SuperNaturals Grafted Vegetables, LLC, has brought Burbank's vision to reality with the release of Ketchup 'n' Fries by TomTato®.

Grow plants in the garden or in a patio container (at least 15 gallons or larger) with a 6 to 8 ft. stake or cage – a great variety for maximizing garden space. With a Brix of 10, plants produce possibly the sweetest cherry tomatoes you will ever taste AND delicious potatoes, too! During the growing season, up to 500 or more cherry tomatoes can be produced. When all the tomatoes have been gathered, cut plant back to ground level and approx. 2 weeks later, harvest up to 4½ lbs. of tasty, light yellow potatoes! All natural. Non-GMO. Easy-to-grow. Grafted plants will be shipped in 2½" pots. Please read and follow the special growing instructions included with your plants.  
#39580PG.

**\$15.95 each;**  
**3+ Plants \$12.95 each;**  
**6+ \$11.95 each**

## SHIPPING DATE INFORMATION

All plants on 6 and 7 will be shipped at the proper planting time for your area. Approximate dates when shipping begins:

### Zones 7 to 10: APRIL 15 to MAY 1

To find your zone, please see the USDA Zone Map on page 60 or visit our website for an easy-to-use Zone Finder.  
Please note: Adverse weather in your area, or ours, may affect the shipping schedule.

*We are unable to ship plants to the following states: AK, CA, GA, HI and TX.*

*If you are not satisfied with the quality of your plants upon delivery, please let us know immediately.*

# Meet Our Famous Giants ...

## Goliath™ Bush Hybrid VF 🔥

**68 days.** No wonder this remarkable tomato has gained such wide acclaim in its short history! Specially developed for patio gardeners and those with limited garden space and unsurpassed by any other bush variety. Its attractive, compact plants grow up to 3½ ft. tall and have a patio look ... the surprise is their huge, red, 3 to 4" fruits packed with flavorful meat and high sugar content. Bears consistently up to frost and needs little staking. Determinate.

#00002. (A) pkt. (30 seeds) \$3.65; 3+ pkts. \$3.35 each; (D) 1/32 oz. \$9.95; 2+ \$9.20 each; 4+ \$8.30 each

GOLIATH™ BUSH

## Goliath™ Cluster Hybrid VFFT

**65 days.** Typically when we debut a Goliath™ variety, it's a big, bold, stand-alone beauty, but this superior cluster-type with all the wow factors caught our eye. Bright red, flavorful, 4 to 5 oz. fruits present themselves for select picking or cluster harvest, holding their fine form and flavor up to 2 weeks. Indeterminate. #00196. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each; (V) 100 seeds \$6.95; 2+ \$6.45 each; 4+ \$5.85 each

GOLIATH™ CLUSTER

## Goliath™ Early Hybrid VFFNT TSWV YLCV 🔥

**60 days.** Superb size, perfect shape, continuous production, luscious flavor and broad disease resistance of the marvelous original. Expect extra-large harvests of big, round 7 to 10½ oz., red, sweet fruits. It extends the growing season at the front end by almost a week without sacrificing the things we love most about Goliath™. A better yielder than most early varieties. Indeterminate.

#00003. (A) pkt. (20 seeds) \$5.25; 3+ pkts. \$4.75 each

GOLIATH™ EARLY

## Goliath™ Italian Hybrid VFFNTA

**76 days.** Variety Boy-Oh-Boy. One of our most versatile Goliaths™! Adds robust flavor to all your favorite dishes. Firm, 8 oz. beefsteak-type fruits, with excellent flavor, turn from apple green with green shoulders to bright red at maturity. Vigorous plants with good ground cover and strong disease resistance. Indeterminate.

#00007. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each; (D) 1/32 oz. \$9.95; 2+ \$9.20 each; 4+ \$8.30 each

GOLIATH™ ITALIAN

## Goliath™ Old-Fashioned Hybrid T LB 🔥

**78 days.** Variety Beef Maestro. This large-fruited wonder has all the qualities of a fine heirloom variety – big fruits that are 13 oz. or more and a pleasing combination of sweetness, flavor and very smooth texture. Fruits are oblate and a little flattened with slightly rough shoulders. Plenty of vigor over a long harvest. Indeterminate.

#00009. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each; (D) 1/32 oz. \$9.95; 2+ \$9.20 each; 4+ \$8.30 each

GOLIATH™ OLD-FASHIONED

GOLIATH™ ORIGINAL

GOLIATH™ GENTLE GIANT

GOLIATH™ PRIME BEEF

GOLIATH™ SUNNY

## Goliath™ Original Hybrid VFFNTAST 🔥

**65 days.** Variety Pio. Every inch a king, from its beautiful, smooth, bright-red, deep oblate fruits averaging 10 to 15 oz., to a sweet, luscious flavor and a virtually blemish-free exterior. Tall, vigorous plants produce yield after yield and modern disease resistance makes it widely adaptable in the North, South and just about anywhere in between. Order early and you'll be rewarded with the biggest and the best! Indeterminate.

#00001. (A) pkt. (30 seeds) \$4.45; 3+ pkts. \$4.05 each; (D) 1/32 oz. \$20.45; 2+ \$18.95 each; 4+ \$17.05 each

## Goliath™ Prime Beef Hybrid VFFTSt

**70 days.** Goliath™ continues to bring 'Prime' flavors to the table with this beefsteak-type variety! Large fruits are very flavorful, globe-shaped, green shouldered and weigh 8 to 10 oz. Perfect for salads, sandwiches and more. Determinate.

#00016. (A) pkt. (30 seeds) \$3.85; 3+ pkts. \$3.55 each

## Goliath™ Sunny Hybrid VFN

**70 days.** Variety Jubilation. A gorgeous yellow-gold variation on our much-sought-after red Goliath™ varieties, with plenty to bring to the table in its own right – big juicy fruits, mild and sweet, with a medium-soft texture and a mouth-watering juiciness when ripe. Large, 7 to 8 oz. fruits can be harvested when they first turn yellow, or left on the vine until they reach a brilliant shade of gold. Vigorous plants continue setting fruits from the bottom up. Ideal for those who don't like the highly acidic bite of most red tomatoes and bound to be appreciated by anyone who values eye appeal as much as quality. Indeterminate.

#00004. (A) pkt. (30 seeds) \$3.05; 3+ pkts. \$2.75 each; (D) 1/32 oz. \$8.95; 2+ \$8.25 each; 4+ \$7.45 each

## Goliath™ Gentle Giant Hybrid

**68-70 days.** Variety Key West. A cubanelle-type with early maturity and large fruit – about 7 to 7½" in length by 2½" in width. Fruits mature from light green to a beautiful red and are perfect for grilling, stuffing, adding to salads and pizzas or eating fresh from the garden – as you will be tempted to do. Plants have added resistance to three races of the dreaded Bacterial Spot disease.

#03149. (A) pkt. (15 seeds) \$4.95; 3+ pkts. \$4.55 each

# And See Why Goliath Rules!

## Goliath™ Goldrush Hybrid

**72-75 days.** Variety Chardonnay. This treasure is worth its weight in gold and the rush continues to enjoy its rich rewards! Fruits mature from green to bright yellow, producing sweet and flavorful, crispy, 4-lobed bells. Luminous fruits average 3½" by 4" each and make a bright gold presentation against dark green foliage. Plants are compact and open for easy harvest, with high yield potential. Tobacco Mosaic Virus and Bacterial Leaf Spot resistant. #00011. (A) pkt. (20 seeds) \$3.65; 3+ pkts. \$3.35 each; (V) 100 seeds \$11.95; 2+ \$11.05 each; 4+ \$9.95 each

## Goliath™ Griller Hybrid

**70-73 days.** Variety Santa Fe Garden. This variety's finest characteristic is its versatile flavor – pungent enough to make a fantastic roaster, but mild enough to eat fresh if you like a little bite. Smooth fruits, up to 8½" long and about 1" wide, mature green to red and yield better than other hot peppers under cool growing conditions. Widely adapted, with good disease resistance. #00008. (A) pkt. (20 seeds) \$3.75; 3+ pkts. \$3.45 each; (V) 100 seeds \$10.95; 2+ \$10.15 each; 4+ \$9.15 each

## "GOLIATH" COLLECTION

One packet each of all Goliath varieties. #00871(X). 13 pkts. for just \$41.95

## Goliath™ Jalapeño Hybrid

**70-75 days.** Giant, 5" by 2", broad shouldered, thick walled beauties mature from a dark, glossy green to scarlet red. Their large size and consistent production all season long makes them ideal for all your slicing, grilling and stuffing needs. Fruits pack good heat with excellent flavor and texture. Scoville rating is 3,000-5,000. Resistant to TMV and PVY.

#00006. (A) pkt. (20 seeds) \$4.95; 3+ pkts. \$4.55 each

## Goliath™ Sweet Hybrid

**71 days.** Variety Cabernet. If you've grown to love the Goliath™ family of superb tomatoes you'll really appreciate this sensational sweet bell, one of the largest yet! Massive, 4-lobed fruits set well under a variety of conditions. Vigorous plants develop huge, elongated, thick-walled bells measuring 4" by 7", with plenty of substance and terrific flavor! Left on the plants, fruits will turn from green to dark red and contain more Vitamin C than oranges! Photo courtesy of The Ervin Walter family in Cresco, Iowa.

#00005. (A) pkt. (30 seeds) \$4.95; 3+ pkts. \$4.55 each

GOLIATH™ GOLDRUSH

GOLIATH™ GRILLER

GOLIATH™ JALAPEÑO

GOLIATH™ SWEET

## Little Hot Shots Hybrid

**60-65 days green; 70-75 days red.** These cute, ¾" cherry peppers are fairly hot, with a Scoville rating of 9,000 to 10,000. Fruits ripen from dark green to a deep crimson red and can be enjoyed at either stage. Excellent fresh, roasted for chili paste, pickled or dried. Sturdy plants grow up to 20" tall and produce an abundance of fruit. An excellent choice for patio containers. #03781. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each; (V) 100 seeds \$6.50; 2+ \$5.95 each; 4+ \$5.35 each

## Where's The Heat? Habanero

**80-85 days.** Attractive fruits are bright golden-yellow and completely sweet – however, there may be an occasional hot pepper, although not as hot as a typical habanero. The best part about these beauties is that they have the same fruity flavor hot habaneros have, but without the insane burn. Large, upright plants create a nice canopy to protect fruits from sunscald.

#03797. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.65 each; (V) 100 seeds \$5.25; 2+ \$4.90 each; 4+ \$4.40 each

## "OUR EXCLUSIVES" COLLECTION

One packet each of all Exclusive varieties.  
#04176(X). 5 pkts. for just \$12.50

WHERE'S THE HEAT?

BELLE OF THE BALL

PERFECTLY PINK

### SEEDING:

Determine the proper time for seeding tomatoes by counting back 6 to 8 weeks before the last average spring frost in your area. Not sure of the frost date? Consult your local county extension service.

Timing will determine the quality of your seedlings, so plan your schedule carefully. Seedlings started too early will become leggy and may become stunted in your containers. Seedlings held too long indoors will have a difficult time adjusting to conditions in the garden. Seedlings started too late, on the other hand, will delay your harvest.

The easiest way to schedule seeding is to use two or three dates about a week apart. It takes 7 to 14 days at a temperature of 70 to 80°F for germination, so staggered seeding would give you several sizes of plants for staggered planting and a slightly staggered harvest.

When you are ready to seed, use a good seed starting mix (see page 44) or soilless mix. Firm gently, but do not pack, and moisten. Make a hole in the center of the potting mix about 1/4" deep, drop in two or three seeds and refill the hole. Or you can simply use **Jiffy-7® Peat Pellets** (see Order Form), drop the seeds in the center opening and moisten well.

### Seedling Heat Mats

Designed for gardeners who need to germinate only a few flats. Unroll the mat on any flat surface and place starter tray(s) directly on top. Direct contact with the poly-vinyl

mat means no heat loss. Built-in thermostat holds temperature at 10 to 20°F above room temperature to a maximum of 85°F. 110 volts. UL approved.

**#53252. 9" x 19-1/2" (for 1 flat), \$32.95 each  
#53253. 20" x 20" (for 2 flats), \$54.95 each  
#53254. 48" x 20" (for 4 flats), \$89.95 each**

If sowing in market packs or flats, sow seeds sparingly in rows or scatter thinly across the soil surface, cover with 1/4" of potting mix and firm lightly. Mark containers with variety names and planting dates. Water thoroughly with a fine spray or wet soil from the bottom, allowing water to be absorbed until surface is moist. Keep containers moist, but not wet, and in a warm place, 70 to 80°F, until seeds germinate. To speed germination, apply bottom heat with a seedling mat, checking often, so seedlings can be moved to full light as soon as they emerge.

### GROWING ON:

As soon as seedlings emerge, locate them in the sunniest spot available. Grow lights (above right and pg. 31) may also be used, positioning plants 4 to 8" below the light source, and lighting 12 to 18 hours per day, but off at night. Seedlings will grow best at temperatures of 60 to 70° F. Provide air circulation and keep the soil surface moist.

# These Simple Steps Yield Totally Terrific Tomatoes

### Jump Start T5 4 ft. Grow Light System With Timer

Using the built-in timer, simply choose your lighting schedule with a single button press – 12 hours on/12 hours off or 18 hours on/6 hours off. Easy lamp height adjustment makes it a snap to direct light where plants need it most. Just plant seeds and use the simple toggle clamp to lower it to a few inches above the soil. Raise it as plants grow, staying 3 to 6" above the plant canopy. Includes T5 high

output grow light fixture with 6400K full-spectrum lamp, Jump Start Light Stand and 6 ft. cord with on/off switch.

**#52960. \$134.95 each**

### T5 Replacement 4 ft. Bulbs

**#74671. Pkg. of 4, \$49.95**

If growing plants in market packs or flats, young seedlings are ready for transplanting to individual pots when they develop their first pair of true leaves. Thin plantings down to the strongest single seedling by pinching off weaker ones at the soil level.

Fertilize sparingly when seedlings are 3 to 4 weeks of age, using a foliar feed concentration (1/3 to 1/2 of regular strength) of a complete (20-20-20) water-soluble plant food.

### HARDENING OFF:

About a week to 10 days prior to transplanting to the garden, begin adapting plants to outside conditions. Utilize a sheltered location such as a cold frame or screened-in porch to protect from wind and sun at first, then gradually accustom them to garden conditions as the weather permits. Hardening off strengthens plant cell structure and results in sturdier and more rapidly growing plants after transplanting.

### 4-Tier Mini-Greenhouse

Economical and ideal for seed propagation, plant growing and display. Features a rugged steel framework and durable, nylon-stitched, clear plastic cover with a rust-proof plastic zippered front panel. Cover is easily removed for storage. Assembles in minutes without tools. 5'3"H x 2'3"W x 19"D.

**#52967. \$69.95  
#52967C. Replacement Cover, \$29.95**

### SITE PREPARATION:

As soon as all danger of frost has passed, seedlings are ready for transplanting to a prepared site in the garden. Tomatoes thrive in any reasonably good soil that is well drained and gets full sun. The soil should be tested (pg. 63) and the pH adjusted to within the range of 5.5 to 6.5, preferably in the fall. This is also a good time for deep spading or plowing to a depth of 8 to 12", and the soil should be enriched by adding compost, leaf mold or peat moss, as needed.

**Phone Toll-Free (800)345-5977**

In early spring, till or spade the surface again, and rake to break up clods and remove debris. Fertilize as recommended on your soil test result form. Manure should be used, if at all, with caution, because excessive nitrogen tends to cause tomato plants to produce an overabundance of foliage rather than fruit. Using a fertilizer with a high phosphorus and potash analysis and low in nitrogen (such as 5-10-10) may be beneficial. If the soil is already fairly rich, the addition of organic matter along with a dressing of superphosphate should be sufficient. Some additional side-dressing of fertilizers may be necessary on light, sandy soils at regular intervals (14-21 days) during the growing season.

In larger plantings, rows of staked tomatoes should be 30 to 42" apart and plant spacings in the row at 24 to 30". If tomatoes cannot be staked, row spacings of 6 ft. and plant spacing of 4 ft. in the row are needed for proper air movement and plant development. Staking is the preferred method where space is limited and plants will yield a much higher proportion of clean, undamaged fruits.

### Tomato Trellis

Get better quality tomatoes and save space by keeping vines off the ground. Provides greater exposure to sun and air for a healthier plant. Ideal for tomatoes, cucumbers and other vining crops.

Durable, extruded one-piece nylon net won't burn or harm tender shoots by sun "heat-up". Tangle-free and reusable. Handy 7" reach-through mesh makes harvesting easy.

**#53282. 5'W x 10'L, \$8.95  
#53283. 5'W x 15'L, \$9.95  
#53284. 5'W x 30'L, \$14.95;  
2 or more \$13.95 each**

Wooden stakes or wire cages (pg. 63) work well as supports. These supports should be 40 to 72" tall, the shorter for "determinate" varieties and the taller for the "indeterminates." Determinate or bush varieties reach a certain plant height and then stop growing with most fruit borne over a 4 to 6 week period. Indeterminate varieties continue to grow and flower throughout the season, but have less mature fruits at any one time. Indeterminate Short Internode (ISI) varieties combine the controlled growth habit of a determinate with the unlimited production potential of an indeterminate.

### TRANSPLANTING:

When transplanting hardened-off plants, choose a cloudy, wind-free day if possible, or plant in the late afternoon. Be sure the danger of frost has passed, but emergency protection devices, such as plastic jugs with the bottoms removed, or **Kozy Coats™** protectors, may help if a late frost occurs.

### Kozy Coats™

Reusable water filled teepees will reward you with an early season of delicious tomatoes, cucumbers, melons and other heat loving plants. The earlier you plant, the earlier you'll pick. No need to worry about heavy frost or late blizzards. Protects your plants through the worst spring weather. Even if the water turns to ice, your plant is still protected. Keeps heat in to warm the soil around your plants. **#53725. Pkg. of 3 for \$15.95  
#53726. Repair Sleeves, Pkg. of 10 for \$6.95 each**

Water plants thoroughly about one-half hour prior to planting, using a full-strength solution of water-soluble fertilizer (pg. 64).

When planting, always make sure the holes are large enough to accommodate all the roots without crowding. Plants should be set in deeper than they originally were in containers. Since tomato plants root freely from any portion of the stems buried beneath the soil, they may be planted down to the first leaves. For plants that have become leggy, dig out furrows and lay in the plants, burying excessively tall stems.

Partially fill the hole with soil to within about 3" of the surface and water in thoroughly, being careful to settle soil around roots, eliminating air pockets. Finish filling the hole with soil and firm soil around stem.

#### CULTURE:

Keeping plants well-watered during the growing season, particularly during periods of drought, will help ensure better yields and help control problems such as Blossom End-Rot, a blackening of the fruit on the blossom end due to a calcium deficiency often related to water uptake. Proper soil testing, lime applications and foliar treatment with calcium solutions will also help avoid this problem.

#### Jack's Classic® Tomato FeED 12-15-30

Water soluble plant food for vigorous plant growth from roots to green foliage, abundant flowering and fruit set. Contains micronutrients and magnesium for improved feeding results under diverse soil and growing conditions. It also includes calcium, an effective nutrient to help prevent Blossom End-Rot. Enhances blooming and keeps leaves green by preventing leaf tip yellowing. Use on tomatoes, peppers, cucumbers, eggplant, squash and zucchini. **Cannot ship to AK, AZ, HI, ND or TN.** #51236. 1-1/2 lbs., \$14.95

The control of weeds is also extremely important when it comes to growing tomatoes, they compete with plants for water, food and space. Keep soil cultivated to about a 1" depth or remove all established weeds and use a liberal application of mulch to prevent any new weeds from emerging. Mulch materials, such as straw or plastic film (pg. 7), also help conserve moisture, protect fruits from rot and blight diseases and maintain even soil temperatures.

Plants grown on stakes or trellises will need tying at regular intervals throughout the summer. Do not tie stems so tightly that they are likely to be strangled by the ties as the stems grow and thicken. Use soft string, strips of old sheeting or other soft, stretchable materials. For those of you into recycling, strips of old pantyhose make excellent ties!

Ripening time varies with location and growing season and is influenced by soil and weather conditions, but the days to maturity cited in this catalog gives you the approximate number of days from transplanting until the first fruits should ripen.

Leave the fruits on the vine until they become completely ripe for best flavor and food value. When tomatoes reach their full color, they are ready for picking – pull them off gently to prevent bruising.

After picking, tomatoes should be stored in a cool, dark place (but NOT in the refrigerator), where they will keep better than if left on the vine. In hot, damp weather fruits will be firmer if they are picked slightly before they are fully ripe and allowed to ripen indoors away from direct sunlight.

At the end of the season, all green fruits should be picked before the first hard frost. The greenest fruits may be used for making pickles and those of ripening size may be stored in shallow boxes or trays in a cool, frost proof area where they will ripen gradually and provide usable (although not vine-ripened quality) fruits for many weeks.

#### DISEASES & PESTS:

Tomatoes can be attacked by a range of diseases and pests, so inspect plants for problems throughout the growing season. Damaged or stripped foliage is almost a sure sign of tomato hornworms and holes bored into fruits mean tomato fruitworms have hatched. Blotched and yellow foliage may mean blights are present, while stunted plants could mean nematodes have invaded.

#### Zonix™ Biofungicide

OMRI Listed. Prevents and protects against Downy Mildew, Late Blight, Root Rot and more. Works by killing the spores that spread disease and helping plants absorb nutrients more easily, giving them better protection. Apply as a foliar spray before the first signs of disease or as a preplanting soil drench to kill disease spores. Can be used to treat seeds, transplants, roots, cuttings and both ornamental and edible plants. Easy-to-use. Mix 1/2 to 3/4 oz. per gallon of water. **#50270. 8 oz. Concentrate, \$44.95**

Organic gardeners often choose to hand pick unwanted guests, or perhaps utilize insecticidal soaps or pyrethrins as treatments in combination with natural predators. Other gardeners, especially those with larger plantings, may need chemical pesticides for control of various insects and diseases. Be certain that the pesticides you use are labeled for your specific crop and pest, and follow label directions.

To combat diseases, you can grow varieties bred with resistance to common disease problems. With the help of your local extension service, determine what diseases are common in your area. Look for varieties with codes indicating resistance to those diseases. The codes below follow the variety names. Note that even resistant varieties may need some preventative fungicide application, especially in wet seasons when disease pressure is high.

- V – Verticillium Wilt
- F – Fusarium Wilt (FF – Races 1 & 2; FFF – Races 1, 2 & 3)
- N – Nematodes
- T – Tobacco Mosaic Virus
- A – Alternaria Stem Canker
- St – Stemphylium Gray Leaf Spot
- TSWV – Tomato Spotted Wilt Virus
- BS – Bacterial Speck
- EB – Early Blight
- LB – Late Blight
- YLCV – Yellow Leaf Curl Virus

#### CONTAINER GARDENING:

Those with limited space or even just a porch or patio, take heart! Container gardening continues to gain popularity, resulting in varieties bred specifically for growing in pots. Some of our best-selling container varieties, **Better Bush Hybrid & Bush Early Girl Hybrid** (pg. 15) and **Patio Hybrid** (pg. 19), are excellent performers.

For even smaller containers, some of our most popular cherry varieties like **Micro-Tom** (pg. 36) considered to be one of the worlds smallest tomato plants, **Tumbler Hybrid** and **Tumbling Tom Yellow** (pg. 39) perform especially well in hanging baskets.

Always use a good, well-drained potting mix for containers. See our **Ferti-lome Organic Potting Mix** (pg. 44). Water when the upper surface of the media dries out.

Check out our uniquely different **Vintage Grow Bags** and our red **Tomato Patio Planter Bags** (pg. 66). They're ideal for tomatoes and peppers.

Fertilize every 10 to 14 days with a water soluble fertilizer or timed-release fertilizer such as **Jobes Tomato Spikes**.

#### Jobe's® Tomato Spikes

A timed-release fertilizer concentrated into spike form for easy application and consistent vigorous growth of tomato plants. Special 6-18-6 analysis is customized for growing tomatoes. Push two spikes into the ground about 6 to 8" from base of each stem and water as required. 18 spikes per box.

**#59450. \$6.95 per Bag;  
3 or more \$5.95 each**

#### PRESERVING:

Tomatoes are so versatile that many gardeners plant extras for canning, freezing and juicing. You can easily prepare your own soups, juices, spaghetti and other sauces, tomato pastes, pickles and many other recipes. An enormous amount of information and recipes are available in **The Pickled Pantry** (pg. 61). Your local extension service is also helpful for information on home freezing and canning.

#### Victorio® Steam Canner

Saves time, energy and water! Requires only 2 quarts of water as it steam-cooks fresh and frozen foods. Cuts preheating time by 50% over water bath canning and eliminates heavy lifting. Steam is hotter and more efficient than boiling water, killing enzymes that can attack flavor and texture of canned fruits. A built-in temperature indicator on the lid tells you exactly when to begin processing time. The base and rack make an excellent roaster. Aluminum construction ensures quick heat-up and cool-down times. Not recommended for low-acid vegetables and meat. Ideal for tomatoes, fruits and other high-acid foods. **#53975. \$62.95 each**

#### TOMATO SEED COUNT

One ounce of most tomato seed varieties contains 8,000 to 10,000 seeds. Larger sizes contain the following approximate counts:

1/32 oz. contains 250 seeds	1/8 oz. contains 1,000 seeds
1/16 oz. contains 500 seeds	1/4 oz. contains 2,000 seeds
1/2 oz. contains 4,000 seeds	

#### CHERRY TOMATO SEED COUNT

One ounce of most cherry tomato seed varieties contains approximately 12,000 seeds. Larger sizes contain the following approximate counts:

1/32 oz. contains 375 seeds	1/8 oz. contains 1,500 seeds
1/16 oz. contains 750 seeds	1/4 oz. contains 3,000 seeds

# Large, Mouthwatering Hybrids!

Varieties on pages 12-15 typically grow fruits 10 oz. or larger

## American Original Red Beefsteak Hybrid

**65 days.** Gardeners everywhere will love the heirloom look and feel of these large, 12 to 14 oz. beefsteak fruits bred to hold their texture and flavor longer after picking. Packed with exactly the right amount of flavor for fresh eating in salads and on sandwiches. Indeterminate.

AMERICAN ORIGINAL RED

#00025. (A) pkt. (20 seeds) \$5.35; 3+ pkts. \$4.85 each

## Beefmaster Hybrid VFNASt

**80 days.** One of the most popular hybrid beefsteak-types with improved disease resistance, better yields, larger fruits and good tolerance to cracking and splitting. Solid, meaty, bright red tomatoes weigh up to 2 lbs. Bacterial Leaf Spot resistant. Indeterminate.

#00061. (A) pkt. (30 seeds) \$4.45; 3+ pkts. \$4.05 each; (G) 250 seeds \$16.45; 2+ \$15.25 each; 4+ \$13.75 each

BEEFMASTER

## Bella Rosa Hybrid VFFAST TSWV

**75 days.** Large, 10 to 12 oz. bright red tomatoes are round, firm and highly flavorful with a good balance of acid and sugar. A heat tolerant variety which does well in hot humid areas. Plants produce high yields. Perfect for home gardens. Determinate.

#00066. (A) pkt. (20 seeds) \$4.75; 3+ pkts. \$4.35 each; (V) 100 seeds \$12.75; 2+ \$11.80 each; 4+ \$10.60 each

BELLA ROSA

## Better Boy Hybrid VFNASt LB

**75 days.** A spectacular, mid-season variety with plump, juicy, deep red tomatoes that often weigh more than 1 lb. Once they arrive they just keep on coming! Fruits are extremely flavorful, with flesh that's juicy, yet firm. Heavy foliage protects fruits from sunscald. A highly adaptable variety that thrives in nearly any climate. Demonstrates excellent disease resistance. Indeterminate.

#00068. (A) pkt. (30 seeds) \$4.25; 3+ pkts. \$3.85 each; (G) 250 seeds \$14.95; 2+ \$13.80 each; 4+ \$12.40 each

BETTER BOY

## Big Beef Hybrid VFFNTAST

**73 days.** 1994 AAS Winner. A miracle of modern breeding. Many experts at AAS trials described this variety as "the best tomato yet developed." Smooth fruits are globe-shaped, weighing 9 to 16 oz. A good choice to try in virtually any climate, readily overcoming adverse growing conditions and adapting easily to different environments. Coupled with old-fashioned, rich flavor, it features bred-in hybrid qualities – colossal fruit size and yield, uniformity and a full spectrum of disease resistance. Indeterminate.

#00075. (A) pkt. (30 seeds) \$4.65; 3+ pkts. \$4.25 each; (G) 250 seeds \$18.95; 2+ \$17.50 each; 4+ \$15.70 each

#00881(X). 3 pkts. for  
just \$11.75

BIG BEEF

BIG LEAGUE

## Big League Hybrid

**65-70 days.** Produces the largest fruit of any true container variety on the market to date! Beautiful, 14 to 21 oz., beefsteak-type, red tomatoes grow on plants that will require support due to the sheer weight of the fruit. Plants only grow up to 48". Determinate.

#00086. (A) pkt. (15 seeds) \$4.25; 3+ pkts. \$3.85 each

## Big Zac Hybrid

**80 days.** This prize winner was bred by Minnie Zaccaria, a New Jersey gardener who tirelessly sought the perfect cross-pollination of two heirlooms, finally creating this enormous tomato with fruits that repeatedly tip the scales at an amazing 4 to 6 lbs. An excellent tomato in every respect – meaty and delicious, and true-growing each time it's planted. Furthermore, it has impeccable ancestors ... a beautiful red heirloom beefsteak-type and a large pink, open-pollinated beefsteak heirloom. Indeterminate.

#00087. (A) pkt. (15 seeds) \$3.65; 3+ pkts. \$3.35 each;

(V) 100 seeds \$17.50; 2+ \$16.15 each; 4+ \$14.55 each

## BRANDYMASTER HYBRID SERIES VFN

**70-80 days.** This modern strain of classic Brandywine delivers world famous flavor packed into medium to large fruits, unrivaled among similar varieties. Pink fruits weigh up to 10 oz. each, while the Red and Yellow fruits weigh up to 1 lb. with firm, juicy flesh and an incredible, rich tomato taste. Potato-leaved plants do well under a wide range of conditions. Fruits mature later in northern areas. All are indeterminate.

Pink #00555. Red #00608. Yellow #00828.

Prices, above 3, per variety:

(A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each;  
(D) 1/32 oz. \$10.25; 2+ \$9.50 each; 4+ \$8.50 each

#00878(X). Get 1 pkt. each of all 3 Brandymasters  
for just \$8.50

## Buffalon Sun Hybrid VFFF

**70 days.** 2020 AAS Regional Winner. The unique yellow with red/orange flame coloration is as beautiful on the outside as it is on the inside with its nicely marbled interior. Ribbed, flattened, 18 to 24 oz. huge, beefsteak-type fruits have a better texture, better crack resistance and higher yields than comparable yellow varieties. Sweet, tender flesh has the look of an heirloom without the mushiness often associated with them. In AAS trials it outlasted similar varieties when disease hit in late summer. Intermediate resistance to Late Blight. Indeterminate.

#00118. (A) pkt. (10 seeds) \$5.85; 3+ pkts. \$5.35 each

## Burpee's Big Boy Hybrid A

**78 days.** The hallmark of this large, crack-free tomato is its absolutely superb flavor. Bright red, firm, meaty fruits often weigh 1 lb. or more and feature smooth, blemish-resistant skins. Indeterminate. #00128. (A) pkt. (30 seeds) \$4.25; 3+ pkts. \$3.85 each; (G) 250 seeds \$16.45; 2+ \$15.25 each; 4+ \$13.75 each

## Bush Champion II Hybrid VFFAS

**65 days.** One of the best varieties for small space gardens and containers, bar none. Compact plants grow to just 24" tall, producing extra-early yields of big, 8 to 12 oz. fruits with excellent flavor. Displays similar qualities of its popular namesake Champion and exceeds our expectations with satisfying performance in virtually every climate. Good disease resistance. Determinate. #00148. (A) pkt. (20 seeds) \$8.25; 3+ pkts. \$7.45 each

## Carolina Gold Hybrid VFF

**71 days.** Extra-large, 10 oz. fruits are yellow-gold and deeply oblate with very few seeds. Flesh is firm and meaty with low acid. Vigorous, medium-tall plants should be staked. Resistant to Gray Wall and Crack tolerant. Determinate.

#00162. (A) pkt. (30 seeds) \$5.65; 3+ pkts. \$5.15 each; (G) 250 seeds \$25.95; 2+ \$24.00 each; 4+ \$21.60 each

## CHEF'S CHOICE HYBRID SERIES

This award winning (except Purple and Striped) series, features superior taste and texture.

Great for canning, stewing and eating fresh. All are crack resistant and indeterminate.

### Bi Color FTA

**75 days.** 2020 AAS Regional Winner. Large, eye-catching fruits weigh 10 to 12 oz. each, are globe-shaped and absolutely delicious! Heirloom-type, pale yellow tomatoes are brushed with deep red splashes on the blossom end and throughout the exquisite lemony yellow flesh. Vigorous plants are heavy yielders. Scab resistant. #00160.

### Black VFT

**75 days.** 2019 AAS Regional Winner. Large, dark, red-purple, 8 to 12 oz. fruits have attractive green shoulders and a flattened globe shape. Delicate skin surrounds very juicy, deep crimson flesh that's full of flavor and has a slight saltiness that enhances the taste. #00164.

### Green VF

**90 days.** 2016 AAS Winner. Beautiful green fruits, 6 to 7" in diameter, have subtle yellow stripes and a wonderful sweet, yet tangy, flavor. Plants, with dark green foliage, produce heavy yields of large, 9 to 10 oz. beefsteak type fruits, with a flattened globe shape. A unique choice that's sure to become a staple in all your favorite dishes! #00176.

### Orange FTA

**75 days.** 2014 AAS Winner. Bred from the popular heirloom tomato Amana Orange (pg. 21), this variety captures the wonderful flavor and unique color of the heirloom, but with much earlier maturity so you can begin enjoying the fruits sooner – also features an improved disease resistance. Beefsteak-type, 5 to 6" fruits have a flattened globe shape and average 9 to 12 oz. each. Bright orange, almost neon, both inside and out – won't fade or discolor when cooked. Tomato Mosaic Virus resistant. #00178.

Prices, above 9, per variety:  
(A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each

### **Country Taste Hybrid VFFT** 🔥

**70 days.** Tomato lovers won't get enough of these smooth, round, deep red fruits weighing up to 1 lb. Color is consistent from the skin straight through the center. Flesh is firm and juicy, packed with real tomato flavor. Produces high yields of beefsteak fruits that pay tribute to the old-time qualities of hearty, country-style tomatoes. Great for fresh eating. Indeterminate.

#00205. (A) pkt. (20 seeds) \$4.15; 3+ pkts. \$3.75 each

### **Damsel Hybrid VN LB**

**73 days.** An outstanding pink beefsteak variety with impeccable heirloom flavor! Uniform fruits weigh up to 12 oz. on compact plants that grow 4 to 5 ft. Makes an excellent slicer and is perfect in salads. In our trials, it was an excellent producer, even in less than ideal conditions. Indeterminate.

#00218. (A) pkt. (10 seeds) \$5.15; 3+ pkts. \$4.65 each

### **Dixie Red Hybrid VFFFNA TSWV**

**80-90 days.** Large firm fruits weigh 11 to 12 oz. each and have a deep oblate-shape. Plumpness, deliciousness and juiciness makes this the perfect choice for fresh salads, in soups or on those tasty BLT's. An early-main season variety bred to perform well in hot, humid climates. Highly resistant to Gray Leaf Spot. Heavy yielder. Determinate.

#00221. (A) pkt. (10 seeds) \$4.65; 3+ pkts. \$4.25 each

### **Galahad Hybrid VFFFN TSWV LB** 🔥

**75 days.** 2020 AAS Winner. If you're having problems growing tomatoes because of Late Blight, then you'll need to give this variety, bred from parent lines that are both resistant, a try. Large, round, great tasting, 12 oz. fruits have broad shoulders and are slightly ribbed. Excellent for canning, salsas, sauces and sandwiches. AAS judges agreed that the sweet, meaty flavor is better than that of comparable varieties and boasts good crack resistance. Strong sturdy plants are high yielding and also resistant to Gray Leaf Spot. Determinate.

#00284. (A) pkt. (10 seeds) \$5.35; 3+ pkts. \$4.85 each

### **Grand Marshall Hybrid VFFA**

**78 days.** Attractive, large to extra large, 10 to 14 oz. beefsteak-type fruits are firm, smooth shouldered, deep oblate shaped and grow in clusters of 2 to 3. Mild flavored fruits have the perfect balance of acid to sugar ratio. Bred to have good performance under hot conditions and when bacterial pressure is present. Matures early for a main season hot set variety. Ideal for home gardens and fresh markets. Strong, vigorous plants produce high yields.

Intermediate resistance to Gray Leaf Spot and Tomato Yellow Leaf Curl Virus. Determinate.

#00314.  
(A) pkt. (10  
seeds) \$4.45;  
3+ pkts. \$4.05  
each

### **Grandma's Pick Hybrid VFNST**

**78-80 days.** A modern day hybrid combining the look and taste of an heirloom beefsteak with earlier, more productive and disease resistant yields. Fruits are deeply globed, weigh 10 to 14 oz. each, have an excellent flavor and are high in lycopene. An excellent choice for home gardens, specialty markets and roadside stands. Indeterminate.

#00325. (A) pkt. (10 seeds) \$4.15; 3+ pkts. \$3.75 each

### **Park's Whopper CR Improved Hybrid VFFF** 🔥

**65 days.** Earlier and tastier than the original Whopper, with big, red, 4" fruits that have improved disease and crack resistance, as well as a more uniform fruit size. You'll start harvesting early and pick until frost! A popular choice for fresh markets and home gardens. Vigorous, stocky plants. Indeterminate.

#00533. (A) pkt. (30 seeds) \$5.55; 3+ pkts. \$5.05 each;  
(G) 250 seeds \$35.95; 2+ \$33.25 each; 4+ \$29.95 each

### **Roadster Hybrid VFFFNA TSW**

**65-70 days.** This candy apple red beauty will turn heads with its glossy, 8 to 12 oz., very firm fruits. Tomatoes have smooth shoulders, are globe-shaped, and have exceptional taste with rich red color inside and out. Plants have a high yield potential, are widely adaptable and benefit from light pruning. Great for container gardening. Resistant to Fusarium Crown & Root Rot with intermediate resistance to Gray Leaf Spot. Determinate.

#00636. (A) pkt. (10 seeds) \$4.35; 3+ pkts. \$3.95 each

### **SummerPick Hybrid VFFFSt TSWV**

**70-75 days.** Vine-ripened fruits have the perfect balance between acid and sweetness. An early-mid season variety with high yields of impressive 11 oz. fruits. Strong, vigorous plants produce concentrated fruit sets. Adapts well to patio containers. Excellent disease resistance. Determinate.

#00689. (A) pkt. (15 seeds) \$4.85; 3+ pkts. \$4.45 each

### **Super Fantastic Hybrid VF** 🔥

**70 days.** An improved version of the ever-popular Fantastic (pg. 16) with stronger disease resistance. Heavy yields of solid, meaty, smooth fruits weigh an average of 10 oz. each. Indeterminate.

#00720. (A) pkt. (30 seeds) \$6.95; 3+ pkts. \$6.35 each;  
(V) 100 seeds \$16.45; 2+ \$15.25 each; 4+ \$13.75 each

### **Supersonic Hybrid VF**

**75 days.** Big red, mid-season fruits with great flavor, size and quality! Firm, meaty, very large, 12 oz. fruits are slightly oblate in shape and are smooth, with excellent resistance to cracking. Sturdy plants are vigorous and disease resistant. Indeterminate.

#00732. (A) pkt.  
(30 seeds) \$4.05;  
3+ pkts. \$3.65 each;  
(G) 250 seeds \$18.95;  
2+ \$17.50 each;  
4+ \$15.70 each

### Tough Boy Hybrid VFFNTST

75 days. Also known as Momotaro. Extra early and vigorous. Pink, very sweet fruits weigh approx. 1 lb. and grow in clusters of 6 to 7. Ideal for home gardens or fresh markets. Plants have medium sized leaves and medium short internodes. Intermediate resistance to Bacterial Wilt. Crack resistant. Indeterminate. #00778. (A) pkt. (15 seeds) \$5.75; 3+ pkts. \$5.25 each

## Is Medium to Large Your Ideal Size?

### Amelia VR Hybrid VFFFNST TSWV

75 days. Specially bred for Southeastern gardens – this southern belle thrives in hot climates. Produces large, 8 to 10 oz. firm, uniform fruits. Very flavorful and excellent when picked green or red. Great for sandwiches, salads and salsas. Good crack resistance and performs best with moderate pruning. Perfect for container gardening. Heavy yielder. Determinate.

#00033. (A) pkt. (10 seeds) \$5.25; 3+ pkts. \$4.75 each

### Andiamo Hybrid 🔥

65 days. A true San Marzano type. Strong, vigorous plants produce heavy yields of bright red, 5" elongated, 5 to 6 oz. fruits that are firm, meaty and loaded with sweet flavor and just the right amount of acid. Excellent for fresh eating, salsas and perfect for making pastes, sauces and for canning. Indeterminate.

#00056. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

### Best Boy Hybrid VFN

75 days. Beautiful bright red, firm, 8 oz. deep globe shaped fruits are smooth and really delicious. Some claim it's better than Better Boy – you be the judge! An excellent choice for mid-early production. Vigorous plants produce heavy yields. Indeterminate.

#00067. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each

### Better Bush Hybrid VF

68 days. This early home garden variety bears all season long. Plants feature a strong central stem capable of supporting its 48" height with very little need for staking. Produces big 4" fruits that are mouth-watering, sweet and meaty, with the much-sought-after real tomato taste. If you love container gardening, definitely try this one! Determinate.

#00072. (A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each

### Biltmore Hybrid VFFAST

70 days. This mid-season variety is a reliable producer with manageable plant size and an extended harvest of large, smooth, globe-shaped, 8 to 10 oz. fruit with deep red exteriors. Matures earlier than varieties of similar size with fully developed flavor that has proven tough to beat in farmers market taste tests. Semi-determinate.

#00085. (A) pkt. (20 seeds) \$6.25; 3+ pkts. \$5.65 each

Varieties on pages 15-18 typically grow fruits 6 to 10 oz.

### BuffaloSteak Hybrid VFNT

75 days. High quality beefsteak-type fruits average 6 to 7 oz. and have a superior, robust old-fashioned tomato flavor. Bright red flesh is solid and meaty with very few seeds making it excellent for slicing to top sandwiches and burgers. Vigorous plants are very productive and quite disease resistant. Indeterminate.

#00117. (A) pkt. (10 seeds) \$5.95; 3+ pkts. \$5.45 each

### Bush Early Girl Hybrid VFFNT 🔥

54 days. This sister to popular Early Girl (pg. 16) delivers the same desirable qualities in a compact, patio-sized variety. Extremely early with huge yields of firm, meaty, flavorful fruits that are larger than Early Girl – a full 4" in diameter. Determinate.

#00149. (A) pkt. (20 seeds) \$4.25; 3+ pkts. \$3.85 each

### Cedro Hybrid VFFFA

75-80 days. Beautiful, large, up to 6 oz., saladette-type, high quality fruits. Great tasting, smooth, bright red tomatoes have an elongated oval shape, are uniform and very firm with beautiful color inside and out. Fruits grow in clusters on compact plants that have short internodes, mid vigor and excellent yield potential. Widely adaptable and performs well grown under conditions from warm to cool with good heat set ability. Highly resistant to Tomato Mosaic Virus Races 0-2. Indeterminate.

#00163. (A) pkt. (10 seeds) \$5.15; 3+ pkts. \$4.65 each

### Celebrity Hybrid VFFNTAST 🔥

70 days. This 1984 AAS Winner established a new standard for main-crop hybrids requiring multiple disease resistance. Highly adaptable from Canada to the South. Medium-sized, globe-shaped fruits are crack resistant and average 7 oz. Semi-determinate.

#00175. (A) pkt. (30 seeds) \$4.85; 3+ pkts. \$4.45 each; (G) 250 seeds \$19.95; 2+ \$18.45 each; 4+ \$16.65 each

### Champion II Hybrid VFFNTA YLCV

62-65 days. Features even more disease resistance than the original Champion Hybrid while maintaining the same delicious flavor and timing. Delivers high yields of meaty, sweet, 6 to 10 oz., bright red fruits that are great on sandwiches and burgers. Indeterminate.

#00180. (A) pkt. (30 seeds) \$6.05; 3+ pkts. \$5.45 each; (G) 250 seeds \$27.95; 2+ \$25.85 each; 4+ \$23.25 each

# Then Try These Hefty Hybrids!

## Charger Hybrid VFFFast YLCV

**76 days.** This excellent variety takes charge of disease resistance – features strong resistance to the dreaded Yellow Leaf Curl Virus. Brilliant red, oblate, 8 to 10 oz., fruits are very firm and smooth shouldered with good flavor that's high in sugar and low in acid. A high yielding salad variety that's perfect for home gardens. Widely adaptable. Plants grow to 24" and spread to 36". Crack resistant. Determinate. #00183. (A) pkt. (10 seeds) \$3.75; 3+ pkts. \$3.25 each

## Defiant Hybrid VFF EB LB

**70 days.** This variety cracks the genetic code to produce the first tomato bred for resistance to the modern strains of Late Blight. High yielding plants produce 6 to 8 oz. globe-shaped fruits that combine disease resistance with great old-fashioned tomato flavor. Determinate. #00213. (A) pkt. (10 seeds) \$6.15; 3+ pkts. \$5.55 each

## Early Choice Black Hybrid FNT

**68-70 days.** A true black variety with flattened, round, 5 to 6 oz. eye-catching tomatoes that grow in clusters. Fruits have a combination of attractive maroon flesh and green gel. Flavor is delicious with the perfect acid to sugar balance. A definite attention-getter at roadside stands and in the garden. Vigorous plants produce heavy yields. Crack resistant. Indeterminate. #00236. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

## Early Girl Hybrid VFF

**57 days.** It's hard to find tasty, full-sized fruits like this extra-early in the season! Meaty, ripe red fruits, 4 to 6 oz., are slightly flattened and bright crimson throughout. Very appealing, with firm texture and blemish-resistant skin. Heavy yields on hardy vines. Indeterminate. #00240. (A) pkt. (30 seeds) \$4.75; 3+ pkts. \$4.35 each; (G) 250 seeds \$19.95; 2+ \$18.45 each; 4+ \$16.65 each

## Fantastic Hybrid VFA

**65 days.** Globe-shaped, scarlet red, 3 to 5", medium-sized fruits are almost crack-free and rich in beefsteak flavor. Heavy yields are excellent for canning. Indeterminate. #00262. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$7.95; 2+ \$7.35 each; 4+ \$6.65 each

FLORIDA 47

HOMESLICE

HEATMASTER

FRIED GREEN

GIANT GARDEN PASTE

## Florida 47 Hybrid VFAS

**75 days.** Home gardeners will love this variety, originally bred for commercial production, for its versatility in using fruits green or vine ripened red. Smooth, uniform fruits are deeply oblate and weigh up to 10 oz. Great for juices, sandwiches, salads and canning. Plants have excellent foliage cover, produce heavy yields and are highly disease resistant. Determinate. #00274. (A) pkt. (10 seeds) \$4.75; 3+ pkts. \$4.35 each

## Fried Green Hybrid

**80 days.** The first variety specifically bred to remain firm when cooked. Versatile fruits average 6 to 7 oz. each, and can be harvested when apple green or yellow. Holds well in the field and on the shelf, so that you can make the most of each harvest. Plants continue to set throughout the season. Indeterminate. #00275. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each

## Giant Garden Paste Hybrid

**95 days.** This delightful variety has the perfect balance of sugary sweetness and tangy acids. Gorgeous large, bright red fruits have a unique ruffled, boat shape and weigh 8 to 10 oz. Solid, meaty flesh has good gel content and is excellent for canning, sauces or eating fresh. Heavy yielder. Crack resistant. Indeterminate. #00296. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each

## Heatmaster Hybrid VFFFNTAS

**75 days.** Bred for hot and humid tropical climates, Heatmaster has the ability to set fruit under higher temperatures than other varieties. Produces exceptional yields of large, 7 oz., firm fruits that have a good shelf life. Fruits are an attractive deep red color and deep oblate in shape. Excellent for fresh eating. Bacterial Wilt resistant. Determinate.

#00348. (A) pkt. (10 seeds) \$4.75; 3+ pkts. \$4.35 each

## Homeslice Hybrid VF

**63 days.** Want picture-perfect slices full of mouth-watering, real tomato flavor? Then grow some of these exceptionally tasty, bright red tomatoes! Vigorous and early, with heavy yields of 5 to 6 oz. fruits. Compact plants grow 18 to 24" tall – perfect for containers or small gardens. Determinate.

#00352. (A) pkt. (15 seeds) \$4.75; 3+ pkts. \$4.35 each

# A Colorful Rainbow Of Varieties

## Husky Red Hybrid VFFAST

**68 days.** The unlimited production potential of an indeterminate and the controlled growth of a determinate combine for season-long production! Attractive fruits typically weigh 5 to 7 oz. Compact plants are only 4 to 4½ ft., with dark green, rugose foliage and strong, thick central stems. Ideal for small spaces, patios, planters and even larger pots. Dwarf indeterminate.

#00367. (A) pkt. (30 seeds) \$5.45; 3+ pkts. \$4.95 each

## Jamestown Hybrid VFFA

**80-85 days.** A main season, beefsteak-type, 8 to 10 oz. tomato with excellent heat set ability. Due to the presence of the crimson gene, large, flattened fruits have higher lycopene and deep red flesh and gel color. Vigorous plants have a high yield potential of quality fruits over a long growing period. Great for home gardens. Highly resistant to Gray Leaf Spot. Determinate.

#00381. (A) pkt. (10 seeds) \$4.25; 3+ pkts. \$3.85 each

## Jet Star VF Hybrid 🔥

**70 days.** Prolific producer of big, globe-shaped fruits that ripen all the way through. Excellent flavor with low acidity. Nice, compact habit. Indeterminate.

#00392. (A) pkt. (30 seeds) \$4.45; 3+ pkts. \$4.05 each; (G) 250 seeds \$16.25; 2+ \$15.05 each; 4+ \$13.55 each

## Jetsetter Hybrid VFFNTAST 🔥

**64 days.** Earlier than Jet Star, with better disease resistance! Jetsetter sacrifices nothing for its early maturity – delivers great real tomato flavor in large, 8 oz. fruits that are smooth, juicy, flattened globes, with consistently huge yields and good disease resistance. Indeterminate.

#00395. (A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each

## La Roma III Hybrid VFFNAST 🔥

**76 days.** An excellent roma tomato known for its vigor and uniformity. Bright red, meaty fruits are large, 5 to 8 oz. and full of flavor. Disease resistant plants are very vigorous and produce fruit abundantly throughout the growing season. The perfect variety for any home gardener who enjoys canning or making their own pastes and sauces. Determinate.

#00422. (A) pkt. (30 seeds) \$5.65; 3+ pkts. \$5.15 each

Visit Our Website at [www.totallytomato.com](http://www.totallytomato.com)

## Lemon Boy Hybrid VFNST

**72 days.** Lemon yellow, not golden, in color. Highly adaptable plants yield large, deep oblate fruits, averaging 6 to 7 oz. and about 3½" across. Out yields all other "golden" tomatoes available. Mild-flavored and adds an inviting color to salads. Indeterminate.

#00427. (A) pkt. (30 seeds) \$4.95; 3+ pkts. \$4.55 each; (G) 250 seeds \$19.95; 2+ \$18.45 each; 4+ \$16.65 each

### Patio Hybrid FAST

70 days. Perfect for container gardening or limited space. Vines are extremely compact, yet produce medium-sized, deep oblate fruits that are smooth, firm and flavorful on plants with rugose leaves. Dwarf determinate.  
#00536. (A) pkt. (30 seeds) \$4.65; 3+ pkts. \$4.25 each;  
(G) 250 seeds \$19.25; 2+ \$17.80 each; 4+ \$16.00 each

### Plum Regal Hybrid VFF TSWV EB LB

80 days. Another highly prized variety bred by Randy Gardener, who also developed the popular Mountain Series (pg. 20). High yields of large, 3 to 4 oz. fruit, with bright red color inside and out. An excellent choice for sauces. Very small blossom end scars. Plants have heavy foliage cover. Offers a broad range of disease resistance including Gray Wall and cracking. Determinate.

#00573. (A) pkt. (10 seeds) \$4.45; 3+ pkts. \$4.05 each

### Totem Improved Hybrid

70 days. More fruit than foliage, compact and perfect for patios or window boxes. Just 18 to 30" tall, with small to medium, round, red, flavorful fruits produced in abundance – up to 10 lbs. per plant! Great for indoor gardens too, with its attractive dark green foliage. No staking is required. Determinate.

#00777. (A) pkt. (15 seeds) \$4.75; 3+ pkts. \$4.35 each

## Super Series – Totally Delicious!

### HEIRLOOM MARRIAGE™ HYBRID SERIES

These varieties are produced from modern day unions of heirloom parents, providing hybrid vigor while maintaining the virtue and integrity of their old-fashioned beginnings. They were bred for improved yield, earlier maturity, fewer blemishes and the same old-time flavor we've all come to love. All are indeterminate.

#### Big Brandy

75-80 days. Pink beefsteak-type – a cross of Big Dwarf and Brandywine. 12 to 15 oz. #00077.

#### Cherokee Carbon

75-80 days. Purple beefsteak fruits, 10 to 12 oz., are full of rich flavor. A cross of Cherokee Purple and Carbon. #00172.

Prices, above 4, per variety: (A) pkt. (15 seeds) \$4.45; 3+ pkts. \$4.05 each

### INDIGO™ SERIES

These uniquely colored tomatoes are all high in anthocyanin (a powerful antioxidant with disease fighting properties) – making them among the healthiest tomatoes in the world and is also what causes the blue pigment.

Allow fruits to fully mature for best flavor.

#### Apple

70-75 days. A cross between Indigo Rose and a red cherry tomato. The unripe green fruit, 2 to 4 oz., will show lots of purple, which is brought on by sunlight, but will eventually turn almost a true black. Excellent sweet tomato flavor. Indeterminate. #00365.

#### Blue Beauty

80 days. A cross between Beauty King and a blue tomato. Meaty pink, 4 to 8 oz., beefsteak fruits, with lovely dark, blue-black shoulders. Holds well on the vine for extended periods. Sunburn and crack resistant. Very good flavor. Indeterminate. #00366.

#### Blue Berries

75 days. An eye-catching cherry tomato which ripens from amethyst purple to a stunning, almost black, with a brick red bottom. Flavor is great and is an all around crowd pleaser. Indeterminate. #00374.

#### Cherry Drops

65 days. (PVP) This stunning cocktail cherry, with excellent sweet flavor, may just be the best-tasting Indigo yet! Round, 1" fruits have indigo shoulders with rosy undersides and deep red flesh. Expect huge yields – potentially 500 to 1,000 fruits per plant under ideal growing conditions! Indeterminate. #00364.

## LITTLE HYBRID SERIES

Compact plants have a tidy habit and healthy green foliage. At less than 24" tall, they flourish in containers, stay a manageable size and produce lots of tomatoes in a period of a few weeks for a large harvest. Fruits are delicious fresh or in your favorite recipes. Small trellises can be used if needed.

Both are determinate.

Prices, above 2, per variety: (A) pkt. (15 seeds) \$4.45; 3+ pkts. \$4.05 each

## OUR FAMOUS MOUNTAIN HYBRID SERIES

Working at NC State University's Mountain Crops Research Station, Randy Gardner, Ph.D., developed a family of exceptional fresh market varieties particularly well-adapted to the Southeast. While bred especially for mountain regions and higher elevations, nationwide trials have suggested that the series is well adapted everywhere!

Ideal for the home garden or fresh market.

### Delight VFF

**70 days.** Similar to Mountain Fresh Plus and Mountain Spring, but plants are more compact with slightly higher yields. Fruits weigh 10 oz. and packed with flavor. Determinate.

#00487. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$10.50; 2+ \$9.70 each; 4+ \$8.70 each

### Fresh Plus VFFN EB

**79 days.** Smooth, clean fruits often exceeding 3½", are 10 to 12 oz., have uniform color and great flavor. Produces good yields. Smooth blossom scar. Determinate.

#00490. (A) pkt. (30 seeds) \$6.45; 3+ pkts. \$5.85 each; (G) 250 seeds \$24.95; 2+ \$23.05 each; 4+ \$20.75 each

### Gem VFF TSWV LB

**74 days.** Crimson red, deliciously sweet flesh has a balanced sugar to acid flavor. Deep oblate to flattened globe-shaped, firm, 6 to 8 oz. fruits have clean blossom ends. Vigorous plants yield high concentrated sets of excellent quality fruit. Ideal for home gardens and container gardening. Highly resistant to Tomato Mosaic Virus. Determinate.

#00489. (A) pkt. (10 seeds) \$4.45; 3+ pkts. \$4.05 each

### Magic VFF LB

**72-75 days.** Heirloom qualities meet modern day disease resistance in a supersweet, Campari-type tomato. Heavy producer of round, to deep round, 2 oz. fruits that are uniformly red inside and out with a long shelf life. Tolerant to Early Blight and highly resistant to Late Blight – both huge threats to tomatoes. Indeterminate.

#00495. (A) pkt. (10 seeds) \$6.45; 3+ pkts. \$5.85 each

### Majesty VFF TSWV

**78 days.** Good yields of high quality, deep oblate to flattened globe-shaped, extra large fruits have the ability to stay firm when fully ripe. If you love the other varieties in this series, you will definitely want to include this deep red beauty in your garden. Vigorous plants offer heavy foliage to protect fruits.

Includes intermediate resistance to Tomato Spotted Wilt Virus. Good crack resistance. Determinate.

#00494. (A) pkt. (10 seeds) \$5.25; 3+ pkts. \$4.75 each

### Bing VFF

**60-65 days.** Bright red, 1" cherry fruits. #00435.

### Napoli VF

**60-65 days.** Bright red, pear shaped, 2 to 2½ oz., roma fruits are meaty and full of flavor. Harvest enough at one time for a batch of your favorite sauce or some delicious homemade salsa. #00441.

Prices, above 2, per variety: (A) pkt. (15 seeds) \$4.45; 3+ pkts. \$4.05 each

### Merit VFFFN TSWV EB LB

**75 days.** 2014 AAS Winner. A praise-worthy variety offering multiple resistances not typically combined in most varieties. Deep red, 8 to 10 oz. fruits are firm, oblate to flattened, with generally smooth blossom end scars – delicious and makes the perfect slicing tomato. A fresh market variety with excellent resistance to cracking. Determinate.

#00497. (A) pkt. (10 seeds) \$4.45; 3+ pkts. \$4.05 each

### Pride VFASt BS

**70 days.** The first in the Mountain series with 6 oz. fruits that are crack resistant, jointed and green shouldered. Plants are vigorous and uniform. Determinate.

#00496. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each; (D) 1/32 oz. \$6.95; 2+ \$6.45 each; 4+ \$5.85 each

### Rouge VFN LB

**73 days.** 2019 AAS Winner. This pink beauty, just like its sister varieties, has a very good disease package. Gardeners will enjoy a generous harvest of large, beefsteak-type tomatoes weighing a hefty 12 to 14 oz. each. Fruits have thick flesh with minimal seeds and a delicious flavor with just the right balance of acid and sugar. Performs especially well in cooler climates. Indeterminate.

#00498. (A) pkt. (10 seeds) \$6.15; 3+ pkts. \$5.55 each

### Spring VFF

**72 days.** Appreciated for its superb, 8 to 10 oz. fruits with good firmness that are particularly resistant to cracking and Blossom End-Rot. Determinate.

#00500. (A) pkt. (30 seeds) \$4.95; 3+ pkts. \$4.55 each; (G) 250 seeds \$22.25; 2+ \$20.60 each; 4+ \$18.50 each

### Vineyard FFF TSWV

**76 days.** The first of its kind – this grape tomato contains the crimson gene for high lycopene. Mature fruits are glossy dark red, firm with appealing red gel and a balanced sweet flavor. Compact vines have short internodes making fruits easier to harvest. Early heavy pruning recommended. Crack resistant. Indeterminate.

#00502. (A) pkt. (10 seeds) \$5.95; 3+ pkts. \$5.45 each

MOUNTAIN SPRING

MOUNTAIN PRIDE

MOUNTAIN ROUGE

## WILD BOAR SERIES

An introduction from Brad Gates, a small organic farmer, tomato breeder and grower of heirlooms since 2000. Mr. Gates, owner of Wild Boar Farms, has bred numerous tomatoes, hand picking his varieties based on flavor from over 1,000 heirlooms, crosses and hybrids. His main focus is on bicolor and striped fruits with extreme flavor and fascinating looks. Performs exceptionally well for home and market gardeners – even in areas with challenging climates. Several varieties were featured in the July/August 2013 issue of Martha Stewart Living magazine. These are sure to be some of the prettiest, tastiest and most unique tomatoes you'll ever grow and eat! All are indeterminate.

### **Beauty King**

**75-90 days.** Possibly one of the best looking and tasting, red and yellow bicolor striped tomatoes you'll ever try! Very sweet fruits can grow up to 20 oz. each and have meaty yellow flesh with bright red streaks. A cross between Big Rainbow and Green Zebra. #00820.

### **Janet's Jewel**

**90 days.** Large, bright orange striped, beefsteak fruits – many weighing over 1 lb. each! Very meaty and sweet tasting with fruity undertones. Late but worth the wait. #00819.

### **Large Barred Boar**

**65-75 days.** Unique pinkish brown tomatoes with metallic green stripes, weigh 8 to 12 oz. Flattened beefsteak fruits are very meaty and extremely flavorful. #00809.

### **Mint Julep**

**75 days.** Also known as Michael Pollan. Unique plum/pear shaped, 1½ oz. fruits have a pleasant tomato taste with a nice overall sweet flavor that is less tart than other green varieties. Extremely high yields with one plant often producing as much as 5 gallons of fruit! #00810.

### **Pineapple Pig**

**75 days.** Large, creamy yellow bicolor striped with rose blush. Meaty fruits grow up to 1 lb. each and are low in acid with sweet flavor. You might try it for the name, but the flavor will keep you coming back. #00817.

### **Pink Berkeley Tie-Dye**

**65-75 days.** Large beefsteak fruits are the color of port wine with metallic green stripes and weigh 8 to 12 oz. Its excellent sweet flavor was put to the test against Cherokee Purple in farmers markets taste tests and was preferred every time. #00811.

### **Solar Flare**

**75 days.** Strikingly gorgeous red fruits are 6 to 10 oz. beefsteaks with gold stripes. Luscious and meaty with a slightly sweet full tomato flavor. Good Scab resistance. #00814.

### **Sweet Carnernos Pink**

**65 days.** Beautiful rose and gold striped, 2 to 4 oz. round fruits have a deliciously sweet, slightly tangy gourmet flavor. High yields and crack-resistant. #00816.

Prices, above 8, per variety:  
(A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each

## Large Open-Pollinated Tomatoes...

Varieties on pages 21-27  
typically grow fruits  
10 oz. and larger

### **Abraham Lincoln Original** 🔥

**87 days.** Beautiful dark red fruits are sweet, solid and meaty. Fruits are smooth, free from cracks and seams, and – although large – ripen all the way through. Ideal for ketchup, juice or slicing. Indeterminate.

#00014. (A) pkt. (20 seeds) \$2.95; 3+ pkts. \$2.75 each; (D) 1/32 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each

### **Amana Orange**

**90 days.** Discovered by a gardener in Florida and named after a town he was fond of. Features large, up to 5" in diameter, mild beefsteak fruits of a distinctive orange color. Indeterminate.

#00026. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each; (D) 1/32 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each

### **Ananas Noire**

**85 days.** Also known as Black Pineapple. Large, dark-purple fruits averaging up to 1½ lbs. have a distinctive, streaked interior of pink, red, green and yellow. Green-shouldered fruits deliver a complex, hearty tomato taste that's both sweet and rich, with smoky and acidic undertones. Makes a great tomato sauce! Needs space – regular leaf plants are large and sprawling, but earn their keep with heavy yields. Indeterminate.

#00031. (A) pkt. (30 seeds) \$3.15;  
3+ pkts. \$2.85 each

ANNA RUSSIAN

ARTISAN™ ORANGE JAZZ

AUNT RUBY'S GERMAN GREEN

BEEFSTEAK

BLACK FROM TULA

BLACK KRIM

### Anna Russian

**65-70 days.** This luscious heirloom was reported to have been brought to Oregon by a Russian immigrant generations ago. Pinkish-red, heart-shaped fruits are large, early and juicy with outstanding flavor and weigh up to 1 lb. Wispy foliage on hardy vines. Indeterminate.  
**#00037. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each;**  
**(D) 1/32 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each**

### Artisan™ Orange Jazz

**85 days.** A large variety from the Artisan Series (pg. 33) with outstanding flavor and just a hint of fresh peach sweetness! Unique, orange beefsteak-type, 10 to 16 oz. fruits are brushed with yellow stripes. Vigorous vines produce heavy yields.

**#00054. (A) pkt. (20 seeds) \$4.05; 3+ pkts. \$3.65 each**

### Aunt Ruby's German Green LB

**80 days.** Heirloom beefsteak with a deliciously sweet flavor enhanced by a spicy undertone. Globe-shaped, 12 to 16 oz. fruits have light green, smooth skins at maturity and just a hint of yellow. Flesh is green blushed with pink, meaty and flavorful. Makes interesting juice! Indeterminate.

**#00043. (A) pkt. (30 seeds) \$3.05; 3+ pkts. \$2.75 each;**  
**(D) 1/32 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each**

### Beefsteak

**80 days.** Large, flattened, solid, meaty, juicy, brilliantly red fruits are slightly ribbed and weigh up to 2 lbs. each. An excellent slicer, with a rich, sub-acid flavor. Indeterminate.

**#00065. (A) pkt. (50 seeds) \$2.95; 3+ pkts. \$2.75 each;**  
**(F) 1/16 oz. \$5.50; 2+ \$5.05 each; 4+ \$4.55 each**

### Black From Tula

**80-85 days.** A robust Russian heirloom and one of the largest of the dramatic blacks with dark, greenish-black shoulders on dark, brownish-red, slightly flattened fruits that grow 3 to 5" in diameter. Full-flavored, chocolate-brown flesh, with green gel, is rich and satisfying. Performs well in dry conditions. Indeterminate.

**#00094. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each;**  
**(D) 1/32 oz. \$6.75; 2+ \$6.20 each; 4+ \$5.60 each**

### Black Krim LB

**69 days.** A most unusual novelty. Fruits, 8 to 12 oz., are a dark, deep red (almost a shiny black) with heavy green shoulders. Interior is a deep, reddish-green color. Sweet and tasty. Matures extremely early. Indeterminate.

**#00095. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each;**  
**(D) 1/32 oz. \$5.95; 2+ \$5.50 each; 4+ \$4.90 each**

### Brandywine Yellow

**90-100 days.** A prolific yielder whose novel black, up to 1 lb. fruits are well-formed, oval shaped, with real tomato taste on potato leaf plants. Indeterminate. **#00091.**

### Box Car Willie

**80 days.** We predict this old-timer might become your main crop variety. Prolific yields of smooth, reddish-orange fruits average 10 to 16 oz. each. With an old-fashioned flavor you'll remember from childhood, these high-yielding, multi-use tomatoes will last throughout the season and are ideal for canning, freezing or for home-cooked meals. Crack resistant. Indeterminate.

**#00103. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each;**  
**(D) 1/32 oz. \$6.95; 2+ \$6.45 each; 4+ \$5.85 each**

### Brandywine EB LB

**90-100 days.** Heirloom dating back to the 1880's. Potato leaf plants with good yields of extra-large, up to 1½ lbs., clear-skinned, light rosy-pink fruit. Considered one of the world's best-flavored tomatoes. Indeterminate. **#00112.**

### Brandywine, Black

**90-100 days.** A prolific yielder whose novel black, up to 1 lb. fruits are well-formed, oval shaped, with real tomato taste on potato leaf plants. Indeterminate. **#00091.**

### Brandywine, Orange

**80 days.** The latest member of our Brandywine family and some say the best pure orange beefsteak available. Potato leaf plants produce enormous yields of meaty 1 lb. fruits that have a superb flavor and a nice smooth texture. Enjoy fresh, in salads, salsas and more. Indeterminate. **#00109.**

### Brandywine, Red

**90-100 days.** Pennsylvania Amish heirloom dating to 1885. Delicious, scarlet-red fruits weigh up to 2 lbs. Regular leaved plants. Indeterminate. **#00600.**

### Brandywine, Yellow

**90-100 days.** Prolific yields of golden-yellow, flattened, semi-irregular, up to 2 lb. fruits. Potato leaf. Indeterminate. **#00830.**

Prices, above 5, per variety:

BRANDYWINE YELLOW

BRANDYWINE RED

BRANDYWINE ORANGE

BRANDYWINE

BRANDYWINE BLACK

BOX CAR WILLIE

## **Carbon**

**80 days.** Rich, complex flavors made this variety the winner of heirloom tomato taste tests at Cornell University. One of the darkest black tomatoes we offer. Produces large, 10 to 12 oz. crack resistant fruits – similar to Cherokee Purple. Excellent for salads and sandwiches. Indeterminate. #00155. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.65 each

## **Caspian Pink**

**80 days.** The first tomato to beat Brandywine in taste tests! We all love Brandywine, generally considered to be the world's finest flavored tomato, but in California trials, heirloom Caspian Pink beat Brandywine for several years! Originally grown in Russia in the area between the Caspian and Black Seas. Fruits average 12 oz. Indeterminate.

#00170. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$5.95; 2+ \$5.50 each; 4+ \$4.90 each

## **Cherokee Purple**

**80-90 days.** A reliable producer of unusual, medium pink-purple fruits that appear brown in color and average 10 to 12 oz. each. Fruits are round to oblate with no cracking. Tolerant to mild drought. Indeterminate.

#00188. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each; (D) 1/32 oz. \$10.95; 2+ \$10.15 each; 4+ \$9.15 each

## **Climbing Trip-L-Crop (Italian Tree)**

**85 days.** Enormous yielder – produces 2 to 3 bushels! Red, meaty fruits measure up to 6" across and are great for canning. Vigorous, potato leaf vines grow up to 25 ft. and should be trellised. Indeterminate.

#00380. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.65 each; (F) 1/16 oz. \$5.95; 2+ \$5.50 each; 4+ \$4.90 each

## **Comstock Sauce and Slice**

**80-85 days.** An Italian variety originally introduced in the early 1980's. Beautiful, meaty, deep-red, roma shaped fruits weigh up to 1 lb. and have very few seeds. A dual-purpose variety excellent for canning, pastes, sauces and fresh eating. Indeterminate.

#00202. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.65 each

## **Cuore de Toro (Bull's Heart)**

**89 days.** This Italian heirloom, a huge pink Oxheart-type, weighs in at a gigantic 2 lbs. or more! Abundant 4" fruits on vigorous plants are a colorful pinkish-red with a wonderful sweet flavor. Indeterminate.

#00209. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each; (D) 1/32 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each

10 pkts. for just \$27.95

### Fireworks

**60 days.** Exploding with a sweet, but well-balanced flavor and one of the largest super-early, slicing varieties we offer. Plants produce high yields of 8 to 12 oz. bright red, slightly flattened, 2 to 3" meaty fruits. Excellent for salads and sandwiches. Indeterminate.  
**#00258. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each**

### Georgia Streak

**90 days.** Lovely bicolor fruits are rich gold blushed with a delicate pink. As if that wasn't enough, the real surprise is inside – the firm flesh is streaked with red! Large, globe-shaped fruits weigh 1 to 2 lbs. and have a sweet, yet hearty flavor. Indeterminate.  
**#00280. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each; (D) 1/32 oz. \$6.95; 2+ \$6.45 each; 4+ \$5.85 each**

### German Head

**80-90 days.** An old-time favorite with large, beefsteak-type, dark pink, crack-free fruits that have a delicious flavor and weigh 1 to 2 lbs. A nice fresh market variety. Excellent yielder. Indeterminate.  
**#00283. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each; (D) 1/32 oz. \$6.95; 2+ \$6.45 each; 4+ \$5.85 each**

### German Johnson Pink

**80 days.** A potato leaf version of the heirloom German Johnson. Vigorous vines produce mildly-flavored, meaty, rough, 12 to 24 oz. fruits with pink skin, yellow shoulders and low acid flavor. May contain a small percentage of regular leaf plants. Highly rated for flavor and yield. Indeterminate.

**#00289. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each; (D) 1/32 oz. \$6.95; 2+ \$6.45 each; 4+ \$5.85 each**

### Giant Belgium

**82-90 days.** One of our most popular heirlooms. Huge, sweet fruits average 1 to 2 lbs. and have weighed in at nearly 5 lbs.! Dark pink fruits have smooth blossom ends and a low acid, mild flavor, so sweet that some growers use them to make wine. Solid meat and size means one slice per sandwich! Indeterminate.

**#00299. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each; (D) 1/32 oz. \$6.95; 2+ \$6.45 each; 4+ \$5.85 each**

### Granny Cantrell's

**85 days.** Original seeds were given to Lettie Cantrell from a World War II soldier returning home from Germany. Beefsteak-type fruits weigh up to 2 lbs. and are slightly flattened. Delicious for fresh eating, cooking and canning. The perfect one-slicer for sandwiches and burgers. Won a Best of Taste award in 2006. Heavy yields. Indeterminate.

**#00327. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each**

### Tomato Greenhouse

Get the most from tomato plants with their own red mini-greenhouses – color enhances tomato growth up to 20%. Allows air circulation and heat retention for faster growing tomatoes while protecting against damaging weather and pests. Fits over most tomato cages or can be attached to stakes. Made of perforated plastic film with UV stabilizers added for longer life. Each package will cover 5 to 7 plants.

**#52988. 28" W x 20'L, \$11.95 each  
#52989. 38" W x 20'L, \$14.95 each**

GREAT WHITE

HENDERSON'S PINK PONDEROSA

HILLBILLY

### Great White

**80 days.** A magnificent, almost perfect white tomato with low acidity and few seeds. Good drought and crack tolerance. Fruits are protected under vigorous, heavy foliage. Indeterminate.  
**#00323. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.65 each; (D) 1/32 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each**

### Henderson's Pink Ponderosa

**80 days.** First introduced in 1891 by Peter Henderson & Company who claimed it to be their most popular tomato ever and remains a home gardener's favorite today! Extra large, pink, beefsteak-type fruits weigh one pound or more – some often weighing as much as 2 lbs.! Rich and meaty flesh is thick and delicious. Great for slicing and canning. Indeterminate.

**#00358. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.65 each**

### Hillbilly

**85 days.** This heirloom hails from the hills of West Virginia, where they know a superb tomato when they see one! Huge, mildly-flavored, beefsteak-type fruits weigh 1 to 2 lbs. each, are low in acid and a most unusual orange-yellow, streaked and mottled in shades of red and pink. Regular potato leaf variety. Indeterminate.  
**#00347. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each; (F) 1/16 oz. \$7.95; 2+ \$7.35 each; 4+ \$6.65 each**

### Italian Giant Beefsteak

**83-85 days.** This blockbuster of a beefsteak was brought over from Italy in the early 1900's and still rules the garden for sheer size, with some fruits growing larger than two fists! Deep red, flattened fruits average 1 lb. and are 4" in diameter – meaty and delicious, yield after impressive yield. Indeterminate.

**#00373. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each; (D) 1/32 oz. \$8.95; 2+ \$8.25 each; 4+ \$7.45 each**

## Greenhouses

### Extra Wide 4-Tier Growhouse

Similar to the 4-Tier Mini Greenhouse (pg. 10), except it's a little wider with a heavy-duty, reinforced cover. The rugged, steel frame assembles without tools in just minutes. The green plastic cover, with full length, roll-up zippered front panel, retains solar energy, yet easily allows access to plants. Overall size is 3'11"W x 18"D x 5'3"H. #52963. Was \$98.95 Now \$89.95

### SunBlaster™ Nanodome Mini Greenhouse

Custom kit includes everything you need to start seedlings, propagate fresh cuttings or grow fresh herbs all year long! The high dome incorporates light tracks engineered to receive lighting bi-directionally. Includes 7" Nanodome with vents (for optimum temperature and humidity control), 1020 double thick tray and a SunBlaster™ 18" T5 light.  
**#52942. \$59.95 each**

# Heirlooms... All-Around Goodness!

## Kellogg's Breakfast

**80-85 days.** Lovely, pale-orange fruits are solid and meaty throughout, packed with mild, superb tasting flesh. A long-season producer of large, beefsteak-type fruits, up to 1 lb. with solid centers that have just a few seeds at the edges. Very desirable! Indeterminate.

#00415. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each;  
(D) 1/32 oz. \$6.95; 2+ \$6.45 each; 4+ \$5.85 each

## Kentucky Beefsteak

**115 days.** An old heirloom from the hills of its namesake, eastern Kentucky. Like most beefsteaks, the fruits are enormous, often weighing as much as 2 lbs. and lack much of the roughness usually associated with heirloom beefsteak-types. Fruits are actually quite attractive – globe to oval-shaped and a beautiful deep orange in color. Indeterminate.

#00418. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each;  
(F) 1/16 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each

## Lillian's Yellow Heirloom

**95-98 days.** Magnificent clear-yellow, globe-shaped, beefsteak-type fruits weigh up to 1 lb. each. Mild flesh is so rich in flavor, it actually has a creamy taste on the tongue. Vigorous, potato-leaved plants are unique in such a large-fruited, yellow variety and provide cover for heavy yields. Local heirloom from Manchester, Tennessee. Indeterminate.

#00436. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each;  
(D) 1/32 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each

## Missouri Pink Love Apple

**75-85 days.** This heirloom has been grown since the Civil war by Grandpa Barnes who grew it as an ornamental, believing (as many people did at the time) that tomatoes or "love apples" were poisonous. Big, pink beefsteak-type, 3" fruits are slightly sweet with a juicy, meaty texture. Potato-leaved plants are heavy yielders. Indeterminate.

#00476. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

## "TOP 12" COLLECTION

One packet each of our 12 largest red tomatoes in descending order –

Big Zac (pg. 12), Delicious (pg. 23),  
Kentucky Beefsteak,  
Beefmaster (pg. 12), Beefsteak  
(pg. 22), Oxheart Giant (pg. 26),  
Goliath (pg. 8), Burpee's Big Boy  
(pg. 12), Park's Whopper Improved  
(pg. 14), Abraham Lincoln Original  
(pg. 21), Country Taste  
(pg. 14) & Brandywine (pg. 22).  
#00892(X).

12 pkts. for just \$33.95

## Mortgage Lifter

**75-85 days.** Also called Radiator Charlie. Long-time favorite with good yields of very large, 1 to 2 lb., smooth, pink-skinned fruits even in droughts. Very meaty fruits with few seeds, much like Giant Belgium (pg. 24), but not quite as large. Very mild, delectable, sweet flavor. Indeterminate.

#00481. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each;  
(D) 1/32 oz. \$6.95; 2+ \$6.45 each; 4+ \$5.85 each

KELLOGG'S BREAKFAST

## Mr. Stripey

**80 days.** Red and yellow-striped heirloom variety that adds color to any gourmet salad bar. Large, ridge-shouldered fruits weigh up to 2 lbs., are mildly-flavored and low in acid. Indeterminate.

#00506. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each;

(D) 1/32 oz. \$7.45; 2+ \$6.95 each; 4+ \$6.25 each

KENTUCKY BEEFSTEAK

## Mrs. Maxwell's Big Italian

**80 days.** Given seed by a friend from Italy, Mrs. Maxwell grew and saved them year after year selecting the largest, earliest and most crack resistant – the results are this heirloom beauty! Vigorous potato-leaved plants produce 1 to 2 lb., dark pink beefsteak fruits with incredible flavor. Excellent for using fresh or for canning. Indeterminate.

#00505. (A) pkt. (20 seeds) \$3.35; 3+ pkts. \$3.05 each

LILLIAN'S YELLOW  
HEIRLOOM

## Mushroom Basket

**75 days.** Eye-catching beauties, these 8 to 16 oz. watermelon-pink tomatoes will grab lots of attention in the garden. Uniquely pleated fruits are firm, have few seeds and a deliciously sweet flavor. No matter how you slice it, it's terrific in any dish. Heavy yielder. Indeterminate.

#00504. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.65 each

MISSOURI PINK  
LOVE APPLE

## Old German

**75 days.** An heirloom originally grown by the Mennonite community of Virginia and one of the best-ever varieties for slicing. Huge fruits have an unusual boat shape and weigh 1 1/2 to 2 lbs. each. Indeterminate.

#00519. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each

OMAR'S LEBANESE

## Omar's Lebanese

**80 days.** Monster tomatoes, 1 to 2 lbs., from a Lebanese hill town – luscious and incredible!

Delicious, 5" pink fruits are huge, meaty and somewhat irregularly shaped, rich, sweet and juicy. A favorite of American tomato aficionados because of its excellent yield and superb flavor. High yielder. Indeterminate.

#00524. (A) pkt.  
(30 seeds) \$2.85;  
3+ pkts. \$2.65 each

MORTGAGE LIFTER

MR. STRIPEY

OLD GERMAN

MUSHROOM BASKET

MRS. MAXWELL'S BIG ITALIAN

# Genuine Classic Flavor ...

## Orange Strawberry

**80 days.** Lovely, heart-shaped fruits have pointed tips and are almost blemish-free. Strong, sweet taste in juicy fruits that are a vibrant, deep orange when mature and average 8 oz. to 1 lb. Don't be fooled by the wispy leaves – plants are very vigorous and high yielding. Indeterminate.

#00529. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each

ORANGE STRAWBERRY

## Oxheart, Giant

**90 days.** This well-named giant produces large, 12 oz. to 2 lbs., firm, meaty, heart-shaped, pink fruits with thick walls, few seeds and a mild flavor. Vigorous vines produce high yields of fruits that mature late but are well worth the wait! Indeterminate.

#00300. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.65 each; (F) 1/16 oz. \$5.95; 2+ \$5.50 each; 4+ \$4.90 each

OXHEART, GIANT

## Oxheart, Orange

**80 days.** Strong vines yield numerous large, 3", vibrant golden orange heart-shaped, 10 to 12 oz. fruits. Meaty, with a delicious, well-balanced flavor and tremendous eye appeal. Indeterminate.

#00527. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.65 each; (D) 1/32 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each

OXHEART, ORANGE

## Paul Robeson

**80-90 days.** A Russian heirloom that continues to be a favorite in taste test competitions! Brick red, 8 to 12 oz. fruits have dark green shoulders and red flesh. Flavor is exceptional with a nice balance of sweetness and acidity. Named in honor of Paul Robeson, the famous opera singer and civil rights activist. Indeterminate.

#00540. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

PAUL ROBESON

## Persimmon

**80 days.** Great flavor and eye appeal! Large, plump, golden-orange fruits average 1 to 2 lbs. – meaty, with luscious flavor and only a few seeds. Vigorous plants produce good yields. Indeterminate.

#00542. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.65 each; (D) 1/32 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each

PERSIMMON

PINEAPPLE

PONDEROSA PINK

## Pineapple

**85-90 days.** Enormous, uniquely-patterned, yellow-red striped fruits will be the center of attention. Beefsteak-type fruits easily grow 5" and larger, are orange-yellow with red streaks and no green shoulders. Meaty flesh has a nice mild flavor. Heavy-foliaged plants produce good yields. Indeterminate.

#00553. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each; (D) 1/32 oz. \$6.95; 2+ \$6.45 each; 4+ \$5.85 each

## Ponderosa Pink

**80 days.** Extra-large, up to 1 lb., beefsteak-type fruits are like Ponderosa Red, but rosy-pink. Almost seedless, with low acidity and meaty flesh. Indeterminate.

#00577. (A) pkt. (50 seeds) \$2.95; 3+ pkts. \$2.75 each; (F) 1/16 oz. \$5.75; 2+ \$5.30 each; 4+ \$4.80 each

## Ponderosa Red

**80 days.** This old-time favorite is an extra-large, up to 1 lb., beefsteak-type with mild flavor. Almost seedless, with low acid, solid, meaty, deep red flesh. Vigorous vines produce heavily. Indeterminate.

#00580. (A) pkt. (50 seeds) \$2.85; 3+ pkts. \$2.65 each; (F) 1/16 oz. \$5.75; 2+ \$5.30 each; 4+ \$4.80 each

## Pruden's Purple

**75 days.** Large, 10 oz. to 1 lb., dark pink, nearly purple fruits mature quite early, with the delicious flavor and good production that heirlooms are known for. Potato-leaved vines. Indeterminate.

#00592. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.65 each; (D) 1/32 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each

## Rainbow (Big Rainbow) LB

**80-85 days.** Very large, orange fruits, with red spots or streaks, grow up to 4½" in diameter and weigh up to 2 lbs. Firm, meaty flesh with low acidity, has a delicious flavor and is ideal in a variety of dishes or eaten plain. Indeterminate.

#00595. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.65 each; (D) 1/32 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each

## Rainbow Beefsteak Blend

**77-115 days.** This eye-catching mix of colorful tomatoes has continued to impress our customers the same, if not more, as our

Gourmet Rainbow Pepper Blend (pg. 42). Blend contains a full spectrum of pink, red, yellow, green, black and orange varieties, with fruits ranging from 12 oz. to 3 lbs. Indeterminate.

#00596. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each

RONDEROSA RED

PRUDEN'S PURPLE

# With Timeless Appeal!

## Rose

**75-80 days.** An Amish heirloom from Pennsylvania. Large, crack resistant, 10 oz. fruits are meaty and dusty rose colored. Flavor is excellent, and is considered by some to rival Brandywine (pg. 22). Plants are vigorous and strong with good leaf cover. Indeterminate.

#00620. (A) pkt. (20 seeds) \$3.10; 3+ pkts. \$2.80 each

## Soldacki

**75 days.** Poland sends us this heirloom variety, memorable for its low acid and intensely sweet flavor. Dark pink fruits, flattened in shape, weigh about 1 lb. and are packed with firm flesh inside thin skins. Indeterminate.

#00663. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each; (D) 1/32 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each

## Striped German

**80 days.** Considered by many to be one of the most popular bicolored beefsteak tomatoes ever grown! Large 12 to 16 oz. fruits – some weighing in at almost 2 lbs.! – are slightly ribbed and yellow with red marbling inside and out. Meaty fruits have a complex tropical flavor and an excellent smooth texture. A delicious beauty when sliced and also makes a great canning tomato. Heavy yielder. Indeterminate.

#00672. (A) pkt. (30 seeds) \$3.05; 3+ pkts. \$2.75 each

## Tasmanian Chocolate

**70 days.** A unique dwarf variety. Sturdy, 2 to 3 ft. plants, with dark green rugose foliage, produce large, 8 to 12 oz., beefsteak-type fruits that ripen to a beautiful mahogany red. Full of delicious balanced flavor and perfect for eating fresh or cooked. A cross between New Big Dwarf and Paul Robeson. Great for small spaces and containers. Dwarf determinate.

#00752. (A) pkt. (15 seeds) \$3.95; 3+ pkts. \$3.65 each

## Tasty Pink Beefsteak

**75 days.** 2021's Free Trial! Delicious, dark pink fruits are meaty with a mild, but tasty, classic fresh tomato flavor. Fruits average 16 to 20 oz. but can weigh up to 3 lbs. and have thin skins.

Vigorous plants produce heavy yields. Indeterminate.

#00750. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each

# Garden Helper

## Weedcomb

This customer favorite effortlessly combs out weeds! Grabs weeds and grass by the crown and pulls them out. Weeds get stuck in the teeth so you remove and clean up with one action. Aerates the soil at the same time to promote root growth and water penetration.

The comfortable, ergonomic handle features a softer, more comfortable foam and a thumb screw tightening design so an extension handle can be added. Made of steel and plated with rust-resistant zinc for a lifetime of use. Measures 14" long.  
#53093. \$19.95 each

## Virginia Sweets

**80 days.** This bicolor heirloom is sure to become one of our most popular varieties. Enormous 1 lb. dark yellow, beefsteak-type fruits, with red stripes are stunningly beautiful. Full of rich, super sweet flavor with just the right amount of acid. Perfect for salads, slicing and cooking. Heavy yields. Indeterminate. #00801. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

AMISH PASTE

ARKANSAS TRAVELER

BLACK SEA MAN

BONNY BEST

BUSH BEEFSTEAK

CAMPBELL'S 33

## Amish Paste

**74 days.** Dates back to the turn of the century and is the best for sauces and canning. Deep red fruits, about 8 oz., are large for canning types with real tomato flavor. Not overly acidic. Indeterminate.

#00029. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.65 each; (D) 1/32 oz. \$5.95; 2+ \$5.50 each; 4+ \$4.90 each

## Arkansas Traveler

**90 days.** Bred at the University of Arkansas by Joe McFerran as an updated version of this region's famously high quality pink tomatoes. Fruits are rough, medium-sized, about 6 oz., with an excellent, creamy, mild flavor. Highly adaptable. Indeterminate. #00040. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (F) 1/16 oz. \$5.95; 2+ \$5.50 each; 4+ \$4.90 each

## Black Sea Man

**75 days.** A hardy Russian heirloom that looks oddly attractive but tastes delicious. Rich, tangy tomato flavor in medium-sized, up to 8 oz. fruits, with brown-black skins and pink shoulders. Fruits are slightly plum-shaped, revealing skeleton-like veins when blanched and peeled. Short, potato leaf plants. Determinate.

#00089. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

## Bonny Best

**72 days.** An old-time favorite producing 8 to 10 oz. globed-shaped fruits that are solid and meaty. Highly adaptable and performs especially well in the North. Indeterminate.

#00100. (A) pkt. (50 seeds) \$2.85; 3+ pkts. \$2.65 each; (F) 1/16 oz. \$5.50; 2+ \$5.05 each; 4+ \$4.55 each

## Bush Beefsteak

**62 days.** The perfect sandwich-sized fruit! Solid-fleshed fruits are a deep, rich red and average 8 oz. Vigorous, bushy plants are high yielders. Determinate.

#00145. (A) pkt. (50 seeds) \$3.25; 3+ pkts. \$2.95 each; (F) 1/16 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each

## Campbell's 33 VFA

**69 days.** Produces medium-early 7 oz. fruits that are oblate, bright red, with green shoulders and good interior color. Sets fruit well under unfavorable conditions, with tolerance to cracking and good disease resistance. Determinate.

#00150. (A) pkt. (50 seeds) \$3.15; 3+ pkts. \$2.85 each; (F) 1/16 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each

## Tomato Growing Guide

To ensure that our customers understand how easy tomatoes are to grow, we've devoted two pages (10 & 11) in our catalog to provide the basics of the culture. For an easily understood, more comprehensive explanation, we offer John Page's detailed, 32-page guide at this very special price!

#82455. \$3.95 each

## Moon Sign Book

Popular since 1905. This is the only almanac you'll need this spring! Includes lunar timing tips on planting and harvesting and a guide to companion plants. Also provides recommended dates on fishing and hunting, as well as weather forecasts. Customers come back year after year because of its accuracy and reliability. This year's edition also features fascinating articles on heirloom seeds, essential oils that work best according to the moon phase, how moon signs influence your work relationships and much more.

Paperback. 312 pages. #53454.

CHEROKEE GREEN

COSTOLUTO GENOVÈSE

GET STUFFED!

Phone Toll-Free (800)345-5977

## Cherokee Green

**72 days.** A selection from the ever popular heirloom Cherokee Purple (pg. 23) and possibly one of the best green tomatoes you'll ever grow! Medium-sized, green fruits weigh 8 oz. or more each and show some yellowish-orange color on the blossom end when ripe. Flesh is full of bold, acidic, complex tomato flavor that green varieties are known for. Plants need to be staked for best garden performance. Bred and selected by Craig LeHoullie. Indeterminate.

#00159. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each

## Costoluto Genovese

**90 days.** An excellent performer in both gardens and greenhouses. Plants are vigorous and produce ribbed, firm, fleshy fruits weighing up to 7 oz., with a delicious sweet flavor. Indeterminate.

#00203. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each; (D) 1/32 oz. \$6.95; 2+ \$6.45 each; 4+ \$5.85 each

## Get Stuffed!

**75 days.** Fruits are shaped like bell peppers, are completely hollow and possibly the boldest striped variety available. Fruits average 5 to 7 oz. and have a delicious classic tomato flavor. Create unique, eye-catching presentations in recipes requiring stuffing tomatoes or bell peppers. Good yields. Tolerant to Powdery Mildew. Indeterminate.

#00294. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each

## "BEST PASTE" COLLECTION

One packet each of Amish Paste, Roma (pg. 32) and San Marzano (pg. 32) & Sausage (pg. 30).  
#00890(X). 4 pkts. for just \$9.95

# Old-Fashioned, Yet Trendy...

## Golden Jubilee A

**72 days.** Mild flavor and low acidity make this one of the best varieties for tomato juice. Bright, golden-orange fruits, 2½ to 3" in diameter, average 6 to 7 oz. each and have meaty, thick walls. Fruits are solid, with few seeds. Medium-sized plants need staking and produce high yields, making them ideal for home gardens and fresh markets. Indeterminate.

#00316. (A) pkt. (50 seeds) \$2.85; 3+ pkts. \$2.65 each;  
(F) 1/16 oz. \$5.95; 2+ \$5.50 each; 4+ \$4.90 each

## Heinz 1370 FAST

**75-77 days.** Excellent for fresh markets, as well as making ketchup, purées and sauces, as its name suggests! Fruits resist cracking and plants feature good foliage cover. Smooth, round, 4 to 6 oz. globes have meaty flesh. Good disease resistance. Determinate.

#00344. (A) pkt. (50 seeds) \$2.85; 3+ pkts. \$2.65 each

## Homestead FA

**80 days.** Highly adaptable, especially in hot conditions. Fruits are medium-large, very smooth, red, meaty and flavorful, averaging about 8 oz. each. Determinate.

#00350. (A) pkt. (50 seeds) \$2.95; 3+ pkts. \$2.75 each;  
(F) 1/16 oz. \$5.95; 2+ \$5.50 each; 4+ \$4.90 each

## Manitoba VF

**58 days.** An extremely early variety developed by the Morden Experiment Farm in Manitoba for southern Canadian prairies. Fruits are bright red, slightly flattened, good-flavored and weigh about 6 oz. each. Particularly well-suited for extreme northern areas of Montana, Dakotas, Minnesota, Wisconsin, Michigan and New England. Easily grown in a small area. Determinate.

#00448. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each

## Marglobe Improved VF

**72 days.** This highly adaptable, tasty old favorite produces high yields of globe-shaped fruits on uniform vines. Medium-sized, 5 to 8 oz. fruits are uniform, very sweet and thick-walled. Determinate.

#00450. (A) pkt. (50 seeds) \$3.15; 3+ pkts. \$2.85 each;  
(F) 1/16 oz. \$5.95; 2+ \$5.50 each; 4+ \$4.90 each

## Eco Friendly Helpers

### EcoGrow™ Enviro-Grow Containers

Made from recycled paper and natural ingredients that breakdown over time. Ideal for transplanting seedlings or starting seeds indoors. Fiber material breathes like clay to keep roots healthy. At planting time, peel off the bottom of the pot, position in the hole, place the bottom beside it and fill with soil. Completely compostable and biodegradable. Made in the U.S.A.

#54320. 3-3/4" Round Pots,  
10 for \$4.95; 50 for \$19.95  
#54318. Carry Trays for  
3-3/4" Pots, \$4.95 each;  
5 for \$19.95

## Marion FST

**78 days.** An early Rutgers type with good disease resistance. Strong vines feature medium-large, smooth, 6 oz. globes, with small blossom end scars and high yields. Especially adapted to the Southeast. Crack resistant. Indeterminate.

#00453. (A) pkt. (50 seeds) \$2.85; 3+ pkts. \$2.65 each

GOLDEN JUBILEE

## New Yorker VA EB

**66 days.** One of our earliest standard-sized varieties. High yields of smooth, meaty, 4 to 6 oz., scarlet globes. Bush beefsteak-type plants set fruit in cool, short-season conditions. Won't split or suffer Blossom End-Rot. Determinate.

#00515. (A) pkt. (50 seeds) \$2.95; 3+ pkts. \$2.75 each;  
(F) 1/16 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each

## Old Brooks EB LB

**75-85 days.** Smooth, blemish-free fruits are known for their superior resistance to Blossom End-Rot. Gourmet quality flesh, with a fine, even texture. The taste is somewhat acidic, which proves to be an asset in home canning. Good all-around variety. Indeterminate.

#00518. (A) pkt. (30 seeds) \$3.05; 3+ pkts. \$2.75 each;  
(D) 1/32 oz. \$7.95; 2+ \$7.35 each; 4+ \$6.65 each

HEINZ 1370

## Purple Russian

**80 days.** Also known as Ukrainian Purple. Original stock of this variety came from Irma Henkel in the Ukraine. Meaty, plum-shaped, 6 oz. purplish-black, smooth skinned fruits are 3 to 4" long. Sweet and flavorful – a good choice for salsa, sauces or straight-from-the-vine. High yielding. Crack resistant. Indeterminate.

#00591. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

## Rutgers VFSt

**75 days.** A popular all-purpose variety that is ideal for canning. Bright red fruits, with heavy walls, average about 7 oz. and ripen evenly from the inside out. An attractive, old-time favorite with full-bodied flavor. Disease resistant. Determinate.

#00624. (A) pkt. (50 seeds) \$2.85; 3+ pkts. \$2.65 each;  
(F) 1/16 oz. \$5.50; 2+ \$5.05 each; 4+ \$4.55 each

HOMESTEAD

## Cowpots™

Made from 100% natural composted cow manure, completely odorless and biodegradable.

As plants grow, roots are able to penetrate the sides of the pot for better root growth, while absorbing valuable nutrients. Transplant directly into the soil so there is no transplant shock. Pots fully decompose within weeks, leaving valuable nutrients and organic matter behind. Environmentally friendly.

#54375. 3" Pots, Pkg. of 12, \$10.95; 2+ \$9.95 each  
#54376. 4" Pots, Pkg. of 12, \$11.95; 2+ \$10.95 each

# With Real Old-Time Value!

## Sausage

**75 days.** Fruits, up to 6" long, resemble huge red banana peppers. A prolific paste tomato with very fine-flavored meat that is especially ideal for ketchup or sauces. Indeterminate.

#00639. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each

## Sheboygan

**80 days.** Lithuanian immigrants in Wisconsin are credited with introducing this pink, paste-type heirloom in the early 1900's. Full-flavored fruits average 4 to 6 oz. and are 4" in diameter, with meaty flesh and plenty of juice, making this one of the best varieties for canning. Heavy yields. Indeterminate.

#00644. (A) pkt. (20 seeds) \$2.95; 3+ pkts. \$2.75 each

## Striped Stuffer

**85 days.** Bell pepper shaped fruits are completely hollow and easy to stuff. Showy, 5 to 7 oz. red fruits have conspicuous golden-orange stripes and a classic tomato taste. A good yielder and highly resistant to Powdery Mildew. Indeterminate.

#00677. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each

## Super Sioux

**70 days.** An excellent variety for areas with hot summer temperatures since it sets fruit well in spite of the heat and dry conditions. Thick-walled, crack-free, 4 to 6 oz. red globes have an acidic flavor. Perfect for canning. Semi-determinate.

#00726. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.65 each;  
(D) 1/32 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each

## Taxi

**65-70 days.** The best yellow variety for short season areas. Bright yellow, 4 to 6 oz. fruits are smooth and blemish-free. Flesh is meaty, mild and acid free. Excellent fresh for salads, sandwiches or adds a nice splash of color to salsas. Heavy yielder over a 3 to 4 week period. Determinate.

#00757. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each

## Thessaloniki

**68 days.** Uniform, baseball-sized, 6 to 8 oz. fruits are the trademark of this variety developed in sunny Greece. Fruits have a pleasant, mild flavor and virtually refuse to rot, even when completely red and ripe. Resistant to sunburn, cracks and spots. Perfect blossom ends resemble those of greenhouse tomatoes. Indeterminate.

#00762. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each;  
(D) 1/32 oz. \$5.95; 2+ \$5.50 each; 4+ \$4.90 each

## Wisconsin 55 EB

**75 days.** A superb tomato developed at the University of Wisconsin. Large, deep red fruits resist shoulder cracks, ripen evenly and have strong skin with solid flesh. Great for canning. Vigorous plants are tolerant to Leaf Spot and Blossom End-Rot. Semi-determinate.

#00824. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each

## Small to Medium Open-Pollinated Types

### 42 Days

**42 days.** Be the first in your neighborhood to harvest ripe tomatoes! One of the world's earliest tomatoes with an excellent flavor. Golf ball size fruits are bright red with very few seeds. While most early tomatoes originate from cooler climates, this variety is believed to have come from Mexico, so it's rather unique, as it does well in cool and warm climates. Excellent for containers. Determinate. #00257. (A) pkt. (20 seeds) \$3.15; 3+ pkts. \$2.85 each

### Amish Gold Slicer

**80 days.** Beautiful, 3 to 4" round slicer that's been a trial favorite year after year. Fruits, up to 5 oz., are blemish-free, very firm and have excellent flavor. Great for fresh eating and canning. Extremely productive. Indeterminate. #00034. (A) pkt. (10 seeds) \$2.85;  
3+ pkts. \$2.65 each

### Black Plum LB

**80 days.** A very prolific Russian strain. Brownish-gray fruits are so sweet and meaty that some prefer it to Roma for making sauces. Also excellent when used in salads or for drying. Oval fruits average 2 to 4 oz. and turn a deep mahogany-brown at maturity. One of our best yielders for both fresh market and home use. Indeterminate.

#00097. (A) pkt. (30 seeds) \$3.35;  
3+ pkts. \$3.05 each; (D) 1/32 oz. \$6.95;  
2+ \$6.45 each; 4+ \$5.85 each

### Garden Peach LB

**75 days.** This unique heirloom looks very much like a small peach – it even has slightly fuzzy skin! Small, 2 oz., light-yellow fruits have a delicate, distinctive flavor that's light, clean and a little bit fruit-like. Prolific producer of juicy fruits with excellent keeping quality. Introduced to American gardens in 1862. Indeterminate.

#00276. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

GARDEN PEACH

BLACK PLUM

WISCONSIN 55

42 DAYS

AMISH GOLD SLICER

### Green Zebra LB

**78 days.** One of the most unusual varieties you'll ever grow! Fully ripened fruits are bright green with stripes of a still lighter green. Small, round, 2 to 4 oz. fruits have excellent, real tomato flavor. Plants are vigorous and indeterminate.

#00329. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each;  
(F) 1/16 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each

### Independence Day

**55 days.** If planted in early May, you can have ripe tomatoes by the Fourth of July. Round, 2 to 3" pink fruits have a great tomato flavor which is not always typical with other early varieties. Perfect for salads and for slicing. Indeterminate.

#00362. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.65 each

### Japanese Black Trifile

**85 days.** Heavy producer of pear-shaped fruits that are free of blemishes and cracks and range in color from intense black to dark gray blushed with magenta. Potato leaf plants produce prolific yields of picture-perfect, 3 to 5 oz. fruits that look stunning when sliced and arranged on a plate. As delicious as it is unique. An excellent canner as it holds its flavor and color well. Indeterminate. #00382. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

### Jaune Flammée

**80 days.** A gorgeous study in contrasts, with bright orange skin surrounding reddish flesh that is a rare find in heirloom tomatoes! Fruits are slightly larger than cherry varieties, about 2 to 3 oz., with thick walls that are tender and flavorful. Sweet, high-yielding and especially valued as a salad tomato for its beautiful appearance. Indeterminate.

#00384. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each;  
(D) 1/32 oz. \$6.95; 2+ \$6.45 each; 4+ \$5.85 each

### Jersey Devil

**90 days.** An extremely prolific paste-type heirloom shaped like a banana pepper. Fruits grow to about 5 to 6", are very juicy, meaty and have few seeds. Very flavorful and excellent used in sauces and salsas. Indeterminate.

#00390. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each

### Martino's Roma

**75 days.** You can't go wrong with this Italian heirloom, no matter what you have in mind – sauces, salsas, pastes, farmers markets – bring it on! Richly flavored, meaty, pear-shaped fruits set heavily on compact plants with rugose, dark green foliage. So productive, the 2 oz., 3" fruits tend to drop from the vine when ripe. Most often used for cooking, but perfectly suited for eating fresh. Dwarf determinate. #00461. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each; (G) 250 seeds \$7.95; 2+ \$7.35 each; 4+ \$6.65 each

## Lighting

### Hydrofarm T5 4ft. 4 Tube Premier System w/Bulbs

Delivers performance, flexibility and high lumen output in any growing environment. These daisy-chainable systems allow you to choose multiple hanging configurations to meet your needs. T5 Replacement 4 ft. Bulbs #74671. Pkg. of 4, \$49.95

ROMA

SAN MARZANO

SAUCY LADY

SPECKLED ROMAN

STUPICE

TEN FINGERS OF NAPLES

### Roma VF

**75 days.** Roma is considered to be the most well-known paste-type tomato, perfect for sauces, pastes and ketchup. Heavy crops of bright red, pear-shaped, 2 to 3 oz. fruits are nice and meaty, with very few seeds. Determinate.

#00618. (A) pkt. (50 seeds) \$2.85; 3+ pkts. \$2.65 each;  
(F) 1/16 oz. \$5.50; 2+ \$5.05 each; 4+ \$4.55 each

### San Marzano

**80 days.** A little later than Roma, with superb flavor in long, 3½" by 1½" blocky fruits that are bright red and hang in large clusters. Holds well on the vine and in storage. Extra-high solid content is perfect for canning. Indeterminate.

#00630. (A) pkt. (50 seeds) \$3.10; 3+ pkts. \$2.80 each;  
(F) 1/16 oz. \$5.95; 2+ \$5.50 each; 4+ \$4.90 each

### Saucy Lady

**80 days.** Possibly the best sauce tomato that we have offered for quite some time. Attractive, 3 to 4 oz. fruits are deep crimson in color and extremely firm. Excellent for making delicious sauces and pastes. Determinate.

#00641. (A) pkt. (15 seeds) \$3.65; 3+ pkts. \$3.35 each

### Speckled Roman

**85 days.** Tomato lovers everywhere are tipping their caps to John Swenson who developed this cross of Antique Roman and Banana Legs. Orange-red, 5" long fruits are a speckled paste-type, marked by irregular yellow stripes. Meaty fruits have hearty, real tomato flavor and almost no seeds. Indeterminate.

#00669. (A) pkt. (20 seeds) \$2.85; 3+ pkts. \$2.65 each;  
(V) 100 seeds \$6.95; 2+ \$6.45 each; 4+ \$5.85 each

## Cherry Tomatoes ...

### Apple Yellow Hybrid F LB YLCV

**110 days.** 2020 AAS Winner. Uniquely dimpled, bell-shaped fruits weigh up to 1 oz. and have a firm, meaty texture. With a Brix of 8, flavor is deliciously sweet, yet citrusy, with just the right balance of sugar/acid. Plants abundantly produce clusters of eye-catching, bright, lemon yellow, uniform fruits that grow up to 1½" – in trials, one plant produced nearly 1,000 fruits! Crack resistant and holds well on the vine. Resistant to Tomato Mosaic Virus and tolerant to Bacterial Wilt. Indeterminate.

#00038. (A) pkt. (10 seeds) \$5.15;  
3+ pkts. \$4.65 each

ARTEMIS

### Stupice LB

**52 days.** A native of Czechoslovakia where its extreme earliness, tolerance to cold, superior flavor and high yields earned it worldwide attention. Tests show an astounding average of 87 fruits per plant. Fruits are sugary sweet and weigh up to 2 oz. Indeterminate.

#00678. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each;  
(D) 1/32 oz. \$6.95; 2+ \$6.45 each; 4+ \$5.85 each

### Ten Fingers of Naples

**75 days.** Excellent paste-type, elongated, pointed, 5 to 6" meaty fruits weigh up to 3 oz. and are produced in long trusses, giving them a finger-like appearance! Flavor is sweet, rich and superior to many modern day varieties. Ideal for cooking, canning and preserving. A popular heirloom from Naples, Italy. Heavy yielder. Determinate.

#00756. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

### Umberto Pear

**80 days.** A very old heirloom variety brought back from near extinction. Just one plant can produce up to 250 pink, meaty 2 oz. fruits. Robust flavor is excellent for both fresh eating and sauces. Indeterminate.

#00786. (A) pkt. (10 seeds) \$2.85; 3+ pkts. \$2.65 each

### Yellow Pear VFA LB

**78 days.** Vigorous vines produce high yields of 2", yellow-skinned, pear-shaped fruits with few seeds. Slightly later than Red Pear (pg. 31), but with the same prolific yields and performance. Indeterminate.

#00842. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.65 each;  
(D) 1/32 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each

### Artemis Hybrid FFNT

**50-55 days.** Deliciously super-sweet, rich, red cherry tomatoes have a unique crisp, firm texture. Attractive, round, 1" fruits weigh up to ½ oz. each and are great for eating straight-from-the-vine, in sauces and salsas. Highly resistant to Leaf Mold and Tomato Mosaic Virus. Indeterminate.

#00021. (A) pkt. (10 seeds) \$4.95; 3+ pkts. \$4.55 each

## Harvest Helper

### Colander Trug

The perfect home and garden companion! From the garden or the grocer, this large, light-weight, easy-to-use colander is perfect for harvesting and cleaning fruits and vegetables. Features drainage holes in one end – simply rinse, tilt and drain. Made of durable, recycled plastic with sturdy handles that fold down for convenient storage. Measures 22" L x 12" W x 4¾" H and weighs just ½ lb.

#54654. \$17.95 each;  
2 or more  
\$16.45  
each

UMBERTO PEAR

YELLOW PEAR

APPLE YELLOW

## ARTISAN™ SERIES

Produced by a small breeder who concentrates on varieties specifically for small growers, local and specialty markets. Combines excellent flavor with unique colors, shapes, sizes and stripes. The Tigers are julienne types with a tropical flavor and can be allowed to ripen off the vine without compromising the flavor. Fruits weigh up to 1 oz. and are great for appetizers and salads to main courses. Vigorous vines produce continuously over a long growing season. All are indeterminate.

### Bumble Bee Pink

**70 days.** Pink fruits are striped with yellow and are crack resistant. #00042.

### Bumble Bee Purple

**70 days.** Fruits are purple striped with green. #00044.

### Bumble Bee Sunrise

**70 days.** A beautiful orange-yellow, 1½" cherry with red stripes and pink flesh with an excellent sweet, yet tangy flavor. #00036.

ARTISAN™ BUMBLE  
BEE PINK

Prices, above 7, per variety: (A) pkt. (30 seeds) \$4.25; 3+ pkts. \$3.85 each

### Black Opal

**70 days.** Possibly one of the best black-fruited cherries on the market! Bred from the popular heirloom Black Cherry and selected specifically for its improved growth habit, firmer texture and superior flavor. Masses of ½", attractive round fruits are excellent for fresh eating, grilling or sauces and for making pastes. Extremely productive. Indeterminate. #00096. (A) pkt. (20 seeds) \$3.45; 3+ pkts. \$3.15 each

### Braveheart Hybrid FTSt

**60 days.** Bright red, 1 oz. cherries have a deliciously sweet and juicy, bold tomato flavor. Fruits are thin skinned and ripen quickly and uniformly, extending harvests throughout the season. Expect prolific yields on medium-sized plants that are easily managed. Crack resistant. Indeterminate. #00108. (A) pkt. (20 seeds) \$3.75; 3+ pkts. \$3.45 each

### Brown Berry

**70 days.** An unusual variety with cherry-type fruits that have appealing, earthy-brown skins. More than a novelty, 1" fruits have very good flavor and are sweet and juicy. A very different look for fresh and cooked cuisine. Sturdy plants grow to 78". Indeterminate.

#00115. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each; (G) 250 seeds \$8.95; 2+ \$8.25 each; 4+ \$7.45 each

### Candyland Red

**55-60 days.** 2016 AAS Winner. Dark red, ½" fruits weigh ¼ oz. and are smaller than most cherry tomatoes. Fruits have an excellent sweet flavor and are the perfect size to 'pop' in your mouth to enjoy just like candy, straight from the garden! Plants have a tidier habit than other currant-types with the fruit tending to form on the outside of the plant making them easier to harvest. Indeterminate. #00156. (A) pkt. (10 seeds) \$3.45; 3+ pkts. \$3.15 each

## Chocolate Cherry

**70 days.** Extremely flavorful, uniform, round, chocolate-red fruits grow in trusses and measure 1" in diameter. Fruits hold stems very well, don't crack and can be picked several days before completely mature and allowed to ripen off the vine without sacrificing quality. Great variety for the home gardener or for packing into pints for markets. Indeterminate.  
**#00186. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each**

## Chocolate Pear

**70 days.** Gorgeous pear-shaped cherries are light red swirled with various shades of green and brown – great for farmers markets and home gardeners that want to mix fruits into saleable pints or to simply enjoy for personal use. Fruits have a rich tomato flavor and make a beautiful presentation mixed with red, yellow and orange tomatoes. A consistent taste-test winner in trials. Indeterminate.  
**#00165. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each**

## CREAM OF THE CROP™ HYBRID SERIES

These exciting varieties are not only delicious, but beautiful as well. Even if you don't typically eat tomatoes, you'll definitely want to give these a try – we'll bet your kids will love 'em, too! Bred for improved quality, longer shelf life and better disease tolerance than comparable varieties. All are indeterminate.

### Apricot Zebra

**60-70 days.** Unrivaled golf ball sized, 1½ to 2" fruits are firm and meaty with a nice texture. Unique tangerine skins show prominent green stripes during ripening that almost disappear when the fruit is fully ripe. Strong tomato flavor is rich with moderate sweetness averaging a Brix of 7.5. High yielding. **#00019.**

### Pink Champagne

**60-70 days.** In trials, this beauty was a favorite for snacking! An excellent variety with dark pink, grape-shaped fruits that have an amazing sweet flavor. Fruits have an average Brix of 9.5, measure a little over 1" long and grow on moderately long trusses. Good yielder. **#00563.**

Prices, above 4, per variety: **(A) pkt. (20 seeds) \$3.65; 3+ pkts. \$3.35 each**

### Red Torch

**60-70 days. 2019 AAS Winner.** Excellent flavor, great texture and high yields. This award winner is a standout among other varieties in the trendy, specialized market of striped tomatoes. Attractive, oblong, 1½" red fruits, with golden stripes, weigh up to 1½ oz. each and are produced abundantly and early. **#00615.**

Prices, above 2, per variety: **(A) pkt. (10 seeds) \$4.25; 3+ pkts. \$3.85 each**

### Crokini Hybrid FT LB

**60-65 days. 2020 AAS Regional Winner.** Fruits have a very sweet Brix of 8.5 and a light acidic taste giving it the perfect sweet/acid balance. Round, ½ oz. fruits are small and firm with a crunchy texture and grow in clusters of up to 12. In trials, plants had better yields than similar varieties due to its Late Blight resistance and were slightly more compact. Highly resistant to Leaf Mold with intermediate resistance to Root-Knot Nematodes and Tomato Yellow Leaf Curl Virus. Indeterminate.  
**#00210. (A) pkt. (10 seeds) \$4.65; 3+ pkts. \$4.25 each**

### Cupid Hybrid FAST BS

**66 days.** There are a lot of good grape tomatoes on the market, but Cupid advances to the next level in the areas of quality, flavor, yields and holding ability. Meaty, bright red fruits are nearly as firm as Roma types and are quite crack resistant. Vigorous plants set loads of fruit in long trusses for a long season that begins early and due to a very high level of disease resistance, continues right up until frost. Indeterminate.  
**#00208. (A) pkt. (10 seeds) \$5.75; 3+ pkts. \$5.25 each**

## Chocolate Sprinkles Hybrid FNT

**50-55 days.** Beautiful 1½" cherries are red and striped with dark green. Fruits have a rich sweet flavor and grow in trusses of 5 to 7. Produces more fruit with better flavor than similar open-pollinated varieties. Very productive and early. Indeterminate.  
**#00174. (A) pkt. (10 seeds) \$4.45; 3+ pkts. \$4.05 each**

### Prairie Fire

**60-70 days.** If you like sweet tomatoes, you'll love this variety. In taste test trials, it rated the sweetest with a Brix of 10. Pointed, grape-shaped, 3" fruits have subtle gold striping and deep red flesh. Chances are, this one gets picked and eaten in the garden before it can make it to the kitchen! **#00585.**

### Tropical Sunset

**60-70 days.** Gorgeous, 1½" ping-pong ball sized fruits are gold with orange-pink striping and are almost translucent when ripe. Flavor is fruity and bright with an average Brix of 8. Holds in the ripe stage for a long time, providing a good shelf life. A real show stopper and a trial favorite! **#00773.**

### Sparky XSL

**60-70 days. 2019 AAS Regional Winner.** One of the few X-tended Shelf Life (XSL) cherry tomatoes available to home gardeners. Early to mature, prolific and very flavorful. Attractive, striped round fruits weigh 1 oz., are 1¼" in diameter and very sweet with an average Brix of 8.5. Also well-suited for market growers, producing a large number of quality fruits per plant. **#00667.**

### Ella Bella Hybrid FTSt

**70-75 days.** Small, firm, attractive fruits weigh up to nearly ½ oz. and are packed with delicious flavor. Crack resistant cherries hold well in the garden and have a good shelf life while maintaining their flavor. Yields prolifically on disease resistant plants. Highly resistant to Leaf Mold with intermediate resistance to Fusarium Crown & Root Rot, Root-Knot Nematode and Tomato Yellow Leaf Curl Virus. Indeterminate.  
**#00247. (A) pkt. (20 seeds) \$4.15; 3+ pkts. \$3.75 each**

# Equals Huge Flavor!

## Fantastico Hybrid LB

50 days. 2014 AAS Winner. Long clusters of bright red, super-sweet fruits, with a Brix of 12, grow in clusters toward the outside of plants making them very easy to harvest. In trials, fruits resisted cracking much better than similar varieties when left on the vine past maturity. High yielding plants produce up to 12 lbs. of ½ oz. fruits! Bred for growing in small gardens – perfect in large patio containers or hanging baskets. Determinate.

#00260. (A) pkt. (10 seeds) \$4.85; 3+ pkts. \$4.45 each

## Firefly Hybrid VFT

80 days. 2019 AAS Winner. Attractive round fruits are super-sweet, pale white to pale yellow, less than 1" in diameter and weigh about ½ oz. each. Delicate, translucent skins add a mild acidic flavor which enhances the juicy sweet flesh that explodes with flavor. Perfect for snacking, roasting and in salads. Crack resistant. Indeterminate.

#00266. (A) pkt. (30 seeds) \$4.25; 3+ pkts. \$3.85 each

## FUNNYPLUMS™ HYBRID SERIES

80-90 days. Unique, plum-shaped fruits grow above the foliage creating a strikingly ornamental presentation. Cute little fruits weigh up to ½ oz., ripen early, are easy to pick and are deliciously sweet. Ideal for growing in 4 to 6" pots and small containers – makes a perfect patio plant. Dwarf, compact plants grow up to 8 to 10" tall and wide, are very heat tolerant and produce good yields. Do not over-water. Determinate.

GARDENER'S DELIGHT

## Geranium Kiss

65 days. An excellent choice for container gardening. Stocky, dwarf plants, with rugose foliage, grow just 24 to 30" tall and produce loads of golf ball sized, bright red fruits that are round with pointed ends. Tomatoes have a good texture, an exceptional flavor, grow in clusters of 10 or more and weigh about 1 oz. each. In trials, plants exhibited tolerance to Early Blight and Septoria. Bred by Alan Kapuler, Ph.D. of Peace Seeds. Dwarf determinate.

#00282. (A) pkt. (15 seeds) \$3.45; 3+ pkts. \$3.15 each

## Gold Nugget

55 days. Vigorous plants bear numerous golden-yellow, fine-flavored, 1" oval fruits that are often seedless. Uniform, compact plants grow to just 24" tall. Great for containers. Determinate.

#00306. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$6.95; 2+ \$6.45 each; 4+ \$5.85 each

## Green Grape

70 days. No more waiting for green tomatoes to turn red and ripe without spoiling. Fruits are just under 1" across and grow profusely on vigorous plants. Very juicy and sweet. Perfect for green ketchups, soups, garnishes, sauces and hors d'oeuvres. Determinate.

#00326. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each

## Heirloom Cherry Blend

70-80 days. A customer favorite featuring a mouth-watering selection of cherry tomato varieties that have been carefully blended to have similar growth habits. Great for fresh summer salads, vegetable trays and selling at farmers markets. Enjoy a kaleidoscope of colors that include red, pink, green, white, yellow, black and bicolors. Indeterminate.

#00346. (A) pkt. (20 seeds) \$3.15; 3+ pkts. \$2.85 each

## Husky Cherry Red Hybrid VFT

65 days. Season-long production of outstanding 1" fruits that feature excellent flavor. A sister to Husky Red (pg. 17), whose dwarf indeterminate habit and quality production makes it perfect for small spaces and containers.

#00357. (A) pkt. (30 seeds) \$4.25; 3+ pkts. \$3.85 each; (G) 250 seeds \$17.95; 2+ \$16.60 each; 4+ \$14.90 each

## Ildi

53 days. Early and high yielding, with masses of miniature yellow fruits, up to 75 per cluster! Plants naturally stop growing at 5 to 6 ft. and have three or four trusses per plant. Even after trusses are harvested and hung in cool storage, these tomatoes seldom drop. Grape-shaped with the occasional pear and always firm and sweet with a tiny bit of tartness. Yummy in salads or as a garnish – a fantastic garden performer! Indeterminate.

#00369. (A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each

HUSKY CHERRY RED

ILDI

FUNNYPLUMS™ RED

GARDENER'S DELIGHT

### Jasper Hybrid FF EB LB

**60 days.** 2013 AAS Winner. An outstanding disease resistant package results in extended harvests of this delightful little tomato. Small, round,  $\frac{3}{4}$ " red fruits weigh less than 1 oz. each with sweet, rich flavor and a pleasant creamy texture. Fruits grow on small trusses, holding their quality for a long time on the plant and after picking, resisting cracking and rot. Plants are extra vigorous and tall. Overcomes weather-related stresses with ease. Disease resistance includes Septoria Leaf Spot. Indeterminate.

#00385. (A) pkt. (10 seeds) \$5.25; 3+ pkts. \$4.75 each

### JELLY BEAN HYBRID SERIES VFFASt

**72 days.** Grape-like fruits weigh up to  $\frac{1}{4}$  to  $\frac{1}{2}$  oz. and are aptly named for their bite-sized sweetness and intense colors. Heavy clusters of up to 30 fruits mature early on plants that have good disease resistance.

Both are indeterminate.

**Red** #00387.

**Yellow** #00837.

MEXICO MIDGET

### Little Birdy Red Robin

**55 days.** An extra-sweet, container-grown variety, just as good grown indoors as a potted plant. Round, red,  $\frac{1}{4}$ " fruits are produced on compact, rugose leafed plants that grow just 8 to 12" tall. Ideal for windowsills, patios or hanging baskets. Dwarf determinate.

#00612. (A) pkt. (30 seeds) \$5.05; 3+ pkts. \$4.55 each;  
(G) 250 seeds \$18.95; 2+ \$17.50 each; 4+ \$15.70 each

### Mexico Midget

**60-70 days.** Old-time, south-of-the-border favorite. Tiny, red, cherry-type fruits weigh down trusses with prolific yields throughout an extended growing season. Round  $\frac{1}{2}$ " fruits explode with irresistible flavor. Very reliable. Indeterminate.

#00466. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each;  
(G) 250 seeds \$7.95; 2+ \$7.35 each; 4+ \$6.65 each

### Micro-Tom FSt 🔥

**50-60 days.** Considered to be one of the world's smallest tomato plants – grows just 6 to 8" tall and bears loads of flavorful, 1 oz., deep red fruits. An ideal house plant for windowsills and patios for vine-ripened fruits year round! Developed by the University of Florida. Resistant to Leaf Mold. Dwarf determinate.

#00468. (A) pkt. (20 seeds) \$4.45; 3+ pkts. \$4.05 each;  
(G) 250 seeds \$21.95; 2+ \$20.30 each; 4+ \$18.30 each

### Midnight Snack Hybrid

**65-70 days.** 2017 AAS Winner. Unique cherries ripen to red with a blush of glossy black-purple on the skin when exposed to sunlight due to the accumulation of anthocyanin pigment. Plants are productive all season, yielding  $\frac{1}{2}$ " fruits that have a well-balanced flavor. Great in salads or eaten straight off the vine – a guilt-free treat any time of the day or night. Indeterminate.

#00469. (A) pkt. (15 seeds) \$4.85; 3+ pkts. \$4.45 each

### Natures Bites Hybrid FFT

**100 days.** A gorgeous cherry tomato with exceptional sugar content. Brilliant, bright red fruits are easily grown in home gardens for straight-from-the-vine eating. Fruits weigh  $\frac{3}{4}$  oz. and grow in clusters of up to 20. Heavy yielder. Resistant to Fusarium Crown & Root Rot. Indeterminate.

#00510. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.65 each

### Orange Sunshine Hybrid

**58 days.** The qualities of these bright beauties just can't be beat! Beautiful orange,  $\frac{1}{2}$  oz. cherries are firm and as sweet as the ever popular Sungold (pg. 38). Adds a dash of color and flavor to salads, pizzas, sautés, and salsas. Prolific yields. Indeterminate.

#00525. (A) pkt. (15 seeds) \$5.25; 3+ pkts. \$4.75 each

### Orange Zinger Hybrid FT

**60 days.** If Sungold (pg. 38) is a favorite of yours, you're going to love this variety! Dark orange, 1" round fruits have big tomato flavor with the perfect sweet to tangy ratio. Excellent in salads or straight-from-the-vine. Crack-resistant and high yields. Indeterminate.

#00522. (A) pkt.  
(20 seeds) \$4.95;  
3+ pkts. \$4.55 each

# Little Bites ...

## PATIO CHOICE HYBRID SERIES

50-60 days. Compact plants produce generous amounts of ½ oz. cherry fruits. Juicy, delicious and perfect for snacking. Specifically bred for small spaces and container gardening.

Plant both for a dramatic effect. Determinate.

### Red

Plants grow 24 to 30" producing trusses that cascade in hanging baskets. #00541.

### Yellow

2017 AAS Winner. Enjoy fresh, roasted or sun-dried for a delicious sweet treat. Plants grow 18" and have short vines. #00535.

Prices, above 2, per variety:

(A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

### Rainbow Cherry Blend

63-90 days. Get the whole rainbow in this refreshing mix of cherry tomatoes! Juicy and delicious bite-size fruits, up to 1½" across, come in a full range of colors including browns, golds, oranges, creamy whites, yellows, pinks, greens, purples and reds – even bicolors. Indeterminate.

#00598. (A) pkt. (20 seeds) \$3.35; 3+ pkts. \$3.05 each

### Rapunzel Hybrid

68-70 days. Named for the fairy tale character, plants produce unique, long cascading trusses with up to 40 fruits. Very flavorful, bright red, ¾ to 1 oz. cherry tomatoes make the perfect addition to salads and veggie trays. So sweet, you'll be tempted to eat them straight-from-the-vine. Indeterminate. #00631. Available May 2022. We suggest Supersweet 100 or Sweet Million.

### Red Racer Hybrid VFFNST

57 days. 2018 AAS Winner. Cocktail size, 1½" tomatoes have a good sweet/acid balance, weigh 2 oz., are uniform in size and grow in clusters. Compact plants produce huge yields 7 to 10 days earlier than comparable varieties. Ideal for small space and container gardens. One judge summed up this winner saying "Red Racer is small in size but big in taste!". Also resistant to Tomato Mosaic Virus. Determinate.

#00605. (A) pkt. (10 seeds) \$4.95; 3+ pkts. \$4.55 each

### Rosella

70 days. From the breeder of the extremely popular Sweet Aperitif (pg. 38). This gorgeous cherry has the perfect balance of sweetness and acidity. High yielding plants produce long trusses of ½" round, thin-skinned fruits that weigh ½ oz. each. Makes a great paste tomato and can also be eaten fresh or grilled. Perfect for market gardeners and home gardeners alike. Indeterminate.

#00626. (A) pkt. (15 seeds) \$3.75; 3+ pkts. \$3.45 each

### Fiskars® Fast-Prep Kitchen Shears

A unique design makes it easy to quickly cut herbs, veggies and even meat without a knife or cutting board. Engineered to maximize the power of your thumb and index finger to improve control. Stainless steel blades stay sharp through heavy use. Storage sheath included for safety. Dishwasher safe. Measures 7". #54281. \$20.95 each

### Ruby Crush Hybrid FTSt

60 days. Performs well in containers, shines in the garden and has sugary-acid balanced fruits that resist cracking. Smooth, bright red fruits are solid, oval, and weigh about ½ oz. each. Unlike other determinate grape varieties, compact plants are strong, have good leaf cover preventing sun damage and require minimal support. Resistant to Fusarium Crown & Root Rot. Determinate.

#00637. (A) pkt. (10 seeds) \$6.15; 3+ pkts. \$5.55 each

PATIO CHOICE RED

PATIO CHOICE YELLOW

RAINBOW CHERRY BLEND

### Siam Hybrid Edible Potted

70-84 days. Enjoy homegrown tomatoes year round! Referred to as 'Kitchen Minis®' by the breeder, these small potted plants were produced to grow indoors on windowsills or counters – pick delicious, ½" fruits in the comfort of your home. Plants, 14 to 16" tall, provide up to 2 quarts of tomatoes on one plant! Support with stakes if needed. Can be grown outdoors on patios, as well. Determinate.

#00650. (A) pkt. (10 seeds) \$5.85; 3+ pkts. \$5.35 each

### Snowberry

75 days. Nicely rounded, 1½ to 2 oz. firm fruits feature a creamy-yellow color outside with a white inside, making this unique variety the closest thing to a pure white cherry available on the market today. Sturdy plants produce trusses of uniform fruits and are sweet and fruity. Indeterminate.

#00658. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each

### Sugar Lump

65-75 days. A sweet German heirloom that produces heavy yields straight through until frost. Clusters of 6 to 12 smooth, deep-red fruits, average ¾" to 1" in diameter. Excellent eating quality and flavor. Indeterminate.

#00684. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each

## Kitchen Helpers

### Sauce Master Deluxe

Strains and purees tomatoes, fruits and vegetables quickly and easily. Special screw-type action strains food through a screen while separating and expelling skins and seeds. Also prepares jams, jellies, baby food, pureed soups and mashed potatoes. Stainless steel with an extended refuse chute, large plastic hopper, plunger and a squirt guard to save on cleanup time. Includes a spout, standard spiral and stainless steel screen, recipes and instructions. The base clamps to edge of tabletop or counter. Easy to assemble and clean. Hand wash only.

#54246. \$75.95 each

#54249. Berry Screen,

\$18.25 each

#54251. Salsa Screen,

\$18.25 each

**#54257(X). Get the  
Sauce Master &  
both screens for just  
\$89.45. Save 20%!**

SIAM

RUBY CRUSH

RED RACER

ROSELLA

# With Big Flavor!

## Sugar Rush Hybrid FT

**50-55 days.** Super-sweet,  $\frac{3}{4}$  to  $1\frac{1}{4}$ " elongated fruits have a Brix of 8 to 9, grow on long trusses, are firm and have a great crunch. Plants are early maturing, very productive and grow up to 84". Indeterminate.

#00676. (A) pkt. (20 seeds) \$4.35; 3+ pkts. \$3.95 each

## Sugary Hybrid

**80 days.** 2005 AAS Winner. Sugary stands out as something really special in the world of cherry tomato competitions. Super-sweet, juicy, 2 oz. fruits, have appealing, reddish-pink skins. Huge yields of oval-shaped, slightly pointed fruits set continuously. Semi-determinate.

#00680. (A) pkt. (15 seeds) \$3.95; 3+ pkts. \$3.65 each

## Suncherry Extra Sweet Hybrid FT

**55-60 days.** No hors d'oeuvre table or salad will be without this bite-size delight once you taste its super-sugary sweetness. Vigorous plants produce high yields of thin-skinned,  $\frac{1}{4}$  oz. fruits especially at the start of harvest. Indeterminate.

#00693. (A) pkt. (15 seeds) \$4.15; 3+ pkts. \$3.75 each; (G) 250 seeds \$27.95; 2+ \$25.85 each; 4+ \$23.25 each

## Sunchocola Hybrid T

**60-67 days.** Fans of Sungold will love this beauty from the same breeders. Gorgeous chocolate-red, 1" fruits with a deliciously sweet, smoky flavor are very juicy and lower in acid than most typical cherry varieties. Clusters of 8 to 12 fruits, weighing approx. 1 oz. each, are grown on high yielding plants. An excellent color addition to all your favorite dishes, fresh or cooked. Indeterminate.

#00692. (A) pkt. (10 seeds) \$5.75; 3+ pkts. \$5.25 each

## Sungold Hybrid F TSWV

**57 days.** A positively luscious, bite-size golden beauty overflowing with an abundance of fruits – thin-skinned, with a juicy flesh that holds its oh-so-sweet, fresh-from-the-vine flavor. Very early, and a heavy cropper both outdoors and in greenhouses. Cascading trusses are smothered in fruits that remain ripe and ready for picking over long periods of time. Indeterminate.

#00696. (A) pkt. (20 seeds) \$4.55; 3+ pkts. \$4.15 each; (G) 250 seeds \$25.45; 2+ \$23.55 each; 4+ \$21.15 each

## Sungold Select

**70 days.** This open-pollinated version of our very popular Sungold has become a favorite as well! Flavor is fruity, yet tart, making these bite-sized beauties a great snacking tomato. Indeterminate.

#00694. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.65 each

## Sunpeach Hybrid T

**60 days.** A favorite from past summer trial gardens – we're sure you'll enjoy these sweet treats! Reddish-pink fruits are highly uniform in shape and each  $\frac{1}{2}$  oz. fruit bursts with fantastic flavor that is just the right balance between sweet and tangy. Skins are crack resistant, but not thick and chewy. High-yielding, disease resistant plants produce long trusses of fruits from late summer until fall. Resistant to Leaf Mold. Indeterminate.

#00703. (A) pkt. (10 seeds) \$5.55; 3+ pkts. \$5.05 each

## SunSugar Hybrid FT

**62 days.** The ultimate in cherry tomatoes, this golden yellow beauty achieves a new level of sugary-sweetness and flavor, superb texture, and a tangy true tomato taste. Fruits are a lovely golden yellow, weigh  $\frac{1}{2}$  oz., and possess thin skins – remarkable, considering its wonderful crack resistance, even in heavy rains. Heavy early cropper. Very vigorous – can also be grown indoors in an unheated greenhouse in cold climates. Indeterminate.

#00711. (A) pkt. (20 seeds) \$4.55; 3+ pkts. \$4.15 each; (G) 250 seeds \$24.95; 2+ \$23.05 each; 4+ \$20.75 each

## Supersweet 100 Hybrid VF

**65 days.** Staked plants produce long strands of 100 or more super-sweet cherry tomatoes, weighing about 1 oz. each and measuring 1" in diameter. Extra-high in Vitamin C. Plants bear fruits throughout the season. Requires staking or caging. Indeterminate.

#00735. (A) pkt. (30 seeds) \$4.35; 3+ pkts. \$3.95 each; (G) 250 seeds \$14.75; 2+ \$13.65 each; 4+ \$12.25 each

## Sweet Aperitif

**80 days.** This fresh tomato might be *the* sweetest cherry you'll ever eat! Bright red fruits have exceptional flavor and very high levels of sugar – up to a Brix of 13 – even sweeter than Sungold and SunSugar! – that are perfectly balanced with just the right amount of acid to give this tomato a deliciously, refreshing, tangy flavor. Plants have a multi-branching habit and are completely covered with bite-sized,  $\frac{1}{2}$  oz. fruits. Indeterminate.

#00736. (A) pkt. (15 seeds) \$3.45; 3+ pkts. \$3.15 each

## "2nd GENERATION" COLLECTION

One packet each of Suncherry Extra Sweet & SunSugar.

#00880(X).

2 pkts. for just \$7.75

## Sweet Million Hybrid FT

**60 days.** Terrific flavor in high yields of super-sweet cherries that have an excellent, hybrid-bred disease resistance. Long chains of smooth, dark red, 1 to 1½" fruits are produced on large, vigorous plants. Matures early and produces until frost. Resistant to Leaf Spot. Indeterminate.

#00747. (A) pkt. (30 seeds) \$4.35; 3+ pkts. \$3.95 each;  
(G) 250 seeds \$15.25; 2+ \$14.15 each; 4+ \$12.75 each

## Sweet 'n' Neat Scarlet Improved

**60 days.** An ultra-compact, dwarf variety bred to thrive on windowsills, decks and in patio containers. Strongly branched plants produce masses of sweet fruits over a long season for continuous harvests. Petite, 1" round fruits weigh less than an ounce, with a memorable flavor that sparkles with sweetness. Determinate.

#00742. (A) pkt. (20 seeds) \$4.75; 3+ pkts. \$4.35 each

## Sweet Treats Hybrid FFTST

**75 days.** One of the first pink cherry tomatoes in the world. Combines the flavor of pink tomatoes with the size of a cherry tomato providing a uniquely balanced flavor of sweetness and acidity. Good aroma and great texture with a deep rich matte finish on the outside. A perfect snack item, as well as a delicious addition in salads and in cooking. Uniform and crack-free, 1 oz. fruits with a Brix of 8 to 9, grow in clusters of 12 to 15 fruits per truss. Resistant to Fusarium Crown & Root Rot and Leaf Mold. Indeterminate.

#00749. (A) pkt. (10 seeds) \$7.25; 3+ pkts. \$6.55 each

## Tiny Tim

**60 days.** Early, dependable, tree-like, rugose leaved plants are perfect for small gardens or containers. Only 15" tall, yet yields many small, ¾" fruits. Super in salads. Dwarf determinate.

#00771. (A) pkt. (50 seeds) \$2.95; 3+ pkts. \$2.75 each;  
(F) 1/16 oz. \$6.95; 2+ \$6.45 each; 4+ \$5.85 each

## Tomatoberry Garden Hybrid T

**60-70 days.** Melt-in-your-mouth fruits resemble strawberries in appearance and taste extremely sweet. Petite, tapered, 1" fruits are deep red with thick flesh and a small inner cavity. Juicier than some cherry tomatoes and ideal for snacking. Holds well on the vine and resists cracking. Indeterminate.

#00763. (A) pkt. (10 seeds) \$6.75; 3+ pkts. \$6.15 each

## Tommy Toe EB

**70 days.** Heirloom from the Ozark Mountains. Excellent in salads or for juices, ½ to 1" fruits are smooth, mild, glossy red and range from round to oval in shape. Resistant to Black Rot. Prolific reseeder. Indeterminate.

#00774. (A) pkt.  
(30 seeds) \$2.85;  
3+ pkts. \$2.65  
each; (D) 1/32 oz.  
\$5.95; 2+ \$5.50  
each; 4+ \$4.90  
each

YELLOW CHERRY

## Tumbler Hybrid

**45 days.** Specially bred for hanging baskets. Bushy plants have pliable stems and look fantastic when mixed in containers with Lobelia or ivy. Produces up to 6 lbs. of sweet, bright red, delicious fruits. Determinate.

#00783. (A) pkt. (10 seeds) \$3.75; 3+ pkts. \$3.45 each

# Tomatillos/Ground Cherries

## Aunt Molly's Ground Cherry

**65-90 days.** Also known as Cape Gooseberry, Husk Cherry and Strawberry Tomato. An heirloom variety from Poland prized for its flavor. Golden-yellow, ½" fruits, with a strawberry-like flavor, are excellent for pies, preserves, jams and fresh eating. Productive plants, 18" tall and 24" wide, start fruiting in July and continue until frost. Indeterminate.

#02351. (A) pkt. (100 seeds) \$3.15; 3+ pkts. \$2.85 each

## Pineapple

**75 days.** A unique ground cherry with a deliciously sweet and juicy pineapple flavor. Bushy, spreading plants grow 12 to 18" tall and produce loads of small, 1" yellow fruits that have a nice texture and are encased in husks. Makes an unusual, delicious salsa and is excellent in salads, desserts, jams and for canning. Indeterminate.

#00838. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.65 each

## Purple Coban

**70 days.** Attractive fruits are smaller than typical varieties, at approx. 1" in diameter, but they are packed with a sweet, distinctive tomatillo flavor. Fruits start off green and ripen to varying shades of mostly purple. Popular in Guatemalan cuisine. Collected in Coban, Guatemala by Baker Creek Seed Company. Indeterminate.

#00835. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

# Ornamental Peppers

## Black Pearl

**110-125 days. 2006 AAS Winner.** (PVP) Marvelous in mixed containers and the perfect backdrop in garden beds. Bushy, upright plants have a well-branched habit, producing shiny black fruits that are very hot to the taste. Fruits mature dark red with a rounded, slightly pointed shape. Very vigorous with a high tolerance to heat and humidity.

#07302. (A) pkt. (10 seeds) \$5.05; 3+ pkts. \$4.55 each

## Chilly Chili Hybrid

**72 days. 2002 AAS Winner.** (PVP) Tapered, 2" long peppers change from greenish-yellow to orange to red in a continual display set off by lush and attractive foliage. Although peppers are edible, their primary use is ornamental. Best when grown in full sunlight.

#07303. (A) pkt. (10 seeds) \$4.25; 3+ pkts. \$3.85 each; (R) 50 seeds \$10.95; 2+ \$10.15 each; 4+ \$9.15 each

BLACK PEARL

CHILLY CHILI

## Medusa

**72 days.** (PVP) Narrow, twisted, snake-like peppers named for Medusa's mythological hair. Compact, well-branched plants produce huge yields of 2 to 2½" pointed peppers held prominently upright over dark green foliage.

Plants, 6 to 8", typically display 40 to 50 mildly pungent fruits at the same time, in a wide color spectrum ranging from ivory to yellow, orange and bright red.

#07309. (A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each; (R) 50 seeds \$10.95; 2+ \$10.15 each; 4+ \$9.15 each

MEDUSA

NUMEX EASTER

ONYX RED™

PRETTY N SWEET

## Super Verde Hybrid

**75 days.** Extra large fruits are firm, weigh approx. 2½ oz. each, have strong healthy husks, an attractive green color and an above average shelf life. Sturdy plants have excellent vigor, cover and fruit set. Features better uniformity, a higher yield potential and an extended harvest window – all improvements over comparable varieties. Indeterminate.

#00867. (A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each

## Tamayo Hybrid

**65 days.** A must-have for Mexican cooking and green salsas. Tall, vigorous plants produce high yields of intense green colored, husk covered fruit – one of the largest tomatillos ever – its 2½ to 3" size will amaze you. High yielding plants have an open habit for easy harvest. Has an above average shelf life. Indeterminate.

#00868. (A) pkt. (20 seeds) \$5.95; 3+ pkts. \$5.45 each

## Tomatillo Purple

**68 days.** A rare heirloom variety with small oval, 1 oz., 1 to 1½" fruits that ripen from green to purple. Flavor is sweet (sweeter than green tomatillos), yet tart and can be eaten straight from the vine. Makes an attractive purple salsa or try them on the grill. Skins are noticeably less sticky than most tomatillos. Easy-to-grow. Plants are 10" tall and spread 20 to 24". Indeterminate.

#00869. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.65 each

## NuMex Easter

**90 days. 2014 AAS Winner.** Bred by the Chili Pepper Institute at NMSU. Plants, 6" tall, are very compact and filled with clusters of 4 to 6 beautiful purple, lavender, yellow and light orange conical fruits that point upward, topping dark green foliage. Fruits are produced continuously in beds, borders and containers. Easy-to-grow. Tolerates heat, drought, humidity and rain.

#07306. (A) pkt. (20 seeds) \$4.25; 3+ pkts. \$3.85 each

## Onyx Red™

**110-125 days. 2018 AAS Winner.** Compact, 6 to 12" plants have eye-catching foliage that turns dark black/purple under high light conditions. The contrast between the foliage and tons of shiny red fruit is striking – black fruits are equally as striking – and makes a bold statement. Vigorous plants retain their neat habit. Great for containers. Very heat tolerant.

#07308. (A) pkt. (10 seeds) \$4.85; 3+ pkts. \$4.45 each

## Pretty N Sweet Hybrid

**60 days. 2015 AAS Winner.** An ornamental pepper that can be eaten – and it tastes fantastic! Sweet, multicolored peppers on compact, 18" plants are very attractive in ornamental gardens and containers. Compared to similar varieties, it's earlier, more prolific (harvest weekly in peak season), has thicker walls and a much sweeter taste to enjoy fresh or in your favorite recipes.

#03204. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each

# Peppers – Always So Rewarding!

Photo courtesy of  
National Garden Bureau

## SEEDING

Peppers, like tomatoes and eggplants, are members of the Nightshade Family and thus similar in culture. There are a few differences, however. Peppers absolutely demand warm weather as they are more susceptible to cold weather damage than tomatoes. Never rush transplanting seedlings – be certain all danger of frost and cold weather has passed.

Peppers thrive in soils rich in organic matter, with adequate moisture. Grow in full sun and exercise caution when using fertilizers containing nitrogen,

as plants tend to produce excess foliage rather than fruits.

Sow in well-drained soil in a warm, 80° to 86°F, sunny location 6 to 8 weeks prior to the recommended transplanting date. Allow about 2 weeks later than the transplanting time for tomatoes to make sure the weather will be really warm. Seeds take 14 to 21 days to germinate and should be transplanted into flats as soon as they are big enough to handle easily.

Do not allow seedlings to suffer from drought or low temperatures as they develop. Keep them growing steadily and gradually harden them off (see page 10) prior to planting.

## GROWING ON

Plant in full sun with an 18" spacing in the rows and a 2 ft. spacing between rows. Cultivate often but not too deep to avoid root damage. In addition, you can mulch to help prevent weed germination and the loss of moisture.

Peppers can also develop Blossom End-Rot, so water them well and provide extra calcium by foliar feeding or side-dressing. Staking can be beneficial since plants are brittle. With proper care, plants will produce until frost.

## DISEASES

We offer many disease resistant peppers, some of which have X3R® technology. These varieties feature a high resistance to Bacterial Leaf Spot (Xcv) Races 0-3, 7 and 8.

## WARM TO HOT TYPES

Colorful, hot peppers have become a staple in home gardens and earned the respect they deserve in the culinary world. Hot peppers offer a full spectrum of taste and heat. With a little information and a little work in the garden, you can grow varieties that add the perfect degree of heat to your specialty dishes all year long.

Anaheim Chiles (also called New Mexican or Colorado Chiles) are long, green chiles that are mildly hot. Meaty, thick-walled pods get sweeter, hotter and redder as they ripen. Anchos (also called Poblanos) are also among the least hot.

Medium-hot Jalapeños are favored as middle-of-the-road chiles – not too hot and not too mild, as are the small Serrano chiles and the medium-mild Pasillas. Chipotles are dried, smoked Jalapeños.

Cayennes, both red and gold types, are very pungent.

Habaneros, once considered the world's hottest peppers, have now been surpassed on the heat scale by Bhut Jolokia (also known as Ghost Chile), Carolina Reaper and Trinidad Scorpion – all rate more than one million Scoville units!

See our Heat Scale on Page 49!

## PEPPER SEED COUNT

One oz. of most pepper seed varieties contains 4,000 seeds. Our pkts. contain the number of seeds stated in the description. Larger sizes contain the following approximate counts:

1/32 oz. contains 125 seeds      1/8 oz. contains 500 seeds  
1/16 oz. contains 250 seeds      1/4 oz. contains 1,000 seeds

# Our Sweetest Bell Peppers!

## Alliance Hybrid

**70 days.** Because of its disease resistance you'll be ensured of healthy yields of large, mostly 4-lobed, 4½" blocky fruits with thick walls and smooth skin. Fruits mature from green to deep red. Strong plants have good leaf canopy offering protection from sunscald and easy harvest of fruits. Highly resistant to Bacterial Leaf Spot Races 1-3 and 5, Potato Virus Y, Potato Yellow Mosaic Virus, Tobacco Mosaic Virus and Pepper Mottle Virus with intermediate resistance to Cucumber Mosaic Virus.

#03105. (A) pkt. (15 seeds) \$4.95; 3+ pkts. \$4.55 each

## Baron Hybrid

**68 days.** Formerly known as Red Beauty. The first widely-adapted red bell, sure to be king of the reds wherever it's grown. Impressive, 4-lobed fruits are packed with heavy, sweet flesh and set early. High yielder.

#03207. (A) pkt. (30 seeds) \$5.05; 3+ pkts. \$4.55 each;  
(V) 100 seeds \$11.95; 2+ \$11.05 each; 4+ \$9.95 each

## Big Bertha Hybrid

**70 days.** One of our most popular varieties for fresh market, home gardens and gourmet chefs. Extra-large, mostly 4-lobed, superior fruits mature up to a full 7" long by 3½" across, turning deep green to red, with full-season fruiting. Resists Tobacco Mosaic Virus. Upright plants grow 25 to 30".

#03116. (A) pkt. (25 seeds) \$5.25; 3+ pkts. \$4.75 each;  
(V) 100 seeds \$13.75; 2+ \$12.70 each; 4+ \$11.40 each

## Big Red

**75 days.** 2021's Free Trial! Large, 3 to 4-lobed blocky bells weigh about 6 oz. and are 5 to 6" long and 5" wide. Attractive fruits mature to a deep, dark red and have thick walled, very sweet flesh. Excellent for fresh markets and home gardens. Sturdy plants grow to about 24".

#03112. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each

## California Wonder 300 TMR

**75 days.** Deep green to red, thick-walled with an attractive glossy flesh. Fruits are medium-sized, 4" by 4", 3 to 4-lobed, smooth and blocky. A nice stuffer. High yields on plants that grow 28" tall.

#03121. (A) pkt. (100 seeds) \$3.35; 3+ pkts. \$3.05 each;  
(F) 1/16 oz. \$5.50; 2+ \$5.05 each; 4+ \$4.55 each

## Chablis Hybrid

**60 days.** Early maturity means early rewards from this easy-care variety. Produces blocky, 4" by 3" fruits on plants 18 to 24" tall. Weighty fruits are super sweet, with thick walls that hold their shape. Popular for fresh salsa, salads, frying, stuffing, roasting and pickling. High yields ripen from white to orange to brilliant red. Resistant to Tobacco Mosaic Virus and Bacterial Leaf Spot.

#03129. (A) pkt. (30 seeds) \$3.75; 3+ pkts. \$3.45 each

## Chinese Giant

**90 days.** A mild, mid-season type perfect for home gardens. Produces uniformly large fruits that have a blocky bell shape and thick walls – ideal for stuffing. Sweet flavored and ripens to a brilliant cherry red color, each averaging 4 to 5" across and 6" in length.

#03128.

(A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each;  
(D) 1/32 oz. \$6.95;  
2+ \$6.45 each;  
4+ \$5.85 each

## Chocolate Beauty Hybrid

**85 days.** One-of-a-kind variety! High quality, flavorful, medium-large, very smooth 3 and 4-lobed fruits mature from green to a very attractive chocolate color. Resists Tobacco Mosaic Virus.

#03132. (A) pkt. (30 seeds) \$5.95; 3+ pkts. \$5.45 each

## Early Summer Hybrid

**68-73 days.** Beautiful golden-yellow fruits will impress even the pickiest pepper critics! Extra-large, 4 to 5" fruits mature from dark green to yellow on strong plants with very impressive yields. High quality fruits are firm, smooth and glossy with thick walls and a uniform blocky shape. Excellent disease resistance.

#03141. (A) pkt. (20 seeds) \$4.85; 3+ pkts. \$4.45 each

## Early Sunsation Hybrid

**69 days.** One of the earliest, biggest and brightest yellow bells ever! Very fine, extra-large, 4½", smooth fruits mature from green to bright golden-yellow, when they are at their sweetest. An X3R® variety.

#03142. (A) pkt. (20 seeds) \$4.95; 3+ pkts. \$4.55 each; (V) 100 seeds \$15.75; 2+ \$14.55 each; 4+ \$13.05 each

## Encore Hybrid

**70 days.** Extra-large, 5½ to 6" blocky fruits are smooth with thick walls and are slow to turn to a deep dark red. Even under cool temperatures, plants produce abundant yields of high quality peppers that consistently maintain their large size and shape. Plants grow up to 24" and have excellent foliage cover to protect fruits against sunscald. Widely adaptable. Highly resistant to Pepper Mottle Virus and Potato Virus Y Races 0-2.

#03138. (A) pkt. (20 seeds) \$4.45; 3+ pkts. \$4.05 each

## Excursion II Hybrid

**75 days.** Big, blocky 4½ by 4½" bell peppers have thick walls and a juicy texture. Fruits are 4-lobed, intense deep green and ripen to a brilliant red. Compact plants produce excellent yields often with 8 to 10 fruits at the same time on a single plant. Resistant to Bacterial Spot, Tobacco Mosaic Virus and Potato Virus Y.

#03140. (A) pkt. (20 seeds) \$4.75; 3+ pkts. \$4.35 each

## Flamingo Hybrid

**66 days.** Very prolific, with high yields of smooth, slightly tapered 3½" fruits. Waxy fruits mature from creamy ivory to orange-red and have crisp, sweet flesh, making this a bright choice as a salad pepper. If you've tried Gypsy (pg. 47), then try Flamingo for its improved yields and larger size. Widely adaptable plants with good TMV resistance thrive in open fields and gardens.

#03147. (A) pkt. (20 seeds) \$6.35; 3+ pkts. \$5.75 each

## Golden Calwonder

**72 days.** Very similar to California Wonder 300 TMR (pg. 41), except that its smooth, glossy fruits ripen to a beautiful, golden-yellow. Adds rich color and flavor to salads and dishes.

#03154. (A) pkt. (100 seeds) \$3.65; 3+ pkts. \$3.35 each; (F) 1/16 oz. \$5.95; 2+ \$5.50 each; 4+ \$4.90 each

## Gourmet Rainbow Blend

**65-70 days.** A formula mix of our most popular bell pepper colors. Grow a rainbow of vibrant sweet bells – red, yellow, green, orange, purple and brown – without buying more seed than you need of each! It's one of our best sellers!

#03158. (A) pkt. (25 seeds) \$3.25; 3+ pkts. \$2.95 each; (D) 1/32 oz. \$10.95; 2+ \$10.15 each; 4+ \$9.15 each

## Gourmet Red Improved Hybrid

**70-80 days.** Big, flavorful and sure to be the perfect pick for pepper aficionados. Large, 3 to 4-lobed fruits weigh approx. 4 oz. and have a very sweet flavor. Adds a bright color to salads and veggie trays. Highly resistant to TMV, Tomato Mosaic Virus and Pepper Mild Mottle Virus. Plants, with a semi-upright habit, produce very early and abundantly.

#03214. (A) pkt. (20 seeds) \$5.05; 3+ pkts. \$4.55 each

## Keystone Giant Resistant III

**72-75 days.** Large fruits, 4½" by 3½", are 4-lobed and thick-walled – perfect for stuffing! Plants bear heavily, even when under stress. Tobacco Mosaic Virus tolerant.

#03173. (A) pkt. (100 seeds) \$2.85; 3+ pkts. \$2.65 each; (F) 1/16 oz. \$4.55; 2+ \$4.15 each; 4+ \$3.75 each

## King Arthur Hybrid

**61 days.** Formerly known as Fat 'N Sassy. Varieties bred for early yields usually give up some of their size – not so with this one – it's unmatched for its large fruit size and early maturity. Sweet, crunchy, 4-lobed fruits are approx. 4½" by 4½", thick-walled and blocky. Plants grow to about 22" and perform well under a variety of conditions. Tolerant to most diseases.

#03144. (A) pkt. (25 seeds) \$5.45; 3+ pkts. \$4.95 each; (V) 100 seeds \$14.75; 2+ \$13.65 each; 4+ \$12.25 each

## King of the North

**68-70 days.** Excellent in short-season gardens of Northern climates due to early bearing. Huge, blocky shaped fruits are thick-walled, bright red and measure 6" by 4". Great for stuffing. Mild taste becomes even more mellow as the fruits mature.

#03174. (A) pkt. (25 seeds) \$2.95; 3+ pkts. \$2.75 each;  
(V) 100 seeds \$5.15; 2+ \$4.80 each; 4+ \$4.30 each

## Liberty Belle Hybrid

**73-78 days.** The naturally dwarf habit of this patio variety makes it outstanding for container gardening. Large, blocky bells, 4 to 5½" by 3½ to 4", are an attractive light green and mature to a gorgeous bright yellow. Very sweet peppers are great for stuffing, sautéing, roasting and using fresh. High yielding plants grow up to just 20" and withstand intense heat without fruit damage. Resistant to Tobacco Mosaic Virus.

#03169. (A) pkt. (10 seeds) \$4.65; 3+ pkts. \$4.25 each

## Majestic Red Hybrid

**70-75 days.** Large, 6 to 7", blocky peppers have a mild, sweet flavor, weigh 4 to 6 oz. each and are smooth with thick, crunchy walls. Fruits are heavy for their size – perfect for stuffing! – and mature from green to a bright candy-apple red. Medium to large plants provide good foliage cover. Highly resistant to TMV and Bacterial Spot.

#03175. (A) pkt. (15 seeds) \$4.05; 3+ pkts. \$3.65 each

## Merlot Hybrid

**68 days.** Rich, jewel-toned, 5" by 4" blocky fruits have gourmet eye-appeal, with crisp, thick walls and very sweet flavor. High-yielding plants mature early, are adaptable to cool weather conditions as well as hot and grows 18 to 24" tall with good protection. Especially resistant to Tobacco Mosaic Virus and Bacterial Leaf Spot.

#03190. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each;  
(D) 1/32 oz. \$9.95; 2+ \$9.20 each; 4+ \$8.30 each

## Mini Belle Blend

**60 days.** A festive, charming mix of tiny bell peppers, just 1¼", on 24" plants. Fruits have sweet, firm flesh that is surprisingly thick and flavorful. All peppers start out green and mature to a range of yellows and reds. Prolific yields. Resistant to Tobacco Mosaic Virus.

#03187. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each;  
(F) 1/16 oz. \$5.50; 2+ \$5.05 each; 4+ \$4.55 each

## Peppers of the Americas

By Maricel E. Presilla – a three-time James Beard Award-winning author and chef-restaurateur. Culinary peppers (and pepper-based condiments such as Sriracha and the Korean condiment Gochujang) continue to gain popularity as more consumers try more and more new varieties and discover their known health benefits. This stunning visual reference to peppers, now seen on menus and in markets, showcases nearly 200 varieties with physical descriptions, tasting notes, uses for home cooks and beautiful photographs for each. Also includes more than 40 popular Latin recipes for spice blends, salsas, sauces, salads, vegetables, soups and main dishes that highlight the big flavors and taste-enhancing capabilities of peppers. Hardcover. 352 pages.

#53551. \$34.95 each

## New Ace Hybrid

**65 days.** Earliness and high yields characterize this hybrid. Perfect for short growing seasons in the North. Deep green, large, 3-lobed fruits are nice fresh from the vine or for stuffing. Excellent resistance to Tomato Mosaic Virus and Tobacco Mosaic Virus.

#03189. (A) pkt. (20 seeds) \$3.65; 3+ pkts. \$3.35 each;  
(V) 100 seeds \$6.75; 2+ \$6.20 each; 4+ \$5.60 each

## North Star Hybrid

**60-65 days.** Extremely early and ideal for short-season areas. Deep green, 4½ by 3½" fruits turn bright red at full maturity. Plants are particularly well adapted to set blocky fruits even under unfavorable conditions. Tobacco Mosaic Virus resistant.

#03191. (A) pkt. (30 seeds) \$5.95; 3+ pkts. \$5.45 each

## Orange Blaze Hybrid

**65-70 days.** 2011 AAS Winner. Very sweet and early to mature, with multiple disease resistances. Gourmet-style, intense orange, 2 to 3-lobed fruits are 3 to 4" long and 1½" wide, shiny and blemish-free. Flavor and color peak at the same time, letting you time your harvests to perfection. An X3R® variety.

#03192. (A) pkt. (10 seeds) \$4.75; 3+ pkts. \$4.35 each

## Ozark Giant

**70-85 days.** Huge, 8" long, heirloom beauties! Eaten when red, fruits have a deliciously sweet flavor (can also be eaten green), are thick walled and juicy. Enjoy in salads, salsas and your favorite recipes. Sturdy plants have heavy foliage and should be supported as giant yields can weigh them down.

#03202. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each

## Purple Beauty

**70 days.** Perfect for gourmet chefs. Fruits are blocky, thick-walled and dark purple. Compact plants set heavily, with good cover to protect fruits from sunscald.

#03201. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each;  
(D) 1/32 oz. \$5.50;  
2+ \$5.05 each;  
4+ \$4.55 each

SHIELD® SAMURAI S10®

SNACKABELLE RED

SUMMER®  
SWEET #8610

SUPER  
HEAVYWEIGHT

## Recovery Hybrid

**60 days.** Vigorous plants have an open bush habit and produce smooth, blocky 4 by 4" sweet fruits with good firmness and thick walls. Peppers are very early and quick to mature to red under warm to hot temperatures and can be eaten at any stage. Widely adaptable for cool and warm growing conditions. Perfect for fresh markets. Heavy yielder. Highly resistant to Bacterial Leaf Spot.

#03227. (A) pkt. (20 seeds) \$4.65; 3+ pkts. \$4.25 each

## SHIELD® HYBRID SERIES

**70-75 days.** These beauties are ready to take on the latest growing challenges, most notably Bacterial Leaf Spot. Both show intermediate resistance to all 10 races of this serious pepper disease, which is especially important in the Eastern U.S. Both varieties feature wide adaptability, very high yield potential, fruit uniformity and a strong, vigorous plant habit. Extra large fruits grow up to 4½" long by 4" wide and weigh 8 to 12 oz. each. Blocky fruits are very firm, glossy, mature from dark green to red and have impressive holding ability. Plants have good leaf cover to protect the fruits. Ninja matures about 5 days later than Samurai, with slightly heavier fruits. Great for farmers markets. Highly resistant to Tobacco Mosaic Virus, as well.

Ninja S10® #02823.

Samurai S10® #02824.

Prices, above 2, per variety:  
(A) pkt. (10 seeds) \$4.45; 3+ pkts. \$4.05 each

## Snackabelle Red Hybrid

**70-75 days.** Thick-walled, 2 to 2¼", blunt-end peppers have a rich, sweet flavor that's great for fresh eating – green or red – holds up well through grilling and stuffing. Fruits have an "easy-out" stem and seeds – simply push down or cut around cap to release seed cavity for quick cleaning. Superior disease resistance includes Bacterial Leaf Spot Races 1-3, 7, 8 and Tobacco Mosaic Virus.

#03216. (A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each

## Summer Sweet® #8610 Hybrid

**73-83 days.** Well-branched plants produce heavy yields of big, blocky, 3½ to 4½", peppers that ripen from rich green to an attractive golden yellow. Smooth fruits are blemish-free and have a crisp, juicy texture and wonderful sweet flavor. Highly resistant to Bacterial Spot, Tobacco Mosaic Virus and Potato Virus Y. #03222. (A) pkt. (20 seeds) \$4.35; 3+ pkts. \$3.95 each

## Seed Starting & Potting Mixes

### Purple Cow Organics® Seed Starter Mix

OMRI Listed. Get seedlings off to a strong start. Compost based mix for seed starting in trays, blocks or small containers. Contains naturally occurring beneficial microorganisms and enough fertility for most transplants for up to 45 days – or until the roots begin to outgrow the space.

#54342. 12 Qts., \$19.95 each

#54343. 1 Cubic ft., \$34.95 each

### Ferti-lome® Organic Potting Mix

Perfect for growing the best tomatoes! This moisture controlled formula is great for all containers and growbags, indoors or out. Made from Mycorrhizae, worm castings, humic acids and slow release organic fertilizer.

#55217. 8 Qts., \$17.95 each

## Super Heavyweight Hybrid

**77 days.** Enormous fruits, weighing up to 9 oz. each, are thick-walled, blocky, marvelously sweet and crunchy. An eye-catching variety in the garden, this 6" by 5" bell is such a handful, you may need two hands to pick one up! Peppers ripen from green to gold and have thick flesh that's high in Vitamin C. Perfect for stuffing or eating fresh – green or yellow. Good yielder.

#03241. (A) pkt. (25 seeds) \$5.45; 3+ pkts. \$4.95 each

## Sweetie Pie Hybrid

**60-70 days.** 2017 AAS Winner. These small 3 oz. cuties are 2½ by 3", thick-walled, sweet and flavorful and can be eaten at both the green and red stages. Excellent fresh, grilled, stir-fried or stuffed. Compact plants have heavy yields – as many as 30 mini bells each! Perfect for containers and small space gardens.

#03234. (A) pkt. (20 seeds) \$3.65; 3+ pkts. \$3.35 each

## Tawny Port Hybrid

**70 days.** Beautiful, port wine colored fruits have an excellent, very sweet, flavor. Four lobed and very large, 4 by 5" bells are perfect for adding unique color to salads and stir-fries. Makes a beautiful stuffed pepper, too! Early and heavy yielding.

#03230. (A) pkt. (30 seeds) \$3.65; 3+ pkts. \$3.35 each;  
(D) 1/32 oz. \$10.50; 2+ \$9.70 each; 4+ \$8.70 each

## Tequila Hybrid

**75 days.** A true purple sweet bell, deep in color with early maturity. Its 3 to 4-lobed fruits mature to a medium red. Attractive fruits make excellent stuffed peppers and stir-fries. Resists Tobacco Mosaic Virus.

#03229. (A) pkt. (10 seeds) \$4.85; 3+ pkts. \$4.45 each

## Espoma® Organic Seed Starter Mix

A premium potting mix enhanced with Myco-tone™, a proprietary blend of 11 different strains of mycorrhizae, excellent for all seedlings and cuttings. Uses up to 30% less water than ordinary soils, improves transplant survival and growth and promotes bigger root growth for increased water uptake. Increases drought tolerance and other environmental stresses, improves soil structure and increases fertilization utilization.

#54395. 8 Qts., \$15.95 each

SWEETIE PIE

TAWNY PORT

TEQUILA

### Trifecta Hybrid

**50-65 days.** Extra-large, blocky, 3½" by 3½", dark green fruits turn scarlet red and have brilliant color inside and out. Delicious, thick-walled bells are perfect for stuffing, grilling and for fresh eating. Perfect for market growers. Strong plants produce high yields and have good leaf cover to protect fruits. Highly resistant to Tobacco Mosaic Virus and Tomato Spotted Wilt Virus.

#03233. (A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each

### Valahia Hybrid

**65-70 days.** Blocky, 3 to 4-lobed, ivory-yellow, attractive bells weigh up to 7 oz., measure approx. 3" by ¾" and mature to deep red. Uniform fruits have medium thick walls and a deliciously sweet flavor at both stages of maturity. Upright, vigorous plants produce high yields. Highly resistant to Tobacco Mosaic Virus, Tomato Mosaic Virus Race 2 and Blossom End-Rot.

#02826. (A) pkt. (15 seeds) \$4.05; 3+ pkts. \$3.65 each

## Sweet Non-Bells ...

### Alma Paprika

**70-80 days.** Paprika is a kitchen staple that's easy-to-grow and process. One of the best for drying, grinding or picking straight from the prolific plants and eating fresh. Flavor is mildly peppery and very sweet. Thick-walled fruits start out creamy-white to orange and finally maturing to red.

#03102. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

### Aruba Hybrid

**65 days.** A cubanelle-type pepper producing unique, elongated, 3 to 4-lobed fruits up to 10" long, with a distinctive flavor that is mildly sweet and fruity with a hint of heat. Perfect for salads and stir-fries. Peppers mature from lime-green to orange to red to chocolate. A vigorous yielder.

#03103. (A) pkt. (25 seeds) \$4.65; 3+ pkts. \$4.25 each; (V) 100 seeds \$13.75; 2+ \$12.70 each; 4+ \$11.40 each

### Biscayne Hybrid

**63 days.** An improved cubanelle with 5", blocky, 3 to 4-lobed fruits that have thicker walls than the older varieties. Other improvements are an earlier maturity, more prolific yields and a flavor that's sweeter than open-pollinated types.

#03221. (A) pkt. (30 seeds) \$5.95; 3+ pkts. \$5.45 each; (V) 100 seeds \$12.95; 2+ \$11.95 each; 4+ \$10.75 each

### Candy Cane Red Hybrid

**60-65 days.** These unique sweet beauties will stand out at roadside stands and gardens. Elongated, 3½ to 4" by 1¼ to 1¾", fruits ripen from green with creamy white stripes to solid red. Thin walls and crispy texture make it perfect for fresh eating at any stage of ripeness. Plants have unusual variegated foliage giving them an ornamental look and are ideal for patio containers and small space gardening.

#03118. (A) pkt. (10 seeds) \$4.25; 3+ pkts. \$3.85 each

CHERRY PICK

### Yellow Monster

**70 days.** Harvest yields of giant, elongated fruits. Strong 27" plants bear sweet, meaty, enormous fruits that can grow up to 8" long and 4" wide. As the fruits mature from green to bright sunny yellow the sweet flavor intensifies. Perfect fresh, fried, stuffed or roasted.

#03235. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

## "GREAT 8" COLLECTION

One packet each of our eight largest bells: Big Bertha & Chinese Giant (pg. 41), Early Sunsation & King Arthur (pg. 42), King of the North & Ozark Giant (pg. 43), Sweet Goliath (pg. 9) & Yellow Monster. #04235(X). 8 pkts. for just \$26.45 SAVE 20%

### Carmen Hybrid

**60 days.** 2006 AAS Winner. A distinctive horn-shaped Italian pepper with a delightful flavor that's noticeably sweeter than other varieties, raw or cooked. Firm, tapered fruits grow to approx. 5 oz., 6" long and 2½" wide at the shoulders and mature from green to red on upright, leafy plants. Excellent yields, widely adaptable, reliable and easy-to-grow.

#03127. (A) pkt. (15 seeds) \$4.25; 3+ pkts. \$3.85 each; (V) 100 seeds \$15.45; 2+ \$14.30 each; 4+ \$12.90 each

### Cavalcade Hybrid

**65-70 days.** If you're a fan of Pageant (pg. 48), you're going to love this one. Smooth, slender fruits retain their bright yellow color longer providing flexibility in harvest. Thick walled peppers, 7½" by 1½" wide, mature to bright red and are ideal for eating fresh or for pickling. Widely adaptable and high yielding. A great variety for container gardening.

#03107. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.65 each

### Cherry Pick Hybrid

**68 days.** Fruits measure 1¼" by 1¼" and are uniform in size and shape. Yield is superb, with tall, 24", vigorous plants setting loads of sweet, dark green fruits that mature to red, although normally harvested in the green stage. Makes excellent pickled peppers. Disease resistant and about 25% larger than the old strains.

#03126. (A) pkt. (20 seeds) \$5.25; 3+ pkts. \$4.75 each; (V) 100 seeds \$13.35; 2+ \$12.40 each; 4+ \$11.20 each

### Chervena Chushka

**80 days.** In trials, this Bulgarian heirloom was one of the sweetest. Large tapered fruits measuring 2" wide by 6" long, ripen from green to light-brown to candy apple red. Traditionally, these peppers are used for roasting, but they are also great used fresh. Plants are very productive.

#03124. (A) pkt. (25 seeds) \$3.10; 3+ pkts. \$2.80 each

# With A Not So Traditional Look!

## Corbaci

**75 days.** Slender, sweet, 10 to 12" unique fruits change from light green, to yellow, to orange and finally to bright red. A perfect choice for fresh eating, pickling or frying, this rare heirloom is from Turkey and has a very rich, sweet flavor. Harvest edible green fruits in as little as 55 days or allow to fully mature at 75 days. Plants should be staked as very heavy yields will cause the plants to fall over.  
#03125. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each

## CORNITO HYBRID SERIES

**75 days.** Cornitos are only 5" long and 1 to 1½" wide at the shoulders, very early, deliciously sweet and attractive smaller versions of Carmen (pg. 45) and Escamillo, with similar maturity. Perfect for grilling and roasting just like their full-size counterparts or eating fresh. Strong, sturdy plants yield prolifically all season long.

**Giallo** #03117. 2016 AAS Winner. **Rosso** #03122.  
Prices, above 2, per variety:  
(A) pkt. (25 seeds) \$5.25; 3+ pkts. \$4.75 each

CORNITO GIALLO

**Corno di Toro Red**  
**72 days.** Heirloom "Horn of the Bull" pepper imported from Italy. Fruits are 8 to 10" long and curved much like its namesake. Ripens to a gorgeous red cone at maturity with superb taste and size. Tall plants are very vigorous.  
#03134. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each;  
(D) 1/32 oz. \$5.95; 2+ \$5.50 each; 4+ \$4.90 each

CORNITO ROSSO

**CREST HYBRID SERIES**  
**50-60 days.** Medium, thick walled, Japanese conical-type sweet peppers are 6 to 7" long. Semi-upright plants produce smooth, tapered 4 oz. deliciously sweet fruits that mature early. Good leaf canopy provides protection from sunscald. Highly resistant to Tobacco Mosaic Virus, Tomato Mosaic Virus and Pepper Mild Mottle Virus.

**Red** #03135. **Yellow** #03136.  
Prices, above 2, per variety:  
(A) pkt. (15 seeds) \$4.75; 3+ pkts. \$4.35 each

## Cubanelle

**65 days.** Sweet Italian frying type with a delicious taste. Long, green, thick-skinned fruits have 2 to 3 lobes and turn yellow, then bright red at maturity. Peppers measure about 5½" long by 2½" wide and are tasty when fried in olive oil.

#03139. (A) pkt. (100 seeds) \$3.15; 3+ pkts. \$2.85 each;

## Escamillo Hybrid

**77 days. 2016 AAS Winner.** Eye-catching corno di toro-type, 6 oz. golden yellow fruits are big and bold, growing up to 8" long with broad, 2½" shoulders. Peppers have a deliciously sweet flavor and are excellent raw, cooked, sautéed, stuffed or fire roasted. Peppers are held high on the plant, minimizing rot and making them easier to harvest. Plants are compact and high yielding.

#03146. (A) pkt. (15 seeds) \$5.25; 3+ pkts. \$4.75 each

## Corno di Toro Red

**72 days.** Heirloom "Horn of the Bull" pepper imported from Italy. Fruits are 8 to 10" long and curved much like its namesake. Ripens to a gorgeous red cone at maturity with superb taste and size. Tall plants are very vigorous.  
#03134. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each;  
(D) 1/32 oz. \$5.95; 2+ \$5.50 each; 4+ \$4.90 each

FELICITY

## Gypsy Hybrid

**60 days. 1981 AAS Winner.** An extremely early, heavy producer of wedge-shaped, tasty, 4" long by 2" wide peppers with sturdy walls and crunchy, firm, sweet flesh. A very reliable yielder all season long. Plants grow to 18" tall. Tobacco Mosaic Virus resistant.

#03163. (A) pkt. (25 seeds) \$4.75; 3+ pkts. \$4.35 each;  
(V) 100 seeds \$11.25; 2+ \$10.45 each; 4+ \$9.45 each

## Habanada

**70-90 days.** A heatless habanero with an irresistible tropical flavor. Extremely productive plants produce 2 to 3" fruits that ripen from lime green to fluorescent orange and can be eaten at any stage. Excellent sautéed, pickled, roasted or fresh. Bred by Dr. Michael Mazourek of Cornell University.

#03162. (A) pkt. (15 seeds) \$3.75; 3+ pkts. \$3.45 each

## Hungarian Cheese Mix Hybrid

**65-68 days.** This fun mix is very early maturing, yet sets continuous high yields. Peppers hang like ornaments on top of prolific, 18 to 24" plants. Fruits are flattened and round, with flutes around the stem end and unlike other mini-sweet peppers they have thick walls. Harvests have a long shelf life and are the perfect shape for stuffing. They also are great for salsa, fresh eating, canning or pickling – even use them as bowls for individual dip cups. Suitable for garden or container growing.  
#03215. (A) pkt. (20 seeds) \$4.85; 3+ pkts. \$4.45 each

## Jimmy Nardello's

**80-90 days.** A sweet frying pepper that grows 8 to 10" long and is mild, sweet and just a little spicy. Tapered fruits, on bushy plants, turn bright red at maturity. Flavor is distinctive but not overwhelming. A favorite for cooking and eating raw.

#03167. (A) pkt. (30 seeds) \$3.05; 3+ pkts. \$2.75 each;  
(D) 1/32 oz. \$5.95; 2+ \$5.50 each; 4+ \$4.90 each

## Just Sweet Hybrid

**65-75 days. 2019 AAS Winner.** Attractive, unique snacking peppers are 4-lobed and look like elongated miniature bells. Fruits are approx. 3" long, have thick walls and crispy, delicate skin that's an exceptionally bright, shiny golden yellow, sometimes with hints of orange. Flavor is both sweet and tart with aromatic accents. Great eaten fresh, sautéed and stuffed. Plants are vigorous growers, up to 36" tall, and have been bred to have a strong, upright, bushy habit. Highly resistant to Tobamovirus.

#03166. (A) pkt. (10 seeds) \$4.85; 3+ pkts. \$4.45 each

## Lunchbox Mix

**75-83 days.** Equal amounts of red, yellow and orange snack peppers make up this colorful mix. Beautiful, mini-sized, 2 to 3" fruits are remarkably sweet and flavorful, with red being slightly smaller and noticeably sweeter. Delicious fresh as a

healthy snack, in salads or sautéed. Enjoy green fruits in just 55 days. Strong plants yield well.

#03177. (A) pkt. (15 seeds) \$4.65; 3+ pkts. \$4.25 each

MELROSE

jalapeños – no gloves needed for chopping or slicing! Attractive fruits are 3" long, ripen from green to red and are great for fresh use, stuffing and roasting. Sturdy plants produce heavy yields. Bred by A. P. Whaley Seed Company.

#03194. (A) pkt. (25 seeds) \$3.15; 3+ pkts. \$2.85 each

### Pageant Hybrid

**60-65 days.** This beauty comes in first place with its quality fruits, disease resistance and high yields! A sweet banana-type producing multiple harvests of beautiful yellow, 6 to 7" long fruits all season long. Vigorous plants support elongated fruits well above the soil. Thick walled peppers are great fresh, broiled, grilled and pickled. Resistant to Bacterial Leaf Spot.

#03197. (A) pkt. (20 seeds) \$4.15; 3+ pkts. \$3.75 each

### Pimento L

**95-100 days.** One of the mildest pimento-types. Heart-shaped fruits mature from dark green to deep red. Ideal for salads, garnishes and canning. Compact, 18" plants produce high yields. Tobacco Mosaic Virus resistant.

#03200. (A) pkt. (100 seeds) \$5.35; 3+ pkts. \$4.85 each

### Pimiento Elite Hybrid

**75 days.** The first hybrid version of the pimento pepper, with extra-heavy yields of thick-walled fruits measuring 3" long by 3½" across. Fruits, less heart-shaped than Pimento L, are more oblong or oval.

#03199. (A) pkt. (30 seeds) \$5.45; 3+ pkts. \$4.95 each

### Sheepnose Pimento

**80 days.** A tried-and-true heirloom. Pimento-shaped, 3 by 4" fruits are very sweet and meaty, making them ideal for canning, freezing and eating fresh. Plants are very productive and fruits keep for weeks in the refrigerator.

#03212. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each; (D) 1/32 oz. \$5.95; 2+ \$5.50 each; 4+ \$4.90 each

### Sweet Banana 🔥

**66 days.** One of the most popular peppers, excellent fresh or cooked! Thick-walled, pendant fruits with sweet, mild, waxy flesh start out a pale green, ripen to yellow, then red. Prolific plants grow 16 to 24".

#03217. (A) pkt. (100 seeds) \$2.95; 3+ pkts. \$2.75 each; (F) 1/16 oz. \$4.95; 2+ \$4.60 each; 4+ \$4.10 each

### Sweet Cayenne

**75 days.** Sweet and Cayenne – two words that aren't typically used together! Unique, cayenne-shaped sweet peppers have crunchy thin-walls and grow up to a whopping 12" long! Excellent in stir-fries. Plants produce high yields of fruits that mature from green to red. This variety has it all – except the heat!

#03223. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$5.50; 2+ \$5.05 each; 4+ \$4.55 each

### Sweet Red Habanero

**80-85 days.** Habaneros have continually gained popularity among hot pepper lovers, but there are some that love the flavor they're known for, they just can't take the heat! If you're one of those people, you'll definitely want to try this heatless beauty. Attractive red, lantern-shaped peppers have the same fruity flavor as their hot cousins, but without the scorching heat and they mature slightly earlier than standard habaneros. Plants are eye-catching grown in containers on the patio.

#03226. (A) pkt. (30 seeds) \$4.45; 3+ pkts. \$4.05 each

### Sweet Sunset Hybrid

**85-90 days. 2015 AAS Regional Winner.** Colorful, thick-walled banana peppers range from yellow to orange to red. Attractive fruits are great fresh, as well as for frying, pickling or cutting into rings for salads, sandwiches and pizza toppings. Compact, upright plants do not require staking making them perfect for container and small space gardening. High-yielding plants are vigorous, produce early, often and continue late into the season. An X3R® variety.

#03218. (A) pkt. (15 seeds) \$4.45; 3+ pkts. \$4.05 each

### Tennessee Cheese

**82 days.** An ancient heirloom recovered from seeds donated by a couple living in Kingston, Tennessee. Originally from Spain, where it is still used as a staple in many dishes. Fruits are round, apple or tomato-shaped, with a flattened base and a thick, delicious skin. Perfect for stuffing like a bell, fresh, pickled, canned or dried for paprika.

#03228. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each; (D) 1/32 oz. \$5.95; 2+ \$5.50 each; 4+ \$4.90 each

### Tricked You Hybrid

**90 days.** An improved version of our very popular Fooled You (pg. 46) that has become a favorite in its own right. Easy-to-grow, 4" fruits have excellent jalapeño flavor without the heat. Great for combining with hot jalapeños to customize the level of heat in homemade salsa and hot sauce. An X3R® variety.

#03090. (A) pkt. (15 seeds) \$5.45; 3+ pkts. \$4.95 each

### Whitney Hybrid

**65 days.** How sweet it is! This magnificent stuffer puts all similar varieties to shame. Thick walls do the job to perfection, but instead of the tough, bland fruits typical of many stuffers, these tapered, 5" peppers are super-sweet and delicious. One of the earliest Hungarian-types on the market, delivering heavy yields of 8 oz. fruits turning from cream to gold and finally to a bright red.

#03239. (A) pkt. (15 seeds) \$4.25; 3+ pkts. \$3.85 each

### Yummy Orange Hybrid

**73 days.** Large, sturdy plants continuously set loads of petite, 2½" by 1¼" fruits. These tender-crisp, super sweet, nearly seedless delights are perfect for vegetable trays, used with dips, stuffed with cheese or grilled on skewers. Keeps well for a long time without refrigeration.

#03240. (A) pkt. (15 seeds) \$4.45; 3+ pkts. \$4.05 each

# Hot Peppers – From Mildly Spicy...

**PLEASE NOTE:**  
Seeds & fruits can be very hot!  
Handle with care.

## Aji Dulce #2

**85-90 days.** Attractive peppers look just like a fiery hot, red habanero, have a similar aroma and flavor but without all the heat! Fruits have medium thick flesh and a nice fruity flavor that has only a hint of heat even when you use seeds and all. Popular in Central and South America for dishes that require that great habanero flavor but much lower levels of heat. Tall plants are very sturdy and produce an abundant harvest.  
**#03101. (A) pkt. (15 seeds) \$3.95; 3+ pkts. \$3.65 each**

## Aji Rico Hybrid

**60-70 days. 2017 AAS Winner.** Thin-walled, crunchy, 3 to 4" fruits have a delicate, refreshing citrus flavor combined with a pleasing amount of medium heat. Narrow, conical shaped fruits mature from green to red and can be eaten at any stage. This unique hybrid matures earlier, has more plant vigor and is more productive than comparable open-pollinated types. Perfect for eating fresh, in salsas and making hot sauces. Also dries well for a flavorful homemade spicy paprika.  
**#03752. (A) pkt. (10 seeds) \$4.75; 3+ pkts. \$4.35 each**

## Anaheim Chili

**75 days.** One of the most popular chili peppers. Two-celled, medium-hot fruits, with medium thick, dark green flesh, ripen to bright red. Continuous bearing, high yielding, vigorous, 24 to 30" plants are bushy and upright, providing good foliage cover.  
**#03001. (A) pkt. (100 seeds) \$2.95; 3+ pkts. \$2.75 each; (F) 1/16 oz. \$4.95; 2+ \$4.60 each; 4+ \$4.10 each**

## Bambino Hybrid

**80 days.** Perfect for bite-sized poppers. Spicy, small to medium sized, 2½", jalapeño fruits are thick-walled, dark green and very uniform. Originally developed for the processing pepper market for growers in hot and humid conditions, but does equally well in home gardens. Strong, upright compact plants are exceptionally high yielders. Perfect for farmers markets and roadside stands. Intermediate resistance to Bacterial Leaf Spot Races 1-3.  
**#03050. (A) pkt. (10 seeds) \$3.75; 3+ pkts. \$3.45 each**

## Big Jim

**75-80 days.** Released by New Mexico State University. One of the largest of the chile peppers, with mildly hot fruits measuring

10 to 12" long and weighing up to 4 oz. Excellent for Chiles Rellenos. Sturdy 24 to 36" plants yield 24 to 30 peppers per plant which tend to ripen all at the same time.  
**#03008. (A) pkt. (50 seeds) \$3.15; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$4.95; 2+ \$4.60 each; 4+ \$4.10 each**

CAJUN BELLE

BURNING BUSH

## Biggie Chile™ Hybrid

**68 days. (Sahuaro Cultivar)** An improved Big Chile II with stronger plants and a heavier leaf canopy that protects fruits from sunscald. It has the same great qualities as Big Chile II – early maturity, huge yields, impressive, thick walled fruits up to 9" long and a mild rating of 500 Scovilles on average. Light green fruits will mature to a bright red if left on the vine. Great for roasting or slicing to add the perfect zest to pizzas or salads. Resistant to Pepper Mild Mottle Virus.  
**#03009. (A) pkt. (20 seeds) \$5.15; 3+ pkts. \$4.65 each; (V) 100 seeds \$16.25; 2+ \$15.05 each; 4+ \$13.55 each**

AJI DULCE #2

AJI RICO

ANAHEIM CHILI

BAMBINO

## BIQUINHO SERIES

**90-95 days.** Commonly referred to as "Little Beak" peppers. Tapering to a point, adorable little 1" fruits look like an inverted teardrop. Rates just 500 to 1,000 Scovilles – for a dash of spice, consider adding to your favorite dish. Great raw, cooked or pickled.

Makes a unique garnish, as well.

### Red

Bright red fruits have a slightly smoky flavor with a very mild hot fruitiness.  
**#03005.**

### Yellow

Brilliant yellow fruits have a light tart lemony flavor with a slight hot twist.  
**#03007.**

**Prices, above 2, per variety:**

**(A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each**

## Buena Mulata

**75 days.** Stunning heirloom plants are extremely ornamental and produce loads of round, tapered fruits that are 6" long. Pods ripen from violet to brown to deep-red – as fruits ripen to red they will get sweeter and meatier. Heat level is similar to a cayenne and great for fresh use or drying. Perfect in the garden or in containers. Traces back to the early 20th century to Horace Pippin, an African American folk artist.

**#03766. (A) pkt. (25 seeds) \$3.10; 3+ pkts. \$2.80 each**

## Burning Bush™ Hybrid

**85-100 days.** Connoisseurs of hot peppers know that the best varieties temper heat with a touch of sweet. This one gets it exactly right, with a pleasant aftertaste to the medium-large fruits but plenty of fire at the leading edge. Strong plants produce excellent sets of firm fruits that mature green to orange, averaging 1½" by 3" in length. The earliest-maturing variety of its type on the market, up to 3 weeks earlier, with a Scoville rating of 15,000 to 20,000.  
**#03022. (A) pkt. (15 seeds) \$4.45; 3+ pkts. \$4.05 each**

## Cajun Belle

**61 days. 2010 AAS Winner.** The perfect combination of mildly spicy, but still sweet flavor makes this the perfect choice to add zing to salsas, salads and stir-fry dishes. Fruits ripen green to red and can be eaten at either stage. Uniform plants reach 24" in width and height, producing plentiful yields of firm-walled fruits that average 3½ to 4" at maturity. Space plants 14 to 18" apart in full sun for best results.  
**#03019. (A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each**

BIG JIM

BIGGIE CHILE™

### Carranza Hybrid

**90 days.** Gardeners looking for a dual purpose pepper should consider this variety. Unlike most peppers, anchos/poblanos prefer cool growing conditions – not this variety – it was specially bred for performing in the heat. Large, 7" by 3", mostly 2 lobed fruits have a classic poblano shape. Mildly spicy fruits have a Scoville rating of approx. 500. Compact plants make harvesting easier. High yielding. Perfect for farmers markets. Intermediate resistance to Root-Knot Nematode.

#03769. (A) pkt. (10 seeds) \$3.85; 3+ pkts. \$3.55 each

### Cayenne Large Red Thick

**75 days.** Quite hot, thick-fleshed, 6" by 3/4" fruits are a favorite for using dried, pickled or in sauces. Concentrated sets of pendant fruits – wrinkled, tapered and curved – are borne on strong upright plants. Ripens from a lustrous dark green to a brilliant scarlet.

#03016. (A) pkt. (100 seeds) \$3.25; 3+ pkts. \$2.95 each; (F) 1/16 oz. \$4.95; 2+ \$4.60 each; 4+ \$4.10 each

### Cayennetta Hybrid

**69 days.** 2012 AAS Winner. Attractive in containers or patio gardens with a prolific display of colorful, cascading fruits that are protected from sun scorch by the dense canopy of foliage. Elongated, mildly spicy, 3 to 4" green fruits mature to glossy red. An all-around good choice for home gardeners.

#03012. (A) pkt. (10 seeds) \$5.25; 3+ pkts. \$4.75 each

### Count Dracula

**110 days.** Jet black leaves and purple flowers create a striking display on sturdy, 2 ft. plants. Adding to the drama are 2" long, black fruits which ripen to blood red. With a rating of 25,000 Scovilles, these spicy hot peppers definitely have a bite.

#03006. (A) pkt. (10 seeds) \$4.75; 3+ pkts. \$4.35 each

### Craig's Grande Jalapeño

**70 days.** A great garden staple for jalapeño lovers. Large, 3 to 4" long fruits weigh 3 oz. and have thick flesh making them great for stuffing, roasting, drying, pickling or using fresh. Matures from green to red when they are at their hottest. Short, stocky plants are loaded with hefty fruits from mid-summer up until frost.

#03759. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

## Kitchen Helpers

### GRIP-EZ® Pepper Corer

Serrated edge and sharp inner teeth easily removes core and seeds from peppers. Stainless steel blade with a soft santoprene handle. Measures 8" long. Great for small to medium size peppers. Dishwasher safe.

#54058. \$9.95 each

### Pepper Popper Pan

Create your own tasty jalapeño appetizers with no trans fats and low carbs! Cast iron, 9" pan is pre-seasoned with a rust proof coating and has eight pepper shaped wells. Can be used on stove tops, grills, campfires or in the oven. Easy cleanup. Instructions and recipes included – try filling pepper halves with cream cheese and wrapping them in bacon. Yum! #54054. \$22.95 each

DRAGON GRILLING

EARLY JALAPEÑO

EMERALD FIRE

FISH

### Devil Serrano

**73 days.** High yields of dark green, finger-sized, glossy fruits begin to mature early so you can enjoy them all season, but be prepared – with a rating of 6,000 Scoville units, it's quite hot. Prized for its vigorous habit and extended shelf life, both in the U.S. and Mexico. Semi-determinate plants are easy to harvest, with less sprawl and a more efficient use of garden space.

#03080. (A) pkt. (20 seeds) \$4.35; 3+ pkts. \$3.95 each

### Dragon Grilling Hybrid

**75-80 days.** A unique hybrid selected from Shishito and Padron peppers, combining the best traits from both varieties to get the perfect grilling, roasting or stir-fry pepper. Fruits are not spicy when picked young, tender and green at less than 2" long, however, when fruits are fully matured to red, they can be quite spicy, similar to a jalapeño. Red pods can also be dried and used for mild to medium chile flakes. Plants are high yielding.

#03765. (A) pkt. (25 seeds) \$3.45; 3+ pkts. \$3.15 each

### Early Jalapeño

**60-65 days.** Ideal for Mexican dishes. Deep green, sausage-shaped, 3 1/2" by 1 1/2" fruits mature to red and are great for pickling, too. Just like Jalapeño, but earlier and better adapted to cool, coastal conditions. Compact, non-brittle bushes.

#03028. (A) pkt. (100 seeds) \$2.85; 3+ pkts. \$2.65 each; (F) 1/16 oz. \$4.95; 2+ \$4.60 each; 4+ \$4.10 each

### Emerald Fire Hybrid

**90 days.** 2015 AAS Winner. Compact plants boast extra large, 3 1/2", very tasty, jalapeño fruits with 2,500 Scoville units. Perfect for stuffing, grilling or using in salsa. Thick walled with very little cracking, even after maturing to red. A high yielding X3R® variety featuring better disease resistance than similar types.

#03039. (A) pkt. (15 seeds) \$4.75; 3+ pkts. \$4.35 each

### Fish

**90 days.** An heirloom considered by many to be the best variety to use when cooking fish and shellfish. High yields of very hot, pointed fruits, about 1 1/2" long, range from white with green stripes, to orange with brown stripes, to a brilliant red – some deep purple, too. Plants, 18 to 24", feature decorative green and purple foliage splashed with white and makes an attractive ornamental, as well.

#03033. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each; (D) 1/32 oz. \$5.95; 2+ \$5.50 each; 4+ \$4.90 each

## Garden Salsa Hybrid

**73 days.** A chile pepper developed specifically to capitalize on the growing popularity of Mexican salsas. Fruits are 8" long by 1" across, usually picked green for salsa (they mature red) and classed as medium-hot. Peppers, 2,500 to 3,000 Scovilles, get hotter in dry weather. Resists Tobacco Mosaic Virus.

#03036. (A) pkt. (25 seeds) \$5.45; 3+ pkts. \$4.95 each; (V) 100 seeds \$13.95; 2+ \$12.90 each; 4+ \$11.60 each

## Gong Bao Hybrid

**85 days.** Named for the popular Chinese dish, the slender, thin-walled, 3 to 5" long peppers have a deliciously spicy flavor. Peppers have a Scoville rating of 3,000 to 6,000 and can be used fresh or cooked – also easy to dry for use throughout the year. High yielding plants set fruit continuously.

#03075. (A) pkt. (15 seeds) \$5.45; 3+ pkts. \$4.95 each

## Hernandez Hybrid

**75 days.** Classic fresno-type chili peppers have a distinctive, mild to medium heat. Very attractive, bright red, conical, 2 to 3" fruits have thick, delicious flesh that develops a fruitier and smokier flavor as they mature. Excellent for eating fresh, in sauces, stuffed or roasted – green peppers are great for pickling. Sturdy plants grow up to 24" and produce abundantly.

#03775. (A) pkt. (30 seeds) \$4.35; 3+ pkts. \$3.95 each

## Holy Molé Hybrid

**85 days.** 2007 AAS Winner. Gourmet quality fruits are bright green at early maturity, then darken to warm brown over the next 2 weeks. Crunchy fruits reach 7 to 9" in length and 1½" in width. Not overly spicy at just 700 Scovilles and used as a staple in Mexico's famous Molé sauce and many other dishes. Early crops are most often sliced for toppings and baking, while the dark brown, fully mature fruits can be dried and ground. Sturdy 3 ft. plants produce multiple harvests.

#03046. (A) pkt. (20 seeds) \$4.95; 3+ pkts. \$4.55 each

## Hot Sunset Hybrid

**85 days.** 2015 AAS Winner. Banana pepper lovers who desire a prolific and earlier harvest of delicious and spicy fruits with 600 to 800 Scovilles, are sure to make this X3R® variety a favorite. Thick-walled peppers have a great flavor, unlike other hot peppers where heat is all you get. Vigorous plants produce tasty and attractive fruits, up to 7", all season long. Perfect fresh, grilled, roasted or pickled.

#03054. (A) pkt. (15 seeds) \$4.85; 3+ pkts. \$4.45 each

## Hungarian Yellow Wax

**67 days.** Spicy, fairly hot, banana-shaped fruits are 6" long and 1½" across and are perfect for pickling. Matures from light yellow to bright red. Best hot pepper for cooler climates. Ever-bearing plants are 16 to 24" tall, strong and upright.

#03045. (A) pkt. (100 seeds) \$3.15; 3+ pkts. \$2.85 each; (F) 1/16 oz. \$5.50; 2+ \$5.05 each; 4+ \$4.55 each

## Inferno Hot Banana Hybrid

**60 days.** Early, high yielder produces big, 8" by 1½" fruits that are ultra-smooth, with outstanding flavor – just hot enough to taste good with everything. Matures from yellow to red.

#03048. (A) pkt. (20 seeds) \$4.95; 3+ pkts. \$4.55 each; (V) 100 seeds \$15.95; 2+ \$14.75 each; 4+ \$13.25 each

## La Bomba Hybrid

**56 days.** A high-quality jalapeño with good flavor and medium heat. Large, 2¾" long by 1" wide, dark green fruits have thick walls with little to no etching and are great fresh or used for poppers. Strong, upright plants have a sturdy main stem for easy harvest, plus a dense leaf canopy to help prevent sunscald. Resists Potato Virus Y. Good for container gardening.

#03057. (A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each

## Longhorn Hybrid

**85-95 days.** Long, 6 to 9" fruits are much larger than comparable varieties and have an unusual curl at the end – hence the name Longhorn. Peppers have an excellent spicy flavor with a Scoville rating of just 15,000 to 20,000. Vigorous plants can be grown in containers, but will require support due to the large volume of fruit.

#03782. (A) pkt. (10 seeds) \$3.75; 3+ pkts. \$3.45 each

## Mad Hatter Hybrid

**65-75 days.** 2017 AAS Winner. Judges were impressed with this plant's vigor, earliness, high yields, large fruits and awesome taste. Uniquely shaped, specialty peppers, 2 to 3½" by 2 to 2½", have a delicate floral scent and rich flavor that intensifies as it matures. In hot, dry climates some fruits will have a touch of heat close to the seed cavity, but the 'wings' are always sweet. Excellent fresh, pickled or stuffed. Plants are very productive, yielding more than similar open-pollinated varieties.

#03178. (A) pkt. (10 seeds) \$4.65; 3+ pkts. \$4.25 each

## Mariachi Hybrid

**66 days.** 2006 AAS Winner. Delicious, mild, fleshy, 4" by 2" fruits are low in pungency and have a Scoville rating of just 500 to 600 when grown under non-stressful conditions. Fruits mature red but are usually harvested yellow. Ready a full 10 days earlier than most other chile types. Delicate gourmet flavor with fruity overtones lends itself well to cooking, grilling, pickling and salads. Widely adaptable, 24" plants set fruits continuously.

#03058. (A) pkt. (20 seeds) \$5.45; 3+ pkts. \$4.95 each

MEXIBELL

MEXICAN SUNSET

MUCHO NACHO

PAQUIME

PEPERONCINO,  
GOLDEN GREEK

PETER, RED

### Mexibell Hybrid

**70 days. 1988 AAS Winner.** A bell pepper with a mild chile flavor? Absolutely! Plants grow up to 26" tall, bearing lots of 3 to 4-lobed fruits with firm flesh. Peppers ripen from green to chocolate to red and can be eaten at any stage. Tolerant to Tobacco Mosaic Virus.

#03056. (A) pkt. (30 seeds) \$4.35; 3+ pkts. \$3.95 each

### Mexican Sunset Hybrid

**60-65 days. 2018 AAS Winner.** Thick-walled, conical 6 to 7" hungarian-type, hot wax peppers mature from pale green to light yellow to orange and finally to a bright red. Spicy fruits have an average of 9,000 to 10,000 Scovilles and can be eaten at any stage. Delicious fresh, stuffed, baked, grilled or pickled. Highly ornamental, compact, bushy plants set fruits early and prolifically, creating a brilliant display of colors as they mature. Perfect for containers and small space gardens. TMV resistant.

#03746. (A) pkt. (25 seeds) \$3.55; 3+ pkts. \$3.25 each

### Mucho Nacho Hybrid

**68-70 days.** A mucho impressive jalapeño from Mexico, with a big and powerful taste! Jumbo, 4" fruits are fatter, thicker, heavier, a bit hotter, 1" longer than regular jalapeños and are usually used green (they mature red). Vigorous, high yielding plants set fruits about a week earlier than is typical of jalapeños.

#03059. (A) pkt. (20 seeds) \$4.75; 3+ pkts. \$4.35 each

### Paquime Hybrid

**70 days.** Consistently produces super-sized jalapeños that grow to nearly 5"! Fruits have a subtle to medium heat that doesn't linger on the tongue and become overwhelming. High quality peppers are smooth, firm and have thick walls that are the perfect size and shape for stuffing, grilling or for poppers. Sturdy plants grow up to 24" and easily support the heavy fruit load. Highly resistant to Potato Virus Y. Intermediate resistance to Root-Knot Nematodes.

#03787. (A) pkt. (15 seeds) \$4.45; 3+ pkts. \$4.05 each

### Peperoncino, Golden Greek

**72 days.** You've seen these peppers pickled in gourmet shops and on salad bars. Abundant yields of thin, yellowish-green fruits, 2 to 4" long, are mildly hot with excellent flavor. Harvest when fruits are at the green stage. Vigorous plants grow to 30" tall.

#03195. (A) pkt. (30 seeds) \$3.10; 3+ pkts. \$2.80 each;  
(D) 1/32 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each

### Peter, Red

**90 days.** The original strain from the Alfreys. Demand has continued to far exceed supply of this ornery old heirloom, grown as much to shock the prudish as for its culinary value! Pods are 4 to 6" long, blunt-ended and mature to a deep red – excellent for chili powder. Dense plants grow 20 to 30" tall.

#03071. (A) pkt. (10 seeds) \$3.75;  
3+ pkts. \$3.45 each

PRIMERO RED HABANERO

Phone Toll-Free (800)345-5977

### Primero Red Habanero Hybrid

**75-80 days.** Big, bright red, 2 to 3½" beauties are larger than typical habaneros with about one third of the heat – enjoy traditional habanero flavor without the extreme burn! One of the earliest maturing habaneros available on today's market. Great fresh, roasted and in salsas. Excellent for container gardening. Huge yielder. Intermediate resistance to Tomato Spotted Wilt Virus.

#03789. (A) pkt. (10 seeds) \$4.25; 3+ pkts. \$3.85 each

### Purple Jalapeño

**75 days.** Fruits start out green, then turn purple for a long time before turning red at maturity. Peppers are slightly larger than regular jalapeños. Excellent for fresh use in salsa and salads, for stuffing or pickling. Plants are very productive.

#03073. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each

### Red Ember Hybrid

**75 days. 2018 AAS Winner.** A specialty cayenne type with bright red, ½ oz. attractive fruits that grow up to 4½" by 1". Versatile peppers have thicker walls and a flavor that is tastier than the traditional cayenne – pleasantly sweet and spicy, with just enough heat without being overwhelming. Excellent fresh, cooked or dried. Plants yield heavily even under cool weather conditions.

#03790. (A) pkt. (15 seeds) \$5.85; 3+ pkts. \$5.35 each

### Roulette Hybrid

**85 days. 2018 AAS Winner.** The same shape, size and color of traditional hot habaneros but with a Scoville rating of just 100! Large red, uniform 3 by 1½" fruits have thick walls and a nice citrusy habanero flavor. In trials, plants easily produced up to 100 peppers by the end of the season. Excellent fresh, pickled, roasted and sautéed. Widely adaptable.

#03220. (A) pkt. (10 seeds) \$3.95; 3+ pkts. \$3.65 each

### Serrano Chili

**85 days.** Green or red, this is one spicy pepper! Perfect for chili sauce, salsa, hot pepper vinegar and pickles. Vigorous 30" plants are covered with flavorful, 2" thin-walled fruits.

#03083. (A) pkt. (100 seeds) \$3.15; 3+ pkts. \$2.85 each;  
(F) 1/16 oz. \$5.50; 2+ \$5.05 each; 4+ \$4.55 each

### Spicy Slice Hybrid

**65 days.** Extra-large, 4 to 4½" tasty fruits mature from dark green to red, are firm, smooth, slice well and have a Scoville rating of 4,000 to 6,000. High yielding plants provide good leaf cover. Perfect for fresh market. Early maturing and widely adaptable throughout the U.S. Resistant to Bacterial Spot with intermediate resistance to Tobacco Etch.

#03082. (A) pkt. (20 seeds) \$6.15; 3+ pkts. \$5.55 each

### Sriracha Hybrid

**65-70 days.** Attractive, large, 5" by 1½" dark green, chili-type fruits are firm and uniform with shiny, smooth skin and thick walls. Flavor is mildly hot, but not overpowering. Perfect for slicing, roasting and pickling. Peppers have a long shelf life.

#03793. (A) pkt. (10 seeds) \$4.05; 3+ pkts. \$3.65 each

### Sweet Heat Hybrid

**56 days.** Sweet and mildly spicy flavor – like a pepperoncini, but with smoky undertones. Early and prolific, with loads of fruits that average 3 to 4" long by 1 to 1½" wide. A perfect choice for grilling and salsa. Can be eaten at the green or red stage. Plants are compact and bushy.

#03088. (A) pkt. (20 seeds) \$5.85; 3+ pkts. \$5.35 each

### Takara Hybrid

**60 days.** A special hybrid version of the classic open-pollinated shishito type with the same shape, size and quality, but with better uniformity. Small, 3½" by 1" fruits have a mild, but rich, flavor. Excellent sautéed, in stir-fries, grilled or eaten fresh. Compact plants have a spreading, well-branched habit, short internodes and are high yielding. Great for containers and small space gardens.

#03232. (A) pkt. (15 seeds) \$4.45; 3+ pkts. \$4.05 each

### Traveler Jalapeño

**70-90 days.** Attractive, 3" long fruits ripen from green to bright red and have a nice jalapeño flavor with just the right amount of heat. Flavor is best when fruits are fully mature. Great for salsas, roasting, pureeing for hot sauce or smoking to make chipotles. This great, widely adapted strain has been continuously selected for more than 20 years by Larry Pierce of Cabool, Missouri. He named it Traveler because he grew it for years as he moved from state to state throughout Oklahoma, Wyoming and Missouri. Plants are sturdy and high yielding. #03792. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

## To Something In Between ...

### Bulgarian Carrot

**65-68 days.** A charming heirloom whose seed was supposedly smuggled out through the Iron Curtain years ago. Fluorescent orange, 3½" fruits seem to almost glow with a brilliant hue and intense flavor – fruity and pungent at the same time – adding a colorful tint to glazes, marinades and salsas.

#03011. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (D) 1/32 oz. \$6.95; 2+ \$6.45 each; 4+ \$5.85 each

### Cayenne Blend

**60-75 days.** Add some dramatic flair to your garden with this well-balanced blend of Cayenne varieties in a rainbow of colors – red, orange, yellow, purple and green. All are similar in shape and texture, with firm, tapered 3" fruits that keep their color when dried. Very ornamental, but edible as well. Requires only average soil and occasional watering to produce prolific yields.

#03020. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each; (F) 1/16 oz. \$5.95; 2+ \$5.50 each; 4+ \$4.90 each

### Trinidad Perfume

**80-85 days.** A sweet seasoning pepper that looks like a traditional habanero, but without the heat, although fruits can reach up to 500 Scoville units. Fruits grow 1 to 1½" long and mature from green to a golden orange. Extremely flavorful and has a delicious scent when cooked, also can be used for pickling or fresh eating. Sturdy plants grow 2 ft. tall and are extremely prolific.

#03086. (A) pkt. (15 seeds) \$4.25; 3+ pkts. \$3.85 each

### Utri

**55-75 days.** An heirloom brought to the U.S. in 1909 by Rose Utrie. Hungarian type, medium hot peppers ripen from light green to dark green to red. The level of heat depends on how much of the interior ribbing is left after the peppers are cleaned. When the interior ribs are completely removed, fruits have a very pleasant, mild spiciness – if not removed, heat is a bit less than a jalapeño. Fruits are thin skinned and good for eating fresh, cooking and drying. Dried fruit maintains its heat level and can be ground for spicy paprika. Very productive. #03795. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each

### Volcano Hybrid

**60-70 days.** Hungarian type with slightly taller plants and larger fruits than Hungarian Yellow Wax (pg. 51). Pendant shaped fruits, 4 to 6" long, are glossy greenish-yellow to red at maturity and are mildly pungent averaging 2,000 to 4,000 Scovilles. Excellent for pickling, roasting and fresh use.

#03097. (A) pkt. (20 seeds) \$2.85; 3+ pkts. \$2.65 each

SRIRACHA

SWEET HEAT

TAKARA

### Cayenne Long Thin

**72 days.** Long, slender, slightly wrinkled peppers are very hot and especially good for pickles, canning and drying. Excellent for chili and homemade salsa. Two-celled fruits start out dark green, mature to a brilliant, fiery red and are no thicker than a pencil.

#03018. (A) pkt. (100 seeds) \$2.85; 3+ pkts. \$2.65 each; (F) 1/16 oz. \$4.95; 2+ \$4.60 each; 4+ \$4.10 each

CHILTEPIN

### Chiltepin

**90 days.** Don't be fooled by the unassuming size of these pea-like, ½" fruits – they pack a wallop! At 50,000 to 100,000 Scovilles, it's one hot pepper – some continue to rate this variety even higher on the heat scale. Prolific plants produce extremely hot peppers whose small size is very versatile in recipes.

#03024. (A) pkt. (30 seeds) \$2.85; 3+ pkts. \$2.65 each; (D) 1/32 oz. \$5.50; 2+ \$5.05 each; 4+ \$4.55 each

GIANT RISTRA

### Giant Ristra Hybrid

**80 days.** 2014 AAS Winner. It looks like a pretty red Marconi pepper, but has the heat of a cayenne with a Scoville rating between 30,000 and 50,000. Elongated, 6 to 7" fruits should be picked when red and are excellent fresh, roasted or dried. Can also be used to make a beautiful ristra of dried peppers. Compact, bushy plants produce high yields of uniform peppers. Easy-to-grow. Tobacco Mosaic Virus tolerant.

#03061. (A) pkt. (25 seeds) \$3.75; 3+ pkts. \$3.45 each

HOT PORTUGAL

### Hot Portugal

**65 days.** Very hot, thin, red and glossy – this superb variety doesn't do anything halfway! Elongated, curved fruits on 4 ft. plants grow to 7" or more in length. Harvest and use at the green or red stage.

#03070. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each;

(D) 1/32 oz. \$5.75; 2+ \$5.30 each; 4+ \$4.80 each

LEMON DROP

### Lemon Drop

**100 days.** Terrifically hot, citrus-flavored heirloom popular as a seasoning in Peru, its country of origin. Bright yellow, crinkled, cone-shaped fruits are about 2½" long, ½" wide and average less than 15 seeds per pepper. Dense plants, about 2 ft. high and wide, are typically covered with fruits. Makes an excellent choice for container gardening.

#03055. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

SUPER CHILI

### Caribbean Blend

**90-120 days.** Warning – this mix is blistering in its heat! A blend of some of our most popular, hottest Caribbean varieties including a colorful range of habaneros, scotch bonnets and several others in varying sizes and shapes.

#03013. (A) pkt. (30 seeds)

\$2.95; 3+ pkts. \$2.75 each;

each; 4+ \$5.35 each

TABASCO

### Thi Dragon Hybrid

**80 days.** 2014 AAS Winner. It looks like a pretty red Marconi pepper, but has the heat of a cayenne with a Scoville rating between 30,000 and 50,000. Elongated, 6 to 7" fruits should be picked when red and are excellent fresh, roasted or dried. Can also be used to make a beautiful ristra of dried peppers. Compact, bushy plants produce high yields of uniform peppers. Easy-to-grow. Tobacco Mosaic Virus tolerant.

#03061. (A) pkt. (25 seeds) \$3.75; 3+ pkts. \$3.45 each

### Hot Portugal

**65 days.** Very hot, thin, red and glossy – this superb variety doesn't do anything halfway! Elongated, curved fruits on 4 ft. plants grow to 7" or more in length. Harvest and use at the green or red stage.

#03070. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each;

(D) 1/32 oz. \$5.75; 2+ \$5.30 each; 4+ \$4.80 each

### Lemon Drop

**100 days.** Terrifically hot, citrus-flavored heirloom popular as a seasoning in Peru, its country of origin. Bright yellow, crinkled, cone-shaped fruits are about 2½" long, ½" wide and average less than 15 seeds per pepper. Dense plants, about 2 ft. high and wide, are typically covered with fruits. Makes an excellent choice for container gardening.

#03055. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

### Super Chili Hybrid

**75 days.** 1988 AAS Winner. Highly ornamental, semi-compact, 24" plants bear 2½" elongated fruits with plenty of hot chile flavor. Ripens from green to orange to red. Bred for increased yields. Ideal for patio and container gardens – bring plants indoors during severe winters for continuous yields all winter.

#03087. (A) pkt. (30 seeds) \$5.65; 3+ pkts. \$5.15 each;

(V) 100 seeds \$12.75; 2+ \$11.80 each; 4+ \$10.60 each

### Tabasco

**80 days.** Used for Louisiana's famous, extra-hot Tabasco® sauce since its introduction in 1868. Easily harvested fruits ripen from yellow-green to red. Vigorous and productive.

#03094. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each;

(D) 1/32 oz. \$5.95; 2+ \$5.50 each; 4+ \$4.90 each

### Thai Dragon Hybrid

**65-70 days.** Attractive, slender fruits grow upward and point above bright green leaves, creating quite a display on plants. Green peppers grow up to 6" long and mature to a beautiful bright red. Rates 50,000 to 100,000 Scovilles. Fruits are excellent fresh or dried and store well while retaining their heat. Plants grow up to 24" tall and are perfect for container gardening.

#03092. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each

### Thai Hot

**40 days.** Ornamental as well as edible – if you can stand the heat! Stocky plants, up to 16", are covered with 2 to 3" peppers that start out a deep green, then mature to bright red. Fleshy pods are particularly good in Oriental dishes and chili. You'll also appreciate their beauty in borders and containers.

#03093. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each;

(D) 1/32 oz. \$5.95; 2+ \$5.50 each; 4+ \$4.90 each

**USE EXTREME CAUTION WHEN  
HANDLING SEEDS AND FRUITS!**

### Carolina Reaper

**90 days.** Officially the hottest pepper in the world as ranked by Guinness Records – Scoville units typically average a whopping 1.5 million and peak at 2.2 million! Devilish looking fruits, 1½" wide by 2" long, are fiery red with a unique little stinger tail. Has a surprisingly good flavor once you get past the heat – if you dare! This scorcher was bred in Rock Hill, SC.

#03755. (A) pkt. (20 seeds) \$5.95; 3+ pkts. \$5.45 each

## CIENFUEGOS HYBRID SERIES

80-85 days. An attractive series of high yielding, extremely hot habaneros. Colorful fruits mature ten days earlier than open-pollinated varieties and have better uniformity. Great for making seriously hot salsas, cooking and pickling.

### Orange

Classic orange fruits are 1½" by ¾" and have a fruity hot flavor. Scoville rating is 200,000 to 300,000. #03770.

### Red

Bright carmen red fruits are 2" by 1". Scoville rating is 300,000 to 400,000. #03771.

### Yellow

Bright yellow fruits are 2½" by 1", fruity and very fragrant. Scoville rating is 250,000 to 350,000. #03772.

Prices, above 3, per variety:

(A) pkt. (20 seeds) \$3.15; 3+ pkts. \$2.85 each

#03774(X). Get 1 pkt. each of all 3 Cienfuegos for just \$8.25

### Fatali

90 days. A five-alarm habanero type with a Scoville rating of 125,000 to 325,000. Sturdy plants thrive in pots, producing high yields of 3" long, tapered, golden-orange fruits. Pungent, citrusy and very, very hot. Perfect for salsas and sautéing.

#03030. (A) pkt. (20 seeds) \$2.95; 3+ pkts. \$2.75 each;  
(D) 1/32 oz. \$8.95; 2+ \$8.25 each; 4+ \$7.45 each

### Habanero Chocolate

85-100 days. An outstanding variety made superior in every way through quality breeding. Expect very high yields of crunchy, 1½ to 2½" fruits packing some serious heat. Who knew that peppers this hot could be so flavorful? – but they are! Super-sized fruits are extra-versatile in the kitchen, adding just the right kick to stir-fries, salsas and sauces.

#03047. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each;  
(D) 1/32 oz. \$6.50; 2+ \$5.95 each; 4+ \$5.35 each

### Habanero Orange

95 days. (The original strain) Among the hottest ever measured! Reportedly 1,000 times hotter than Jalapeño! Lantern-shaped, 1" by 1½" peppers, with thin, wrinkled, light green flesh, ripen to a lovely golden orange. Slow to germinate and must be grown in warm, moist conditions. A favorite for sauces. High-yielding plants grow 36" tall.

#03040. (A) pkt. (30 seeds) \$3.35; 3+ pkts. \$3.05 each;  
(F) 1/16 oz. \$4.95; 2+ \$4.60 each; 4+ \$4.10 each

# Cucumbers – Some Burpless, Some Seedless ...

## Alibi Hybrid

50-55 days. Harvest medium green, delicious fruits at 2" for smooth gherkin pickles or allow to reach maturity at 3 to 4". Strong growing, vigorous plants are heavy yielders and are resistant to Powdery and Downy Mildew.

#02002. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each; (G) 250 seeds \$5.95; 2+ \$5.50 each; 4+ \$4.90 each

## Artist Hybrid

45 days. Fine-spined gherkins have an excellent flavor that is not bitter and are great fresh or pickled. Enjoy abundant yields over a long harvest season. Parthenocarpic plants do not require pollination. Highly resistant to Cucumber Mosaic Virus with additional resistances to other common cucumber diseases.

#02006. (A) pkt. (30 seeds) \$4.65; 3+ pkts. \$4.25 each; (G) 250 seeds \$16.95; 2+ \$15.65 each; 4+ \$14.05 each

## Barese

60 days. Sweet, bitter-free Italian heirloom novelty. Harvest fruits young for use as a traditional cucumber or allow to grow larger and use as a melon. Spineless fruits have a downy peach type fuzz. Very productive.

#02102. (A) pkt. (10 seeds) \$2.85; 3+ pkts. \$2.65 each

## Bush Crop

62 days. Compact bushy plants produce 6 to 8" fruits that are deliciously crisp and tender. Perfect for containers or small garden spaces as vines are short. An excellent pickling variety.

#02210. (A) pkt. (50 seeds) \$3.15; 3+ pkts. \$2.85 each

## Bush Pickle

50 days. Compact vines produce 3 to 4" fruits that make tasty, crisp, whole pickles. Vines are compact, yet very prolific. Perfect for small gardens and containers.

#02220. (A) pkt. (50 seeds) \$3.25; 3+ pkts. \$2.95 each

## Diva 🔥

58 days. 2002 AAS Winner. All-female variety, crisp, sweet and ideal for slicing. Fruits are spineless and bright green, with glossy tender skins. Best harvested at 4 to 8". Burpless and seedless. Very disease resistant.

#02108. (A) pkt. (20 seeds) \$3.35; 3+ pkts. \$3.05 each

## BUSH PICKLE

## GENERAL LEE

## General Lee Hybrid

66 days. Delicious, uniform 8" slicing cucumbers have white spines, are attractive dark green and very straight. Originally bred for southern gardens, this prolific producer has proven its ability to perform in the North as well. Plants handle stress well. Resistant to Powdery Mildew and Scab with intermediate resistance to Cucumber Mosaic Virus.

#02117. (A) pkt. (30 seeds) \$3.25; 3+ pkts. \$2.95 each

## Double Yield

50 days. Be amazed with the impressive yields of this old timer originally introduced in the early 1920's – the more it's picked, the more it produces! Dark green, slender fruits are 6" long with excellent flavor. Ideal for making pickles or eating straight-from-the-vine. Heat tolerant.

#02011. (A) pkt. (10 seeds) \$2.85; 3+ pkts. \$2.65 each

## Early Fortune

55 days. Also known as Special Dark Green. Introduced in 1906, this variety was described as "the earliest and best white spine cucumber ever offered". Fruits, 7 to 8" long and 2" in diameter, have a fresh clean taste that's almost never bitter. A very dependable performer.

#02111. (A) pkt. (30 seeds) \$2.95; 3+ pkts. \$2.75 each

## Early Spring Burpless Hybrid

58 days. An excellent home garden variety with a taste that's as big as its fruit! Pale green, 10 to 12" fruits will grow straight when staked or will curl if left alone. Fruits are smooth and white spined. A bitter-free, burpless variety that is great when sliced – peeled or not. Early and a good yielder.

#02109. (A) pkt. (30 seeds) \$3.05; 3+ pkts. \$2.75 each

## Eureka Hybrid

57 days. Uniform, crisp fruits are very green from the earliest stages, making them a marvelous pickling variety when 1½ to 5" long. Harvest for salads when tiny, or at any stage up to full maturity at 7". Monoecious and virtually trouble-free. Excellent disease resistance. Best grown on a fence or trellis for easy harvest.

#02018. (A) pkt. (30 seeds) \$3.55; 3+ pkts. \$3.25 each; (W) 500 seeds \$16.65; 2+ \$15.35 each; 4+ \$13.85 each

## Fanfare Hybrid

63 days. 1994 AAS Winner. Slender, deep green, uniform, attractive fruits are 8 to 9" long. Crisp flesh has a deliciously mild flavor. Produces over a longer period than other varieties. Great for containers, home gardens and market growers. Semi-dwarf, monoecious plants with 2 to 2½ ft. long vines, produce heavy, high quality yields. Resistant to Powdery Mildew, Scab, Cucumber Mosaic Virus, Angular Leaf Spot and Anthracnose.

#02115. (A) pkt. (25 seeds) \$4.95; 3+ pkts. \$4.55 each

### Muncher

**60-65 days.** Very tender variety that is excellent for fresh eating right out of the garden. Nearly spineless fruits are 6 to 8" long and 3" wide on strong vigorous vines. Non-bitter, burpless and can be eaten at any stage of growth. For pickles, pick when the fruits are 4 to 6" long.

#02133. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

### Painted Serpent

**55-70 days.** These unique, Armenian type, burpless cucumbers can grow up to 36" long and curl into snake-like shapes! Fruits are light green with dark green stripes, slender and ribbed with a mild delicious flavor that is best when harvested at 8 to 15".

#02138. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

### Parisian Gherkin Hybrid

**50 days.** 2015 AAS Winner. An excellent, 2 to 4", mini cucumber that can be picked at midget or small stage for pickling. Numerous black spined fruits can also be enjoyed fresh in salads and slaws. Crisp with a sweet flavor. Semi-vining plants can be grown in the garden or in staked patio containers. Very easy-to-grow, produces quickly and is resistant to Scab, CMV and tolerant to Powdery Mildew.

#02031. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

### Patio Snacker Hybrid

**39 days.** Dark green-skinned, 8" fruits have a good flavor, crunchy texture and a bitter-free peel – great for straight-from-the-vine eating. Controlled, yet vigorous, short branching vines are a great fit for small gardens or large containers with a small trellis. Free-flowering, monoecious plants are high yielding with continuous harvests.

#02032. (A) pkt. (15 seeds) \$3.95; 3+ pkts. \$3.65 each

### Pick A Bushel Hybrid

**50 days.** 2014 AAS Winner. Be prepared to pick lots of cukes from these compact plants. Medium green, white-spined fruits are sweet, firm and crisp. Pick at 3" gherkin size for great pickles or allow to grow to 6" for slicing fresh in salads. The semi-bush vines grow only 24" tall, so they are well-suited for growing in patio containers as well as the garden. Plants have excellent heat tolerance and disease resistances to Cucumber Mosaic Virus, Scab and Mottle Mosaic Virus.

#02039. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

### Picklers Pride Mix

**53-65 days.** A blend of white spined, medium to dark green, crispy cukes. Expect abundant yields of early, mid and late season fruits that are perfect for making delicious homemade pickles or eating fresh.

#02041. (A) pkt. (30 seeds) \$2.85;  
3+ pkts. \$2.65 each

### Salad Bush Hybrid

**57 days.** 1988 AAS Winner. Dark green, 8" fruits are tender and crisp. Compact plants require only 2 ft. of garden space – perfect for patio gardening and hanging baskets. Good disease resistance.

#02230. (A) pkt. (20 seeds) \$5.75;  
3+ pkts. \$5.25 each

### Saladmore Bush Hybrid

**55 days. 2014 AAS Winner.** Vines spread only 24", yet produce an average of 10 to 12 fruits per plant. Harvest small, dark green fruits for pickles or allow them to fully mature, 7 to 8", for fresh use. Crisp flesh has a mild, sweet flavor. Keep fruits picked to extend the harvest season. Perfect for growing in containers or smaller gardens where space is limited. Resistant to CMV, Scab, Anthracnose and Powdery Mildew.

#02142. (A) pkt. (30 seeds) \$3.15; 3+ pkts. \$2.85 each

### Southern Delight Hybrid

**60 days.** One of the best hybrid cukes for continuous yields of late spring to fall crops. Fruits have a crisp and delicious texture from the time they're small when harvested for pickling, right through full maturity at 8 to 10" long and 1" diameter. Deep green skin becomes glossier in high heat. Particularly well-suited to warm climates, but proven reliable under a variety of conditions. Strong disease tolerance.

#02153. (A) pkt. (20 seeds) \$3.85; 3+ pkts. \$3.55 each

### Summer Dance Hybrid

**70 days.** Japanese burpless type producing uniform fruits that are glossy, deep green and 8-1/2 to 9" long. A vigorous grower that produces many lateral vines for high yields. Highly resistant to Downy Mildew and Powdery Mildew with moderate resistance to Corynespora Leaf Spot. Heat tolerant.

#02159. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.65 each

### Summer Top Hybrid

**65-70 days.** Easy-to-grow. Early Japanese type. Burpless, deep green, 10" long fruits are straight and uniform, with few white spines. Heat tolerant and high-yielding, especially when grown off the ground where light and air can circulate. Superior resistance to Downy Mildew, Powdery Mildew, Anthracnose and Cucumber Mosaic Virus.

#02161. (A) pkt. (20 seeds) \$3.85; 3+ pkts. \$3.55 each

### Suyo Long

**60 days.** An Asian heirloom burpless cuke that grows up to 16" long. Fruits are delicious, tender, crispy and non-bitter. Excellent for fresh eating or pickling – makes excellent bread and butter pickles. Fruits are spiny when young, become smoother at maturity and tend to curl on one end so trellis vines for straighter cukes. Plants produce excellent yields, are widely adaptable and heat tolerant.

#02167. (A) pkt. (50 seeds) \$3.15; 3+ pkts. \$2.85 each

### Sweet Slice Hybrid

**62 days.** Sweet, burpless and non-bitter. Fruits, 10 to 12", are slim, dark green and very mild. Does not need peeling. Very vigorous vines, with excellent yields, are highly disease resistant.

#02160. (A) pkt. (30 seeds) \$5.95; 3+ pkts. \$5.45 each;  
(G) 250 seeds \$33.95; 2+ \$31.40 each; 4+ \$28.30 each

# All Just Plain Great!

## Sweet Success Hybrid 🔥

**58 days.** 1983 AAS Winner. The first AAS winning seedless cucumber. To grow fruits with no seeds, keep in a greenhouse where it cannot be pollinated. Fruits grow up to 12" long and are slender, with thin, smooth skin. One of the very sweetest – burpless, too! Best when trellised.

#02170. (A) pkt. (15 seeds) \$5.95; 3+ pkts. \$5.45 each;  
(V) 100 seeds \$28.95; 2+ \$26.75 each; 4+ \$24.05 each

## Tanja

**58 days.** The ultimate burpless cuke. Bitter-free. Slim fruits, up to 14" long, have dark green skin and tender, crisp flesh that has outstanding flavor. Plants yield prolifically and continue to bear over a long harvest period. A premium home garden slicing cucumber in Europe and widely adapted for successful growing almost anywhere. Also suitable for growing in greenhouses.

#02178. (A) pkt. (30 seeds) \$3.05; 3+ pkts. \$2.75 each

## Tasty Green Hybrid

**62 days.** Slim fruits, 10" long and 2" across, have dark green skins with small white spines. Bitter-free and burpless. Can be grown in hot, humid areas and has strong tolerance to Mosaic mildews.

#02180. (A) pkt. (30 seeds) \$3.95; 3+ pkts. \$3.65 each;  
(W) 500 seeds \$23.95; 2+ \$22.15 each; 4+ \$19.95 each

## Egg'ceptional Eggplants!

### Black Beauty

**80 days.** Produces many large, 1 to 3 lb. fruits per plant – each one rich, deep purplish black and enormous. Tender and tasty at all stages – fried, steamed, grilled or stuffed. Retains color and holds well in storage.

#02271. (A) Pkt. (850 seeds) \$3.15; 3+ pkts. \$2.85 each

### Fairy Tale Hybrid

**50 days.** 2005 AAS Winner. Lavender flowers produce clusters of elongated fruits marked by white stripes. Best harvested at 4" long by 1 1/4" across for sweet, bitter-free, nearly seedless eating. Attractive, soft green foliage and unique habit make it a natural for containers, ornamentals and gardens. Plants, 18 to 24", are much smaller than typical varieties and set fruits two weeks earlier.

#02277. (A) pkt. (25 seeds) \$5.95; 3+ pkts. \$5.45 each

### Goya Hybrid

**74 days.** Attractive, 6 to 8", extra firm, round to globe-shaped fruits, with green spineless, flat calyxes. Delicious flesh is great for making pastes, dips and sauces. Good shelf life. High yielding.

#02281. (A) pkt. (25 seeds) \$4.45; 3+ pkts. \$4.05 each

## 'EGG'CELLENT COLLECTION

One packet each of Fairy Tale, Gretel and Hansel. #02299(X).

3 pkts. for just \$13.75.

Save 20%

### Tasty King Hybrid

**62 days.** Delicious fruits are dark green, burpless, 10" long, thin-skinned and tender. Vines are vigorous with excellent disease resistance. A dependable high yielder.

#02182. (A) pkt. (20 seeds) \$3.45; 3+ pkts. \$3.15 each;  
(G) 250 seeds \$13.95; 2+ \$12.90 each; 4+ \$11.60 each

### Tendergreen Burpless

**55 days.** Extra sweet, non-bitter flavor – even with its thin skin left on. Cukes grow to about 6 1/2" long by 1 1/2" across, are slightly blocky and light green, with white spines. Tender flesh is ideal for slicing or pickling. Downy Mildew resistant.

#02186. (A) pkt. (100 seeds) \$2.95; 3+ pkts. \$2.75 each

### A-Frame Trellis

This pyramid trellis grows healthier plants with better fruits and easier harvesting. The secret is in allowing the plants to grow off the ground preventing diseases, pests and poor quality fruits. Green powder coated metal frame folds and unfolds for easy setup and convenient storage.

Frame is 58" tall and 42" wide.  
#54274. \$39.95;

2 or more  
\$37.95 each

### Gretel Hybrid

**55 days.** 2009 AAS Winner. Clustered, 3 to 4" fruits are very sweet and firm. Tender skins and few seeds make this an excellent choice for grilling and sautéing. Harvest frequently to encourage setting throughout the season. Plants grow 36 to 42" tall by 24 to 36" wide.

#02276. (A) pkt. (25 seeds) \$5.65; 3+ pkts. \$5.15 each

### Hansel Hybrid

**55 days.** 2008 AAS Winner. Clustered, 2 to 10" fruits mature to dark purple with no bitterness and few seeds. Compact plants, under 36" tall, produce heavy yields of tender fruits over a long growing season. Widely adapted and miles ahead of the older, open-pollinated types.

#02279. (A) pkt. (25 seeds) \$5.65; 3+ pkts. \$5.15 each

### Millionaire Hybrid

**63 days.** One of the most popular oriental varieties on the market. Long, slender fruits, up to 12" long, have smooth, tender, brilliant black skins and nearly seedless flesh. Delicious flavor makes them excellent for stir-fries and other popular Asian dishes. Upright plants produce early and vigorously.

#02288. (A) pkt. (25 seeds) \$3.15;  
3+ pkts. \$2.85 each

# Flavorful Fruity Fixin's!

AMBROSIA

BURPEE

ORANGE SILVERWAVE

SAVOR CHARENTAIS

FAERIE

GOLD IN GOLD

HARVEST MOON

## Ambrosia Hybrid Cantaloupe

**86 days.** Features a terrific, sweet flavor that's distinctively different. Round fruits, with peach-colored flesh, average 4 to 5 lbs. each, have heavy nets and light sutures. A favorite of gardeners and fresh markets. Resists Powdery Mildew.

#02618. (A) pkt. (25 seeds) \$7.35; 3+ pkts. \$6.65 each

## Burpee Hybrid PMT Cantaloupe

**82 days.** Tops for quality, flavor and yield! Round to slightly oval fruits, 4 to 4½ lbs., have dark orange, firm, juicy flesh and strong netting patterns and ribs. Highly adaptable nationwide, but particularly to Northern states.

#02623. (A) pkt. (25 seeds) \$6.05; 3+ pkts. \$5.45 each

## Orange SilverWave Hybrid Melon

**75 days.** 2019 AAS Winner. An exotic, 3 to 4 lb., oval melon with extremely sweet, orange flesh and unique rind color. Vigorous vines produce up to 6 fruits each. Trellis plants for better disease control. Resistant to Melon Necrotic Spot Virus and Melon Fusarium Wilt.

#02631. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.65 each

## Savor Charentais Hybrid Melon

**85 days.** High yielding, classic French Charentais type. Small, 2 lb. melons with pale green, smooth skin and extra-sweet, aromatic, bright orange flesh. Disease resistant.

#02696. (A) pkt. (30 seeds) \$7.75; 3+ pkts. \$7.05 each

## Faerie Hybrid Watermelon

**60 days.** 2012 AAS Winner. Creamy-yellow rinds have thin stripes with sweet, pink-red flesh with a high sugar content and crisp texture. Vines are vigorous, yet spread only to 11 ft., so it takes up less garden space. Slightly oval, 7 by 8" melons weigh just 4 to 6 lbs. each. Disease tolerant. Prolific yielder.

#04110. (A) pkt. (20 seeds) \$5.95; 3+ pkts. \$5.45 each

## Gold in Gold Hybrid Watermelon

**70 days.** 2017 AAS Winner. Excellent tasting, bright yellow fruits have gold stripes and golden-orange flesh that is crisp with a high sugar content. Oblong melons, 11 to 16 lbs., have a strong rind that resists cracking or bursting. Makes a perfect "icebox" melon. Early and high yielding with improved disease resistance.

#04119. (A) pkt. (25 seeds) \$4.35; 3+ pkts. \$3.95 each

**WATERMELON SEED LIABILITY NOTICE.** We assure that our watermelon seeds meet federal germination standards, but claim no responsibility for losses caused by seed-borne organisms.

IMPROVED MEYER LEMON

MINI LOVE

SOLITAIRE

## Harvest Moon Hybrid Watermelon

**80-100 days. 2013 AAS Winner.** The first seedless watermelon to win an AAS award! Compact vines produce seedless, 18 to 20 lb. fruits with sweet, crisp, pinkish-red flesh and dark green rinds with yellow spots. Very productive. Plant 1 pollinator (included) for every 3 plants to ensure fruiting.

#04121. (A) pkt. (10 seeds) \$7.75; 3+ pkts. \$7.05 each

## Mini Love Hybrid Watermelon

**70 days. 2017 AAS Winner.** Personal-sized, 7 to 9 lb. fruits are perfect for small space gardens. Fruits have sweet, crisp, deep red, juicy flesh, few seeds and thin, but strong, crack and split resistant rinds. Short, 3 to 4 ft. vines produce up to 6 fruits per plant. Not prone to Powdery Mildew. **Cannot ship to SC.**

#04069. (A) pkt. (10 seeds) \$5.75; 3+ pkts. \$5.25 each

## Solitaire Hybrid Watermelon

**85 days.** Mini, seedless, round fruits are larger than a softball but smaller than a soccer ball, weighing 3½ to 5 lbs. each. Deep red flesh is crisp and very sweet. A great choice for short season areas. Plant 1 pollinator (included) for every 3 plants to ensure fruiting.

**Cannot ship to SC.**

#04077. (A) pkt. (10 seeds) \$8.95; 3+ pkts. \$8.15 each

## Improved Meyer Lemon Tree

Enjoy fresh citrus all year, even in northern locations. A cross between a lemon and a mandarin orange. Easy-to-grow with the ability to bloom and set fruit all year. Fragrant white flowers are followed by large, orange-yellow fruits perfect for juicing, cooking and baking. Trees rarely exceed 5 ft. tall. Place in a sunny location. Move inside to a well lit room before the first hard frost. Heavy yielding trees are self-pollinating and bear fruit in 1 to 2 years. Ships in gallon pots. Zones 9-10. **Cannot ship to AK, AL, AZ, CA, FL, HI or TX.**

#30970. \$37.95 each; 3+ \$35.95 each

## Pilgrim Cranberry Plants

A versatile and nutritious fruit that makes lovely ornamentals and ground covers, as well. Grows to just 6" tall with evergreen foliage. Berries ripen in the fall. Hardy to -30°F. Ships in 3" pots. Zones 4-9. **Cannot ship to AK or HI.**

#30280. \$14.95 each; 3+ \$13.45 each; 6+ \$11.95 each

## Pink Lemonade Blueberry Plants

Just as flavorful and high in healthful benefits as blue varieties. Use for fresh eating, baking and freezing. Ornamental, 4 to 5 ft., plants are covered with pale pink, bell-shaped flowers in spring and fruits from mid-July through August. Glossy green leaves become bright orange and scarlet in fall. Grow same as standard blueberries. Ships in a one qt. pot. Zones 4-8. **Cannot ship to AK, GA, HI or MI.**

#30141. \$17.95 each; 2+ \$15.95 each; 5+ \$13.95 each

-20 to 10	5	-28.9 to -23.3

# Fresh & Healthy Salad Fixin's!

## Aspacroc Hybrid Baby Broccoli

**50-60 days.** This baby broccoli is known as Broccolini in the produce section of your grocery store and on restaurant menus. Resembles a broccoli raab with an asparagus stem and has a mild taste. Easy-to-grow and requires little space. After first maturity of the central shoots, plants will set 3 to 5 shoots shortly thereafter and continue for about 4 weeks in mild weather.

#01460. (A) pkt. (20 seeds) \$3.95; 3+ pkts. \$3.65 each

## Rainbow Hybrid Carrot

**70 days.** Cylindrical, 7 to 8" roots in yellow, white, light and dark orange and coral, each with a distinctive flavor. High sugar content. #01671. (A) pkt. (500 seeds) \$3.95; 3+ pkts. \$3.65 each

## Carrots Love Tomatoes

By Louise Riotte. Learn the secrets of companion planting and watch your garden thrive! Create plant relationships that result in natural insect control, weed control and increased yields simply by identifying good and bad plant companions. This illustrated guide contains hundreds of interesting and educational facts. 224 pages. #55469. \$14.95 each

## Baby Hybrid Cauliflower

**28 days.** There's no doubt this "baby" will be in big demand! It's the smallest and cutest cauliflower available on the market today. Each plant produces a small, compact, 2 to 3" head AND as an added bonus, its leaves are edible – raw or cooked! Due to its size, it's ideal for growing in small pots and containers. For true baby heads, plant 6 to 10" apart, otherwise heads will be larger.

#01704. (A) pkt. (20 seeds) \$4.65; 3+ pkts. \$4.25 each

## Cheddar Hybrid Cauliflower

**68 days.** Flavorful curds really are orange through and through! Smooth, dome-shaped heads are packed with almost as much beta carotene as carrots. Fantastic flavor and texture guarantees gourmet enjoyment cooked or raw. Color deepens when cooked. Prefers moderate to cool temperatures.

#01706. (A) pkt. (20 seeds) \$5.45; 3+ pkts. \$4.95 each

## The Pickled Pantry

By Andrea Chesman. Fresh, contemporary recipes for pickling everything from apples to zucchini. Beginners will welcome the simple, low-fuss methods and thorough coverage of the basics and dedicated home canners will love the large-batch recipes and the stunning variety of flavors. Full color illustrations throughout. Paperback. 304 pages. #57483. \$19.95 each

AUTUMN STAR

PRIZM

ARISTOTLE

## DePurple Hybrid Cauliflower

**68 days.** Add a unique color to meals and veggie trays with this attractive lavender-pink variety. Heads grow 7½ to 8" and have contrasting white stems. Flavor is excellent and the color holds when cooked. Uniform heads are dense and dome-shaped with tight curds. Wrapper leaves provide good protection. Plants are widely adaptable. Ideal for both spring and fall plantings.

#01715. (A) pkt. 20 seeds \$5.15; 3+ \$4.65 each

## Flame Star Hybrid Cauliflower

**80 days.** High levels of beta-carotene gives this variety its bright color. Smooth, delicious, high quality, 7" heads are broad and relatively flat. Widely adaptable with uniform maturity and consistent performance under various conditions including heat stress. Suitable for fresh markets. High yielding.

#01708. (A) pkt. (20 seeds) \$4.85; 3+ pkts. \$4.45 each

## Snow Crown Hybrid Cauliflower

**65 days. AAS Winner.** Heavy yields of uniformly shaped, semi-dome, 2 lb. heads, 8" across. Vigor and overall quality make this a top choice of serious growers everywhere.

#01730. (A) pkt. (100 seeds) \$4.45; 3+ pkts. \$4.05 each

## "COLORFUL CAULIFLOWER" COLLECTION

One packet each of Cheddar, DePurple & Snow Crown. #01732(X).  
3 pkts. for just \$12.75. Save 15%!

## Aristotle Basil Herb

**60 days.** A stylish, compact variety with tightly packed, tiny leaves that create pretty pale green mounds. Easy-to-pick and has a classic basil taste and aroma. Perfect for patio gardens, containers and window boxes. Plants have a dense, bushy habit that spreads to 15". Grows 12" tall, but is best when harvested at about 6".

#02359. (A) pkt. (50 seeds) \$3.55; 3+ pkts. \$3.25 each

## Prizm Hybrid (Baby leaf) Kale

**50-60 days. 2016 AAS Winner.** Attractive short, tight ruffle edged leaves are content in containers and gardens. Easy to maintain, almost stemless, 3½ to 4" stalks are quick to re-leaf. Harvest early and often for a continual supply. Excellent tasting, almost nutty flavored leaves are tender enough to enjoy in fresh salads, but also hold up well when cooked. Easy-to-grow.

#01457. (A) pkt. (100 seeds) \$4.75; 3+ pkts. \$4.35 each

## Autumn Star Hybrid Kalettes®

**110 days.** A cross between brussels sprouts and kale, this easy to prepare, kale-like vegetable was developed using traditional breeding techniques. Florets grow along thick stalks and are mature when 2" in diameter. Simply cut and eat – no tough stems to remove! Great sauteed, roasted, grilled and raw. Grow like brussels sprouts.

#01458. (A) pkt. (15 seeds) \$4.95; 3+ pkts. \$4.55 each

### Konan Hybrid Kohlrabi

**42-50 days. 2016 AAS Winner.** Smooth, globe-shaped bulbs grow to about 6" in diameter and have snow-white flesh with a nice crunchy texture and a juicy, mild radish/cabbage flavor. Grow in containers or gardens. Upright, uniform leaves resist insect damage so plants stay healthy all season long.

#02487. (A) pkt. (50 seeds) \$4.95; 3+ pkts. \$4.55 each

### Green Ice Lettuce

**45 days.** This loose-leaf type is in high demand for all types of salads due to its sweet, vitamin-rich, crispy leaves and top quality semi-heads that are slow to bolt.

#02560. (A) pkt. (1,000 seeds) \$3.75; 3+ pkts. \$3.45 each

### Bon Vivant Mesclun Blend

**35-45 days.** A gourmet mix of exotic leaf lettuces of the best flavors, textures and colors. Includes deep reds and bronze tones and greens ranging from the lightest green to the darkest emerald.

#02568. (A) pkt. (1,000 seeds) \$2.85; 3+ pkts. \$2.65 each

### SIMPLY SALAD™ MESCLUN MIXES

Modern technology packs several species of greens into one easy-to-sow pellet. Plant 2 or 3 pellets in a 6" or larger container and in about 5 to 6 weeks begin harvesting fresh greens. Cut back to 2" and allow to regrow, then cut again.

#### Alfresco Mix

A mix of red and green leaf lettuces with arugula, endive and radicchio. #02542.

#### City Garden Blend

A mix of traditional red and green lettuces. #02543.

#### Global Gourmet Mix

A mix of red and green leaf lettuces and Asian greens. #02544.

Prices, above 3, per variety:

(A) pkt. (10 pellets) \$4.45; 3+ pkts. \$4.05 each

**#02541(X). Get 1 pkt. each of all 3 Simply Salad Mixes for just \$10.65. Save 20%!**

### Candy Hybrid Onion

**85 days.** Extremely early cross between a long-day and a short-day onion. Jumbo bulbs have mild, sweet, white flesh. Small-necked and a golden-brown outside – inside, they have large, thick rings with mostly single centers.

A good keeper when cured.

Grows well anywhere in the U.S. (Sow in spring.)

#02722. (A) pkt. (250 seeds) \$4.05; 3+ pkts. \$3.65 each

### Warrior Bunching Onion

**60 days. 2016 AAS Winner.** An easy-to-grow bunching onion.

Grows quickly producing a very uniform crop of slender, crisp, ½" onion stalks that are easy to harvest and clean. Holds up in the garden longer than similar varieties. Use raw to add texture, flavor and color to all kinds of dishes or try them grilled.

#02741. (A) pkt. (250 seeds) \$3.10; 3+ pkts. \$2.80 each

### Warrior Red Bunching Onion

**60 days.** The red version of our award winning bunching white Warrior above. Red has long, slender white stems with small red bulbs. Its flavor is mild and adds the perfect amount of color to any dish, fresh or cooked. These lovely deep burgundy colored bunching onions grow approx. 24 to 26" as a scallion. This variety also works great for a microgreen.

#02742. (A) pkt. (250 seeds) \$3.10; 3+ pkts. \$2.80 each

### Toy Choy Hybrid Pak Choi

**30-35 days.** An early maturing, 5", mini Pak Choi, with crisp white stalks and smooth, dark green leaves. Excellent mild flavor. Enjoy sautéed, roasted or in stir-fries. Great for summer growing.

#02807. (A) pkt. (200 seeds) \$3.65; 3+ pkts. \$3.35 each

### Easter Egg Blend II Radish

**30 days.** A multicolored mix of globe-shaped, 1" roots in a delightful array of colors – pink, red, lavender, purple and white all with white interiors. Crispy, mild taste. Great in salads or as part of a colorful relish tray.

#03345. (A) pkt. (500 seeds) \$3.15; 3+ pkts. \$2.85 each

### Sweet Baby Hybrid Radish

**40-45 days. 2016 AAS Winner.** Outstanding flavor, quality and uniformity. Crisp, crunchy and slightly spicy, 3" elongated, purple radishes are tasty. Interior color ranges from pale purple to white with violet streaks to mostly white with a few purple splashes of color. Enjoy multiple harvests with this early maturing variety.

#03319. (A) pkt. (100 seeds) \$4.25; 3+ pkts. \$3.85 each

### Watermelon Radish

**59 days.** A charming heirloom – crisp, mild and even a little sweet! Cream-colored, 2 to 4" roots slice open to mimic a tiny watermelon – green "rind" with brilliant pinkish red flesh. Prominent tops make them easy to pick even when small, when they tend to be the most colorful. Add one-of-a-kind flair to garnishes, salads, appetizers, stews, stir-fries and more. Roots hold well without turning woody.

#03394. (A) pkt. (250 seeds) \$3.15; 3+ pkts. \$2.85 each

### Sunny Delight Hybrid Squash

**40 days.** Matures earlier, resists greening better and holds its flat, scalloped shape longer on the vine than similar varieties. Uniquely shaped fruits, with small blossom scars, appear in abundance on semi-bush plants with an open habit for easy harvest. Ideal as a baby vegetable.

#03586. (A) pkt. (20 seeds) \$4.45; 3+ pkts. \$4.05 each

### Bright Lights Swiss Chard

60 days. 1998 AAS Winner. Brings pizzazz to the table with its stems of gold, pink, orange, purple, red and white and mild chard flavor. Begin harvesting the vitamin-rich, glossy green, savoyed leaves in 4 to 5 weeks and let them grow back for repeated cuttings. Use greens fresh, steamed or like spinach. Strong bolt resistance. #03742. (A) pkt. (200 seeds) \$3.55; 3+ pkts. \$3.25 each

### Buckingham Hybrid Zucchini

40 days. A royal choice for the picky eater. Sturdy plants, with attractive dark green foliage, produce lots of delicious, bright yellow, tender zucchini which are at their peak when 6 to 10" long. The large yellow blossoms are ideal for use as edible flowers or for stuffing. Bushy plants have an upright habit, grow 18 to 22" tall and spread to 36". Ideal for pots and containers.

#03513. (A) pkt. (15 seeds) \$4.85; 3+ pkts. \$4.45 each

## Soil Testing & Analyzing

### Professional Soil Test Kit

For the homeowner desiring accurate, detailed soil analysis at a reasonable cost. Kit contains 10 tests each of soil pH, Nitrogen, Phosphorus and Potash. Includes instructions for amending soils based on test results. Packed in a sturdy plastic carrying case. #51345. 40 Test Kit, \$19.95

#51346. Supersized 80 Test Kit, \$31.95

### 4-Way Analyzer

Measures the four most important aspects of plant health – light, soil moisture, soil pH and soil fertility. It determines the light level where the plant is located, and the moisture level where it counts – at the roots. Soil pH is measured on a scale of 0 to 9, and a combined Nitrogen, Phosphorus, Potash reading is determined using USDA standards. No batteries required. One year manufacturer's warranty.

#51307. \$34.95

### Tomato Grower's Test Kit

An easy-to-use test to check Nitrogen, Phosphorus, pH and Potash to grow stronger, healthier tomatoes! Kit contains 4 tests. Instructions included. #51320. \$6.75 each

### Electronic Soil Tester

Tests soil pH and fertilizer levels in a quick, one-minute test. Directions include ideal pH range for 350 plants and easy guidelines for soil correction. Convenient slide switch. Requires one AA battery, not included. #51309. \$24.95

## Cages & Support for Tomatoes & Peppers

### Collapsible Tomato Cages

Simple to set up with one square cage per determinate plant and two stacked on each other per indeterminate plant. Easy to disassemble and store at the end of the growing season as they fold flat. Spikes are made of heavy gauge wire for durability and will sink about 6" in the ground to stabilize cages. Measures 14 1/2" W x 40" H.

#83021. 3 for \$35.95

### Jumbo Tomato Cages

These folding cages provide more growing space and support for raising big tomato plants. Constructed of heavy-duty galvanized steel with a powder coated finish of green or red. Taller and wider than Collapsible Cages, with 8 support legs. Measures 18" W x 18" D x 58 1/4" H.

#54276. Green      #54277. Red

Pkg. of 2 for \$42.95; 2 or more pkgs. \$39.95 each

### Collapsible Pepper Cages

A smaller version of our popular Collapsible Tomato Cages. Easy to set up, disassemble and store at the end of the growing season. Perfect for eggplants, as well. 32" H x 14" W.

#53472. Pkg. of 3 for \$29.95

### Super Stakes

Garden stakes are green plastic coated with a steel core. Weather and rust-proof with water tight closures on both ends – won't rot or split. Perfect for tomatoes, peppers and vining plants. Spurred to prevent ties from slipping. Reusable year after year.

#57850-4. 4 ft., 20 for \$29.95

## Composting

### RollMix™ Composter

Home composting has never been easier or quicker – it's possible to make your own compost in as little as 6 weeks! All you need to do is add water, a variety of kitchen waste and roll it. Its compact size makes it perfect to compost anywhere you have limited space. Made of durable, polyethylene fabric that traps heat, holds odors in and keeps pests out. Makes approx. 32 gallons of compost, measures 26" L x 22" D and weighs less than 3 lbs.! Folds flat for easy storage. Instructional guide included.

#53076. \$37.95 each; 2 or more \$34.95 each

# Disease Control & Fertilizers

## Monterey Organic Complete Disease Control 🔥

OMRI Listed. Prevents both fungal and bacterial plant diseases. This broad spectrum formula is approved for organic gardening and treats a wide range of diseases

including Powdery Mildew, Botrytis, Early and Late Blight, Fire Blight, Fusarium and Pythium. Active ingredient Bacillus amyloliquefaciens strain D747, colonizes the roots to prevent diseases. Apply as both a foliar spray and soil drench, indoors and outdoors, on vegetables and ornamentals. Mix approx. 1 tsp. per gallon of water.

*Cannot ship to AK, HI or ND.*

#55755. 16 oz. Concentrate, \$24.95

## Espoma® Tomato! 1-3-1

Get plumper, juicier tomatoes with this all natural, organic plant food. Easy dose lid pre-measures exact amount every time – just mix with water and instantly feed your plants! Feed every 2 to 4 weeks. Beneficial microbes ensure superior results. Can be used on all vegetables.

#51067. 8 oz. Concentrate, \$9.95

#51068. 18 oz. Concentrate, \$12.95

## Happy Frog® Tomato & Vegetable 5-7-3 Fertilizer

OMRI Listed. Bring more nutrition to your table! Tomatoes, soft fruits and veggies require a special nutritional mix to ensure high yields. Contains premium ingredients like bat guano, kelp meal, alfalfa meal, fish meal and naturally occurring organic material that is formed when organic matter decomposes. Also contains calcium which helps prevent Blossom End-Rot and boosts stronger cell walls, helping plants fight off disease. Feeds plants and produces high quality fruits.

*Cannot ship to AK, HI or IL.* #51119. 4 lbs., \$18.95

## Tomato Maker™ 4-2-6 🔥

Grow healthier and more delicious tomatoes! Corrects deficiencies responsible for Blossom End-Rot. A unique blend of natural sources of nutrients combined with calcium, magnesium and iron which helps to stimulate growth and yields. Can also be used on most other fruits and vegetables.

*Cannot ship to AK, HI or MS.* #89257. 3 lb. Reclosable Bag, \$14.95

## Neptune's Harvest Crab & Lobster Shell 5-3-0 Organic Plant Food

An excellent dry organic source of nitrogen, phosphorus, calcium and magnesium. Retains moisture in soil and builds organic matter. Gives roots something to grab onto, for a food source, creating a deeper root system. Integrated into the soil, it encourages chitin eating bacteria which helps control/eliminate ants, grubs, fungus and root nematodes. Placed around plants, it keeps slugs and snails off. Also helps choke out weeds and keep moles, voles, mice, etc. from digging up bulbs and root vegetables. Perfect for use in flower beds, vegetable gardens and on lawns and turf. Safe for pets and kids.

*Cannot ship to AK, HI or OR.* #55438. 4 lbs., \$15.95

## Coop Poop™ Organic Tomato Plant Food

OMRI Listed. Contains 8% calcium for strong roots and plants. Low odor and high performance in an easy-to-use shaker. Low dust application. Natural nutrients for plants and soils to improve plant health, growth and development. Offers all the nutrition without any harmful ingredients.

#51011. 4 lbs. \$10.95

## Espoma® Tomato-tone® 3-4-6

Fertile soil, a pH of 6.5 to 7.5 and plenty of Tomato-tone® will produce super tomato yields! This formula is based on recommendations of six university studies. High organic content prevents rapid foliage growth at the expense of blooms. Provides all 15 essential nutrients for optimum growth. Mix according to directions and feed your tomatoes twice a month.

#86945. (A) 4 lbs., \$10.95

## Monterey Foli-Cal®

A liquid formulation of calcium used to prevent and treat plant disorders associated with calcium deficiency such as Blossom End-Rot on tomatoes, peppers and melons. Can also be used on other vegetables, fruit trees and vine crops. It complements good soil fertility by supplying nutrients directly to the foliage and fruit of crops during critical growth stages. *Cannot ship to AK, HI, KY, ND or WY.* #50401. Pint, \$13.95

## Neptune's Harvest Fish & Seaweed Fertilizer 2-3-1

OMRI Listed. All natural, 100% organic. Get the best of both products with this organic fertilizer that perfectly blends fish hydrolysate and seaweed ensuring a complete fertilization program. Fish and seaweed are known to increase the natural sugars in plants which results in increased yields, improved shelf life of fruits and vegetables, as well as stronger, more colorful foliage and flowers. It does not deplete natural soil elements and has no odor. Mix 1 oz. per gallon of water and apply every 2 to 3 weeks.

#51221. 18 oz., \$14.95

#51222. 36 oz., \$20.65

## John & Bob's Soil Optimizer

OMRI Listed. Avoid heavy digging and lugging cumbersome bags of humus to repair poor soil. This 100% organic blend of concentrated, fully decomposed humus and other essential soil additives is simply spread over existing lawns or gardens and watered in. It's completely safe with no risk of burning plants or over-applying. Spreading 3 lbs. over 1,000 sq. ft. gives the same result as working in hundreds of pounds of compost humus. When applied as directed, it's guaranteed to start improving soil that season.

#51106. 3 lbs., \$27.95

#51107. 6 lbs., \$40.95

## Old Truck Organics Tomato & Vegetable Plant Food 5-3-3

High quality, organic fertilizer with 25% MYKOS mycorrhizae (an all natural root enhancing soil microbe) plus kelp and humic acid. Helps transplants establish more quickly, flowers appear sooner and fruits and vegetables ripen even earlier! Each bag has at least 85,000 microbes that will immediately begin to help plants absorb nutrients and water. Calcium combined with increased mineral uptake from the mycorrhizae, helps protect tomatoes from Blossom End-Rot. Use on tomatoes, herbs and vegetables. Treats up to 100 sq. ft. or 28 one gallon tomato plants.

#50511. 2.2 lb. Reclosable Bag, \$18.95

**NEW!**

## Old Truck Organics MYKO Start Pak 5-2-3

Biodegradable Transplant Paks. Organic fertilizer with 25% MYKOS mycorrhizae plus kelp and humic acid.

Increases drought tolerance! Designed for transplanting and staggering in containers, raised beds and in-ground gardens. Just place a few in the transplant hole for weeks

of vigorous plant growth. Provides 4 weeks of nutrient supply. Holds the fertilizer in place until plants need it. Each pak contains at least 300 microbes to help get plants started off right. Use on flowers, fruits, herbs and vegetables. Treats up to 24 plants.

#50512. 24 Starter Paks, \$18.95

**NEW!**

## Wiggle Worm Soil Builder

100% organic fertilizer produced naturally by earthworms. Earthworm castings are one of the purest forms of sustained release plant food. Castings won't burn even the most delicate plants, are naturally odor-free and improve soil structure, aeration and drainage. They are also rich in beneficial bacteria and microbes to help plants absorb nutrients. Mix with soil when potting or use as a top-dress in garden beds.

#58014. (C) 15 lbs., \$19.95

## Algoplus Fertilizer 🔥

This patented, all natural fertilizer revolutionized vegetable production! Its most remarkable feature is that it's 100% mineral based – no chlorides, carbonates or sodium – plus it's odorless, colorless and environmentally safe. It encourages rapid cell growth using three major elements along with micronutrients. Contains a higher percentage of potassium to promote production of larger tomatoes. Use on cucumbers, melons and peppers as well. Use one capful per gallon of water as a regular feed or ½ capful to spray directly on the foliage and watch the amazing results. A one-liter bottle makes 100 gallons. Water soluble.

#51081. 4-6-8 Tomato

#51080. 6-6-6 All-Purpose

\$16.95 each; 2 or more \$15.95 each

Phone Toll-Free (800)345-5977

### Sea Magic™ Seaweed Extract

A natural growth activator. Dries quickly using special methods to keep its natural growth enhancers and disease fighting substances intact. Apply every 2 to 3 weeks as directed and watch everything grow bigger and better. Ideal for ornamentals, lawns, fruits, vegetables and more. A one oz. packet makes up to 66 gallons. #51150. \$8.95

### Jack's Classic® All Purpose 20-20-20

Water soluble plant food considered the industry standard of general purpose fertilizers by professional growers. Feeds both through the roots and the leaves. This formula of nitrogen, phosphorus and potassium provides fast green-up and rapid leaf expansion. For use on all your indoor and outdoor plants. Indoors it is especially effective on foliage plants. A proven performer in the vegetable garden for generations. #56316. (A) 1-1/2 lbs., \$14.95; (B) 4 lbs., \$27.95

### Neptune's Harvest Tomato & Veg Formula 2-4-2

The perfect complete fertilizer for tomatoes, vegetables and more. Made from fresh fish, seaweed, molasses, yucca extract and humic acids, this formula was uniquely designed for plants with intense growth or "vegging" stages. Growers will see increased stalk/stem mass resulting in higher yields. In addition, it provides necessary nutrients to keep your plants vigorous with strong root zones and lush foliage, increasing its tolerance to various diseases, temperature and drought. #51266. 32 oz., \$24.95  
#51267. Gallon, \$49.95

### Bonide® Tomato & Blossom Set Spray

This natural hormone-type spray makes blossoms set fruit even under adverse conditions. Nearly every blossom will produce larger, meatier, almost seedless tomatoes, ripening up to 3 weeks earlier. Also for use on cucumbers, eggplants, melons, peppers, beans, strawberries and grapes. *Cannot ship to AK, CA or HI.* #50440. 8 oz. Pump Spray, \$8.95

### Monterey Vegetable And Ornamental Weeder

One of the few weed killers safe to use on vegetable gardens. This preemergence herbicide kills weeds before they germinate. Controls grasses and broadleaf weeds for up to 5 months. Can also be used around trees, shrubs, roses and other ornamentals. 3 oz. mixed in 2 gallons of water treats 1,000 sq. ft. Active ingredient Trifluralin. *Cannot ship to AK, DC, HI or WA.* #50375. Pint, \$28.95

### Bonide® Grass Beater®

Kills weedy grasses without injuring desirable plants. This systemic post-emergent herbicide can be sprayed over flower beds, trees, shrubs, ground covers and vegetable plants to eliminate quackgrass and other weedy annual and perennial grasses. Stops growth of weed grasses within 2 days. #52330. 8 oz. Concentrate, \$29.95

Visit Our Website at [www.totallytomato.com](http://www.totallytomato.com)

# Fungicides

### Bonide® Revitalize® BioFungicide

For organic gardening. Triggers plant immune response and colonizes roots. A high potency biofungicide/bactericide that controls blights, molds, rots, spots and mildews on vegetables, fruits, nuts, ornamentals, lawns, houseplants and tropical plants grown inside or out. May be used right up to the day of harvest. Makes up to 96 gallons. Foliar spray or soil drench. #50046. 16 oz. Concentrate, \$17.95

### Monterey Garden Phos™

One of the easiest to use and one of the most diversified systemic fungicides that can be used in all areas of the U.S. during most of the year AND it controls diseases that most fungicides don't touch. Controls Root Rot, Downy Mildew,

Fire Blight, Phytophthora, Pythium diseases and more. Safe for use on ornamentals, trees, vegetables, fruits and bedding plants.

#55731. Pint, \$20.95 #55733. Quart, \$36.95

# Insecticide/Fungicide

### Organocide™ Bee Safe 3-in-1 Garden Spray

OMRI Listed. A patented blend of sesame and fish oils so safe you can enter your garden and yard immediately after application. Kills aphids, whiteflies, spider mites, fungus gnats, thrips, mealy bugs, scale insects and more. Controls Powdery and Downy Mildews, Black Spot, Greasy Spot and more. Use on fruits, vegetables, flowers, ornamentals, trees and shrubs. May be used right up to the day of harvest. Makes 10 gallons of spray. *Cannot ship to AK, DC or HI.* #88626. 32 oz. Concentrate, \$21.95

# Insect Repellents

### Monterey Bug Buster-O Insect Control

OMRI Listed. This organic insecticide controls over 100 insects. A natural pyrethrin, it quickly knocks down and kills Cucumber Beetles, Japanese Beetles, Stink Bugs, Tomato Hornworms and many more insects. It can be used on fruits, vegetables and ornamentals – even on the day of harvest. Easy-to-use. One of the few organic treatments for onion maggots. Dilute 1 to 1.4 fluid ounces in one gallon of water to cover 1,000 sq. ft. *Cannot ship to AK, AR, AZ, HI, ID, IA, KY, NE, NV, ND, WV or WY.* #50012. 8 oz. Concentrate, \$37.95

### Safers® Tomato & Vegetable Insect Killer

OMRI Listed. Combines pyrethrins and potassium salts of fatty acids to kill and control many common garden insects on contact. Effective on both soft bodied and hard bodied insects such as beetles, aphids and caterpillars that cause damage to tomato and vegetable crops. Can be used up to the day of harvest. #50325. 32 oz. RTU Spray, \$14.95

# Weed Prevention

### Preen® Vegetable Garden Natural Weed Preventer

Enjoy a weed-free vegetable garden without all the work. The organic way to keep weeds from sprouting. Use in fruit, vegetable, herb, and landscape beds anytime during the growing season to save time from backbreaking weeding. Formulated to control some of the toughest weeds like clover, bluegrass, crabgrass, foxtail, lambs-quarters and plantain. Just sprinkle once a month to prevent weeds from returning. Safe around kids and pets. Covers 250 sq. ft. *Cannot ship to AK, DC, HI or SD.* #89854. (A) 5 lbs., \$22.95

#89854. (A) 5 lbs., \$22.95

### Preen® Extended Control Weed Preventer

Stops weeds before they start – one application blocks weeds for up to 6 months! Apply anytime during growing season or in the fall to stop winter and early spring germination. Safe for use around more than 600 ornamentals. Covers 805 sq. ft. *Cannot ship to AK, CA, HI or NY.* #55668. 4.93 lbs., \$34.95

### Bonide® BurnOut® Weed Killer

All-natural organic weed and grass killer. Faster and safer than harsh chemicals, BurnOut® is made from plant-based, pet-safe ingredients. Kills weeds completely within 24 hours. Breaks down within 2 days of application so you can replant. Safe to use around ponds or streams and vegetable plants. Non-selective – eradicates even the toughest plants. One gallon finished spray treats 1,500 sq. ft. #52333. Quart RTU Spray, \$12.35

#52334. Quart Concentrate, \$24.95

# Microgreens

Grow your own fresh greens indoors, year round. Microgreens develop 1 to 2 sets of true leaves before harvest – both stems and leaves are edible. They offer a fresh flare of flavor and nutrition to salads, sandwiches, and even in cooked dishes. We recommend using a soilless growing medium like the TerraFibre™ mats below, to decrease the risk of soil borne disease.

## Totally Tomatoes Microgreen Blend

**10-14 days.** This colorful blend consists of red and gold beets, red kale, purple kohlrabi and white swiss chard. One oz. sows 1 to 2 flats depending on how thickly seed is sown. Can also be grown as sprouts.  
**#04447. (L) 1 oz.**  
**\$4.25; 3+ \$3.85 each**

**NEW!**

## TerraFibre™ Grow Mats

Simply sprinkle seeds on the mat, press down, and water. Mats have excellent water absorption capability and can be used for sprouts as well. Made with the fibrous by-product of industrial hemp plants and are 100% biodegradable and compostable. Measures 10" x 20".  
**#53249. Pkg. of 10, \$25.95 each**

**NEW!**

## Microgreens Starter Kit

Kit includes 10 TerraFibre™ grow mats, one 21" L x 11" W x 2½" D standard flat and one clear humidity dome. **#51425. \$29.95 each**

## Seed Starting

### Q-Plug Starter Kit

Includes everything needed to start seeds and cuttings using a

unique float system that gives plants constant access to the ideal air-to-water ratio – never overwater again! Extra large plugs encourage vigorous deep root growth and remove from the insert easily with no damage to the plant. Includes a 21" L x 11" W x 2½" D heavy duty seed tray, a 7" H dome with three vents, a 55 cell reusable floating styrofoam insert with large 1½" cells and 55 aerated Q-Plugs. Instructions included. **#53826(X). \$34.95 #84555. Extra Trays, \$9.95 each**  
**#85245. Extra Domes, \$9.95 each**  
**#53823. Q-Plug 55 Pack Refill, \$22.95 each**  
**#53824. Extra 55 Cell Styrofoam Insert, \$7.95 each**

# Just Bag 'Em!

## Tomato Patio Planter Bags

Easy-to-use planters for balcony and patio gardens.

The perfect solution for people who want to garden, but don't have the space. These tomato-red bags are bright accents for patios and have a reinforced woven handle on each side so they're easy to slide around. Constructed of tough polyethylene and made to last for several seasons. Equipped with reinforced drainage holes so plants don't become water-logged. Bags are 14" in diameter, 18" deep, hold 40 liters of medium and can accommodate 2 or 3 plants depending on variety.

#53886. Pkg. of 3, \$14.95 each

## Tomato Planter Bag

Love home grown tomatoes but don't have room for a garden? These bags are perfect for decks, balconies and patios. Holds up to two plants, depending on the variety and deep enough for stakes or tomato cages to support plants. Seams are porous to provide drainage. Made of woven polyethylene with wipe clean surfaces and webbed handles for easy mobility. Folds flat for easy storage. Measures 15"H x 12 1/2"D.

#53732. Pkg. of 3, Was \$18.95 each Now \$14.95 each

Vintage Burlap Grow Bags

All natural burlap fabric bags are enhanced with colorful screen printed graphics and coated for water retention.

Includes reinforced drain holes for adequate drainage and rugged reinforced seams for added strength. Perfect for deck, balcony and patio gardening. Reusable and folds flat for storage.

#53906. Tomato, 20 Gallon, 20"D x 14 1/2"H, \$19.75 each; 2 or more \$18.75 each

#53902. Pepper, 10 Gallon, 12 1/2"D x 16"H, \$15.95 each; 2 or more \$14.95 each

## Protection

### Twist-Up Tomato Cloche

Get plants in the ground earlier! Protects tomato, pepper and other tall plants against blight, slugs and harsh weather. Pops up quickly and folds down neatly. Works well with our popular Tomato Patio Planter™ Bags above. Made of clear plastic to allow plenty of sunlight and warmth that plants need to grow. Includes aeration vents and ground pegs to hold in place. Measures 1'7 1/2"D x 3'7 1/4"H and weighs 1 3/4 lbs.

#84101. \$27.95 each; 2 or more \$25.95 each

### Micromesh™ Tomato Tube

Beat the bugs without the chemicals! Offers simple, inexpensive crop protection for tomato plants. Made of ultra-fine 0.6mm micromesh netting that protects against the weather and insects as small as aphids and flea beetles, as well as birds and other animals. Tubes can be supported with canes (not included) and secured at the top with wire ties (included). Remove to allow pollination. Measures 6'7" L x 1'11 1/2" D.

#89404. Pkg. of 3, \$27.95 each; 2 or more \$25.95 each

### Giant Fleece Easy Tunnel

Provides protection against frost, harsh weather, animals and pests, while allowing air, moisture and sunlight to filter through. Sets up quickly with sturdy, rust-proof galvanized steel hoops that are sewn into the fabric. Simply unfold and insert the hoop ends into the ground. Sides lift up to allow easy access to plants. Tunnel has open and closable drawstring ends for ventilation or completely closed protection. Covers larger plants or double rows. Made from UV-stabilized, heavy-weight polypropylene fleece. Measures 118" L x 24" W x 17" H. #53738. \$27.95 each

**How do you prefer your tomatoes & peppers?  
Big & beefy or small & cute? Bright red or sunny yellow?  
Deliciously sweet or insanely hot?  
Whatever the choice, we have you covered!**

#### Sunny Boy Hybrid VF Tomato

**70-75 days.** Striking, bright yellow, beefsteak-type fruits weigh approx. 10 to 12 oz. each and can sometimes even weigh up to 16 oz.! Fruits are globe-shaped, firm, meaty and have less seeds than comparable red varieties. Very sweet and flavorful with a hint of acid, this plump slicer is perfect in salads, on sandwiches and will really shine on vegetable trays. Plants set well and are widely adaptable. Excellent for roadside stands and farmers markets. High yielding. Indeterminate.

#00704. (A) pkt. (30 seeds) \$3.45; 3+ pkts. \$3.15 each

#### Armageddon Hybrid Pepper

**70-75 days.** The world's first hybrid super-hot chili with a Scoville rating of 1.3 million! Pale green, pendant-shaped fruits grow up to 2" by 1½", have a small tip/tail and ripen to bright red. Compared to Carolina Reaper, this variety matures up to 2 weeks earlier and some taste testers have rated it hotter – try it if you dare! Features improved plant vigor, fruit uniformity and less days to maturity over open-pollinated varieties. Vigorous, uniform and early fruiting with exceptional yields.

#03010. (A) pkt. (5 seeds) \$5.75; 3+ pkts. \$5.25 each

#### Rugby Hybrid VFF Tomato

**50-70 days.** Pink, heart-shaped fruits are firm, smooth, glossy and grow in trusses of 4 to 5. Fruits weigh up to 7½ oz., have meaty flesh with a superb, well-balanced flavor and are high in beta-carotene. Excellent for canning, as well as eating fresh. High yielding plants have great foliage cover to protect fruits. Resistant to Tomato Mosaic Virus, Leaf Mold, Fusarium Crown & Root Rot and Bacterial Speck. Indeterminate.

#00642. (A) pkt. (15 seeds) \$3.85; 3+ pkts. \$3.55 each

#### Muscato Hybrid Pepper

**75 days.** An excellent choice for home gardeners who love super sweet peppers! Deep orange, blocky, 5" by 4" bells are mostly 4-lobed, have very thick walls and are quite heavy. Strong compact plants grow up to 24" and initially produce up to 6 peppers – after that first fruit set, they will continue to produce until the first frost. Ideal stuffed, stir-fried, roasted or fresh. Excellent for containers. Early maturing and high yielding. Resistant to Tobacco Mosaic Virus. #02838. (A) pkt. (20 seeds) \$3.35; 3+ pkts. \$3.05 each

#### Mingle Mix Hybrid Tomato

**65-70 days.** Eye-catching grape tomatoes are always a home gardeners favorite and this delightful mix is destined to become a popular choice. Colors include oranges, reds, yellows and chocolates. Attractive fruits are deliciously sweet and weigh up to 1 oz. each. Perfect for snacking, salads, the ever-popular charcuterie
